

MY Ba'ba'

English rendering of Divyanubhu'ti

From the Hindi original by A'c. Parmeshvarananda Avadhu'ta

Preface

Shrii A'nandamu'rtijii (Ba'ba') delivered a series of discourses in in Valencia (Spain) during His visit in the year 1979. Through these discourses He articulated the already pronounced fundamental tenets of A'nanda Ma'rga. His thesis clearly affirmed the unity of humanity as one & indivisible whole. The basic tenets of A'nanda Ma'rga have been laid on the foundation of the cardinal human values with a universal outlook.

As the present world scenario is surveyed one finds that humanity is fraught with innumerable problems. Despite its advent on to this earth more than a million years ago, human beings have not learned to build a solid foundation for a healthy universal Human Society. This is precisely the reason why A'nanda Ma'rga realizing the basic needs of the humanity has offered a rational solution to the socio-economic problems of the world. Shrii A'nanda Murtijii has repeatedly affirmed that A'nanda ma'rga is the path of the human race. The greatest excellence of this ma'rga, according to Him is that it has been propounded according to the physical and psychological requirements of human beings. The enunciation of his Progressive Utilization Theory (PROUT) offers the panacea for all of humanities problems. PROUT believes in rebuilding the structure of Human Society on the foundation of mutual love and morality. It is the responsibility of the society to ensure that nobody is forced to resort to immoral means for their survival. All of humanities essential requirements viz. food, clothing, dwelling place, medical care & education must be guaranteed by the society. Every person should get complete freedom in the intellectual sphere. All human beings must be free to express themselves in their own mother tongue & practice their system of worship. All must have freedom to march on the path leading to fullest expression of their consciousness through self realization.

It is A'nanda Ma'rga's considered view that a universal human society on our planet can be built only on the foundation of a non-dogmatic cosmic ideology and a sound socio-economic philosophy. It is common knowledge that a hungry person cannot contemplate on a subtle idea what to say of the highest purpose of its existence. It is a well researched fact that people are forced to resort to immoral means only when they are unable to secure their basic needs necessary for their survival. That is why

A'nandamu'rtiji understanding the predicament of the humanity has given a comprehensive ideology. He has gone further and worked towards creating a well thought out strategy for its practical realization.

A'c. Parmeshvara'nanda Avadhu'ta the author of the book under review has unambiguously articulated the need of implementing a holistic ideal in the A'nanda Ma'rga organization as also the society. Somehow in today's perspective implementation of Prout has taken a back seat. The writer has given a fine example of the reality affecting the society quoting from the discourse of A'nandamu'rtiji and drawn our attention in the last chapters of his book. It says that capitalism makes a person a beggar while communism turns it into a brute.

The many references and contexts in the book clearly reveal the urgent need to establish cardinal human values based on Neo-humanism both within and outside A'nanda Ma'rga. Neo-humanism is such a practical philosophy enunciated by A'nandamu'rtiji which encompasses the entire creation. Neo-humanism includes the whole of the eco-system e.g. living world viz. animal kingdom, the plant life & humanity and the non-living world viz. mountains, deserts, rivers, lakes, earth & soil and the planetary environment that surrounds us and protects us from the lethal rays of the sun & the bombardment of the meteors & asteroids. Neo-humanism is such a blessing of Ba'ba' A'nandamu'rtiji that paves the way to the realization of the mission of A'nanda Ma'rga and Prout. The writer has variously focused on the gardening programme and preservation of the plant gene pool by A'nandamu'rtiji giving its very vivid description emphasizing the importance accorded to the subject by Ba'ba'.

Realizing the goal of cosmic brotherhood will necessarily call for the formation of a world government and a universal human society (a common hearth & a common kitchen and one human society). It appears quite naturally a utopian ideal, especially when we constantly encounter divisive tendencies among people at large and distrust among the nations. But the manner in which the writer has so very succinctly introduced the bright side of the divinity of A'nandamurtiji, it appears to be absolutely possible. Through so many demonstrations performed by Him, the writer has clearly elucidated that A'nandamu'rtiji possessed all of the vibhuti (extraordinary spiritual powers). He utilized these spiritual powers for the good of humanity. The book is littered with examples through which He utilized these powers to rejuvenate new life in the writer, saved him from rare deadly diseases and thus making the impossible possible. He convinced the writer of His divinity. This is reflected in the psychology of the writer's mind and is evident in both the writer's struggle in life and his constant self surrender at the lotus feet of his spiritual master.

"Those of you who want to be real human beings, must continue your sáadhaná [spiritual practice] thus strengthening your inner life and strive ceaselessly for God-realization,

and simultaneously you must ensure that no irrational, undesirable or inhuman theory unduly influences the collective psychology of the human race. You must be ever-vigilant in this regard. That is why I told you to be vocal against all sorts of injustice otherwise your mission will remain unfulfilled.” (ref. Ba’ba’s speech on ‘Exploitation & pseudo-culture)

A’nanda Ma’rga is a revolutionary way of life. It imbibes in itself the aim of crushing all forms of narrow ideas and divisive tendencies. Those goody-goody persons, whether they are family persons or renunciates, who like to take the path of evolutionary progress will not be successful in bring about revolutionary changes for the alround benevolence of society.

The writer has raised the issue of who is superior- the family person or the monk, in the first chapter itself and concluded that the true measure of superiority is the sincerity with which one lives up to the ideals of their respective lives. This is worthy of praise especially when he himself is a sanyasin. Examples of powdering down false pride and arrogance can be found at many places in the book. It is true that the whole time workers received practical training in all walks of life from Ba’ba’ more than the family persons perhaps, because the family persons could not devote so much time. Even then there is ample provision for the family persons to sub-serve the organization as tattvikas, a’ca’ryas, & purodhas as also through PKB (Pu’rn’aka’lika Bandhu), SKB (Svalpaka’lika Bandhu) and as members of ACB (Advisory Committee & Boards), BPs/Ups, LFTs. Devotion to the Guru and the missionary ideology enables them to work together in unison like the two wheels of the chariot and thus fulfill their individual & collective mission. The examples of sincerity on the part of the writer given in the book inspire a new direction to our organization.

There is no denying the fact that A’nanda Ma’rga is a flawless philosophy & a spiritual way of life for the entire human race.

A’c. Pratapaditya, Betiah Hata,

Gorakhpur, Year 2010.

First Chapter

My Early days after initiation

Kabir das – the noted Indian mystic-poet says:

If pilgrimage to holy places yields one fruit of knowledge;

Then the meeting with saints yields two;

Fortunate is the one who has found the Sadguru;

That is the surest way to realize the Cosmic Consciousness.

This is the English rendering of one out of the many couplets (originally composed in a blended language of Avadhi & Bhojapuri) expressing saint Kabir Das's deep spiritual realizations. His surmise is quite clear that the supreme goal can be attained only with the grace of the Sadguru.

Kabir Das illustrates the manner by which the Sadguru moulds the disciples

Guru is like a potter and the disciple like a pot. The potter keeps tinkering the pot in the process of moulding it until the pot develops the desired form. The potter ensures that the pot is well supported inside while the outer body is hammered to turn it into the desired shape & strength. After this the pot, once formed, is burnt in the fire to harden it. Once hardened the pot is now ready for sale. The potter then displays the attributes of the pot to the customers striking it with his fingers to produce the right beats characteristic of a strong pot.

Likewise the Sadguru picks up a disciple and transforms its personality in the fire of Sa'dhana' (spiritual practice). The sa'dhaka (spiritual aspirant) attains magnanimity of mind by the grace of the sadguru in the hearth of sacrifice and non-attachment. Eventually one attains freedom from the cycle of birth and death after merging into the eternally blissful form of the Sadguru.

I was fortunate to have been picked up by the Sadguru almost unconsciously. It must have been His inscrutable grace. I had no noble deeds to my credit to be a recipient of His grace. Yet, He gave me a place at the altar of His lotus feet by His causeless compassion.

Diks'a' (initiation) is the pre- requisite for progress in spirituality. In & through this process the Sadguru opens the door to Absolute Knowledge. That leads to oneness with Cosmic Consciousness. The process of initiation opens up the path & simultaneously illuminates it.

From my childhood I had the desire to attain God realization. This inspired me to read good books. I made sure not to miss any opportunity that came my way for satsaunga (company of elevated beings). I used to remain unwell and had many issues related to my health since my early childhood. All this did not deter me from pursuing my goal. My craving to meet the Lord of my life was unstoppable. Many a times overwhelmed by sentiments, I would cry for Him. It was under these circumstances while studying in high

school that I came in contact with my a'ca'rya. My a'ca'ryajii was a teacher in the same school. He had a charming disposition and a hypnotic voice and an attractive personality. In the regular classes which I attended with him, he would occasionally speak about spirituality and Yoga sa'dhana'. Inspired by his talks, one day I sought appointment with him and got initiated.

During the process of my initiation, while being seated in his presence, as he meditated and after a while opened his eyes to say that I was fortunate to have got Parama Purus'a himself as my Guru in the name & form of the A'nandamu'rtijii. He further added that A'nandamu'rtijii combines in himself the attributes of Lord Shiva and Lord Krs'na. It was to the Godhood of Shiva & Krs'na that I had natural attraction from my childhood. His utterances immediately caught my attention and created a powerful impact on my mind. I felt instantly elated on hearing his words. I thought for myself that I was fortunate that the Lord himself has accepted me as His disciple.

Following my initiation as I continued my regular practice of sa'dhana', I started experiencing bliss and having many spiritual experiences. Then suddenly one fine morning to my surprise, I found all my health problems, with which I was suffering since early childhood, vanished, as if, in thin air. Simultaneously I gained self-confidence and became courageous enough to face whatever situation that may come my way. These qualities I had lacked as a young boy. Continuing my practice of sa'dhana' I started experiencing that I was floating in the ocean of bliss. In this state I would behold the hypnotic spell of Bal-Krs'na (Krs'na as a child) and would often lose consciousness mentally listening to the sweet melody of Krs'na's flute. Occasionally I would visualize Krs'na in everything, every leaf of trees around me. The bliss experienced on hearing Krs'na's flute was inexplicable.

Slowly I started devoting more & more time for sa'dhana'. I would sit meditating for long hours. I used to have occasional spiritual experience. I also started involving in intensive praca'ra of A'nanda Ma'rga. Simultaneously I would never miss any opportunity to be in the company of my a'ca'rya.

Now onwards it became a normal routine for me to convince my class mates about the benefits of Sa'dhana' and A'nanda Ma'rga way of life. In this process, every person known to me got initiated and started practicing sa'dhana'. Seeing my spiritual progress my a'ca'ryajii also developed a liking for me. He would always inspire me to practice more sa'dhana'. On many occasions I used to meditate with him.

Slowly the number of new sa'dhaka's started swelling and regular Dharma Cakra was started in a Dharmasha'la close to A'ca'ryajii's residence. The attendance in the Dharma Cakra used to be around 50 persons. It was the most sought after occasion for me, since it would be very inspiring & devotional.

My A'ca'ryajii was also a Ka'pa'lika and many times I would accompany him to cremation grounds during his night Sa'dhana'. It used be a very blissful experience for me. Whenever I would visit my village, we would go to the cremation ground, usually accompanied by a few friends, we used to practice sa'dhana' in the night. Fear of ghosts & spirits started diminishing in my mind. As I progressed in Sa'dhana' my love for His mission increased.

As days passed my personality underwent a noticeable change for better. My friends, my family members and village folks were amazed seeing rapid changes in my conduct. My food habit became vegetarian without onion & garlic. Seeing this my famy members also resolved to change the food habits and now all of them started eating vegetarian food without onion & garlic. In my studies also there was a marked improvement. As a result of regular sa'dhana' my concentration & memory improved. I would now spend less time for studies and my result in the examination used to be much better. I would qualify in first or the second rank in my school.

My first DMC

Days were passing happily and then one fine morning my A'ca'rya Narendra Dada disclosed the good news that Ba'ba' was visiting Raipur for the DMC. All margiis were jubilant hearing the good news. This inspired us further and many more of my school mates got initiated. On the appointed day I reached Raipur from my village along with my margii friends. It was the month of December 1960, DMC was held in a Dharmasha'la'. Ba'ba' arrived by train from Tatanagar. A'c. Nityananda (who later became the first Avadhu'ta of A'nanda Ma'rga by the name Satya'nanda), A'c. Kshitij & Ma'nas da'da' (Ba'ba's youger brother accompanied Him). A tumultuous reception awaited Ba'ba' at the railway station of Raipur. He was received amidst deafening slogans of A'nanda Marga Amar Hai. Manava Manava Ek Hain, Vishva bandhutva ka'yam ho, so on & so forth. The high pitch of devotional fervor of Ma'rgiis was to be seen to be believed.

I had some doubts on seeing Ba'ba' dressed like a gentleman in white Kurta – Dhoti. I could not imagine that somebody, looking so human, be God? I mentally questioned whether He can be the personification of Lord Shiva & Krs'na. A'caryaji must be lieing that Gurudeva was God. He had not told me that Gurudeva was a family person and that He was used to putting such an ordinary attire. I had never seen His photograph before actually seeing Him in person. I had thought that my Guru must be a fierce looking long bearded Hima'layan Yogi. With this doubt in my mind I had my first darshan of Baba'with my old village friends. I liked His talk, but could not accept Him as the embodiment of Shiva & Krs'na. At that point of time I was still an immature person.

Next day in the evening of DMC (Dharma Maha' Cakra) I had a strange experience. We were waiting for Ba'ba's arrival with about 250 margiis in the hall. Most of them were lost

in the devotion while they sang bhajan in chorus. The mood in the hall was mystical. The sentiments have been aroused. The devotees were in tears. Occasionally one could hear loud outburst of hunka'r which was frightening and caused my body to shiver. As I entered the hall I felt a strange sensation overtaking me. After a while when I got seated I visualized white effulgence pervading the environment of the hall. I found myself engulfed by effulgent light from all over. I shut my eyes effortlessly. When I opened my eyes lo! I was beholding Ba'ba' who had taken seat on the dais. From dais where Ba'ba' was seated I saw Ba'la-krs'na emerging out of the white effulgence from Him. This form of Ba'la-krs'na was atonce incredible and I started feeling dizziness as if I was intoxicated. Visualizing the magnificent form of Krs'na at the same time listening to hypnotizing & sweet melody His divine flute I lost sense. About the same time I also started beholding the form of shiva which emerged from the same effulgent light.

The veil of my doubts and confusion about the divinity of Ba'ba' was atonce lifted. By His grace I was able to visualize the divine forms of Krs'na and Shiva. I had an instant realization that Ba'ba' was the combined form of both. Visualising His majestic form I felt blessed.

Slowly devotion to the lotus feet of Ba'ba' dawned on my mind. As a result there was a noticeable progress in my Sa'dhana'. My love and craving for Ba'ba' increased to great extent. Simultaneously my yearning for his His darshan and personal meeting also increased.

During the DMC the vision of Baba transforming Himself into the childhood form of krs'na had a mesmerizing effect on my mind. Later whenever or wherever there used to be any Tattva Sabha (a small form of ASD Camp) or assembly of margiis I would make sure I participated in those events. Each of these programmes left an indelible mark on my mind. They inspired me to dedicate myself for intense sa'dhana'. I attended five such camps. It was here that I came in contact with Dada Vandanananda, Dada Acinta'nanda, dada Sha'nta'nanda & Dada Ashesha'nanda. Slowly we came closer to each other.

Later I also attended DMCs at Raipur in 1962 & again in 1964. DMC in Jabalpur was in the year 1963. Ba'ba's Pravacana (addresses) and the vibrations emanating from His varabhaya in those DMCs had a profound effect on me. As a result my devotion for Him and my dedication at His lotus feet started soaring high. I always craved to be in His company & to do His work. To the extent my attraction for Him increased in the same proportion my attachment for the world reduced. After returning from Jabalpur DMC my desire to renounce my life for His mission became firm.

I along with 25 of my school mates went to attend the Jabalpur DMC in the awe inspiring personality of my A'ca'rya and in the affectionate care of A'c. Ramlal Dani. It was in this DMC that A'c. Keshava became Sha'nta'nanda Avadhu'ta, and 16 of my friends decided to dedicate their lives for His mission. I also wanted to dedicate but I

was refused since I was still not 18 years old. In this DMC Ac. Arun who later became A'c. Svarupa'nanda Avadhuta was Ba'ba's attending secretary.

I returned back home with other sa'dhakas in a unhappy and disappointed disposition. But my craving for Ba'ba' was now burning and the thought of those sweet moments spent in His presence never left my mind. Once again in the year 1964 I got another opportunity to have an audience with Ba'ba' during Raipur DMC. I was totally perplexed & did not know how to prepare myself at the prospect of a personal contact with Him.

After returning from the DMC function I would ceaselessly think of Him & wished to dedicate my life for His mission. The intensity of my detachment from the world kept on increasing. There was a constant mental clash due to the attraction for my family members and simultaneous detachment to take to the life of a monk. In the end my desire to be a monk always used to win. I had almost totally relinquished my attachment to my family.

Finally in the beginning of 1965, suddenly attracted by His divine inspiration I left my home to meet my a'ca'rya Narendra Dada and two other a'ca'rya's of Raipur viz. Shrii Ramlal Dani & Shrii Kailash Bhalla. I enjoyed their unconditional love & inspiration. I stayed in their company for a few days. From there I went to Patna to attend the DMC. On meeting Ba'ba' there I offered myself for His mission. That DMC was unique in the sense that a group of 36 margiis decided to be monks of A'nanda Ma'rga and proceeded for training to Ranchi. It was this group which produced many a'carya's viz. sarvashrii Jagdishvarananda, Vitmoha'nanda, Paresha'nanda & Shanta'nanda. Until such time there was no formal training centre. After spending a few days in Ranchi we came to Patna and from there proceeded to Sagra training centre in Va'ra'nasi. From there after a month without qualifying as a a'ca'rya I was posted as the secretary of PFI (Progressive Federation of India) in Patna.

Patna DMC – May 23, 1965, Venue: Senate Hall of Patna University

I came to Patna to attend A'nanda Pu'nima' DMC held on 23rd May 1965. That was to be the biggest DMC of my life. Before that I had attended the DMC's organized locally. A'nanda Pu'nima' DMC in Patna was attended by more than ten thousand margiis. The environment there was intoxicating. It was here that I witnessed a unique confluence of Bhajan –Kiirtan & awesome devotional vibrations. Scores of devotees were dancing there inside the hall to the tune of Bhajans. Once Ba'ba' arrived at the dais the environment turned into an uncontrollable frenzy of mystic love. The devotees cry was unstoppable & many were relaying Humka'ra. Many devotees were dancing unmindful of the surrounding and crying out His name lost in divine ecstasy. I was deeply moved by the feelings of love for Him. It was here that I saw many spiritually elevated sa'dhakas. In the spell of this other worldly spiritual environment I got to visualizing the most enchanting form of Ba'ba'. Right there I made a firm resolve to renounce my life for His mission. This DMC proved to be both historical and the most significant event of my life. I took the vow to be a monk of the order of A'nanda ma'rga.

Training to propagate margii ideals in the field – Saharsa, Purnia & Araria in the year 1965

In those early days of A'nanda Ma'rga Praca'raka Samgha it was a rule that every whole time worker must undertake field training as an apprentice of either a senior worker or a departmental supervisor or some senior family a'ca'rya.

Since it was my first posting I was assigned to Shrii Balramajii who was a Prout volunteer for pracar training for a period of 25 days. He took me to Saharsa, Murliganj, Navagachiya', Pu'rnia , Araria & to their farthest Sikat'i block and many villages which are situated on the border of Nepal. I was absolutely new and unaware of the places I visited. I started learning the art of delivering lecture among the village people. I used to see that Balramjii was very adept at using the couplets from Kabir, Surdas, Nanak, Tulsidas giving references from the stories of Ramayana and Mahabharata interspersed with the shlokas of Giita' to convince all sections of people. He would propagate the margii philosophy & way of life and Prout's socio-economic ideas to the common people in his characteristic smart way.

In this process I came in contact with many senior ma'rgiis. I was beset by their simplicity and implicit devotion for Ba'ba'. They told me many stories of their experiences with Ba'ba'. Speaking to them and working with them increasingly boosted my confidence to deal with the new environment.

I travelled to the villages of the Sikat'a block of Araria district with Balramjii. There were margiis in each and every village and they were all very much devoted to Ba'ba'. It was a rainy season. There was no means of travel in those villages. We would usually start for the villages early morning after breakfast. We had to walk through the paddy fields through the raised boundaries of the plots. We kept traveling throughout the day for 8-10 hours. I used to get tired since I was not accustomed to walking long distances. Typically the villagers on enquiry about the distance of any village will usually respond by saying that the place was close by. But usually it would take much more than that and we would keep walking for hours to reach there. In this way we used to traverse a long distance on foot walking for more than 10 hours a day.

In those days Margii units were active in more than 15 units of Sikat'I block. There used to be Dharma Cakra once every week in each of those units. There were hundreds of margiis in that block and it was easier for us to propagate A'nanda Ma'rga and Prout. It was a pleasant experience. In this way we visited the village of A'c. Vishveshvarjii & learnt many techniques of pracar from him. There I met many margii enthusiasts. This place was on the border of Nepal. The headman of a village was a A'nanda Ma'rgii. He took me to a town of Nepal. This was my first visit to Nepal. After the field training I returned back to Patna. In this way some 25 days were spent as an apprentice.

A'ca'rya Training in Jamalpur

After working for a few months in the PFI office in Patna I was asked to undertake a'ca'rya training in Jamalpur. In those days Abheda'nanda Avadhu'ta was the personal secretary of Ba'ba'. He was soft spoken and a gentle person. He was also an elevated sa'dhaka, There were only 6 trainees including me. A'cara Dashratha was our trainer. We were fortunate to enjoy Ba'ba's darshan every day both in the morning & evening. It was indeed a great opportunity that Ba'ba' granted me to undergo training in His presence there.

I was fortunate that Ba'ba' used to bless me with personal contact almost every day before going to His Railway office in the morning. It was here that he gave me many hints about Sa'dhana' and service. This contact gave me ample opportunity to massage His body. Occasionally I would receive His special love & affection and get to sit on on His lap. Ba'ba's love was unconditional, divine, spontaneous and blissful. Seeing this other trainees at time used to be jealous of me. Everybody had a natural craving for His close company. But it was out of my control. A'ca'rya Abhedananda avadhu'ta also at times used to tease me for the special treatment being meted out to me.

On the last day of my training in the noon A'ca'rya Dasharath was supposed to conduct our examination. That day Ba'ba' came to the Ja'grti and asked Abheda'nandajii to call me in His room. I entered His room as directed by Abhedanandajii and prostrated before Ba'ba'. I looked at the charming form of Ba'ba'. He was seated on the cot and the room was filled with divine effulgence. I was beholding that most spectacular sight and found myself seized by a blissful feeling. While I was stuck their beholding His divine form, my attention got diverted on hearing his sweet voice. He addressed me by calling me a'ca'rya Rsikesh and asked for my welfare. Responding to his query I said that I have yet to qualify as an a'ca'rya as my examination was scheduled this noon. Ba'ba' parried lovingly to my childlike response and said that you have qualified as an a'ca'rya. I thought that when He has called me so then I have most certainly become an a'ca'rya.

After a while Ba'ba' said that today He was very much pleased with me. Then He said that all of your wishes of name, fame and of occult powers could be yours by mere asking. Hearing these sweet & pleasing words I was over taken by a blissful feeling and suddenly jumped up to be seated on His lap. Sheltered on His lap I thus spoke to him that I have no other wish left to be fulfilled when I am blessed to be seated on your lap. But He repeatedly sought to bless me by fulfilling any of my wishes. But I was drifting in bliss and my mind was without any desire and I did not know what to ask from him. All of a sudden a thought crossed my mind. I looked forward to his approval of my wish. He said He was duty bound to grant my wish. Then I asked him that I wish to be devoted to his lotus feet for all time to come and that I would like to accompany Him to whichever planet or star He might visit according to His divine plan. I wanted to be always

dedicated to his mission in the service of His creation. Revered Ba'ba' blessed me and said Tatha'stu (let your wish be fulfilled). Hearing His assurance I was lost consciousness and drifted in the ocean of bliss. Soon after Ba'ba' left the room and proceeded towards his office.

Following this incidence I remained abnormal for many days. I used to remain lost in His thought and dhya'na and used to float in the sea of bliss. This condition lasted for quite a few months.

At times I used to be tired of His Dhya'na but it was overpowering. This was, ofcourse, happening by His grace. I did enjoy this state of Dhya'na. I now understand how lucky I was that the difficult to attain Dhya'na had become so easy for me. Some thing which even the great yogis in the days of yore could achieve with much difficulty. Such grace made an ordinary mortal like me to effortlessly do dhya'na. I continued to enjoy this experience for many months. I realized that anything was possible by His grace. The devote can bind Him with the rope of his unreserved love and He, in turn, allows himself to be caught of His own accord.

Training in the implementation of Prout

Venue: Delhi, December, 1965.

My first posting was in PROUT department. According to the then prevailing organizational system, workers posted in a particular department were subjected to intensive training in philosophy and extensive training in the working of that department. Accordingly I was deputed to Delhi to get trained under the supervision of Dada Rangana'tha'nanda. Dadajii was the Chief Training Secretary in PROUT department. He used to conduct regular classes in the philosophy and practice of PROUT for the available trainees. The training was quite exhaustive. It considerably improved my self confidence. I was equipped with necessary tools to propagate PROUT in public. This was a very satisfying experience. I also met Dada Dhiira'nanda. He was the editor of English PROUT. He was a very gentle person. His worked very peacefully. He also, occasionally, took our classes.

After the training there I was deputed with another trainee WT to a nearby town for gaining practical experience. We started our praca'ra work in a village of Mahrauli with the help of a margii brother of the area. Our first contact was with a school Head Master. He helped us to get an opportunity to address a meeting in the high school. From there we proceeded to a remote village in Gurgaon. There we met the village Head Person and addressed meetings to the village folk. Through these meetings we introduced PROUT and A'nanda Ma'rga to the village community. Villagers regarded us as Brahmaca'ris and offered milk and sweet curd water and fed us good food.

Thus continuing with praca'ra from village to village we came to the district headquarters of Gurgaon. It was the festival of Diipavali on that day. We got accommodated in a Dharmasha'la' but we had no money to buy our food. There was nobody known to us in the town and we had not developed the habit of asking alms. The day was thus spent without food. I and my colleague Priyabrata Brahmca'ri talked of the strange coincidence of our remaining without food on the festive occasion of Diipavali. Diipa'vali in India is the most important and happy festival celebrated with lots of fun, food and fireworks. Children love this festival the most. The thought Ba'ba' was the primal thought in our mind. We thought He was playing with our minds. With this thought we were strolling on the road. On the way some person lovingly bid namaskar to both of us. It did not end there. He further requested us to accompany him to his village. We were surprised at the turn of event. In his village we had an excellent meeting with villagers. We were able to nicely introduce A'nanda Ma'rga to them.

After the meeting the family of our host surrounded us and lovingly served us all kinds of delicacies. We were more than satisfied as He had silently arranged all this taking care of our needs. When we were to return from that village the host gave us sufficient money which was enough to take care of our needs on the way till we reach our office. We wept at his grace. Following this I returned back to Patna.

Ba'ba' releases waves of bliss during New Year DMC at Muzaffarpur,

Venue: T'unaki Sa'o Dharmasha'la', December- January, 1965/66

It was here in the hallowed land of Muzaffarpur that I was blessed to receive His contact. It happened on two occasions during 1966. My first contact took place in March '65 during the Vasantotsava (Holi festival) DMC. I entered His room with one whole timer. At that moment I was harbouring an intense desire to be a worker of His mission. Ba'ba' lovingly enquired from both of us about our desire? Both of us silently looked at Him and did not speak a word.

In the New year DMC I was inspired watching Ba'ba' distributing His love freely to ma'rgiis on the occasion of Holi festival. The margiis enjoyed playing A'biira-Gula'la amongst themselves. I also remember to have tasted the native Pua' – a popular sweet dish of Bihar prepared on this occasion.

My second contact with Ba'ba' took place in Tunki Sa'o Dharmasha'la'. To me it was a very important & a historic personal contact. I was then a new worker posted in north Bihar. I was absolutely inexperienced in Dharma Pracar. Many senior and devoted ma'rgiis lived in this region. While conversing with them I would often develop a sense of inferiority complex. Rev. Ba'ba' himself introduced me to A'c.Sakaldeva & A'c.Gangasharanjii in His room. He told them that I was a young worker and that He

was leaving me in their care. That they should help me as needed. Since then I continued to receive their loving affection and support. I realized this was how He took care of his workers and never left any one uncared.

After a while Ba'ba' again called me in His room. Those moments were really rare. He lifted the veil of Ma'ya' and filled my heart with His divine love. By His grace from that moment onwards I started experiencing bliss during sa'dhana. The intensity of my attraction for Him went on increasing as days passed. That is why my meeting with Him proved to be both important & historical for my spiritual awakening.

Much later once Ba'ba' asked me where did you had spiritual realization for the first time. I had replied it was in T'unaki Sao Dharmasha'la', in Muzaffarpur. Ba'ba' then observed that He still remembered that moment and the place. As He was recollecting that incidence I lost myself in ecstasy.

Meeting Ka'lika'nandajii

Place: Jamalpur, Year 1965

I was first posted in Patna as office secretary of PFI. This was a blessing in disguise. I would quite often find an opportunity on one pretext or the other to visit Jamalpur and enjoy darshan of Ba'ba'. On one such visit to Jamalpur, I got an opportunity to go on field walk with Him with two other ma'rgiis.

We enjoyed walking with Ba'ba'. On the way He kept talking and gave us many blissful instructions until we reached the tiger's grave. At the tiger's grave Ba'ba' took His seat and three of us started massaging His feet. When we were thus engaged in His service, I noticed that some figure was materializing near the huge Tamarind tree which stood close by. Soon after Ba'ba' told us that ka'lika'nanda is here to seek my directions on some important matter. He, then, proceeded towards the Tamarind tree. I was, both, a little afraid at the same time inquisitive about kalika'nandajii. I had an inner desire to meet him in person. After a while Ba'ba' returned and inquired, if we would want to meet Ka'lika'nanda. We did not say anything, but Ba'ba' asked us to come along with Him. We followed Him as instructed. When we all reached near the tree Ba'ba' pointed towards Ka'lika'nandajii and told us that he is your elder brother and that you should pay your respects to him. We did pran'a'm to him. He was looking very ferocious. We were in awe seeing him so close. No sooner we had his audience he vanished in thin air. This is how Ba'ba' graced us with the opportunity to see Ka'lika'nandajii in his physical form.

Powdering down the pride of a wrestler

Place: Jamalpur, 1965

I was a new worker and had come to Jamalpur for Ba'ba's darshan. As I reached the town I developed a blissful feeling. The same day a wrestler from somewhere in the vicinity of Jamalpur had also come there for Guru darshana after his initiation. He had heard from his ma'rgii friends that during personal contact Ba'ba' would usually punish His disciples for their wrong past actions. This fear of punishment was constantly lurking in his mind. It is generally believed that wrestlers are simpletons but once they accept something they remain devoted to that ideal or person. He got the opportunity of personal contact with Ba'ba'. He thought for a while that if Ba'ba' were to try to physically punish him he would snatch the stick from His hand since he considered himself a stronger person than Him.

He entered Ba'ba's room and prostrated before Him as advised by his a'ca'rya. As he got up he found Ba'ba' in a Raodra ru'pa (ferocious form). His body looked like a mound of hill and his hands & feet also appeared to him as huge filling the entire room. Seeing Him like this he was overcome by fear and started trembling. Internally he repented for having thought the way he did and apologized. He prayed and beseeched Him to assume His normal form (kalyansundaram ru'pa).

As he thought so He became, sweet and divine. In a very natural manner Ba'ba' scolded him for his past misdeeds. Then He took oath from him to be an ideal person and took him in His bosom. He was at once taken aback in the way Ba'ba' lifted his huge body in His lap. He thought for a while that Ba'ba' must be experiencing discomfort by letting him sit on His lap. All of a sudden he was overcome by the unexpected surge of emotions and started crying like a child. Now a new man was now born out of him.

Why does the mind fail to concentrate in meditation?

Place: Jamalpur Jagrti, 1965

Ba'ba' was surrounded by His devotees in the Jagrti at Jamalpur. Those present were enjoying the nectar of His sweet words and His divinely exquisite & charming persona. An environment of heavenly charm was existed in the A'shrama. When Ba'ba' was finished with His discourse. A devotee stood up and asked Him. Why is that sometimes we enjoy our meditation while at other time we are unable to concentrate and our mind gets disturbed and we do not like to meditate.

Ba'ba' responded & said that it is quite natural to be unable to concentrate the mind during sa'dhana'. Human life is the result of evolution through many past lives. The reactions of the unserved actions performed in the past lives remain accumulated in the subconscious mind of the individual. These reactions in potentiality influence our mind and disquieten our mind. This is very natural. Spiritual aspirant need not get disturbed by this situation. You must be regular in sa'dhana'. Do not be unduly concerned about

whether or not your mind gets concentrated or not. When you perform sa'dhana' keeping your goal fixed on Param Purusa you will surely move forward. Slowly your mind will get concentrated and you will experience bliss in sa'dhana'.

Sa'dhana' is the result of a struggle both internal and external. A sa'dhaka is verily a soldier pricks of the thorn on the difficult path of sa'dhana' signify progress. The result of sa'dhana' is to be offered to Parama Purus'a. Sincerity in sa'dhana' is the surest means of attracting His grace which alone leads a sa'dhaka to god realization.

Who is great - a person who has renounced his worldly life - a monk/a nun v/s a family person?

In the early days of A'nanda ma'rga the organization was quite small. The general secretary of the ma'rga used to carry the central office in his back pack. Ba'ba' was also easily available to the devotees. He would maintain a sweet personal relationship with all His devotees. He was not only there is't'a (Supreme goal of life) but also their Guru & guardian of the family. Devotees used get their personal and family difficulties resolved directly from Him.

Once during the general darshana in Jamalpur Ja'grti a sa'dhaka raised a question. Who is great a family person or a renunciate? Ba'ba' posed the same question to the devotees present. They remained undecided. Some body talked in favour of family persons and others in favour of renunciate monks & nuns.

Finally Ba'ba' started narrating a story.

Once there lived a moralist and a brave king. He was besieged by one knotty problem which he could not resolve. The question was - who is superior the renunciate or the family man. He made an announcement in his kingdom that any one who will give a logical answer to this question will get half of his kingdom and his daughter as his wife. If he failed to convince then he will be jailed and his nose will be severed. Many persons unsuccessfully tried but were jailed and their nose severed. This trend continued for some time. After some time a monk came forward to give a plausible answer to the king's question. He had no desire for kingdom. To find an answer he suggested to the king that we will have to move like a monk to find a logical answer to his question. The king was very keen, hence he conceded to the monk's suggestion and after handing over his kingdom to his son and the ministers he proceeded with the monk to resolve his mental problem.

They moved around to different places. Finally they arrived into a new kingdom. The king there had organized the svayamvara (marriage) of his daughter and to commemorate the occasion invited all the eligible bachelor kings & princes known to him. The assembly not only consisted of the prospective princes but other commoners

and well wishers including monks who were present there to bless the couple. The princess moved around to select his bride groom. She was, however, not impressed with the assembled kings and princes. In desperation she moved away towards others who were also present there and was attracted towards a young monk whose face reflected the charm of his spiritual attainment. No sooner the princess after being impressed of the monk moved with the bridal garland towards him. Seeing her movements and reflecting her intentions the monk realized that he may be drawn into a relationship which he did not want. Therefore he decided to leave the noble assembly. The princess who was charmed by the monk followed him. The monk finding no other alternative ran away into the woods. The princess also followed him there. Meanwhile the other monk and the king in the garb of a Sadhu followed them. The young monk ran faster and disappeared. The princess was unable to locate him also lost her way in the forest. She got tired and after the dusk sat down under a tree. It was cold winter night. The place was desolate and did not know what to do. She started crying. The other monks who had followed her arrived there and tried to console her while assuring her that it would be safer to rest here and next day morning they would escort her to her father's kingdom. Finding no other alternative she conceded to their request to take rest under the tree with the two monks.

The tree had a nest of a bird in which a male and a female bird with their young used to live. These birds observed the condition of the three guest who had taken shelter under the tree. They were without adequate clothes to cover them for the cold night and were not having any food to eat. They thought of helping them from their precarious condition. Sitting on a branch of the tree they located a place where fire was burning in the forest. They brought the fire from there and dropped it before the guest who immediately arranged some dry woods and made a fire place to protect them from the cold. Next the birds thought of arranging their food. The male bird decided to offer himself as food. He thought of falling into the fire. The female bird thought likewise. She thought that the male bird would be insufficient as their food she also decided to fall into the fire. Eventually the young bird also thought likewise and decided to offer itself. Thus one after the other the three birds fell into the fire & offered themselves as food for the guests.

The monk pointing to the king in the garb of a sadhu asked if he had understood who was really great – a monk or a family man. The monk later explained that neither is superior to the other. It is only the one who sincerely attends to one's duty is superior. The family of the three birds proved themselves to be superior by observing their duty and the sanyasin who ran away not getting lured by the worldly possessions of the kingdom and the princess was also equally great. It is the sincere performance of one's duty which makes one superior. It is not important whether one is a sanyasi or a family

person. The king was amply satisfied and returned back to his kingdom happily and released all his prisoners.

Strange ways of a devotee – Shrii Biharilaljii of Patna, year 1965

I was then posted as a office secretary in the PFI Department. I was a new worker. We were informed that Ba'ba' was going to visit Patna. Biharilaljii was the district secretary (now Bhukti Pradha'na) of Patna. He was taking care of Ba'ba's personal needs e.g. ba'ba's lodging, food, & other personal requirements. He was a devotee of ba'ba' and he used to enjoy serving delicacies to his guests. Now that Ba'ba' himself was his guest he was all bliss. He along with his family members took good care of Ba'ba'. This was my first opportunity to see for myself Ba'ba' enjoying the hospitality of His devotee. For the devotees He was creating a flood of bliss drowning all those who desired to enjoy His physical presence.

After Ba'ba' had finished his lunch Biharilaljii gave a mango (a special sweet variety of Bihar) in Ba'ba's hands for Him to take. Biharilaljii was out of mind. After giving the mango he went on explaining the manner in which the mango was to be taken. Ba'ba' listened in rapt attention to his instructions. I was present there and witnessed the pleasure Biharilaljii's was deriving. Ba'ba' on His part was all praise for his demeanor. He continued to give him due importance for such a simple matter.

My avadhu'ta diiks'a'

Place: Residence of a'c. Rambilas Rai-1966

During my a'ca'rya training in Jamalpur I enjoyed Ba'ba's contact and experienced his grace and compassion almost every day. He constantly pulled my mind I felt His strong attraction. About the same time I developed a strong craving to become a avadhu'ta. I wanted to surrender everything of mine to Him. I understood that a avadhuta was directly committed to the Guru.

In 1966 March on the occasion of Holi I got an opportunity to attend the DMC in Muzaffarpur. I was then posted as office secretary in PFI office of Patna. During the DMC I entered Baba's room along with a worker with a strong desire to become a avadhu'ta. The omniscient Ba'ba' inquired, what do you want from me. What has brought you here? I could not speak anything to Him. He lovingly looked at me and smiled. I was overwhelmed by His grace and came out of His room.

After a few days Ba'ba' came to Patna for DMC and stayed with a'ca'rya Rambilasji who was posted there as a deputy Police superintendent. Ba'ba' called the then GTS a'ca'rya Praka'sha'nanda to give him the list of names of the prospective candidates for avadhu'ta diiks'a'. Da'da' Praka'sha'nanda was not inclined to include my name in the

list. He did not carry a good impression of me. when the list was brought to Ba'ba' asked him to include my name. I learned this fact from a worker who was a witness in Ba'ba's room when Praka'sha'nanda gave the list of prospective candidates to Ba'ba' for avadhu'ta diiks'a'. I was once again besieged by his affection.

My posting as a relief organizer

I was then working in north Bihar spreading the message of self realization and service of created world among the people of Mithila'. This region abounds in many senior margiis and family a'ca'ryas. I was fortunate to listen to many of their mystic and blissful experiences. I enjoyed the company of family a'ca'ryas viz. Sarvashrii Chandranathjii, Nagiinajii, Sakaldevjii & Gangasharanjii. There I heard the painful news of the gruesome murder of our five Dadhicii's on 5th March 1967. On this day five of our dear Da'da's had been brutally killed by Marxists goons.

After a few days of this incidence I was called to report back to Ranchi. Ba'ba' had shifted from A'nanda Nagar to Ranchi following the 5th March incidence. I reached there with the desire to be blessed with His darshan. There I was given a new posting as the Relief Organizer incharge for whole India. I was unprepared for such a onerous responsibility. The whole country was facing a severe drought and hundreds of people, young & old had died of hunger. I wondered how I will organize massive relief needed in such a calamity. Whole of Bihar & eastern Madhya Pradesh and West Bengal were severely affected.

Ba'ba' constituted the Draught Relief Committee with its headquarters at Exhibition Road in the house of Shrii Shashi Rainjanjii. Margii volunteers devoted themselves providing relief in their respective areas. Ananda Ma'rga Drought Relief Committee organized hundreds of free & cheap food stalls, and water supply tents. I was responsible for inspection, control and starting new centres. I was a novice, however Ba'ba' chose an inexperienced person for this important work. To educate me and to build my confidence Ba'ba' would lovingly explain me how I was to organize the relief centers thus always encouraging me to accomplish the task ahead with accelerated speed.

I was supposed to work with Dr. Ramesh who was the Relief Secretary. Ba'ba' would himself prepare my tour program and guide me about the work that I was to carry out in different places. Margiis were inspired and in no time over 500 free and cheap kitchens were started. Thousands of volunteers were involved in this task. One day Ba'ba' instructed me the standard to be followed in selecting the volunteers to take responsibility of the relief operations. The standard was:

1. Beware of someone who is talkative and sentimental

2. One who is of serious disposition, speaks after thinking and is practical can be relied
3. One who is emotional & gets easily assailed in pleasure and pain should not be relied much. On the contrary someone who maintains a balanced disposition in all circumstances should be involved in all important tasks. He/she should be allowed to handle more and more responsibility
4. Volunteers who are honest and devoted should be chosen to take additional responsibility.

I followed the guidelines given by Ba'ba' and fortunately there were more than the required dedicated volunteers who were engaged in relief work and brought laurels to our service work. Everywhere our work was receiving appreciation.

Late Shrii Jaiprakash Narayan was himself involved with the relief work being done by the government. He too, was impressed with the dedication and selfless service of A'nanda Ma'rga volunteers. He appreciated us. For any help he always relied on the sincerity and honesty of our volunteers. We were also helping the government in grain distribution. Impressed by our dedication and honesty the then prime minister Shriimati Indira Gandhi arranged hundreds of tons of grains for distribution amongst the Drought affected population through A'nanda Ma'rga Relief Committee. On our own we took up the task of reaching out to the remote inaccessible regions viz. Sarguja & Bastar areas of erstwhile Madhya Pradesh which were badly affected by the Drought & where none of the NGOs seemed to be interested in going for the service of drought affected people

To further expand the scope of our relief activities Ba'ba' directed me to nominate a sub-organiser for every diocese and a relief branch organizer for a district. Being new to the job I was baffled with the enormity of the work. Reading my thoughts Ba'ba' himself gave me the names of sincere, active & honest Margiis and A'ca'ryas to be involved in this huge task. I informed all those persons and called them to reach Ranchi for an audience of Ba'ba' further instructions. All of them reached Ranchi on the scheduled date. I was the youngest among them and most inexperienced and I was asked to instruct them. A'ca'rya Narendra Deva who was my own a'ca'rya was made the sub-organiser of Raipur diocese and A'carya Ramlal Dani and A'ca'rya kailash Bhalla were made the branch organizers of sarguja and Bastar respectively. I was always hesitated to pass any instructions to these senior a'ca'ryas.

Baba' called all these a'ca'ryas to His room and told them that though this boy pointing to me is much younger and inexperienced than all of you, yet he is my representative and all of you would take his instructions as my own. In no time all my problems were solved. My own inhibitions were overcome. I acted as His medium and He made use of

me to discharge such a gigantic responsibility. I was beset by His style of putting all persons at ease and making them blissfully accept full responsibility and accountability.

I continued my work with these three a'ca'ryas for many months to come. They were inspired persons and carried out the assigned tasks beyond my own expectations. Our relief was being rendered in far off villages. Though these a'ca'ryas were family persons but their dedication to the task and their devotion to Ba'ba' was matchless. In fact they were the sources of inspiration to all of us whole timers involved in the relief work. I enjoyed working with them and had many exciting experiences.

In August 1967 Baba' came to Raipur for DMC and stayed in A'nanda Ma'rga school in Bairan Bazar. I also came to attend the DMC with A'ca'rya A'nada Kishore. I brought a proposal to organize relief in the villages of Sarguja district. These were some of the worst affected villages due to draught. Ba'ba' took the task upon Himself. He resolved the problems involved in the plan. He called the three a'ca'ryas already involved with the relief to take this additional task of organizing relief in Sarguja district.

A'nanda Nagar was also equally affected and our Children's home was also facing acute shortage of food. I was able to organize and deliver 20 quintals of wheat for which Ba'ba' appreciated my action. I enjoyed the posting as the relief organizer, since I got to learn how to organize many volunteers for clearly defined service activity and to keep them inspired to continue the good work for a long time. I was also blessed in the process to receive His grace and enjoy His company.

Following the completion of the massive relief operation I was transferred to A'nanda nagar as office secretary No.2.

Chapter -2 - A'nanda Nagar

Posting as a central office secretary no.2 in A'nanda Nagar

Ba'ba' as Sama'ja Guru

This incidence perhaps relates to the year 1968. I was then posted as the office secretary no.2 of General Secretary in A'nanda Nagar. Dada Pran'ava'nandajii was the central office secretary and was stationed at Ranchi where Ba'ba' was staying. The assignment required me to collect the work done report of all workers posted in A'nanda Nagar and then to report back to Ba'ba' in Ranchi every Sunday.

After the incidence of 5th March A'nanda nagar was in shambles. It was almost totally destroyed by the Marxist goons. That is why Ba'ba' was devoting much time and energy in rebuilding A'nanda Nagar. I was also under sever pressure. He did not accept any delays in the progress of A'nanda Nagar.

During one such Sunday reporting Ba'ba' gave a new target for constructing buildings for Poultry, Piggery, Fishery, Duckery, Dairy Farm and Seri-culture. I found it very difficult to prepare my mind to proceed with the construction of Poultry and Piggery. I thought it was contradictory to the ideal of a sanya'sii. Hence I did not initiate work related to these two activities. In the next reporting with Ba'ba' He inquired about the progress of those specific tasks. I stood in front of Ba'ba' like a dumb. Ba'ba' understood my inner conflict. He clarified and told me that He was not only a Dharma Guru but also a Sama'ja Guru. Being a Samaja Guru He has to support these vocations. They are a part of building up village economy. These are part of essential plans for developing a self sustainable economy. It was then that I understood His concern for the welfare of all.

In His discourses Ba'ba' has defined the role that is played by the Sama'ja Guru. Sama'ja Guru has to utilize its integral knowledge, intellectual prowess, personal charm and organizing capacity to lead the humanity along the path of all round progress in the three spheres of human existence. Ba'ba' as Ta'raka Brahma combined in Himself the qualities necessary to guide the planetary society towards its cherished goal of realization of Cosmic Consciousness. It is for achieving the holistic growth of humanity that He has propounded PROUT. PROUT is the new socio-economico-political idea which aims at establishing the leadership of sadvipras (spirituo-moralist leader), economic democracy (bottom-up block level planning) and believes in guaranteeing basic human requirements to all.

Punishment for a mistake in allowing an imposter scholar in A'nanda Nagar

As office secretary no.2, I was responsible for the entire Delhi sector. The organization had not become truly global then. But my responsibility included progress in the field. It was my job to collect the progress of all the field workers viz. RS & DS and report back to Ba'ba' once every month. I was accountable for the progress in the field. In case of workers posted in A'anda Nagar I was to collect daily report and then present the progress in A'nanda Nagar once every Sunday in Ranchi. It was an important work. Ba'ba' was very particular and strict in the matters of progress of assigned tasks. He kept a close watch on their movements and activities. For me it was like walking on razor's edge. Those days I would get His love and severe punishment both at the same time.

Before being appointed in a'nanda nagar I had worked with Dr. Ramesh who was the Relief Secretary. He was a great devotee of Ba'ba'. I was impressed by his dedication and his honest working style.

Once he send a cultured gentleman with his personal letter to A'nanda Nagar. He had written in his letter that this person was working on his Ph. D. on A'nanda Ma'rga. therefore I should provide him as much detailed information as possible. I read his letter before the then GS Da'da' Sarveshvarananda, dada madhavananda and Dada Yogananda. They suggested that he should be treated properly. Accordingly I started revealing maximum information about A'nanda Ma'rga. At times Da'da' Yogananda and da'da' Madhavananda also gave him many additional information.

Next Sunday I went to Ranchi for reporting the daily outturn of the workers of A'nanda Nagar. When I was reading the report of da'da' Yogananda and da'da' Madhava'nanda in which I had mentioned that these workers spent some time with such and such person and shared some information about A'nanda Ma'rga with him. Ba'ba' inquired about that person. I informed Him that Dr. Ramesh had sent him to a'nanda nagar. Hearing this he burst out angrily. He told us that the person was from intelligence department. I was dumbfounded. I realized my mistake. He asked me why did you give him shelter in the a'shram? I was stunned. I again repeated that he had come with a letter from Dr. Ramesh. I had also consulted the GS and other central workers before giving him shelter in the A'shram. He gave me very severe punishment. I could not accept that and was very seriously hurt. This incidence created a fear psychosis in my mind and avoided getting close to Him. There was some spiritual cause behind this happening that I have explained elsewhere in the book. Later Ba'ba' punished all the three workers involved.

The satya'graha in A'nanda nagar comes to an end

After the incidence of 5th March a satygraha was launched by the margiis. It was lead by a'c. Narendra Dev. Ba'ba' gave him this responsibility. The Marxist government of West Bengal had taken possession of the place where the five Dadhiciis were brutally murdered.

According to the programme daily five margiis used to go to that place and perform sa'dhana' there and would remain there. The police used to arrest them on some false charges and they were being sent to Purulia Jail. This Satyagraha dharna' went on for a few months.

All of a sudden on day this satygraha stopped. During the weekly reporting He inquired why the satyagraha was not taking place? I could not give a satisfactory reply. Ba'ba' sternly asked me to get the information within 24hours and report back to Him. I went to bokaro where A'c. Naredra was staying for the purpose and learned about the reason for discontinuing the satyagrah. I informed Him immediately. Satyagraha resumed in next two days. This was a strange coincidence. He was always very strict and kept watch on each evert programme.

The game of Chess

In those days da'da' Prabha'sa'nanda and Da'da' Prashant'nanda (former GS and PA) were posted in Ananda nagar. Ba'ba' was usually dissatisfied with their daily report. Once he asked me what are these two workers doing there. I casually replied, I see them playing chess. Ba'ba' became angry and playing chess is a waste of time. I informed them about Ba'ba's displeasure. He was always very particular about workers discipline and utilization of their time.

False cases and injustice against workers

It was almost a regular routine of the police. They would find one or the other false pretext and get the workers of a'nanda nagar arrested. Once Dada Amita'nanda, Dada Cidghana'nanda and dada Svarupa'nanda and me were arrested by police on the false charges of stealing a pen and for mis-conduct with local aboriginal girls. This was repeated three times. We had to get bail for getting out of jail. In the court all these cases were proved false.

Once again on similar false pretext the police brought a few girls from the village to the court to give false evidence against us. But when the judge inquired the girls said we have never seen these monks. We were immediately released.

Weekly reporting

It was a occasion planned by Ba'ba' for giving me His contact. I thoroughly enjoyed every reporting. It was my great fortune to have got His close personal touch. I remain ever indebted to Him for His grace.

ERAWS central Store

The publication of the books for the AM schools was the responsibility of AMBE. This was a good source of income of ERAWS department. Ba'ba' was very particular about this. He used take detailed report of the accounts. I could give satisfactory reply and was punished severely. I could not reconcile to this punishment. I was badly hurt mentally and returned back to A'nanda Nagar with a heavy heart. I cried internally for having been punished so severely. Suddenly he sent a worker the very next day and called me near Him and filled my heart with indescribable love. It was the otherworldly bliss. I remained in the spell of that powerful feeling. It was like a spontaneously overflow of supreme beatitude.

Chapter 3

On Spiritual Demonstrations

The Divine Form of Shrii A'nandamu'rtijii: venue Ranchi Ja'grti, 4th January 1969

This incidence relates to the golden period of my own life

I developed an urge to reveal my own realization of Ba'ba's mysterious yet Divine form. Although I know it is devotees personal and guarded treasure. My own capacity to verbalize the realization is limited. I also know to that the Infinite & the unfathomable entity cannot be described in words. Even then I have this overpowering urge to describe my own experiences. I am inclined to think that may be my own experiences may help other devotees to relate these experiences with their own realizations. This may enable them to communicate with the Divine according to their own mental need. I am not sure how it would be useful to them even then I proceed to express my desire.

Spiritual scriptures describe the sadguru as an eternal being. He has no form & is not bound by bodily limitations. His love & compassion for the seekers is non-causal. Whenever a seeker develops a craving for Him, he manifests himself in different times for the benediction of all.

It was Ba'ba's grace that He pulled me near Him. I was intensely attracted to His charming persona. I used to meditate on His physical form whenever I would get close to Him and experience bliss. Ba'ba' would guide me to concentrate on sahasra'r cakra & go in deep meditation. Following His directions I would effortlessly visualize His Divine form and dive in the ocean of bliss.

After sometime, not to my liking I started fearing His physical form. Simultaneously there would also be a strong undercurrent of love and attraction for Him. This used to be quite confusing. I used to wonder and at times cry to realize His real form. This was a very painful and torturous to my mind. Suddenly one fine morning by His grace all my doubts were cleared and I was then beholding His eternal form.

It was the year 1969-Ba'ba' called it as Sa'dhana' Vars'a and gave umpteen number of spiritual demonstrations. this was a time of revelation in my life. It was perhaps 4th January, 1969 and evening Darshan of Ba'ba' was in progress in Ranchi Jagrti. There was a mysterious & blissful charm floating in Ba'ba's room. He asked me to sit close to him. Then He touched my A'jina' cakra (between my eyebrows) by His stick and commanded me to concentrate my mind on sahasra'ra cakra (top of the head). Of its own my mind got concentrated. I first saw white effulgence on the sahasra'ra cakra with Ba'ba' positioned in Varabhaya Mudra and smiling. He commanded further to penetrate deeply, following this I realized that my physical body of flesh & blood was disappearing. In the beginning I was a bit afraid & scared of this sudden dissolution of my body. But then I was reconciled after watching Ba'ba' in Varabhaya Mudra . The body Ba'ba' was

not made of flesh & blood but instead it was formed out of white effulgence. Seeing Him made up out of vibrations and effulgence my mind entered in a state of ecstasy. I lost myself in divine bliss.

As I described the scene Ba'ba' explained that I was beholding the real form of A'nandamu'rtijii - the lord of sahasra'ra cakra. He said that A'nandamurtijii can be realized in deep meditation only by his grace. He is the embodiment of bliss. He is blessedness personified (Kalyana Sundaram). He is not bound by any fetters. There is neither good nor bad for Him. None is a sinner or virtuous for Him. All are His children. Everybody has the right to sit on His lap. He cannot hate anybody since all exist within His cosmic mind. By his supreme grace after witnessing His divine splendor I entered into Nirvikalpa samadhi (the trance of non-qualified bliss) and stayed in that state throughout night. When I regained consciousness I found that some dada was feeding warm milk to me. Slowly I became conscious. But I continued to enjoy that supernal bliss for few months.

I realized the real form of the Supreme Guru. That guru has unparalleled love for His own creation. He reflects the feelings, ideas and aspirations of human beings. He alone assumes human form to liberate the devotees from all kinds of bondages. In Skandha Puran'a Shiva replies to Parvati's query thus:

Listen O Pa'rvati & know it for sure the fact which I can state three times without any doubt that Guru alone is the Lord of all, Guru is Dharma personified and an uncompromising faith in the sanctity of Guru alone is supreme service & sacrifice.

Describing the greatness of Guru Saint Kabir also says that of all the great virtues the grace of SadGuru is incomparable, infinite and causeless. There are three things which are considered causeless: they are – Brahma, His creation and His grace

Experiencing the Cosmic form of Guru

The materialist's concept of this universe has been now challenged by the material scientists themselves. That there is no consciousness in the universe has long been discarded as too naïve an idea even by the rationalists.

Consciousness is a reality. This idea must be accepted. The time is not very far away when there would be ample evidence through a large body of individual spiritual experience which would bring consciousness within the range of human experience. The scientific advancement with the passage of time would bring much of the supernatural phenomenon within the ambit of common human knowledge. It would convincingly prove to the so-called atheists that knowledge is not static. With the progress of material science there would be increasing interest in the spiritual values of

life. Humans would realize that genuine happiness is not material it is a mental attribute. Happy person has to be necessarily a contented and detached from material wants.

The spiritual thought of the east, specially, the ideas enshrined in Upanishada and the wealth of practical experience accumulated from ages related to the practices of yoga and Tantra reveal an inner working in which all of the universe appears to be interrelated.

Shrii Krsna in His Giita has revealed that the Lord must take the human form to redeem Dharma and establish it in its rightful place. And ensure victory of good over the evil.

In the history of A'nanda ma'rga is dynamic. Every year nay every month A'nandamurtijii propounded new ideas supported by beauty of rationality & reason. These new concepts would enthrall the A'nanda Ma'rgiis. In a similar vein Ba'ba' named the the year 1969 as the sa'dhana' Year. In this phase Ba'ba' gave practical demonstration of the many mystical concepts and spiritual secrets. He would often use a monk or a family person as His medium for carrying out His demonstration..

A similar demonstration which was performed on the writer in the evening of 29th April 1969 is described below. That eventful day Ba'ba' arrived in the Ranchi Ja'grti at 6pm. He was surrounded by His devotees in His room. All of them were enjoying His darshana. His room was filled with mystical aura.

In the midst of His talk He revealed that today He was going to conduct an incredible demonstration. He continued that about 3500 years ago Lord Krsna had revealed His Divine form to Arjuna (Vishvarupa darshana). Today also He would reveal the selfsame Vishvarupa. Having said so He called the writer to come close to Him and sit in Baddha Padma'sana keeping the spine straight. As He commanded so I followed. Then He touched my Trikuti (Ajina' cakra) and asked me to concentrate my mind on Sahasrara cakra. As he spoke my mind instant got concentrated in Sahasrara cakra.

Then He directed me to see His physical form made of flesh and bones from toe to top. He then inquired from me to speak out what I was seeing. As He said these words, His physical form disappeared and I started visualizing Ba'ba' in Vara'bhaya Mudr. But this Ba'ba' that I was beholding was not the one who was seated there in flesh & blood. No, He was not His characteristic physical body, instead He was made of light waves and white effulgence. He appeared to me in a majestic form, divine and incredible. He further commanded me to visualize my own blood and say what I see there. In my blood particles also I saw Him present in Varabhaya Mudra. He asked me to see the same way in my bones, nerves and bone marrow. He was present there in His incredible ethereal form. Then likewise He asked me to see the pores of my own body. There also I visualized the same effulgent form of Ba'ba' in Vara'bhaya.

Thereafter he commanded me to go beyond my body and speak out. What I saw then was most awesome. Words fail here for me to describe the beauty I was beholding. Now the periphery of my mind suddenly expanded on its own. Billions of stars and milky ways all came within my own mind. Then He commanded me to go beyond the solid factor of the universe into its liquid factor. I found the liquid factor was more pervasive than the solid. Then I entered into the luminous and through the aerial to the ethereal. In each stage the extent of subtlety went on increasing. The luminous was subtler than liquid and aerial was subtler than luminous likewise ethereal being subtler than the aerial. Now my mind had expanded in the ethereal. In each stage I visualized His magnificent form in Vara'bhaya Mudra. I was drowning in the ocean of bliss. It was an incredible experience, something unearthly and beyond imagination. Then He asked me to expand my mind into the minutest particles of the universe. As He asked me so it happened. Expanding beyond all the frontiers I merged into Him and I lost consciousness. I don't know how long I remained in that state.

In the meantime He left for His residence. He left instructions that I must come back in senses within 12 hours. If I am delayed then I may attain Moks'a. Then it would be difficult to maintain this body. As soon as I come back into consciousness, I should be fed warm milk. Then I will regain normal consciousness. I became conscious at 5am in the morning. As I woke up I was given warm milk. And slowly I regained consciousness. I had lost any appetite for food. I wanted to remain in the same state of bliss for ever.

Following this demonstration, I continued to enjoy off and on that state of blissful staticity for many months. I wanted to be in that state only. Even now when I think of that experience I lose my senses & start to enjoy bliss.

Only the one to whom He gives this realization knows Him, Knowing Him means being Him

Nrsingh rupa darshana

This incidence took place in Ranchi Ja'grti in continuation of the that momentous sa'dhana' year of 1969. As Ba'ba' entered the Jagrti there was a commotion among the ma'rgiis. The margii gathering was filled with devotional exuberance. Ba'ba' settled in the comfort of His room. The setting there was mystical. The devotees were seated in His room drinking the nectar of His divine charm. The environment smelled the sweet fragrance in the air surrounding Him. Nothing in the surrounding could remain unaffected by the unspeakable ecstasy.

He called me to sit before Him in Padma'sana with my spine erect. Then He touched my Trikuti with His magical cane stick. He asked me to concentrate my mind on

Sahasra'ra cakra. I followed as directed. All of sudden without my doing my mind got focused on Sahasra'ra cakra. It was very unusual but a blissful experience. There on the sahasra'ra cakra I was now beholding Him in Vara'bhaya Mudra over a floating splendor. His form was made of effulgent radiance and not His normal body of flesh. Ba'ba' told me that His real form was made up of effulgent light. That alone is the object of Dhya'na for a sa'dhaka. His resplendent form is beyond all bondages. All have equal right to sit on His bosom. Being a blissful entity as the controller of the Sahasra'r, for proper governance of the world He comes as Maha'sambhu'ti with a mission.

Yada' yada' hi dharmasya gla'ni bhavati bha'rata,

Abhyuttha'nam' adharmasya tada'tmanm' srja'myham

Paritra'na'ya sadhu'na'ma' vina'sha'ya ca dushkrta'm'

Dharmasanstha'pana'rtha'ya sambhava'mi yuge yuge

That is why in the form of Kalki or Nrsingh He controls the universe through Ota and Protas seated on the Mula'dha'ra Cakra of all.

Then He commanded that I should pierce my mind through all cakras below Sahasra'ra and focus on Mula'dha'ra and describe your experience. Effortlessly my mind went deeper and deeper. At the Mula'dha'ra Lo! I was beholding a golden lion. The pores of that Lion were effulgent with golden light. I started losing my consciousness due to the surging waves of bliss as I was beholding that magnificent splendor. After a while Ba'ba' asked me to concentrate my mind on the Golden Lion and look at what do you see. As I focused I started beholding a floating effulgence and over that radiance Ba'ba' was couched in Vara'bhaya. Ba'ba' told us that was His Nrsingh Rupa. Ba'ba' said Nrsingh means supreme human form. It is wrongly depicted as half lion and half human. A'nandamurtiji has assumed a samkalpa deha (Body created for a purpose). His physical form is the object of ideation (Dhya'na) for sa'dhakas. This is the way to supreme realization.

Unity in diversity

This incidence took place on the occasion of A'nanda Purnima' DMC at Ranchi in 1969. Thousands of ma'rgiis had assembled there. The environment was full of devotion. The last day of DMC used to be as always a moment of painful separation from the beloved.

Ba'ba' was speaking about the role of Ma'ya'diisha & His Ma'ya' during the departing darshana. He said that ma'ya was functions according to a predetermined law. It is subordinate to Him. Those who take shelter unto Ma'ya'diisha go beyond the influence of ma'ya'. Hence your future is safe and bright.

Then He called Dada Pra'nakrsna'nanda who was seated on the dais. He was asked to stand facing the margii audience. Ba'ba' asked him what was he seeing. He said there was a crowd of margiis in the front. Then Ba'ba' pointed His cane stick towards him and asked him the same question again. He said that now I am beholding only You. Saying so, he fell lifeless and entered into Nirvikalpa Sama'dhi.

Before departing Ba'ba' gave some instructions about the dada who had entered Nirvikalpa sama'dhii. Finally looking at the margiis He once again repeated that your future was safe and bright.

Darshana of Ba'lakrsna

From my early childhood I had a strong craving for Ba'lakrsna. His child like form was my main attraction. I used behold His resplendent charming form and would often look Him in the world around. I used imagine Him sitting on the branch of tree and playing His flute. At times I would listen to the sweet melody of His flute and lose consciousness.

After I became a sanyasi this desire to behold Him in Balakrsna form remained unfulfilled. Then the Sa'dhana' Varsha came and one fine morning He called me near Him for conducting a demonstration. He told me to sit in Baddha Padma'sanawith erect spine. He toched my Trikuti with his magical cane stick and commanded to concentrate on A'jina' Cakra. As He said so it became. Then He commanded to take my mind in the past 3500 years. As he said these words my mind dived deeper. I was looking at my own past samskara like a moving panorama. Finally my mind rested at An'a'hata cakra. Then he told me to focus my attention and describe what you see. All of a sudden I saw a beautiful forest with tall green and flowering trees. In the midst of that was a flowing river. In the bushes and the woods Ba'lakrsna was playing with His friends in Vrnda'vana. His form was very attractive, charming and hypnotic. He was carrying a flude of bamboo which tied to His waist band. Beholding His incredible Ba'laru'pa I lost my consciousness and don't know when the margiis and Ba'ba' left the room.

I am really fortunate for having been chosen as His medium and for getting my childhood desire fulfilled.

Out of body journey of my mind to a real distant land not physically visited by me

This demonstration was conducted by Ba'ba' during Sa'dhana' Vars'a. It was the same old setting in the evening darshana at Ranchi Ja'grti in that year of 1969. The room of Ba'ba' was Illuminated with the shine of milkwhite glow. A crowd of devotees mostly from Delhi sector were present. Among them were three margiis from Philippines (Maharlika-

the Samskrta name of the Country). They were Dr. Perelim (Priyadarshi) a senior Physician, Shrii Wilson (Kamalanayan) a very senior administrative officer of the government of Philippines (equal in rank to a Governor), Shrii Pestoral (Gun'a'nanda) a leading businessman.

Ba'ba' was speaking about the science of journey to distant places by mind leaving the body at rest at some place. To demonstrate He asked me to come close to Him & sit with the spine erect in Siddha'sana. I followed His instructions. Then He pressed my Trikuti with His right hand thumb. After that He commanded to concentrate in A'jina' Cakra. My mind got effortlessly concentrated. Then He directed my mind to move out towards the east. He told me that I should describe whatever I see on the way. I suddenly realized that my mind has on its own has moved out proceeded as told by Him eastwards. After a while I started watching the lights coming from the buildings of a large town which was illuminated in the evening. Ba'ba' asked me to go near some shop & read out the name of the town from the displayed sign boards. I read out loudly and said it was Calcutta. Ba'ba' affirmed and said that at this point you are passing through Calcutta. He asked me to keep moving farther east. After some time I told Him that I was seeing water everywhere. Ba'ba' nodded and said you are passing over the Bay of Bengal. As I kept moving further east, I watched lights of another big town which was radiant with bright lights. Like before He asked me to read out the name of the town. I read the sign board and was astonished to see it was Bangkok. Then I crossed the Pacific Ocean and came close to another large town. There also I read the sign board and found it was Metro Manila. Ba'ba' said at this moment you are in the centre of the Metro Manila town. Then He directed me to proceed towards the west. Going that way I reached a crossing and read out its name, Bro.Pastoral (Gun'a'nanda) jumped from his seat involuntarily. He was emotionally charged after hearing the name of the crossing. He then confirmed that it was the crossing next to his house. Following this Ba'ba' guided me to take the right turn and look at the huge building standing there. When I started to describe the view of the building before my eyes, Bro.Pastoral (Gun'a'nanda) once again lost control and could not help but jump again in amazement. He then yelled it was his own house. Then Ba'ba' directed me to enter the building. As I entered there inside the drawing room I saw a young, chubby & fair boy seated on chair, resting his chin on the palm of his hands. His elbow rested on the drawing table. I described the features of the boy, Gun'a'nanda was flabbergasted and cried out loudly that it was his son there.

Ba'ba' then further commanded me to enter his (boy) mind and speak out what was the boy thinking at that moment. I entered his mind and read his thoughts. I started narrating that the boy was thinking that his father had left in a rush for the darshsan of his Guru in India. He did not consider for a moment my own requirements. I have my university examination after next two days. If he was here I would have felt comfortable.

As I finished this sentence Ba'ba' called off the demonstration abruptly and started to leave. Soon after this event Gun'a'nanda hurried to the nearby GPO and spoke to his son over phone. He inquired about his wellbeing. Then he asked him what was he thinking at such and such time. He got the confirmation of what Guna'nanda had heard from me.

Stealing Bro. Wilson's (Kamalnayan) memory & intelligence

This demonstration was performed by Ba'ba' on the following Sunday in the same Sa'dhana' Vars'a. There was a large assembly of ma'rgiis from many places in the Jagrti. Ba'ba' spoke that day in English. After His pravacana, He pointed to Kamalnayan and asked him to explain his discourse. Kamalnayan spoke very well and covered each point that Ba'ba' has dealt with in His discourse. It was an awesome performance. Margiis were impressed by his memory.

As soon as Kamalnayan finished his talk, Ba'ba' remarked that when he was delivering his commentary he was entertaining the propensity of pride (ahamka'ra) & thought of his excellent memory. Ahamka'ra is the greatest enemy on the path of spirituality. Human capability is very limited. Human beings have a small cranium. How much knowledge can they assimilate in their small brain. And it is unbecoming of good people to consider their knowledge as a matter of any great achievement.

Then He asked Kamalnayan to come close to Him. Kamalnayan immediately complied. Then He called me to sit facing Kamalnayan. Then Ba'ba' asked me to concentrate my mind on A'jina' Cakra. I did as told by Him. My mind was instantly concentrated on the A'jina' cakra. Then He asked me to enter the mind of Bro. Kamalnayan and tell Him what I was seeing. As He said these words I was watching a blue effulgence (jyoti). Ba'ba' then remarked that blue colour is indicative of intelligence. Kamalnayan is intelligent and has good memory. But he is also proud of his qualities. Now Ba'ba' continued, I am going to withdraw his intelligence (buddhi). Then Ba'ba' spoke some mantra. Later pointing to Kamalnayan, Ba'ba' inquired his name. Kamalnayan looked at Him and tried in vain but could not speak. Ba'ba' repeated His question. Kamalnayan was confused & failed to reply. He seemed in a pitiable condition.

Then He commanded me to enter his mind now. I entered Kamalnayan's mind and watched, as He had commanded. I said that his (Kamalnayan's) mental colour has changed to black. Ba'ba' remarked that black colour is indicative of stupidity, devoid of any intelligence. Kamalnayan in this condition neither knows his name, nor can he recall it. He then again repeated some mantra to restore Kamalnayan's memory and intelligence. Then He commanded me once again and asked him to enter kamalnayan's mind now. Nosooner Ba'ba' finished saying, I looked at kamalnayan's mind and now

saw the same old blue effulgence indicative of restoration of his faculties of intelligence and memory. Kamalnayan now returned back to his usual self as before.

Once Ba'ba' commented that the planet earth is like a mustard seed in the great universe. In that tiny planet earth how small is a human being almost invisible. Human beings are very weak and pitiable. So called human knowledge and intelligence is so little but their pride is like a mountain which is why they are endangering their existence.

Demonstration of my past life 1100 years ago

As usual Ba'ba' came to Ranchi Jagrti for evening darshana. The mood of the devotees present there turned blissful. It was the same momentous year called sa'dhana' vars'a. As He entered His room the crowd of devotees rushed in to drink the nectar of His supra natural charm. During His discourse He called me to come close to Him. Then He touched my Trikuti with His can stick and commanded me to concentrate on my A'jina' cakra. I did as told. He then asked me to go back to the past 1100 years ago. As he commanded my mind effortlessly followed and went back in the past I felt as if my own mental reel was unwinding backwards. It stopped at some point on its own.

Then Ba'ba' called my name & asked me to describe whatever I was seeing. At that moment I saw a dense forest and a hillock inside the forest. I also saw a yogi meditating on the hillock. He was sitting tight in an erect pose. That yogi had long body hair. His beard and the hair were very long falling behind his back. Ba'ba' said that it is your past life as a sa'dhaka. You do not know but I have known you since so many lives that you have lived.

Ba'ba' had remarked on several occasions during His discourses that margiis have not come to Him all of a sudden. Instead they have been with Him from many lives in the past. They may know but He knows about them.

He has also said that the natural law according to which humans forget their past lives is benevolent in nature. Because if human beings remembered all their past lives then they will lose mental balance and go mad.

Demonstration about Netaji Subhas'candra Bose

I had heard earlier that Ba'ba' had conducted demonstrations where He had shown that Netaji was alive & that he was devoted to a life of Sa'dhana' in a cave in the Himalayas.

In Ranch Ja'grti it was the occasion of morning darshana. Ba'ba' had already arrived earlier and had finished His routine activities of personal contact. And now He was reclining on the bed in His room. Ma'rgiis have taken seats & were feeling blessed in

His presence. It was quite natural for the devotees to be blissfully unaware of the world around when He was there. Those were the most significant times for A'nanda Ma'rgiis. Ba'ba' was easily accessible to common ma'rgiis and they depended on Him in all situations. No task was difficult. Nothing was impossible by His grace. It was one such gathering in Ranchi. He was delivering His morning discourse. In His characteristic manner every discourse was normally accompanied by a practical demonstration to prove the philosophical idea that He was discussing during the Darshana. Continuing in the same strain He called a ma'rgii sadhaka to sit near Him. He touched the A'jina' cakra of that sa'dhaka and then He commanded that sa'dhaka to speak what he was seeing in his mind. The margii after a while started describing. He spoke of seeing mountains around. Ba'ba' directed him to look carefully if there was any other thing in the mountain. He said he was seeing a cave in the mountain. Ba'ba' then commanded him to enter the cave and see. As he entered the cave & saw some human figure. Ba'ba' asked him to go near that person in view and then speak. He said there was a Yogi sitting in Padma'sana with his eyes closed in Dhya'na mudra. Ba'ba' asked him if you can recognize that Yogi. The sa'dhaka waited for while and then said, the yogi looks like Netaji Subhas' Chandra Bose. After that Ba'ba commanded him to enter the mind of the yogi ask him whether he wishes to come back to world? After a while the sa'dhaka replied that the Yogi is refusing to come back to the world. With this Ba'ba' asked that sa'dhaka not to disturb Him any more in His sa'dhana'.

During the Sa'dhana' Vars'a in the year 1969, Ba'ba' conducted the above demonstration. At that time Netaji was living in a Himalayan cave near Tibbet leading a life of a recluse devoted to Yoga Sa'dhana'.

Demonstration of similarity of samskaras between two persons

This demonstration was to reaffirm the ageold saying that there is unity in diversity. The universe is apparently diverse, but fundamentally it is one. Vedas repeatedly affirm that One Supreme Consciousness has expressed into this universe of diversity. (Ekoham' Bahusya'm'). Whether seen or unseen, crude or subtle the origin of everything is that Singular entity.

The differences among the created beings, between the plants and the animals then between animals and the human beings are cause under the influence of Ma'ya, which has created variety of samskara to create differentiation among the created beings.

In Ranchi Ja'grati during His Darshan, Ba'ba' explained that the variety created in the perceptible world is due to differences in samskaras. Essentially there is only one singular entity. That singular entity alone has metamorphosed itself into this created world of variety by virtue of Sadrshyaparina'ma (Homoform or curvilinear evolution) – which causes Kala' Prabha'h (curvatures) thus creating differentiation among the

species created due to their samskara. He further explained that if by any process the samskara of two apparently different things become identical then they cannot maintain their separate identity.

After that he called two margii brothers to sit near him. Then He asked them to sit erect in Padma'sana and to fix their mind on A'jina' cakra. Both of them immediately complied. Then Ba'ba' took away their individual samskara and infused in both of them a common samskar of love for God. Slowly both the margiis started coming close to each other and after a while caught hold of each other tightly and lost consciousness. They had lost any differentiation what-so-ever. They continued in that state.

Ba'ba' then explained that they they are now in two bodies but they have identical samskara. If they are left like this they will not be able to live as two different persons. They will leave this body and will unite as one mind and will be reborn as another person, since they can not have separate individuality.

Later Ba'ba' infused krodha vrtti (propensity of anger) in one and Lajja' vrtti in another person. No sooner Ba'ba' infused two diverse samskaras in the two persons they loosened the grip and shied away from each other. After a while they became normal as before.

Ba'ba' continued to enlighten. There are different kinds of individuals as there are different animals and plants terrestrial or aquatic. All of them have differences on account of their samaskaras imborn or imposed. Amongst human beings some have predominance of fear or shyness in some infatuation and in others hatred and in yet another anger so on and so forth. If Parama Purus'a so desires, then He can infuse the same samskara in all the created beings. In that situation all the created beings will unite to become one. Then the universe of variety will cease to exist. But Parama Purus'a has created this universe of variety. This is Its expressed desire. Hence universe will never come to an end. It will exist for eternity.

Demonstration of Kaunka'lama'linii Sama'dhi

It was one of those blissful evenings in Ranchi. The Ja'grti was full of devotionally charged ma'rgiis and WTs waiting for His arrival. Ba'ba' came and took His seat in His room. Margiis joined Him and sat surrounding Him. Ba'ba' started His discourse. Today he was speaking about the many varied states of experiences which the advanced sa'dhakas realize as they progress spiritually. He called me near His cot. They He touched my Trikuti by His right hand thumb. He commanded me to focus on A'jina' cakra. My mind got instantaneously focused there. Then He directed me to take my mind on the lower cakras. It happened effortlessly and my mind got fixed at an'a'hata cakra.

He also touched my An'a'hata. Then he commanded me to speak whatever I experience hereafter.

As He touched my an'a'hat I started drawing into a flood of divine ecstasy. I also started experiencing a white effulgence encircling my An'a'hata cakra. Simultaneously I was beholding a strange feminine figure looking alike to Kali wearing a garland of Naramund'a (human skull). It was not any fearsome form, but very sweet and divine. As I saw her waves of indescribable bliss flooded my mind and I lost consciousness and entered into Samadhi.

When I came back from the sama'dhi I experienced excruciating pain in my body. I could not gather enough courage to sit down. The residual waves of bliss were still carrying my mind to the other world.

Ba'ba explained to the sa'dhakas that I was experiencing Kaunka'lama'linii sama'dhi. He further added that this was a very special blissful experience which Lord Shiva had imparted to His consort Kali.

Sama'dhi of madhura Bha'va

It was a usual day. We all waited for Ba'ba' to arrive in the Ranchi Ja'grti. There was a sudden commotion as we heard the sound horn of Ba'ba's car announcing His arrival. He straight way proceeded to His room and after the Personal Contacts of new ma'rgiis were over, there He sat on His bed waiting for the ma'rgiis to come in. Margiis rushed to enter His room. He talked on some enlightening devotional topic. This was followed by a demonstration.

He called me and commanded me to sit in siddha'sana. I happily complied. He brought His can stick out and touched my Trikuti with its end. Then He directed me to focus on A'jina' cakra. As He spoke, unaware of what was happening I found my mind has got concentrated on its own on An'a'hata cakra. After a little while I started having a glimpse of the Divine effulgence encircling the An'a'hata Cakra. As I watched the effulgence a blissful experience permeated through my mind. I also experienced as if everything of the world has become beautiful and sweet. I felt that from everything nectar is secreting. A sweet feeling and taste also pervaded my mind. After this demonstration was over I realized how immaculate and flawless & sweet is the spiritual life and its experiences.

Ba'ba' imparts the divine experience of hearing internally AUM-ka'ra Dhvani

Ba'ba' has been infinitely kind and graceful, that is why I have been getting drenched by the incessant rain of His grace on a humble and simple child of His.

Baba very caringly utilized my body and graced many divine experiences like AUM-Ka'ra on a number of occasions to me and also at times in small groups. I have an irredeemable debt to Ranchi Ja'grti. It was here that I was chosen by Him to be His medium to receive many of those spiritual experiences. This sacred place humming with His devotees stayed as a silent witness of those golden moments of my life.

The occasion this time was one of those fine noon time darshana of Ba'ba'. His discourse that day was centring round Pranava Dhvani (AUM-ka'ra). He explained that Pranava is an internal sound. It comes within the range of auditory range internally of those devotees who are able to pull there Kul-kund'alini beyond A'jina' cakra by the grace of the Guru. On hearing the divine sound mind loses itself into the Macrocosm (Universal Mind). The sa'dhaka then loses itself into savikalpa sama'dhi. As He completed His discourse, Ba'ba' called me to come closer. I pushed my way near Him. He commanded me to sit erect in siddha'sana. I readily complied. Then he touched my A'jina' Cakra by His cane stick. By the sheer magic touch of His stick my mind was at once focused there. In a short while I started listening AUM dhvani (sound). The sound was coming in waves. As the sound of AUM started simultaneously I was getting inundated in a flood of unspeakable bliss. I don't remember how long I heard the AUM sound since following this experience I entered into sama'dhi. This feeling of bliss persisted for many days.

An intuitive experience of Divine effulgence (Brahma Jyoti Darshan)

That evening Ba'ba's discourse was on Brahma Jyoti (Supreme effulgence). He said that the path of spiritual sa'dhana' is the path of enlightenment, of knowledge & liberation from all sorts of bondages. Human beings acquire resources to move on that path and also receive the requisite courage and strength only from Him. The Prakrta sa'dhaka surrenders to the Supreme Being. The sa'dhaka implores Him to pull one from darkness to light.

(asado ma sad gamaya,
tamso ma jyotirgamaya,
mrtyor ma amrtam' gamay)

Who is that effulgent entity? It is Nis'kala Brahma. Its effulgence is white. The light of all glittering entities is derived from that Supreme effulgent entity. The sa'dhaka by the grace of parama Purus'a is able to behold that effulgence. That effulgence is called Brahma Jyoti.

Na tatra suryo bha'ti, na candrata'rakah

(the sun and the moon lose their luster before that supreme resplendent entity)

Nema' vidyuto bha'nti, kutohyamagni

(Lightening meets with the same fate what to speak of the fire)

Tameva bhantamanubhati sarvam' (all derive their brightness from His resplendence)

Tasya bha'sa' sarvamidam' vibha'ti (His resplendence alone makes all entities bright)

Like the experience of AUM dhvani, Ba'ba' imparted this awesome realization of Brahma Jyoti darshan on many occasions to me. Once Ba'ba' bestowed the same experience upon me by in Ranchi Ja'grti. He explained that Brahma is the embodiment of Jyoti (Jyoti svaru'pa). Jyoti darshana is tantamount to Brahma Darshana. Some times the Jyoti darshana is also associated with the experience of Divine smell. It simply means that at that point the Lord has shifted His nucleus to that place thus imparting to the elevated sa'dhakas the experience of Divine smell.

During one such darshana in the blissful Sa'dhana' vars'a, Ba'ba' asked me to sit in Padma'sana and contemplate on the A'jina' cakra. I followed as directed and soon found that I was beholding bright white effulgence (Brhma Jyoti) at my Trikuti without any effort from my end. Simultaneously I started experiencing a kind of exaltation. Ba'ba' continued to explain that experiencing Brahma Jyoti is possible only by Divine grace.

I have had the experience that soon after the spiritual demonstration my mind would invariable lose consciousness and I would enter into sama'dhi. I also found that after the demonstration my body used to react and an excruciating pain followed, this would be followed by a lingering euphoria transporting my mind to a mystical land of overwhelming delight. This transcendent state used to pervade my mind making it very soft, peaceful, happy and thus I would lose the awareness of pain.

There were many who enjoyed these demonstrations being performed on me. Some used to sympathize and looked upon me with a sense of awe. There were also a few who would envy. During one of those momentous times, Ba'ba' knowing what was going on in the mind of those persons, once said during His discourse that when some body's mind and body is not prepared, utilizing them for demonstration may be harmful.

Demonstration on my me transforming my mind into a fish (Matsya Bhava)

This was a usual day of His evening darshana in Ranchi Ja'grti. For the devotees it was the most pleasurable experience to witness His supernal charm. Ba'ba' was explaining that the created world is made up of vibration, form and colour. If the wavelength of any object is changed then that object will undergo transformation accordingly.

He then called me to come near Him. Then He touched my Trikuti and commanded 'be a fish' (Matsya bhava). As He spoke these words to my utter surprise I developed the feeling feeling that my body was getting transformed into a fish. I also developed a craving to get into water. I was seized with a strong feeling that I may not survive without water. It was quite a strange feeling. Now my body was twisting involuntarily and I had severe pain all over my body.

Ba'ba' addressed the ma'rgiis that He has changed the vibrations of the inferential waves (tanma'tra) of five sensory organs (viz. smell, taste, form, touch and sound) of Parmeshvara'nanda. This made me think like a fish.

Ba'ba' introduces a new rule in the spiritual world – for Salvation (Moks'a) Service of the created beings is an essential prerequisite like Sa'dhana'

Ba'ba' used to create a mystical environment of unspeakable bliss in Ranchi Jagrti in that blissful Sa'dhana' vars'a. His coming to the Ja'grti used to fill the margiis with a new inspiration. They would instantly get enlightenment. Their mental darkness would get dispelled vanishing doubts and skepticism from their minds (PS no. 1528 - Pra'nera A'lo dhara'ya dha'lo andha tamasari nashii).

The same feelings are expressed in the following Prabhat samgiita

“A'ji Aja'na' pathika eseche,

mukulita latika'ya surbhita malika'ya phuler para'ge bhesheche”

(Today the Unknown traveler has come,

His coming has enlivened the slowly blooming creepers and shrubs,

The garden of flowers is spreading heavenly smell & the pollen is flooding).

One such enchanting evening Ba'ba' started speaking about the requirements for attaining salvation. He commented that Jina'na, Karma & Bhakti (knowledge, action & devotion) all three are essential prerequisites for attaining salvation. The devotees were drinking the nectar of His fascinating charm and bewitching smile with their almost enraptured minds.

He called out the name of one of the da'da's sitting in the audience to come near Him. The Da'da' quickly responded. He came forward & sat near Him keeping his spine erect in siddha'sana. Then Ba'ba' called two other sa'dhakas to come & sit near him. After that Ba'ba' commanded the da'da' to look into the past life of one of the two sa'dhakas. He enquired from them to speak who they were in their past lives & what did they do? As He spoke these words the Da'da' started having the vision of the sa'dhaka's

past life. He saw that ma'rgii was a great sa'dhaka in his past life. He was devoted to intense and austere sa'dhana. His hard and dedicated sa'dhana' got him spiritually elevated. As he grew old, he had a sudden realisation that he has spent all his life in austerities and sa'dhana' but he has not done anything for the service of the created world. He had realized that the world was the metamorphosed form of Na'ra'yana. This shortcoming became the cause of his rebirth. Now he has got immense opportunity to be of service to the world.

Next Ba'ba' directed the Da'da' to look into mind of the other sa'dhaka and to speak about his past life. Da'da' started having a similar vision & got to see the past life of the sa'dhaka. He saw that the ma'rgii sa'dhaka was Karma yogi in the previous life. He spent all his time in the service of the world around. He was empathetic to the suffering of those around him. He devoted himself to selfless service of the needy and the distressed. He served them with complete detachment, yet later he also realized that though he did serve the Narayana in the form of the world, but he did not equally devote himself to His sa'dhana'. This has become the cause of his rebirth as a devotee.

Thus for achieving salvation a balance in Karma Yoga and Bhakti Yoga is necessary. A devotee must remain inspired in the service of the suffering beings. Serving the distressed cleans the mind and makes it humble and pure. S'adhana' is possible only by the humble and pure.

He is always with us

His mere touch floods all mind spontaneously with the supreme beatitude. The Guru is the most compassionate of the beings. He keeps a watch on His disciples to ensure that they move on the destined path & that they do not fall in the trap of ma'ya'.

The incidence described here relates to seminar year 1970. I had just been called back from my Bhopal posting where I worked as a DS and later posted as central social security secretary and relief incharge. We had been given the responsibility of writing down RS guide book. I was assigned the task with two other workers viz. Dada Omkara'nanda and Dada Jyotishvara'nanda. Both of them were very relaxed & carefree persons. But they were in a state of confusion and were losing faith in the Guru.

We were busy writing the guide book in Saccidananda Bhavan which was situated a little away from Ranchi central office. I used to come back to central office at ten in the morning for the darshana of Ba'ba'. These two workers would usually go away the same time for taking lunch in the Curu hotel of their choice. We would assemble in the afternoon after the morning darshan of Ba'ba' was over. At that point they used to tempt me by taking the names of the delicacies taken by them in the hotel and passs acrid remarks. They would reproach me & would blame me for not joining them for lunch. This

continued for ten days. Once they almost forcibly took me to the Curu Hotel for lunch. On our way back we found that dada Vijayananda had been sent by Ba'ba' in search of all of us. He came up to Mahaviira Chowk near the Curu Hotel. After locating us he got visibly annoyed & told us that Ba'ba' was waiting for us in the Ja'grti. We were totally nonplussed. I felt guilty for having submitted to my colleagues guillibles.

It was 2pm in the noon. Ba'ba' was waiting in His room in the Ja'grti. We all three entered simultaneously in His room and sat down after sa'sta'unga prana'ma. Ba'ba' asked one after the other from two of them and both of them spoke blatant lies as replies to His simple queries. Later He told them to leave his room since He had some work with me. When they left the room Ba'ba' asked me why I did not complete seminar in all the dits of Bhopal Diocess. I immediately conceded omission on my part and I received punishment for my fault. I was relieved of my guilt after getting punished. Soon I found that my mind had got flooded with indescribable bliss. His most enchanting affection washed away all my mental filth and I found myself purified. The other two workers did not continue for long & later left the organization within next few days.

Ba'ba' witnesses of our inner most thoughts - Senior A'ca'rya training in Ranchi

It was the month of September of 1969 in Ranchi. The venue was our central office in Piska Morh. I had just returned back to Ranchi after a long journey the same day. I was then posted there as the central social security secretary and relief incharge. Those were the days when Ba'ba' was imparting advanced training to a select group of senior a'ca'ryas. To name a few those who were attending the classes were A'c. Chandranath, A'c. Raghunath, A'c. Dasarath, Dada Shraddha'nanda, Dada Pranava'nanda, Dada Vijaya'nanda. The classes were being conducted from 9am to 12noon and again from 3pm to 6pm.

The then central office secretary da'da' Pranava'nanda was in a hurry to rush for the classes. He advised me to look after the office and left. I was tired of a long journey and was sitting on the verandah in Lungi-ganji. That day I was the only person present in the central office. All the senior workers had left for the classes. Suddenly around 3pm I was thrilled hearing the blowing of horn of His car. It was an unscheduled visit. I had no time to get ready in proper dress and just rushed to the main gate to allow His car to enter the office premises. His car came inside the campus. I ran to open the door of His car and welcomed Him. Ba'ba' went to His office and sat their. I was overjoyed as I was beholding His magnetic charm and waited for his instructions.

Ba'ba' was in a pleasant mood. He enquired from me about the senior a'carya classes? I replied that I did not know since I was not participating. Ba'ba' persisted and kept asking what do the a'ca'ryas speak after they come out of the classes. I said that today I heard them speaking about the most awesome class of the morning. They remarked

that Ba'ba' blessed us as a'ca'ryas but the real training is taking place now. Ba'ba' continued saying that I will enrich A'nanda ma'rga philosophy to such an extent that it will inspire generations of humanity for ages to come. I will also create a strong organization which will be the nucleus of dharma and service of the created world.

His sweet words vibrated my mind and body. I was speechless and looked at His bewitching face. Then Ba'ba' took leave from me saying I must go now the trainee a'ca'ryas are waiting for Him.

Thus Ba'ba' gently took care of the pain in my heart for not being able to attend the classes.

Opportunity to assist Personal contact

I got the opportunity once when Dada Pranava'nandajii was away from office on some urgent work. Being central office secretary no. 2 it was my responsibility to arrange personal contact with Ba'ba'. I read out the list with the addresses of the margiis standing in queue for PC to Ba'ba'. The first name in the list was of a rich middle aged person. Second was a gold medalist student and the third was a smart student from Betiah with leadership qualities. He suggested that the matured rich person may wait for the time being, the gold medalist would devote himself to build his career hence the first choice be given to that student leader from Betiah

As advised by Him I sent that student first. He was a brave young energetic person. He remained for about 40 minutes with Ba'ba'. Ba'ba' told him of his past and punished him for his mistakes Then He took a pledge from him to be an ideal person. He also received lots of love of Ba'ba' and was duly inspired. He came out crying. As days passed a radical change came in the personality of that student. He proved to be a great asset of the mission. He popularized the margii ideals in the schools and colleges. And UPSF got strengthened in that region.

Bhopal posting and DMC

Education, Relief and Welfare section (ERAWS) of A'nanda Ma'rga is the vehical for spreading Neo-Humanist education and to provide relief to the needy in the event of any natural or manmade disaster. I was posted as the Principal of A'nanda ma'rga Primary School and DS Bhopal in 1969. Before leaving for Bhopal, I went to meet Ba'ba' to seek His blessings. On entered His room I did sa'sta'unga pran'a'm & the sat on the floor facing him. He lovingly told me that He was posting me as DS Bhopal. He asked me to start a school there. He said that I was being sent there in advance. Soon He will follow me there. I left him and started for Bhopal.

In Bhopal ma'rgiis welcomed my posting. There was a new but strong team of enthusiastic ma'rgiis. The core team of margiis came from the Government of India Electrical Installation called BHEL. They were actively pursuing for starting the school. A'carya Chitle was also posted there as Suprintending Engineer, Govt of Madhya Pradesh. With there collective efforts, finally we got a plot of land allotted by the BHEL administration. The school was immediately started and soon many children were admitted to our Kindergarten. A'c. Chitle and his wife helped me in every possible way to establish the school.

Soon after I had barely completed three months that I received a call from DPS Central informing me of Ba'ba's coming to Bhopal for DMC. I was thrilled so were the Margiis. They were looking for such an golden opportunity. They could not, however, imagine that the Lord will satisfy their heart's desire so soon. They prepared a detailed plan for making the DMC a grand success and initiated actions to execute the plan. A'c. Chitle's house was very large and it was equipped with all the facility, hence it was decided that Ba'ba' will stay with Chitleji's family. For the DMC programme we were permitted to use the campus of Regional engineering college. It was an excellent arrangement. The campus was well maintained and it was huge. It was the most appropriate location for the DMC function.

Ba'ba' soon arrived in Bhopal. He was received the warm welcome of His devotees who were yearning for the darshana of their most beloved Guru. Ba'ba' was driven to A'c. Chitle's residence. No sooner He arrived there, Ba'ba' became furious and wanted to be shifted to some other place. We could not understand His drama. We didn't know what to do. Chitle family was also taken aback. A'c. Chitle went to Him and requested Him to stay, but He was unrelenting.

We had no clue where we can take Him. He came forward with the suggestion that He would like to stay where the ma'rgiis were staying. We immediately started looking for some avenue and soon learned of a room with attached toilet and kitchen close to the DMC hall. This place was isolated and complete in itself. He was soon shifted there. He returned to His normal enchanting self. The DMC programme was very inspiring and enjoyable. Margiis received His grace and Vara'bhaya.

On the last day before he was to leave, he called me and said that He had kept his promise of following me to Bhopal.

Sa'dhana' Piitha Training (SPT)

Ba'ba' was never short of programmes to keep us inspired and busy. Though the a'ca'rya & whole timer training was ongoing, we were missing some salient point necessary in the life of a dedicated sanyasin. He wanted us to be prepared for the most

untoward incidences. He wanted us to get rid of prestige and arrogance. He wanted us to get rid of shyness and hatred. He wanted us to be prepared to be able to survive in the most difficult circumstances, to be ready for any eventuality.

He gave the new programme called SPT to be followed by all family a'ca'ryas and WTs. The programme briefly required the following.

1. It would last seven days
2. It would be compulsory
3. Before you begin you must leave your personal belongings aside
4. Keep only one langota and a dhoti and a begging bowl.
5. Go out and beg your food (no cooked food to be accepted)
6. Say only Hari 'AUM tat sat' when you visit any body's place for begging. No talks. Maintain mauna vrata
7. If for some reason you have to speak something to somebody, donot accept anything from him/her
8. Cook your food from whatever you get only once
9. No utensils are to be used except an earthenware pot
10. Spend all your time in Kiirtan/sa'dhana
11. Use mud for cleaning your body and datuna (Neem or babula) for cleaning your teeth. No soap or toothpaste. No oil. No shoes. No comb. Sleep on the floor.
12. Under no condition you are to retaliate, even verbally, if abused or scolded on your begging tour. Keep your calm. Hari Aum tat sat is your only weapon
13. In the evening go out for Dharma pracara

I proceeded to Va'ranasi for my SPT from the Ranchi central office where I was posted. I was accompanied by Dada Ra'ma'nanda, Parashiva'nanda. Dada Dhiira'nanda and Prajina'nanda joined me in Varanasi training center. We followed the system as prescribed by Ba'ba'. We were given the prescribed uniform for SPT. Everyday in the morning we would leave at 7am and go to the nearby villages for alms. We would return back and cook our meals on the fire to be prepared by each one of us. We did not know how soon the time passed. We used to go to the bank of Ganges and enjoy watching the waves and doing sa'dhana' there on the Dasha'samegha Gha'ta.

Once while on the alms tour I had to face a person who scolded me without even looking at my face. I immediately left that place. It only made me more humble and devoted to Him. The evening time doing Dharma Pracar was very stimulating. We used to meet many good people. A few came forward to get initiated. SPT is great boon for developing devotion, humility and surrender.

Seminar

After my eight months stay in Bhopal as DS, I went to Ranchi to attend RDS. It was there that I was transferred to center as Social Security Secretary. Those days Ba'ba' had initiated seminar programme. All the workers and margiis throughout India got themselves busy in making the programme a success. Seminar was declared as compulsory duty for every margii. Occasionally Ba'ba' also visited the venues of seminar in the vicinity of Ranchi. The popular seminar slogan was – seminar seminar more and more seminar, still more seminar, village level seminar. Later Ba'ba' included seminar as a part of sixteen points to be followed by margiis.

I was new as a central worker. There Ba'ba' gave me the responsibility to organize the seminar in Maharashtra state with Dada Jagdihsva'nandajii as the trainer. Before departing for their respective seminar destinations all of the central workers were summoned to Ba'ba's room. Ba'ba' told us that in the provincial seminar the minimum strength should be 500, otherwise defaulters will be punished. Those days there used to be one seminar for the entire state. This used to be followed down to the village level. The state level seminar in Maharashtra was scheduled to take place in Kolhapur situated in the western Maharashtra. Organizing 500 margiis for the seminar in Maharashtra was quite a task. I visited each district headquarter with widely distributed pockets of margiis in the vast territory of the state. I met the margiis individually. I tried to convince them and inspired them expressing the urgency assigned by Ba'ba' to attend the seminar. With the constant persuasion & hard work of 2 months we could barely manage 350 margiis to attend the seminar there.

I returned back to Ranchi after the seminar was over. The organizers and the trainers of each state level seminar stood there before Ba'ba' and read out their reports. Those of us who could not manage 500 margiis to attend the seminar were reprimanded. The punishment to the defaulters was to do 1000 sit-ups in 24 hours. We got perplexed. We had no option except to follow His command. Most of the workers left after finishing in between 50-100 situps. The condition of dada Shraddha'nanda was indeed deplorable due to his advanced age. I felt pity for him. I took Ba'ba's instruction like Mantramu'lam. I continued even after coming out of His room. Those days I would go to the near by cremation grounds for Kapalika sadhana' almost every midnight. Before my Ka'palika sa'dhana' I completed my share of 300 situps. As soon as I completed the situps I heard a loud voice of Pranava'nanda jii calling me that Ba'ba' has condoned my punishment

and that I should not do situps anymore. But by that time I had already completed 700 situps. For frail and weak body of mine what I had already done was too much. My nerves got stiffened and I started experiencing excruciating pain. I cried out due to the unbearable suffering. I could neither stand nor sit. Even morning duty became a punishment. I felt vexed at the unkindness of my Guru. The same day Ba'ba' called me and affectionately consoled me by saying that you should not have done so many situps. I was further confused hearing those words. But my physical condition became deplorable day by day. I used to cry in pain and curse Him like a child in rage for causing me so much suffering.

Once again I was given the responsibility of organizing a state level seminar in Ajmer in the state of Rajasthan. In the same condition I proceeded to Jaipur. But my physical condition did not show any signs of improvement. I had difficulty walking and could not sleep. A'c.Manohar Lalji's family served me well. But to meet the ma'rgii I went to Tonk. After I arrived there my condition further deteriorated. I was treated in a hospital by a renowned doctor who operated the the hard tumour in my thigh. In a matter of 25 days I was cured of the trouble. But those 25 days were spent like hell.

From there I returned back to Ajmer and got busy with the preparations of seminar. I started begging Ba'ba' to relieve me from the central posting. I was finding it difficult to discharge my responsibility as a central worker. As I was thinking, about the same time Dada Sada'nanda arrived there from Ranchi to relieve me. He was sent by Ba'ba' and advised me to immediately proceed to Ranchi. I handed him the charge of seminar and left for Ranchi.

After my arrival in Ranchi, Ba'ba' called me in His room and filled my heart with unspeakable love and bliss. He told me that when you used to call me crying out miserably in pain, I would feel your pain. Saying so, Ba'ba' embraced me. This made me cry uncontrollably like a child. He said that each person must subserve its own samskara. Then He told me that He was now posting me in a cool city in south. I was delighted at everything that was happening.

His concern and seriousness about seminar was evident from the fact that He made it a condition that whosoever wants to attend His darshana or accompany Him in field walk must have necessarily attended seminar.

Initiation of Ba'ba' Na'm Sam'kiirtana in Amajharia, Netrahat near Ranchi

It was the year of 1971. Continuing the tradition of designating each year by a new programme, the year 1971 was called the the year of UKK (Utilisation, Katha, Kiirtan). It was on similar lines like the year 1970, which was designated by Seminar and the year 1969 as Sa'dhana' Vars'a - the year of spiritual bliss. Ba'ba' gave practical

demonstration of the theoretical concepts of A'nanda ma'rga philosophy. Through these demonstrations He provided the much needed scientific foundation to the spiritual sa'dhana' (practices). He demystified the esoteric elements of Yoga and Tantra Sa'dhana'. His demonstrations freely gave experiences of many different kinds of Sama'dhis – a number of them being quite unknown even in the sa'dhaka sama'ja.

Until October 1970 there was no system of Kiirtana in A'nanda ma'rga. Although Ba'ba' did speak of the importance of Kiirtan. He used to quite often quote some of the few Samskrta shlokas widely known as Shiks'a'st'aka (eight shlokas composed by Maha'prabhu) of Caitanya. Spiritual life of those days demanded strict discipline and austere and rigorous life at the command of the Guru. As an aberration there were many dogmatic practices in vogue among the disciples. There used to be absence of a rationale behind sa'dhana' practices. Ba'ba' inherited this social spiritual environment. Accordingly He gave revolutionary new concepts to liberate human mind from the untoward influences of superstition, blind faith and dogma. But this was not enough He intended to suffuse the human mind with sweetness of devotion. It was precisely this background in which the philosophy of A'nanda Ma'rga was born.

It was the month of September of the year 1970. I was then posted as a central worker in Ranchi. Ba'ba' desired to proceed to an isolated place with His family for a break from His daily hectic schedule. GS dada Sarveshvarananda with the help of other margiis and workers located a place in the forest having natural scenic beauty and lovely weather. Ba'ba' immediately agreed and the government guest house of the forest department in that location called Amajharia was reserved for Him. He had desired that His visit to the picturesque surroundings where He was going to stay be kept secret to avoid crowding. Then Ba'ba' proceeded with his family to the designated location. His PA and a few of the security guards also accompanied Him. Howsoever, Dada's might try the place did not remain hidden to the margiis.

Some of them reached there and stayed there to enjoy Ba'ba's morning and evening walks in that beatific and adorable natural surroundings. Ba'ba' continued to stay there and enjoyed the picturesque natural setting.

It was one fine evening of 7th October. Ba'ba' was sitting on a raised floor with a few devotees outside the guest house. It was a peaceful mystic evening. An unparalleled natural beauty surrounded the place. All of a sudden Ba'ba' broke the silence. He pointed to distant sky and said that it appears as if a sweet melody is being carried by the air. Try to listen carefully. After a while all the sa'dhakas present there in one voice spoke atonce in amazement. They told Ba'ba' that they were hearing the melody of 'Ba'ba' Na'ma kevalam' samkiirtana. To this He asked whether they knew from where the melody was coming and who was singing? No singer was however visible. Ba'ba' continued and told them that the melody of Ba'ba' na'ma kevalam' kiirtan was emerging

from the space above. The kiirtana is being sung by the Gardharvas and Kinnaras. Some time elapsed while all enjoyed the music of Kiirtan. Ba'ba' broke the silence and asked how would it be if a 24 hour Akhanda Kiirtana was arranged tomorrow. All those present instantly agreed.

A'c. Brahmadevajii – a local family a'ca'rya was one among the many sa'dhaka's present. He took up the task of informing margiis living in the towns and villages near Amajharia. Next day there was a flood of ma'rgiis arriving there. As directed by Ba'ba' a Pandal was erected and the place was decorated by the forest flowers and mango plant leaves. Kiirtana was started with full devotional fervor. Ba'ba's presence added to charm of the sweet na'ma kiirtana. Margiis sang the kiirtan in their local tunes and devotional flow was created affecting all. About same time as the kiirtana was coming to an end, the kiirtan at that moment had reached its crescendo, suddenly to everyone's surprise Ba'ba's car started to move towards the Kiirtan Pandal. Ba'ba's son Gaotama who was playing outside saw the car moving. He shouted and called out Ba'ba' name & His PA rushed in. Ba'ba' looked at the car and the all of sudden the car came to ahault. Later He told the ma'rgiis that impelled by the attraction of the Na'ma Samkiirtana even the crude objects, plants, animals, birds are vibrated. None can remain unaffected.

Ba'ba' returned back after the akhanda kiirtan to Ranchi. It was the evening darshana on the occasion of Diipavali, Ba'ba' said now the Kiirtan has been empowered for the spiritual benefit of humanity. It is your duty now to propagate Kiirtan throughout the world.

Bangalore posting

I could not bear the pressure of work in the centre. Especially the punishment meted out for faulting His dictum turned out to be too much for my frail body. I started mentally requesting Him to relieve me from the central posting to some peaceful location where I could work for His mission. Being the Lord of mind He got me relieved from the seminar duty when I was in Ajmer, Rajasthan. Dada Sada'nanda was rushed as my reliever to Ajmer. Dadajii carried a message for me to immediately return back to Ranchi. I reached there. At Ranchi I was fortunate to have received His affection & then I was transferred to Bangalore as DS.

Yatishvaranandajii was my RS Bangalore. He got me introduced to the local margiis and briefed me with the activities of the diocess. Afre arriving there I realized as Ba'ba' had said that I was being transferred to a city with airconditioned climate. Bangalore was exactly like that. The temperature there did not vary much throughout the year. It was a beautiful town. Each loacality has its garden.

At that time a A'nanda ma'rga school with 60 children was being run in a rented place in Rajaji nagar. There was also a children's home with 10 children. There was a pressure to pay for the monthly rent of the school building. For the maintenance of the children's home I contacted local bodies and thus I was able to arrange for sufficient food, vegetables and fruits for the children's home.

After some time dada Keshva'nanda jii was posted there as RS replacing Yatishvaranandajii. Dada Tadbhava'nanda, Karuna'nanda, Nigma'nanda and Maha'viira'nanda were already posted there. We all enjoyed being together. Our relationship with the margiis was also very cordial. Lalji and his family, Sarvashrii Ramayyajii, Dr. Chari, Venkateshmurti, Kamleshjii and Ramujii were very devoted margiis. They were always ready to help. Every month we used to feed 250 poor people. There was good margii activity. Many new people came in contact.

However, there was monthly burden of paying the monthly rent of the school building. A ma'rgii had donated a piece of land near the HMT campus. I decided to build Ja'grti on that plot got into the construction. By His grace and my firm determination the Jagrti was built in record time. Ba'ba' was very happy to learn about it. But my hard work had its toll on my health. I developed severe stomach trouble. I got Ba'ba' advice for my illness and used the herbal medicine which cured me of my problem. Once again after a year or so I fell ill. I had excruciating pain all over my body. I had difficulty even in getting up from the bed. RS dada & REI dada took me to Patna for treatment. I got cured but it took two months of long drawn treatment. After I became healthy Ba'ba' transferred me to Bhagalpur as DS. I joined my duty and relieved Dada Tyagiishvara'nandajii. I continued to enjoy the bliss of His compassionate grace.

Bhagalpur posting

I came to Bhagalpur as DS in 1972. Bhagalpur has been a leading town in the history of A'nanda ma'rga. It was the home of many senior family a'ca'ryas viz. Pashupatijii, Anantajii, Krsna'nandajii, Gaoriishankarjii and Deviicandajii. All these A'ca'ryas worked hard for the propagation of the ma'rga. I was lucky to get to meet them and to know many of their experiences of Jamalpur days. Being the biggest town of Aunga Desha near Jamalpur, Bhagalpur has been Ba'ba's Karmabhu'mi. In Bhagalpur Diocess there were 60 active units of the ma'rga. I would travel the year round in these units to meet ma'rgiis and to convey the new programmes given by Ba'ba'. At that time Ba'ba' was in Bankipur central Jail, Patna. Moving in the units was quite a hard work. Anandapur High school was also located in this diocess. Ba'ba' had personally contributed to initiate the school project. This place was the attraction of margiis. They used to get their children admitted in this school hostel for studies.

Our school was located on the banks of Ganges near Sundarvati Mahila College. It was good location for sa'dhana'. Being an old margii center it had many opponents. It was considered to be a problem diocess in the organisation. I learnt from keshavanandajii that I was deputed by Ba'ba' to speed up the margii activities here. It was a very comforting news for me since Ba'ba' considered me capable of improving the situation here.

In Bankipur jail Ba'ba' was poisoned by the CBI. In protest Ba'ba' went on long fast. Margiis and workers were worried about the ill effect of His fast on His weak body. Some of the Sanyasins committed self immolation in protest for His release. Those who took recourse to such acts were great devotees of Ba'ba'. They were Dada Divya'nanda, Dada Dineshvara'nanda, dada Atula'nanda and many others.

In protest of the constant harassment of Ba'ba' and other margiis in the Jail the margii society turned aggressive. A stream of protest rallies and meetings took place in Delhi and Patna against the state and central government. I participated with hundreds of ma'rgiis in a rally to gherao Bihar state assembly and chief minister's residence and in Delhi to protest before the Parliament and at the India gate.

Once after the poisoning of Ba'ba' in Bankipur Jail, we took out a protest rally and gheraoed the residence of the Chief Minister Abdul Gafoor Khan. He ordered police lathi charge on the unarmed workers and the ma'rgiis. Workers and margiis were badly beaten and more than 80 of them got arrested on false charges and jailed in Fulbari Sharif Jail. Interestingly we symbolically established sadvipra sama'ja in the jail and published a daily news letter. Later we were released on bail. The compaign to get the release of Ba'ba' was accelerated throughout the world. Many workers immolated outside India. This was a period of terrible turmoil in the organization.

When dada Dineshvara'nandajii immolated himself in Old forte of Delhi, thousands of margiis rallied in New Delhi. Dada Dineshvara'nanda jii was my intimate friend. He was a dedicated worker and was bent upon getting Ba'ba' released. A day before he presented me his bag saying please keep this as my memorabilia, since this may be our last meeting. I took it lightly but comforted him. Next day when I heard of his self immolation, I regretted for not having been serious. The same thing repeated with Dada Atulananda almost the same way. I had no clue. Dadajii was determined to immolate himself. He wanted to highlight the suffering of Ba'ba' in incarceration perpetrated by an enmical government. Contrary to the Indian government the governments around the world were moved by the sacrifice of these great devotees of Ba'ba'.

About the same time dada Tya'giishvara'nandajii was arrested in a conspiracy in Bhagalpur and was jailed. At the instance of CBI he was subjected to inhuman torture. Ultimately he died in jail. Ba'ba' was pained at his death. He did mention that

Tya'giishvara'nanda's was brutally tortured. Every part of his body was impaired as a result of the brutalities of the police. I was equally broken on hearing the news of his death. I lost my composure and my own confidence was badly shaken. I haven't known anyone like him. He was a dedicated but a silent worker. One rarely comes across such a man of extraordinary integrity.

During my posting in Bhagalpur I had desired for a DMC there. But it did not materialize until 1979 until Ba'ba' was released from Jail. I was sent by Ba'ba' as the central organizer to Bahgalpur to arrange the DMC programme there. Thus He fulfilled my desire. We received Ba'ba' with our hearts filled with devotion and love in Madhu Aungika'-Marga Guru Residence.

After Bhagalpur I was posted in Lucknow. Before joining my next posting, I got to meet Him in jail. I was deeply moved seeing the physical condition of Ba'ba'. He caught hold of my hands and raised my spirits. He asked me to keep coming. I wanted see Him released.

In Bhagalpur I had many new experiences. I watched the turmoil in the organization. I continued to receive His grace.

Arrested in MISA & lodged in Lucknow prison

During my posting in Lucknow as DS, the then Prime Minister Mrs Indira Gandhi promulgated emergency on 26th June 1975. The leaders of opposition parties were arrested and put behind the jail. Organizations like RSS & Jamaite Islam & A'nanda Ma'rga were banned and their volunteers arrested. It was a very critical situation.

It happened to be a morning that fateful day in my school. I was busy admitting new students to my Kinder Garten school. Suddenly I noticed that the school building was surrounded by the police and then the police came inside the campus and arrested me under DIR. I was then sent to Lucknow central jail. There I met many margiis and volunteers of other organizations and leaders of many political parties. Slowly I got reconciled to the idea of living in jail. I developed friendship with other inmates and started helping each other to live comfortably in the Jail.

Then all of a sudden 14 of us alongwith some of the top leaders of the political parties were transferred to Adarsha Jail of Lucknow. All of us were afraid of what the government could do to us. Many had lost hope of future. People got worried about their families. I took upon myself the duty to console them. I used to tell them that we have not committed any mistake. One day the sins of those who are behind these wrong doings will be exposed. Then we will be released. I realized that for want of faith in God,

the leaders of whatever background or social status they might have come suffered from fear of an uncertain future.

I found the opportunity as God sent. Hence I devoted myself in intense sa'dhana', & kiirtan and a'sana. The deputy suprentendent of Prison assigned me the responsibility of the library. This gave me an excellent opportunity to study many good books. One day an interesting event took place. I was meditating under the Banyan tree near the site where prisoners used to be hanged. While I was in deep meditation a squirrel fell from the tree on my lap. The sudden fall of the squirrel caused my body to react violently and I jumped of my on accord.. One of the security man who was watching me later told other jail staff that swamijii's body was levitating in air during sa'dhana'. This news spread everywhere and the jail staff and prisoners developed respect for me. Generally all the people in the jail were much impressed with my way of life of sa'dhana', sattvika food habits and sweet & smiling behavior. The jail doctor was also impressed with me and o recommended special diet for me.

Later after lifting DIR the government enforced MISA on us. Other political leaders were enjoying B class facility exluding we Ma'rgiis. This frustrated me. I thought and prayed Ba'ba' that thse leaders have their relatives to support them from outside but for us you are the only one. Without my asking one of the senior political leader approached the collector for upgrading me to B class. In a matter of three days I also received the same facilities. This is how Ba'ba' took care of his children.

After a few days we were again shifted to the City Jail. There were about 600 political prisoners there. We used to live helping each other. Occasionally we will put pressure on the jail administration to provide us more facilities. Many people got impressed by A'nanda Ma'rga way of life and got initiated. We were eight margiis in the jail and were regular in daily collective meditaion and kiirtan. The surplus food saved by us on the fasting days was used by us for Narayan seva of the poor prisoners every month. Workers of socialist party, BLD and an old congress man would join us in nagar kiirtan regularly.

We were now receiving news from outside, including Ba'ba's Vanii. Then one day we received the disturbing & shocking news that Ba'ba' has been awarded life imprisonment. Soon after I had a dream in which Ba'ba' appeared and consoled me and told me not to worry.

After a few months emergency was lifted and Mrs Gandhi announced for parliamentary elections. Soon we were all released from jail. After that we got busy with recovering our properties from the government custody. The leaders who were with us in the jail helped us whole heartedly in this new situation. Our disciplined life style had a overpowering influence on the minds of the party workers and leaders who watched us in the jail.

Tantrika Parvas

This scary event took place in Lucknow - the capital city of Uttar Pradesh. Even now when I remember that incidence, it sends a shiver down the spine. It involved two of us there, me & another a'carya. It was time for our Ka'pa'lika sa'dhana'. We wanted to go to a remote cremation ground this time.

We came to know of one such location and decided to reach there. We were staying in the A'shram of a famous Ta'ntrika. From his A'shram that place was completely isolated and also quite far away. It was the darkest night of the year being Shravani Purnima'. Tantrikas have a special significance for the day. Obviously most Tantrikas chose to visit the burial ground to perform their rituals for attaining some occult powers.

Although the weather was unfavourable, we proceeded to the destined place on our bikes. It was a windy night. We reached there about half an hour late. It had just started to rain. Just about the same time we sat down for our sa'dhana', Dark clouds had already gathered all over the sky and to make it worse there was heavy lightening. Despite the weather being unfavourable, we were determined to complete our night sa'dhana'.

As we were approaching the cremation ground, the whole place gave a scary look. Eerie sounds filled the area. It made us shiver in fear & we moved while catching hold of each others hand out of that macabre fear. Though we were afraid, we somehow tried to keep our poise. We talked between us about the haunted place & the petrifying experience we were having. We had a premonition that unknowingly we getting caught into some wicked plan. Just when we were talking we once again heard those bizzare voices. That horrendous environment almost paralysed us. We felt helpless and could not decide what to do next. However we took a firm resolve that come what may be we will not return back and would stay together & face the situation. Even if we were to meet with death here as a result of some wicked Tantrika's heinous plot, we would prefer to die rather than quit. Our first reaction out of fear was to return back but then we regained faith in the supreme power of our Guru. We were determined that it would be cowardice to return and would reflect badly on us. Thus we resolved to move on and be ready to face the consequences. We had the internal conviction about the certainty of receiving Baba's help, when needed. Having thus resolved, we kept walking towards and eventually reached the center of the burial ground.

It was here that we found ourselves surrounded by hundreds of bizarre beast like humans of huge size and shapes. All of them carried iron rods. These beastly beings were running here & thither shouting at the peak of their voices calling out to catch us

and kill. This scene was unimaginable & unbelievably scary and made us involuntarily tremble & thus lose our composure in gruesome fear.

We had learned that the location was notorious for the thieves & dacoits. Looting was a common occurrence there. We thought that the villagers must have mistaken us for those dacoits and we must face them with a cool mind. We have to convince them that we are sanyasins having come over here for our spiritual practice. But none of those spooky looking people were coming close to us. They were just running all over and screaming at high pitch. This continued for an hour. Our time for sa'dhana' was fast passing, but we could not possibly decide to perform sa'dhana'.

Tired of all the sinister scenes we sat on the floor. Those spine chilling screams continued albeit infrequently. After a while lo! we started to behold a group of unusual looking people moving on bikes. These people vanished after crossing the railway line into the nearby village. This bizarre scene continued for half an hour. Still unsettled and undecided we realized it was getting 2am and we were left with little time for sa'dhana'. At last we resolved to first finish the most important task in hand one by one. I took the position as a guard and the other a'ca'ryajii went for his sa'dhana'.

After he had somehow peacefully finished his sa'dhana', I proceeded to perform mine. No sooner I started my sa'dhana I found myself engulfed in a cloud of wild fire. Now I was seated in the midst of fire. But to my surprise there was no burning sensation. I was afraid of fire but slowly regained confidence as I kept repeating his name. I soon realized that it was all a play of some avidya' ta'ntrika who intended to scare me away. There was no way fire could be produced in such a desolate place. As I was thinking, the fire soon moved and vanished into the village nearby in a matter of ten minutes.

As I was overcoming from the shock of the fire vanishing, I heard the sound of ripples of water, as if, somebody was swimming in the nearby pond. It appeared to me that someone in white kurta pyzama was swimming in the pond. Slowly that that wicked person, perhaps the ta'ntrika started to move towards me. He stopped at a distance of about 30 feet and in then lo! he has turned himself into a ghastly buffalo of huge shape & size charging towards me. It pointed its angry eyes towards me and started digging the earth by his foot & screamed at me but did not move. My whole body trembled involuntarily out of deadly fear. I thought for a while that if the buffalo were to really charge on me it would surely kill me. But then all of a sudden, I don't know, I regained composure and confidence.

Having failed to scare me away this way, the ta'ntrika started mesmerizing me by applying the force of his wicked incantations. He changed many poses & postures & tried to cast his spell to intimidate me. This caused burning sensation all over my body. However in the midst of all this trepidation I continued to receive His grace and went

ahead to complete my Sa'dhana'. But as I was done with my sa'dhana' I found myself virtually paralysed with fear unable to move out of that place. Then I thought of singing kiirtana. Hearing my kiirtana the other brother Dada, who was waiting for me at some distance, came near me. I enquired from him if he did notice any abnormal thing. He quickly replied that he had seen me engulfed in fire.

As we travelled on our way back from that desolate place towards the town, on the way we met a group of people on the road side. Pointing towards us they were talking amongst themselves that these monks possessed occult powers far beyond all of us. They have must be the disciples of a powerful guru. They kept speaking that they failed to scare us despite using all their tricks. On our part all through our stay in that eerie place, we were terribly afraid and anxious, kept trembling in fear.

Soon after I let the incidence known to Dada Shraddhanandajii and requested him to mention it to Baba, when Ba'ba' was informed He simply laughed at the whole thing. After a few days I got the chance to see Him in person. As I got up after sa'staunga prana'ma, He inquired about the incidence. Then He told me that the Avidya Ta'ntrika that night had used all his force and even applied his macabre Ma'ran'a mantra to kill me, But he could not cause any harm since you all are vidya' sa'dhaka.

Cremation grounds of Bhopal

In Bhopal there occurred another incidence of similar nature. Our organization was developing fast there. Many young and enthusiastic margiis were actively working for the organization. They had developed interest in learning more and more lessons of sa'dhana' and other practices. They also knew my schedule of visiting the cremation grounds every new moon day. We had our school in the newly constructed area of Hindustan Electricals Limited. The cremation ground was located 10 kilometer away from our school on the other end of the town. We had to cross the town to reach there. Margiis used to regularly accompany me for night pu'ja'.

This was an absolutely desolate cremation grounds in the woods. It was a dark drizzling night. In all we were holding on to a bizarre & scary sight in the cremation grounds. As I started my sa'dhana' after encircling the margiis who ahd accompanied me to the cremation grounds that night, I heard a very tormenting scream from them. It was, as if, someone was being offered at the altar by slitting the neck. Margiis were imploring me to come to help & save them.

I got very disturbed and could not quite understand what exactly was happening to them. But without losing time I rushed to the spot where I had left the margiis. No sooner I reached there margiis were in a strange & pitiable condition. All three of them

were inside the circle holding each other tightly. They were terror struck and their body was involuntarily trembling. They were damn scared. I assured them not to worry since I had come. They were unable to speak even when I repeatedly asked them about the happening.

After a while having regained mental balance by my assurance and inspiration they, somehow, became normal. One of them then narrated the full account of the event. As soon as I had departed from them for my sa'dhana', they sat down facing each other inside the circle. All of a sudden a large piece of flesh fell between them from the sky above. It got divided into many pieces on its own and each one started jumping and dancing producing eerie sound. This scared them and they got virtually petrified and started crying and screaming. They trembled in ghastly fear & lost sense.

As we were entering the cremation ground we did experience heaviness and a strange vibration. We saw a bull bellowing and making muuhhhrrr sound in the far corner of the cremation ground. But we ignored that incidence. Perhaps some avidya' ta'ntrika was performing his ta'ntrika rituals there. He might have felt uneasy in our presence wanted to scare us. He must have used his avidya' powers to create the eerie & scary incidence. He wanted to some how drive us away from the cremation grounds.

Incidence in the office of the Bhopal City Police Superintendent

I am impelled to write some of these occult experiences. I feel inspired as I write down these real happenings to encourage sa'dhakas on the path of spirituality. We are the fortunate recipients of an advanced esoteric system of Tantra sa'dhana – which aims at the expansion of human mind and liberating it from the all sorts of weaknesses & bondages. Who-so-ever practices this system of sa'dhana' diligently is sure to experience bliss. There is no doubt that one acquires tremendous mental strength and strong determination as a result of regular practice. This not only makes us physically & mentally strong but also protects us from the evil forces.

My early life was strewn with many physical and consequential mental ailments. But my spiritual urge brought me in close company of a family a'ca'rya of A'nanda Ma'rga. He inspired me on the spiritual path.

In just about a month's time there occurred certain noticeable healthy changes in my persona. This change was at once remarkable. To my surprise not only that I got rid of my physical ailments but my mind also became strong. This encouraged me to sincerely continue with my sa'dhana' with renewed strength. I also started experiencing spiritual bliss. My mind became sharp and relaxed. I used to spend all my free time for propagating dharma sa'dhana'.

Now as a worker I was appointed as the diocese secretary of Bhopal. This was my first posting in ERAWS department. I was asked to start a school there. By His grace I started a new school in HEL city area. There I was able to organize an active & strong team of margiis in Bhopal. Then I learned from the central office about Ba'ba' arrest in Coochbehar by the CPM government of West Bengal. Margiis were shocked to learn on learning the unexpected news. We decided to organize a peaceful resistance and a public meeting to decree the undemocratic action of dictatorial Marxist's government. About the same time due to some other incidence there arose a tension between the Hindu and Muslim communities of the town. Hence we were not permitted to organize any public meeting.

After a few days I accompanied a local margii to visit the office of the police superintendent to apprise him of the need to organize a rally and sought his permission. We assured him that it would be a peaceful event and will not create any law and order situation.

The police officer was an experienced and impressive person. He was also the president of the Mesmerism Society for Western India established by the famous magician Shrii PC Sarkar. Seeing me in orange clothes he started praising his own knowledge of Tantra. He said that he can control anybody by the strength of his black magic.

In the beginning of my talk with him I was disinterested and thought it fit not to get involved in his bashful utterances. My purpose of visit was to get his permission for the rally. But he continued to push his own ideas of Tantra, Hypnotism and magic. I continued to listen to him in rapt attention. In the end I expressed my opinion and said that I do not believe in avidya tantra since it is a waste of time and does not lead to higher spiritual attainments. Suddenly I noticed that his face has turned red and he became serious because he considered my statement as a challenge to his belief.

I was seated in front of him and a margii brother was by my side. He started his process to hypnotize me. His body began trembling and he started to sweat profusely & his face turned yellow. It appeared as if he was totally exhausted and had exhausted his powers in vain. I felt pity on him and wanted to help him regain his lost poise but he felt dizziness. I got alarmed at the bizarre incidence. After some effort he regained his composure and sought forgiveness for his intrusive act. I was quite surprised at the incidence.

Later he called his assistant and dictated an order to allow us to hold a rally. He also invited me to come and visit him at his residence. After two days a deputy superintendent of police who was initiated by me happened to meet the police superintendent. He told my shiks'a' bhra'ta' that he had tried in vain to hypnotize me but

suffered the reaction out of his uncalled for act. He also mentioned that A'nanda ma'rga sa'dhana' is very powerful. I felt immensely satisfied and thought how lucky I was to have received such a divine gift from Baba without any special achievement to my credit. Also that He is always there to covertly or overtly help us, whenever we need him to fight over our internal or external weaknesses.

Meeting a avidya tantrika during my student life.

I was initiated as early as 1961 in the beginning of my student life in high school. My a'carya was a family man. He was a brilliant person and a multifaceted personality. His Guru bhakti was adorable nay, unparallel. At the time of my initiation he had told me that I was fortunate to have become the disciple of Taraka Brahma. My acarya was himself a Ka'pa'lika and also encouraged me to accompany him to the cremation grounds in the night. After coming in his contact the fear of ghosts and spirits vanished from my mind.

I used to the cremation grounds with my friends to perform sa'dhana'. This way I was gaining self confidence. One day a known avidya tantrika challenged me that I will not be able to burn the stove today as he would not allow that to happen by his powers. But contrary to his claims I was able to burn my stove and prepare my breakfast which quite surprised him. Later he got initiated and lost all his powers achieved through avidya tantra.

Strange experiences in Hazipur cremation grounds

This relates to an incidence of 1966. I had become an avadhu'ta. Being new to Kapalika sa'dhana' i had some an extra zeal for the practice. I enjoyed doing kapalika sa'dhana in a isolated cremation grounds whenever I found an opportunity. I was then posted in north Bihar. A senior family aca'rya & kapa'lika Ksitija jii was then posted in Hazipur.

On a new moon day, I accompanied A'c. Ksitij for kapalika sa'dhana' to one Kanaora Ghata cremation grounds. In that place another avidya tantrika was already busy performing kapalika sa'dhana'. As we arrived there he started using his powers to drive us away. We then got seated on the banks of Narayani Gand'aka River & started performing our sa'dhana'. He tried to apply his powers by splitting the mud on the bank of the river before us. This disturbance, however, did not scare us and we managed to finish our sa'dhana'. As we were continuing our sa'dhana' in our usual manner, we noticed that he felt frustrated as his occult powers could not harm us anyway. Finally he left the place. This was another occassion when we found that the Avidya' ta'ntrika could not harm us.

On our way back to our surprise we noticed a mad elephant, has broken its chains, was running trumpeting in and around the dense forest. It was indeed a scary sight.

Meeting Roti Ba'ba'

I remained confined in Lucknow Jail for 18 months during the period of emergency. I was released in April 1977 soon after the emergency was lifted. There after I had the previledge of meeting two elevated & well known sa'dhakas.

One of them was Roti Ba'ba'. He used to reside in a remote village of Raibareilly. He was known among the people of that region as Subhash Chandra Bose in disguise. A new ma'rgii told me about him. Since then I wanted to meet him. Later I went with that margii brother and A'c. Apurva'nanda Avt. We proceeded to his place to meet him. It was in the early morning when we arrived to his ashram. We introduced ourselves as the sanyasins of A'nanda ma'rga. He welcomed us and took us in his personal room. We also got ourselves seated in front of him after offering our prana'ma to him. He started profusely praising Ba'ba' and said that you are very fortunate to have got A'nandamurtijii as your Guru. He will be very soon released from jail. None can confine Him there. You should remain sincerely devoted to Him. Your life will be successful.

He offered us fruits and sweets for the breakfast. He was very tall man (six feet plus) and handsome person. He was famous among the village people as a great Yogi. He used to stay bare body. The people of that area used to respect him and thought him to be Netaji Subhash babu.

Meeting the famous Avidya Tantrika Bhu'tana'tha

Bhu'tana'tha then used to stay in his huge ashram near Chinhata a little away from Lucknow town. He was one among the famous Tantrika Gurus of his time. Shrimati Indira Gandhi also used to visit him occasionally. Swami Bhu'tana'tha had given a gardand of Rudraksha which used adore her neck. Many known political leaders like her and also some senior government officers were regular visitors to his ashram.

I reached his ashram alongwith Apurva'nandajii and sandiipa'nandajii. On being informed of our arrival he took us to his personal room and was very courteous and respectful towards us. He enquired about our welfare and also about Ba'ba'. We also paid our respects to him and thanked him for meeting with us. He said that your Guru will be released from the jail soon.

Looking at the two avadhutas accompanying me he said these persons will not continue for long with the Guru and will desert Him. I found his talks quite strange. Addressing me he said that you will stay with him till the end and will receive His grace. He had attained some occult power (karna Pishacinii Siddhi) that is why he could know the future and also read others mind. After some time both the avadhu'tas left the organization. What he had said turned out to be true.

Saving life of a devotee bitten by a cobra

This incidence took place in the year 1978. It highlights His grace & compassion. After emergency I was released from jail. Soon I posted as RS Allahabad region and another brother Dada Laliteshvaranandajii as DS A'jamgarh. Dr. Ramchandra of Maow was a new margii but in a very short time had become a good sa'dhaka & devotee. He was a good margii praca'raka. He tried hard to establish a unit in Maow. Dharma Cakra used to take place in his house. His wife also took initiation soon after and she also developed as a good sa'dhika'. I started visiting their place regularly.

When days were just passing happily, suddenly one day a strange incidence took place. His wife was bitten by a cobra when she went to take the wheat flour out of the flour box for preparing rotis. She ran out of the kitchen and cried that she has been bitten by a snake. Her husband rushed to find out what had happened he saw a poisonous snake inside the box. Every member of the house was disturbed by the incidence and they called out for Ba'ba' help. Slowly the body of the margii sister turned blue and she became unconscious. Members of her family continued to serve and treat her while continuing to call for Ba'ba's grace. When the family members were busy taking care of her the margii sister in an unconscious state saw a dream in which ba'ba' appeared and consoled her. He assured her that she would soon recover.

The following day she regained consciousness and her condition started signs of improvement. I happened to visit her house after a few days, I learnt of the incidence later from the same margii sister herself. She told me about how Ba'ba' appeared to her in the dream while she was unconscious and saved her life.

Leasing second life to Bindeshvarijii - Place: Patna Ja'grti, September 1978

On the momentous day of 2nd August 1978 Ba'ba' was released from Patna Jail after the charges against Him were finally quashed by the Patna High court. Margiis from all over the world had assembled there at the jail gate to welcome Him. He was driven in a car to His residence in Patna. All through the route He was followed by jubilant margiis raising slogans of His victory in a procession. Margiis were enthused seeing Him. Ba'ba' was, however, still reeling in poor health due to his nearly six year long fasting inside the Jail for His alleged poisoning by Jail doctor.

For many whole timers it was their first occasion to meet Him. Soon after He called for RDS. This was to take place after nearly eight long years of His absence. We all were excited and anxiously waited for that moment to have His audience. On learning about the proposed RDS I also reached Patna in time to attend the programme as RS Allahabad. Revered Ba'ba' was busy taking report of workers inside the hall and outside the His room Bhaktaprarar Bindeshvarijii was inspiring margiis by his contagious devotion. He would busy awakening kundalinii of those sitting near him. He would occasionally roar or burst into laughter taking Ba'ba's name loudly. It was a mystic environment created there.

While RDS was in progress Ba'ba' all of a sudden said that Bindeshvarijii is going to pass away after a short time although he is unaware of this. There was sudden wave of commotion and caused anguish and pain among the workers present there. Soon after that Ba'ba' left the hall & proceeded to his personal room. We informed A'c. Ramtanukjii about what Ba'ba' had mentioned. He was also taken aback and was equally pained to hear these words.

He immediately went to Ba'ba's room and beseeched him to save Bindeshvarijii's life as his worldly duties were still unfinished and there was none other in his family to take care of his young children. We also joined Ramtanukjii and pleaded to get Ba'ba's favour to alter the destiny and to save Bindeshvarii dada. Baba', however, responded in a natural manner saying birth and death were natural phenomenon and what he could do in such matters. While we continued to pray to Ba'ba' to save dada's life. In the mean time Ba'ba' proceeded to the hall for his routine general darshan to margiis there. While general darshan was in progress, In the verandah Bindeshvarijii as foretold by ba'ba' passed away. There was a commotion among the margiis. Everyone was affected and was in tears. A few ma'rgiis came inside the hall and informed ba'ba' about the death of Bindeshvarijii. Pleading of distraught ma'rgiis to save him continued to mount on Ba'ba'. After a while Ba'ba' said that if you can bring red flowers of Java'kusum then I can think of something to do for him. Then He instructed that Bindeshvarijii body should be brought inside the hall and kept near Him. In the meantime Ba'ba's security guard Vishnudevajii brought the red Javakusum flowers from the compound of the Ja'grti and gave them to Ba'ba'.

For a while Ba'ba' turned serious and started crushing the flowers between His palm and murmured some inaudible mantras and dropped a few drops of juice of the flowers (Javakusuma). As soon as the drops of flower juice fell on bindeshvarijii's lips suddenly there was some movement in his body and there were signs of revival of his life force. Ba'ba' then asked margiis to hold Bindevarijii's feet and legs. Bindeshvarijii's body started trembling. His process of inhalation and exhalation resumed and he tried to get up as if he had just awakened from sound sleep. This incidence brought smile on the

face of all those who were witnessing. Ba'ba' had earlier told margiis not to reveal anything connected to Bindeshvari's death to him.

Ba'ba' said He had extended Bindeshvari's life by a few years. Those who witnessed the event felt blessed. Even today whenever I remember this incidence my body starts shivering and tears flow naturally gripping my mind by a overwhelming vibration of His non-causal grace and compassion. He is truly the Lord of death (Mrtyurmrtu)

My first RDS after Ba'ba's release from the Bankipur Jail

Venue: Patna jagrti and Ba'ba's residence, September 1978

Ba'ba' remained confined in Jail from December 29th 1971 until the noon of 2nd August 1978 on false charges labeled by CBI and govt. of India. He suffered in many ways and was also poisoned by the jail doctor at the instance of the political high command. Eventually He was honourably released after all the cases against Him were quashed by Patna High court. This was the most auspicious and thrilling moment in the lives of His disciples. His presence once again revived our devotion and freed all of us from the mortal fear.

To me personally, it was a moment of great rejoice. I felt tremendous joy when I was called for RDS in September 1978. I was earnestly looking forward to have His personal audience and to receive His love. During RDS Ba'ba' was very angry with the low organizational outturn and admonished us for that. I felt child like annoyance & pain on His face due to our neglect. I kept thinking why can't He, being omnipotent, command us lovingly and get His work done. His mere wish can fructify all that He wishes. Was it necessary to reprimand His workers soon after coming out from the jail? I was disturbed as a child and while there one afternoon having finished my lunch I was resting while contemplating on this subject. About the same time I was called to rush to His residence immediately. I complied and entered His room and did sa'sta'unga pran'a'ma. No sooner I had got up after prostration Ba'ba', He queried "why are you angry with me"? Being your Guru I have accepted very serious responsibility about my children. I have to take the role of a hard task master much against my own liking. He lovingly pulled my arm closer to Him and said do I like to punish all of you? I do it for your welfare. I never enjoy this. My love for you forces me to punish you for your welfare so that you are able to rectify your mistakes. I found that saying this Ba'ba' was very much moved. I considered myself fortunate to have witnessed the compassionate form of my beloved Guru. I instantly decided and took a vow not to react in future over His reprimands.

I am deputed to inspect Joshimath School

As Regional secretary Allahabad Region, I learnt about the problem relating to a LFT who was posted then posted in Joshimath School. He called me and requested me to

visit his school. Considering the cold climatic condition of the place I did not go there, instead advised some other worker to visit him and attend to the problem. Although I had tremendous attraction for Himalayas, but I was afraid of the cold season there.

Once during RDS in the month of March (Periodic repoting session with Ba'ba' named Review Defect & Solution) Baba called me in His room and enquired about Joshimath school. Ba'ba' said that it is a difficult place and you must take special care of that school. After a while He asked me if I had personally visited the place. He was unhappy to learn that I have never been there. He instructed me to immediately proceed there and take stock of the situation and resolve the issues. Even during March it used to be quite cold in Joshimath, I thought I will not be able to stand the cold weather conditions there. Ba'ba' being omniscient was able to read my mind and hence commanded me to proceed straight to Joshimath from here itself. As commanded by Him I immediately started for Joshimath via Rsiksha, Devapraya'ga, Rudrapraya'ga, Karn'apraya'ga and Nandapraya'ga. On the way for the first time in my life I was previledged to behold the heavenly natural beauty of Hima'layan region. Then proceeding along the incessant stream of the Ganges I went up to Joshimath from Haridva'ra. On my arrival there the dada posted there became jubilant seeing me. I took the opportunity and called for a parent teacher meeting and sought their help and support to resolve the problems and impediments in the smooth functioning of the school. The parents expressed their readiness and agreed to help. Thus the problems were solved once for all. The dada took me to the cave of Shamkara'ca'rya. There I also met, the then, Shamkara'ca'rya of Joshimath Swa'mi Sha'nta'nanda. He was fully acquainted with our school and the Dada incharge and carried a good impression of our educational activities.

I stayed there and enjoyed the natural scenic beauty of the place. From there I also went to Badrina'tha which was just ten kilometers away and then went up to Vishnupraya'ga. The beauty of the ice clad mountainous region there was hypnotic. I stayed there for four days and enjoyed doing Sa'dhana'. I had heard that Himalaya had been the land of sa'dhakas and realized masters. The place was still vibrant with spiritual fervor. Although it was a biting cold climate there still I survived without much difficulty and in the process I was able to overcome the fear of Himalayan cold weather. The volunteers posted in Joshmath were also inspired by my visit sincethere problems were also resolved. This small incidence inspired by Ba'ba' taught me the lessons in dutifulness and discharging of responsibilities. He created such an environmental pressure to remove unwanted fear from my mind.

In the following RDS Ba'ba' became very happy after learning about the improved situation of the Joshimath school and the support given by the parents.

Resolving the Land dispute of Jarva' (UP)

Government of UP leased out a piece of land to A'nanda ma'rga for starting a kindergarten school and a children home for destitute children in Jarva'. However later the government reviewed its decision & wanted the property to be returned. Thus a problem arose. I informed the then GS about the reversal of the government decision.. During the RDS Ba'ba' called me and advised me to meet a particular officer in the government and told me to explain him my problem. He told me that that officer will be able help me in finding a solution. On my return I met the concerned officer who suggested me the way out and the problem was resolved.

Land dispute in Allahabad

Like Jarva the Municipality of Allahabad had also leased a piece of land and a building for us to start a school of A'nanda Ma'rga. When emergency was promulgated in India in the year 1975, A'nanda ma'rga was banned and all its workers and margiis were arrested and put behind bar, the Additional District Magistrate captured the same plot.

After emergency was lifted in April 1977 the issue was taken up with government by us. But that officer was unrelenting. Dada Girijanandajii was the RS of Allahabad region at that time. He kept pestering the officer but he was not in a mood to oblige. Shri Satyaprakash Malviya was the minister in charge of the concerned department. We met him and explained him about the problem. He was fully aware of the matter and agreed to help us. He called the Additional District magistrate and advised him to return the leased land to A'nanda Marga. But that guy did not oblige. Finally the minister had to take a strong action of suspending that official and eventually got the land and school building back to us. Ba'ba' was following this matter and was guiding Girijanandajii about the line of action to be followed. Later when I became the RS of Allahabad, He was instructed me to remain vigilant about margii properties so that they are maintained properly.

Land and building of A'nanda ma'rga School in Azamgarh

This was our own property. However during emergency the state government allowed the Armed Police force to occupy the school building. They were not willing to hand over the property back to us. Girijanandajii informed Ba'ba' and under His guidance he took help from the ministers concerned who were known to Girijanandajii and with their intervention the land was recovered.

Chapter five

Dharma Maha Cakra

I was fortunate to have got the opportunity to attend Dharma Maha Cakra (DMC) functions at many places. Of special important were the two DMC's, one was held in Veterinary College Patna and the other in Allahabad. Simultaneously many more DMCs took place in Aurangabad, Daltonganj, Bhabhua & Ranchi which I could attend.

The DMCs most significant to me were those which took place after 1978. By that time I had a bit matured and was able to better appreciate His non-causal grace. Its climax occurred when He included me in Madhura Gos'thi. Thereafter I did not want to miss any opportunity to be near Him.

The speed of progress of Ma'rga got a tremendous boost after 1978. He toured whole of India and also the world in the year 1978-79 and released an unprecedented wave of devotional inspiration to all margiis through these DMCs. The devotional vibrations He sent out through His Vara'bhaya Mudra' pushed ahead the the service projects launched by A'nanda Ma'rga throughout the Globe.

From 2nd August 1978 He stayed in Patna until 25th of October and then moved to Kolkata. Since then until the New Year DMC, he toured India and conducted four DMCs one each in Kolkata, New Delhi, Mumbai & Madras. Then after the new year DMC in Kolkata he toured all the important places throughout India and conducted 20 DMCs. This was a historical tour of ba'ba'. I had the privilege to attend 14 of thse 24 DMCs and became the witness of his hypnotic charm & recipient of His unfathomable grace. I witnessed many of His demonstrations and was witness to some of His divine sport.

Delhi DMC, November 1978

Thinking in retrospect when Ba'ba' was arrested on framed up charges on the 29th of December 1971, a CBI official had arrogantly remarked to Him that now you are arrested, your organization will crumble to pieces. Baba' in His characteristic style responded by saying that that when I will be released from the Jail you will see that my organization has become 16 times more powerful.

On His release from Bankipur prison in Patna, the enthusiasm and festive mood of the Margiis was to be seen to be believed. Since then the progress of the ma'rga was unstoppable. Soon after He addressed four DMCs in Kolkata, Delhi, Mumbai & Chennai. I was then posted as the RS of Allahabad region. I received instructions to rush to Delhi on the occasion of DMC with all the Ma'rgiis of the region on the scheduled day. This message was welcomed by the Margiis who were eagerly looking forward to having Ba'ba's audience and personal contact since eight long years. All the Margiis and their families prepared and booked their tickets to be there in Delhi to attend DMC.

As I reached Delhi, I was called by Him to report good news. It was a cherished occasion of my life to be near Him and to serve Him. I enjoyed the blissful moments in His company. Ba'ba' told me that He loved me a lot and since He loved me, He would utilize me as His medium. Some of His WTs have slackened in terms of work performance. This He said has happened due to lax administration due to the long years of His physical absence. Using me as His medium He will punish these erring WTs. Won't you get disturbed by this? I replied in affirmative and then He asked me to go.

Soon after PA Dada called me and sent me in Baba's bed room. Immediately then Ba'ba' started admonishing me for the poor performance of the Diocess secretaries of Meerut, Bareilly & Jhansi for the schools there were sub-standard. The DS Meerut who was then standing outside His room was asked to come inside his room. Then Ba'ba' began punishing the DS for his poor outturn and also me for not having discharged my responsibility being his immediate supervisor. This news of punishment created a stir among the WTs and this made them think and plan to improve their output.

Same evening and the following day he called all the WTs for RDS and pushed me for the faults of my subordinate WTs. He kept punishing me hard while at the same told the WTs present that He is forced to punish their RS because of their slackness & poor outturn. On hearing this all the DSs present there appealed Ba'ba' not to punish the RS, since it wasn't his mistake. They all promised Him that they will now be active and cover up the lost time.

Hearing this He relieved me but started punishing WTs one after the other. This had the desired effect and the WTs took vow to accelerate the speed of missionary work. During DMC Ba'ba' released waves of devotional vibrations which affected all margiis who attended the DMC with tremendous spiritual inspiration and missionary zeal. I was lucky to have been used by Ba'ba' as His medium for accomplishing His task of inspiring and reenergizing WTs.

Bhopal DMC; February 1979

This was my second DMC since I had worked earlier as DS Bhopal where I had discharged the primary responsibility for organizing a DMC in 1969. In this DMC being a Sectorial worker of SDM I was supposed to prepare a group margiis for Kaoshikii & Ta'nd'ava dance performance before Ba'ba'. A'c. Narendra da'da' attended this DMC with hundreds of margiis of Chattisgarh Sama'ja. Here I was given the task of arranging group meetings of Sama'ja workers and ma'rgiis with Ba'ba' and thus received His love & grace in His close company.

Kanpur DMC; March 1979

This DMC had a special significance for me because I was appointed as the central coordinator for the forthcoming DMC here. I had earlier worked in this region as RS and I had an intimate relation with local margiis. Kanpur had a good team consisting of active Ma'rgiis viz. Sarvashri Arun Gupta, Upendra Jha, Jagdish Bhalla, Prof Kevaldhari, GL Sharma & Tomarjii.

For conducting the DMC there were certain conditions to be fulfilled

1. To have our own Ja'grti,
2. Own School,
3. MG Residence &
4. Own Printing Press.

Ma'rgiis were determined to make the programme successful. A printing Press was arranged immediately and work to fulfill other conditions was initiated.

Finally Ba'ba' arrived at the Kanpur Airport as scheduled & was welcomed by the Margiis. For reasons of non compliance of certain conditions put up by Ba'ba', He did not accept the food cooked by the Ma'rgiis of Kanpur. Later on when the Ma'rgiis gave written assurance to execute the promised tasks within a stipulated period acceptable to Ba'ba', He happily took the food. Arrangement of food for Ba'ba' was the responsibility of Arunjii's family. All of them enjoyed serving Him the local delicacies.

The DMC programme went on very well. Margiis enjoyed Baba's discourses which touched the inner core of the margiis.

Later He gave a special responsibility to me to contact the workers of the region who had left the organization and to inspire them to bring close to Ba'ba'. By His grace in this effort three workers came back to the fold of the Ma'rga. DMC was a grand success.

Jammu DMC; July 1979

I realized that Ba'ba' took special care to inspire and bless the margiis and He Himself worked hard to accelerate the progress of the Ma'rga despite being weak. He would call meetings with WTs and Ma'rgiis to speed up Ma'rgii activities and always involved them spontaneously & made them commit to accomplish the seemingly impossible targets.

In Jammu Ba'ba' stayed at the residence of Dr. Sehgal. He was a devoted active margii. This was my first visit to Jammu. The DMC was very inspiring to me. Ba'ba' showered His love and blessing on me on many occasions during His stay. I felt transported to the other world.

Ernakulum DMC, July 1979

From Jammu up in the north to the other end of south to Ernakulum, it was a very long journey by train. The system required every departmental or sectorial head/ WT to attend every DMC. Here I was responsible to conduct collective performances of Kaoshikii and Ta'nd'ava dances before Ba'ba'. Dada Ananya'nanda was my Area level WT.

We took up our specific tasks and started organizing our own departmental programmes soon after arriving there in Ernakulum, so that all preparation are completed for His grand welcome before He reached there. I was blessed to be called for His massage. While being there with Him I also gave some good news regarding ma'rgii activities in the region. Arrangement for ba'ba's stay was done at the residence of Shrii Gopalkrishanji. He was then serving as the District Sessions Judge in Ernakulum. His wife was also a great devotee of Ba'ba'. She was very happy to have got this special privilege to prepare His food with the help of other ma'rgiis.

A three hour Akhand'a Kiirtana was organized and I led the kiirtana with full devotional fervor with other ma'rgiis. I was very inspired since this was the first year of Madhur Gos'thi. I used to help ma'rgiis develop devotional sentiment for Him. Perhaps this is what we all always liked to do.

I was also responsible here to organize personal contact with Ba'ba'. A scholarly professor in the university was also in the queue. He had an inkling to test Ba'ba'. after the contact when He came out he appeared to be more confused. On the contrary a illiterate village folk native of Kerala was overwhelmed by His grace since Ba'ba' had spoken to him in the local dialect of Malayalam language. He is the lord of devotees. He is unattainable by so called knowledge or erudition. Only devotional surrender can command His grace.

Ba'ba's DMC speech was full of devotion. Devotees were delighted by the pious touch of their Lord. In workers meetings He gave an inspiring demonstrations on the convertibility of Tanma'tras viz. form, flow and smell.

From Ernakulum Ba'ba' proceeded to Visakhapatnam via Madras. For the night He stayed with His retinue at the residence of Shrii Shiva Bhagwan Goenka.

Visakhapatnam DMC, July 18, 1979

I was then posted as the Delhi Sectorial Secretary PMSA. I was also moving with Ba'ba' on His DMC tour. We came back to Madras from Ernakulum and had our night halt with Ba'ba' at Shrii Shiva Bhagwan Goenka's residence. We were to travel by train in the morning to Visakhapatnam and Ba'ba' was to take His flight at about 9am.

I was a little unhappy since I would be reaching Visakhapatnam after His arrival and will not be present there to welcome Him. But strange though it may appear, Ba'ba' missed His flight. Later we learnt that He got up a bit late after His morning Sa'dhana' and when they reached the airport the destined flight had already left.

Ba'ba' regretted for missing the flight and asked for immediate arrangements to leave for Visakhapatnam since His devotees were anxiously waiting there for Him. He repeated His anxiety on way to Visakhapatnam.

It is true that devotees desire to meet the Lord is immeasurable and so is the intensity of desire of the Lord to meet His devotees. Genuine love is reciprocal. That is why without caring for His own comfort of travelling in the car for such a long distance of 1000 kilometers He proceeded without losing time. On the way the car ran out of petrol. Since there was no Petrol Pump on the highway for next 60 kilometers, He asked His driver to proceed and the car ran without petrol until they reached the next Petrol Pump.

On the way at Tadipalligudam arrangement for His rest and snacks was done by His devotees, however he did not stop saying I must reach Vizag without any delay.

I reached there in the evening before Him and joined in the efforts of the margiis preparing for His welcome. Due to some misunderstanding the Bhukti Pradha'na and the accompanying volunteers missed Ba'ba's car as He entered the Vizag town, However, He fulfilled my desire to welcome Him at the place chosen for His stay. He reached Vizag after 2am. Collective performance of kaoshikii & Tand'ava dances were presented before Him with lots of devotion & warmth.

That night Ba'ba' called me and enquired about everything. I was overjoyed by His grace and continued to enjoy the bliss in Dhya'na until daybreak. That morning Ba'ba' was ready in the morning after His breakfast for His morning walk. General darshana that morning was simply blissful. Devotees thronged the hall and waited anxiously for His darshan. Ba'ba' began very softly and said that He had come from a far off place to see them. I have come here only for you. Everyone present there was anxiously waiting for that moment. Margiis were experienced bliss beyond their expectations. Ba'ba's love engulfed everyone. Margiis virtually gulped every word uttered by Him like nectar.

The DMC programme was superb and he delivered His discourse on Trio in Spiritual progress. He concluded His discourse by blessing the devotees in these words "By the grace of the Supreme Lord you will easily surmount this dangerous Máya. So even those ordinary human beings who take shelter in Parama Puruśa's all-pervading compassion, are sure to attain the supreme excellence of spiritual grandeur; nobody has any reason to be disheartened. The Supreme Entity always call anybody and everybody, "oh human beings, oh painstaking human beings, don't be afraid, don't be

disheartened, I am for you, oh human beings, please come near me, you please come and sit on my lap, I am for you.”

A large contingent of Chattisgarh Samaja vahini came from Raipur led by A/c. Narendra Deva. This DMC was very special for me. The entire environment of DMC was densely suffused with the waves of devotion.

Nagpur DMC, October 1979

After getting released from Bankipur Prison Ba'ba' increased the speed of Ma'rgii activities manifold. He gave a new programme of opening Bio,Trio & Qudro offices. The concept of these new offices was make sure all workers other than those posted in ERAWS to stay together in these offices and not with Margii families anymore. This was His condition for conducting DMC that the places approved must have Bio, Trio offices.

On one hand He desired DMC to be conducted in Nagpur, but at the same time He put the compulsory condition of Bio-Trio offices in all Blocks. Central workers were asking the sectorial workers to give in writing that these offices have been already opened in all the Blocks. This was desired for Marga Guru to hold the DMC. When all sectorial WTs gave in writing through GS Ba'ba' gave His permission to organize DMC in Nagpur. Soon after that Margiis and WTs devoted themselves for organizing the programme of DMC.

On the scheduled date He arrived in Nagpur. He was welcomed with Ta'nd'ava & Kaoshikii dances. After that Ba' ba' called a meeting with all the WTs and asked them whether Bio-Trio offices have been opened in all blocks. All of us responded in unison saying yes to His query. He said if that is so why there are only a few ma'rgiis in Nagpur who have come here for DMC. We could not give a satisfactory reply. Then He got annoyed and became very serious. He said that you have invited me for DMC here telling me lies. I am going to call all margiis now and tell them that all of you sanyasins are a bunch of liars and I cannot hold DMC here under the situation. All of us were at our wits end.

He repeated that sanyasins should never speak lies. They should live life depending on Satya. Whole environment turned very gloomy and serious. All were shocked. He asked us to take vow touching the heart that we will never ever resort to falsehood in our lives. This was a matter of great education to all of us.

Thereafter He allowed DMC to be conducted in a very blissful environment. He released waves of devotion engulfing all those who attended the DMC. We WTs then left for Raipur and ma'rgiis returned to their respective destinations with renewed vigour to expand His mission.

Raipur DMC, 18th October 1979

The vibration of Raipur DMC was unique. Ba'ba' was welcomed with revolutionary fervor by more than few hundred volunteers of Chattisgarh Vahini at Mana Airport. Those were the hay days of days Chattisagrhi sama'ja. A'c. Naredra a devotee par excellence and a great organizer was its chairperson. Margiis were equally delighted and blessed by Ba'ba's presence.

Soon after His arrival Ba'ba' called a meeting of WTs and told them to complete the task of opening Bio-Trio offices in every Block and Panchayat. WTs had not forgotten the incidence of Nagpur, hence they started cracking and engaged themselves to accomplish and achieve their departmental targets.

I was blessed to get an opportunity to serve Him. He asked me to complete the process of Bhukti Pradha'na/Upbhukti Pradha'na elections in the entire region. I also started my work as directed.

Ba'ba' appeared to be extremely happy throughout the DMC in Raipur. A'c. Naredra, A'c. Ramlal Dani, A'c. Kailashchandra Bhalla organized the program considering everybody's needs. Wts also enjoyed the DMC & the arrangements.

The DMC was full of bliss everywhere. Ba'ba' inspired all by his loving words when He said "I want that the present distressed condition of Chattisgarh should come to an end, and it should have a very bright future. Let the people from other parts of the world come here and learn how far the people here have achieved progress, and in which ways they are going to bring about progress in other spheres of life. Let the light of Chattisgarh be ever effulgent, like a luminous star in human society, so that all may learn and be benefited by it." Departing Darshan made margiis and workers cry. The devotional flow was uncontrollable.

Varanasi DMC.October 30th 1979

DMC at Varanasi was historical in many respects. It was here that Ba'ba' introduced A'vartta Kiirtana as an essential part of Madhur Sa'dhana' and allowed it to be performed by all margiis.Since then A'vartta Kiirtana has become an essential part of collective meditation. It was here that Ba'ba' permitted Avaratta Kiirtan to be performed after His darshana.Collective performance of A'vartta Kiirtana creates such a wonderful environment involving all the participants to enjoy the blissful waves of devotion.

I was appointed as the central organizer for Varanasi DMC. I was trying to achieve the goals set by Ba'ba' for conducting the DMC here. Finally Ba'ba' arrived there at the appointed date and was welcomed by Ma'rgiis. I was blessed by His grace and got the opportunity to massage His feet.

Soon after His arrival Ba'ba' called for RDS of WTs. Ba'ba' got annoyed as the work done was unsatisfactory. He refused to accept the evening snack. Being the organizer I considered it my responsibility to please Him so that He will take something.

I entered His room and while massaging His feet I told Him about the arrangement of DMC and that the Ma'rgiis of Varanashi enjoyed the DMC function. Then I told him that today we have prepared Golgappa for the snack. He enquired if spicy water and potato with chat of peas was prepared as accompaniment. On my affirmation He allowed us to serve Him Golgappa. The arrangement was already made and Ravindraji's of Gazipur with his family and Shashiprabha Didi were ready with all items at the door of Ba'ba'. Once He agreed I indicated to them to enter His room to serve Him. Ba'ba' enjoyed the Golgappa served by Ravindraji with its accompaniments which being added by Shashiprabha Didi and Madhuri Didi. Baba' relished golgappa and those serving Him felt immensely satisfied for having got this rare opportunity. I had once heard Him say that when He was a student He would occasionally take Golgappa. This impelled me to try and serve Him this delicacy.

On the 29th night I learned about a strange happening. Shrii Ashokjii, the Bhukti Pradha'na of Allahabad, was posted as security guard outside Ba'ba's room. Late night I was woken up by him. He told me that he saw many strange people conversing with Ba'ba' in His room. Strange though it was, yet I wondered about the veracity of the incidence. I questioned him and enquired how that was possible? He confirmed and told me that he was dead sure of what he had seen. I thought may be these strange people could be some luminous beings (deva yonis). They might have come there to meet Him and to seek some guidance. Usually Ba'ba' would call His PA dada in the night asking him to arrange for some of His personal need. That night, however, He did not call His PA also.

Next day in the morning Ba'ba' was ready quite early and came out of His room at 9am and asked the security incharge to call all the WTs immediately. Soon everyone complied and rushed to His room. As we entered His room we found Ba'ba' was seated gracefully on His bed. His face was shining and the sweet smile was playing on his pink lips. After a while He explained the purpose of calling them. And then He described the process of A'vartta Kiirtana. This was followed by collective performance of A'vatta Kiirtana before Him. All of us enjoyed the new style of Kiirtana.

Later speaking about Madhur sadhana He said that from many corners he had been getting the report in which WTs & margiis were wanting to know why is Madhura Sa'dhana being confined to only a selected few. From today I allow all to perform A'vartta Kiirtan which has been hitherto an essential part of Madhur sa'dhana'. That is how the DMC in Varanasi was historical and unique in many respect.

Gwalior DMC

Gwalior DMC was next in line of DMC programmes after Varanasi. Ba'ba' was received with tumultuous ovation by the ma'rgiis who came from the hinterland of Braja and Bundelakhanda sama'ja. Like everywhere Ba'ba' took stock of the work done in the region. The WTs responsible for poor progress against their individual targets were punished. This was followed by a demonstration on a worker using form and smell tanmatras. WTs felt greatly inspired.

Shri Gulabjii and his family were responsible for serving food to Ba'ba'. Margiis received inspirational guidance following the BP meeting. I got the opportunity to massage Baba's feet here as well by His grace.

Ahmedabad DMC

Directly under the supervision of BP Ahmedabad and the collective efforts of Ma'rgiis of Gujarat DMC was very nicely organized. There was good arrangement for everyone's lodging and boarding.

On His arrival from Gwalior Ba'ba' was ceremoniously welcomed in native Gujarati tradition. Like everywhere Ba'ba' conducted RDS with WTs and a demonstration was performed on Tanmatrika Samadhi using form and smell tanmatras.

There was an unprecedented wave of bliss let loose by Him and there was none who remained unaffected by the flow of its vibration.

From Ahmedabad I was to proceed to Coimbatore in down south a place which was to take 40 hours of train journey from Ahmedabad. Coimbatore was the next DMC destination, I left in the night after DMC by train after seeking His permission.

Coimbatore DMC, 9th November 1979

Ba'ba' stay in Coimbatore was arranged at the residence of Shrii Rajgopaljii – a devotee and a sincere sa'dhaka. DMC was well planned. Like everywhere Ba'ba' was received with devotional fervour in south Indian traditional style.

During the RDS Ba'ba' conducted a demonstration on me as His medium. He touched my Ajina' Cakra and later asked me to concentrate my mind on Vishuddha Cakra. No sooner I had fixed my mind on the Vishuddha Cakra I started seeing white effulgence (shubhra jyoti) which was encircling the Vishuddha Cakra. Thereafter, I lost physical sense due to intense flow of bliss. The inner sight of that effulgence was blissful but beyond description. Ba'ba' said he is visualizing Brahma Jyoti. Eventually I entered into

Bhava Sama'dhi. Ba'ba' said this realization is attainable as a result of long and arduous sa'dhana' spanning many lives. Even now whenever I try to visualize that Shubhra Jyoti I tend to experience bliss

This DMC was very inspiring for me.

Hyderabad DMC, 10th November 1979

From Coimbatore our next stop was Hyderabad. Ba'ba' stayed with Shrii Ram Chandra Reddy. He was a great devotee, a staunch moralist, a strong disciplinarian and a sincere ma'rgii. He retired as Chief Engineer from Andhra Pradesh Government. Ba'ba' was in a very happy mood here. Like before Baba conducted RDS and inspired the WTS to accelerate the pace of work – strengthen your structure and devote yourselves into the service of humanity was His command.

Here also I was blessed by Him and got to serve Him by massaging His feet.

Margiis were greatly inspired by Baba's DMC speech. Departing Darshan was very devotional and margiis gave a befitting farewell to their Guru.

Etah DMC

For me Etah DMC was both important and awe-inspiring. I was the central organizer for this DMC. I did try to make the DMC a great success with the support and co-operation of Ma'rgiis. Ba'ba' played a strange sport of testing the ma'rgii hard. I also got disturbed but simultaneously enjoyed His Liila'. Ma'rgiis did try to organize the Hall for the DMC, lodging and boarding arrangement for Ba'ba' and Ma'rgiis and made other arrangements as well. However, by the time of the scheduled day of Ba'ba's arrival barely 50 ma'rgiis had arrived there. Ba'ba' told His PA since only a very few ma'rgii have arrived there in Etah, He would not go there. His planned flight from Delhi to Agra did not materialize and PA dada informed that Ba'ba' is not going to Agra since according to Him arrangements in Etah were not up to the expectations of Ba'ba'. The welcoming team with the escort to bring Him to Etah from Agra was already arranged. This news demoralised the ma'rgiis and they did not know what to do. Margiis decided that me alongwith Dada Shankarananda and Dada Dhyanesananda led by Jayprakash Bhaiji should go to Delhi and request Him to bless Etah by the touch of His holy feet. Soon after we left Etah at 4pm and reached Delhi at 10pm. There I met PA dada and requested him to persuade Ba'ba' to conduct DMC in Etah. A day was already lost and ma'rgiis are crying and feeling dejected. PA dada went in His room and apprised Him of the situation of Etah and also informed him that Jayprakash Bhai has come here with other sectorial workers.

Thereafter Jayprakash Bhai was allowed in Ba'ba's room. He requested Him in all humility to bless Etah by His Holy presence. Instead He started ridiculing Him and asked Him why should He come there. Nothing has been done. No organizational targets have been fulfilled. He promised that we will complete all unfinished tasks. However Baba did not relent. He came out of His room. Then Shankaranandajii went inside and he also could not convince Him. He was followed by Dhyaneshanandajii who also could not succeed.

Then I went inside His room at 12midnight and started doing His massage and requested Him to oblige. But He was in no mood to accept since still the margiis have not arrived there. He inquired whether Arun and the BP of Kanpur have arrived. I said they are on the way and will be there in the morning. After that I became silent. Then after a while He himself enquired why He should go there. I thought for a while and said that Ba'ba' it is your old affectionate Braja Bhumii. As the last Taraka Brahma you have played many Liila there. They are your devotees and they all are anxiously waiting for your darshan.hearing this reply He was pleased and said that your logic is unbeatable. He immediately called His PA and asked Him to make preparations to fly to Agra. I am also getting ready. I was felt blessed watching His drama.

About 2am Jayprakash Bhai and other sectorial workers left for Etah. I felt weak and sick after coming out of His room and stayed back. Soon Baba proceeded to the airport.

I reached Etah next day evening. There I was informed by Shanti didi and the Ma'rgiis that Ba'ba' has not taken His lunch. We are all very pained and don't know what have we done because of which He is not accepting the food.

I went in His room and apprised Him of mental state of the ma'rgiis because of your not taking the lunch. Ba'ba' assured me that He will take lunch in the night and will also make all those ma'rgiis happy. I came out of His room and informed them about what had transpired between me and Him and inspired them not to worry since He has come to His own Braja bhu'mii and you should feed Him sweet butter (Ma'khana Mishri).

The third day before General Darshan Ba'ba' called a meeting of WTs. He was in His mystic form. The environment in the room was flooded with spiritual vibrations. Devotees were focused on His Divine form. Ba'ba' graced the devotees and conducted another demonstration of smell and form Tanmatras on two workers. When this was in progress sister Sha'nti overwhelmed by devotion for the lord entered the room inadvertently with a plate full of Ma'khana – Mishrii (sweet butter-a dainty sweet liked by Shri Krsna). Ba'ba' who was in the midst of the demonstration feigned a bit disturbed. Seeing Sa'ba' she could control not herself and the plate fell down from her hands, and she left the room atonce in a state of mental distress. Ba'ba' finished His demonstration and then all of us collectively enjoyed A'vartta Kiirtana.

When I met her after the meeting sister Shanti started crying regretting to have disturbed Ba'ba'. I told her that you are blessed to have seen Him in the midst of a mystic demonstration. That day Ba'ba' enjoyed the food cooked by her. Then He called all the sincere & active margiis for a group meeting in His room and blessed them. All were overjoyed having received His love and blessings.

Forming Madhura Gos'thii-a historical event: Venue: Madhu Ma'lainca Lake garden, Kolkata, 19th June 1979

After a long gap of eight years in Jail, when He was released He put special emphasis on DMCs in as many places as possible. In the same strain A'nanda Purnima' DMC 1979 was held in Park circus Kolkata. This was attended by a large following of margiis and WTs. All of sudden a worker came to me while I was busy with some organizational activity and informed me that Ba'ba' had called 6 workers in His room immediately. All of us collected and left for Lake Garden and straight way went to His room and sat in His presence after Sa's'taunga Pran'a'ma. Ba'ba' was waiting for us. As we entered the room was filled with an air of strange spiritual vibrations. A heavenly smile played on His lips. All of us present in His room were bewitched by the intoxicating aura encircling Him. Blessed as we all felt beholding His charming supra natural form. Very softly He posed a question to all of us. He asked "why has He come to this planet?" it was the most unexpected question to us, unable to reply we all looked towards Him for an answer. After a while He said that I am here to create a flood of devotion. We all felt blessed hearing His illuminating words through which He was revealing the true purpose of His advent.

He continued saying that He is going to leave such an amazing vibrations in the dusty earth of this planet where all its inhabitants will soon realize to be the fortunate one's to have been born here. Devotees attain spiritual realization through many states of ideation viz. Da'sya Bha'va (engaging oneself as a servant of Prabhu), sa'khyia Bha'va (feeling of friendship with Him), va'tsalya bha'va (imagining oneself as a child of Param Purus'a), madhura Bha'va or Ra'dha' bha'va (a feeling of inseparable love and sweetness for Him). In the first three stages a feeling of duality prevails, however in Madhura Bha'va one feels total oneness with Him. This is the highest stage of ideation. To be established in madhura bha'va is the goal of Bhakti. He further elaborated that these stages of ideation are realized by Guru Krpa'. However, through intense sa'dhana' and kiirtana a sa'dhaka can awaken the highest stage of Bha'va. Then He explained the importance of Kiirtana. His sweet voice and illuminating words of wisdom were like the drenching showers of nectar filled with His sweet love.

Since he had chosen me to witness such a historical incidence of great spiritual significance I wrote all that I remembered. But as ill luck would have it I lost that diary

and those words could not be retrieved until I got some hints in the Bhakta & Bhagvana – the book written by Shri Vashis'tha.

Human being is the most evolved creature. Its extent of relationships is both pervasive and extensive. Normal humans exist at physical and mental level. Hence their relationships remain confined to mother-father, brother-sister, friend-foe, husband-wife, master-servant & so on. But there is another realm of existence beyond the physical and mental. That is the spiritual realm. In this subtler realm of existence human beings goaded by their samska'ra (reactive momenta) take to any of the following four stages of ideation and relate to their Goal (Is't'a) or Supreme Destination. For instance:

1. Da'sya Bha'va – Here the devotee considers himself as a servant of the Parama Purus'a, like the story of Hanuma'na and Lord Ra'ma. Although this is a higher stage of devotion, but duality remains.
2. Sa'khyā Bha'va – In this stage the devotee conceives his Is't'a to be his friend. Though he may consider himself as inseparable with two bodies but one pra'n'a(life force). Here also feeling of duality remains. For instance the story of Krsna-suda'ma' or Krsna-Arjuna in Mahabharata.
3. Va'tsalya Bha'va – in this the devotee assumes himself as the father/mother or foster father/mother. Here also there is duality in the relationship of mother-son. For instance the relationship of Vasudeva/Devakii
4. Madhura Bha'va – the relationship of Radha-Krsna or Miira-Krsna.

The devotee of Madhura Bha'va always yearns to please the Is't'a. This is considered the highest category of Sa'dhakas. This is described as Ra'ga'tmika' Bhakti. When the devotee craves to realize Parama Purus'a with single minded devotion the Is't'a is attained. This strong attraction of the devotee like-wise compels the Is't'a to pull the devotee by His intense love enabling him to merge with the Is't'a. The ideation to realize the Is't'a as the Supreme Love of his life by total self surrender is called Maha' Bha'va or Ra'dha' Bha'va. In this stage duality ceases to exist. Ra'dha' & Krsna identify into one. In this stage there remains only the intense desire to merge with the Is't'a, anxiety of separation, infinite attraction and single minded love. The devotee of Ra'dha' Bha'va perceives this created world full of sweetness (Rasamaya), Blissful and embodiment of Mohana.

Ba'ba' explained the history of Kiirtana which according to Him was closely associated with spirituality and devotion. During the time of Sadashiva humanity was leading a natural life which was largely based on the pursuit of satya. In the times of maha'bha'rata the social environment had turned both crooked & complex. Krsna put maximum emphasis on prapatti. Kiirtana had not evolved then.

Kiirtan started in the pauran'ika age. The oft-repeated shloka

Na'ham tis'tha'mi vaekunthe yogina'm hrdaya na ca

Mad bhakta' yatra ga'yanti tatra tis'tha'mi na'radah

Is taken from Vishnu Puran'a. according to mythological story Kiirtan was popularized amongst common people by Na'rada who was its exponent as well.

Finally He said He is creating an institution named Madhura Gos'thii for spreading devotional sentiment. Thus Madhura Gos'thi was constituted. We were announced as the founding members of Madhura Gos'thii. We all were the direct recipients of His grace to witness such a historical event. Now it is your responsibility to spread devotion among the masses and to increase the numbers of madhura gos'thii. He then touched each one of us and gave His blessings. The experience that day was so intense that I continued to enjoy that blissful feeling for many days. I continued to spread His message of love among the margiis and workers. He would many times enquire from me about the progress of madhura gos'thii.

I used to get articles about Madhura Gos'thii published in Shankhana'da. All the members were actively doing pracara of kiirtana mahima and devotion. I was fortunate to get Ba'ba's physical contact and love. Ba'ba' used to conduct regular meetings of members of Madhura Gos'thii and inspire them.

Many ma'rgiis and WT workers used to approach me and other members of Madhura Gos'thii to propose their names for inclusion in madhura gos'thii. I used to convey their desire to Ba'ba. Sometime Ba'ba' would Himself ask me or Dada Keshava'nanda to include the name of a particular worker. At times He would call some worker and include him in Madhura gos'thii.

Once I went to Him and recommended the names of Dada Ragunath & Tadbhava'nandajii for inclusion in madhura gos'thi, but Ba'ba' told me that they were the sa'dhakas of different bha'va. It would be better for them to continue sa'dhana' according to their own bha'va.

This went on. Many margiis and workers used to envy me and would pass comment for the favour that I was receiving from Him. Whenever I found any opportunity to be close to Him, I would convey to Him the feelings of margiis & workers. Once Baba told me that He was aware of the feelings of margiis and at the opportune moment they would get to taste the sweetness of madhura sa'dhana'.

On 30th October 1979 in Va'ra'nasi DMC He introduced A'vartta Kiirtana to all the margiis and thus madhura sa'dhana' was made available to all.

Significance of A'vartta Kiirtan

For the first time A'vartta Kiirtana was invented by Him in Va'ranasi DMC. A'vartta kiirtana is an essential part of madhura sa'dhana'.

In A'nanda Ma'rga there are two special categories of Kiirtana. One of them is akhanda kiirtana and the other a'vartta kiirtana. In Akhanda kiirtana the movement is in anticlockwise direction. The reason for this is that in human body Kula Kund'alini is seated in the lowest vertebra i.e. mu'la'dha'ra cakra in clockwise three and half serpentine folds. That is why to awaken the kund'alini and to goad it towards the Sahasra'ra cakra it is impacted by the repetition of siddha mantra of kiirtana. Whenever we have to win over any obstructing idea we must take recourse to opposite stance – “samgra'me vaepariityam” – to fight a crude idea take the help of the force of consciousness. This is the rule to be followed.

In A'vartta kiirtana the mind is to be fixed in sahasrara cakra. It is done while dancing in lalita ma'rmika singing kiirtana. One remains in one place and moves in four directions clockwise singing kiirtana in different tunes. Tunes are changed this is followed by change of direction. Now when you return back to the original position you continue dancing and doing kiirtana in the fifth tune looking upwards and finally in the sixth tune while looking downwards. Kiirtana in each tune should be done for about the same time. During each change of direction from start to finish there is a definite ideation to be practiced as follows.

1. While facing the front in the beginning dancing Lalita Ma'rmika and singing Na'ma kiirtana one ideates – I have an innate love for Parama Purus'a
2. changing direction with new tune clockwise one ideates – I am a sincere person
3. changing direction with new kiirtana tune again – I purify myself in the fire of sa'dhana'
4. changing direction with new tune again – I am ready to face all kinds of difficulties whether internal or external
5. returning to the original position but looking upwards with hands raised singing kiirtana and dancing continued– I surrender unto Parama Purus'a
6. continuing in the same position but looking downwards singing and dancing – I take shelter unto Parama purus'a

A'vartta kiirtana aims at dissolving our individual self into Shiva.

Visiting Kanyakumari

My visit to Kanyakumari was inspired by the biography of Swami Vivekananda who had been to Kanyakumari when he had visited the southernmost state of Tamilnadu.

Kanyakumari is situated at the confluence of Bay of Bengal and Arabian Sea. This is one such beautiful place on the planet earth where one can watch the beauty of both the Sun rise and the Sun set. The story goes like this. Swami Vivekananda when he

went near the tip of the shore from where the rock of Kanyakumari is visible. He was so much moved by the beauty and vastness of the ocean there that a strange attraction overwhelmed his mind and he instantly decided to swim across the sea to land there. Reaching there he sat on the rock and meditated. He had a blissful vision of the great future of his motherland which he loved so dearly. This incidence of his life inspired me when I was a young boy. After reading this passage I decided in my mind that someday I will also visit that place and meditate on that rock. Now the rock has been converted into a temple in Swamijii's memory. It has now become a travel destination of thousands of travelers around the world. Indeed the beauty of the place is hypnotic. Visualizing the vast sea one loses physical consciousness and the mind experiences the subtleties of the other world.

Setubandha Ra'meshvaram

I had a childhood memory of the bridge built by Lord Ra'ma (Setu Bandha Ra'meshvarama) in the mythological story. Since then I cherished a desire to see that mythological bridge in Ra'meshvaram. Once I went with brother Bhaktvatsalamjii of Selam for AMURT relief work. The view of the expanse of sea was overwhelming. I thoroughly enjoyed my sa'dhana' there. From there we went to Ra'meshvaram temple which is located about 12 km from Ra'meshvaram. On our return journey we went to see the Miina'ks'ii temple. This is an example of the pride of our cultural heritage.

Kalpataru Ba'ba': Residence of Ma'rga Guru,

Madhumalainca, Lake Garden, Kolkata, 11th Dec. 1979

I was then posted as the sectorial worker of SDM. I was responsible for all the activities of the SDM organization. A'c. Vijayananda Dada was the Chief Secretary, but the organizational responsibility was on my soldiers. Baba' had just returned from His hectic tour of 18 DMCs. I had also attended 14 of those DMCs. There was irresistible flow of devotion. Madhur Gos'thii was at the height of its glory. There was a constant flow of Ba'ba's grace. I used to consider myself very fortunate.

Ba'ba' was annoyed with poor progress of Dharma Praca'ra and Education Relief and Welfare activities. There was a fixed day and time for reporting the progress in these two areas. Since I was a worker of SDM, I was also responsible for the poor progress of Dharma Praca'ra. Hence I was also supposed to attend reporting with central workers.

On the 11th of Dec. 1979, Ba'ba' was taking report from GTS after lunch. GTS was dada Satyapara'nanda. He was giving details of each trainee undertaking training in Va'ra'nasi. Suddenly Ba'ba' enquired about a boy who had promised to Him in Tripura DMC to become a whole timer during his personal contact. He asked if that boy has come there or not. GTS replied in affirmative and then added that he did come to the

training centre but could not adjust with the Matha & its strict conduct rules. He has since then returned back to his home. Ba'ba' told him in a pleasant manner that whether he knew about his past life. He replied that he did. Every time a new entrant comes to the Matha it is a part of Shramana's responsibility to take notes about his background. The Shramana started describing his name, place of stay, details of his parents, his qualifications and schools attended and his permanent address and so on. Ba'ba' smiled and enquired whether you know the past history of the boy. Shramana could not speak. It is the responsibility of the GTS to know the past lives of all of the trainees who attend your Matha.

After that Ba'ba' asked him to hold the thumb of His right foot. Then He started describing the fourteen past births of the boy and seven past lives each of the boy's maternal and paternal family. He added that the Shramana should, likewise, know the past lives of all their trainees.

Then He changed the discussion and turned towards the Shramana. He told him that Ba'ba' is illiterate and lacks worldly knowledge, but by dint of your occult power He came to know the history of the many past lives of that trainee. Now tell me, how did you get to know this magic. How could you do this? The GTS was silently enjoying His Liila'. Since the GTS was remaining silent, Ba'ba' told him to call the workers who were waiting outside for reporting. Perhaps they may have the answer to my query. We were all waiting outside Ba'ba's room and no sooner we had heard Him call us, all five of us & Ba'ba's PA entered His room. The environment in the room had a mystic charge. Ba'ba' turned towards us and said, I have a knotty problem for you to resolve. This GTS knows some magic. A little while ago when he touched the thumb of my foot, I could describe the past lives of one of his trainees. How did it happen? How did he use his occult power on Me?

All of us replied to Him that it was His Liila'. You are all powerful and omniscient. You don't need any external help to accomplish whatever you want to do. Hearing this He said that He wants to give all of you a boon. Whatever may be your desire it will be fulfilled. We were dumb and could not speak a word, but continued to look at His face. Again He said that I am going to be Kalpataru for five minutes and then He assumed a strange mudra and implored us to ask for any boon. Whatever is your desire, it will be yours for the asking. Then he waited, we did not ask any thing and the time was over. He repeated that you have lost a golden opportunity. I will once again become Kalpataru for five more minutes. Once again we did not ask any boon. Then Ba'ba' looked at Dada Asiima'nanda and told him that being the Press Secretary you are constantly under pressure of the organization for establishing press in every dioceses. Why don't you ask for Va'kasiddhi. Any number of presses will be yours by your mere wish. Dada Asiima'nanda in a natural and simple manner replied that he doesn't need any occult

power. Everything is happening fine by your grace. Then He turned towards the then DPS and told him to ask Anima' Siddhii. That way you will save much of the postal organizational expenditure, since you will be able to convey to the minds of all the margiis. But he also did not ask anything. Next in line was ERAWS secretary Dada Rama'nanda. He also declined. Then He asked me that He would grant the power of Antaraya'mitva (knowing everything) which will attract all persons of the world towards you. My reply was also the same like other Dada's. He continued to pester us but we remained blissfully ignorant and continued to enjoy Him play His Liila.

Then at last He told us that we should not ask anything from Him. Even then if He insists ask Him to grant you Para' Bhakti. Once you have got para' bhakti you have got everything. He who posses Para Bhakti attains the Supreme goal.

Universe is being created by the Nucleus Consciousness

Venue: Lake Garden, Residence of Ma'rga Guru, 24th Dec. 1979

I was advised by the central office to get my passport readied. Once it was ready on 21st of December 1979, I informed Pranavanandajii, the then Office Secretary, that my passport has arrived. He informed me that I should prepare to go to Berlin sector for my next posting. Hearing him say so made me numb, it was something I was not prepared for. I was not at all inclined to go to Berlin sector after having learned about the cold climate prevalent there and the materialistic way of life there. I worried about my new posting and the fact that I may not be successful in the new circumstances - western life style, food habits, their culture and the glamour of the materialistic life. I thought why has Ba'ba' become so heartless. Why does He want me to go to such a far away place from Him. I don't know the margiis of that region. I was not sure if I would be able help develop devotional feelings in them, and I would be able to win over their love and affection. These and many similar thoughts made me worried.

Those were the early days of madhura Sa'dhana'. I was particularly a fortunate recipient of His love and attention, which I did not want to lose. I requested the OS Dada Pranava'nandajii not to press for my early ticket booking. I asked him to wait until the New Year DMC, in which I wanted to meet the ma'rgiis before leaving for my new posting. OS dada got annoyed with me and told me, if, you continue to insist like this I am going to complain to Ba'ba' about your unwillingness to accept new posting. I was disturbed by his reply and mentally blamed Ba'ba' for my plight.

On the evening of 24th of December, I was supposed to leave. I was very disturbed & worried. In the afternoon of my day of departure Ba'ba' called me. With very heavy heart I went to Him and sat down in His presence after sa'sta'unga pran'a'ma. He lovingly talked about my departure to Berlin sector. As soon as He said this I started crying. He

consoled me and asked me what was disturbing you? You are going there as my representative to speed up the work of my mission. You will be successful there. You will have no difficulty in adjusting with the food there. The margiis will regard you and love you like here. They are no different than the margiis of India. I have just returned from Europe after conducting DMC at many places four months ago. In short he answered all the questions that I have been thinking constantly these days. Then He told me that you are thinking that you are going far away to a distant land from Him. But I live in your heart. I am not far away from you. Then he told me, whenever you will call me I will reach there physically near you. Then He blessed me. I realized that my heart was flooded with His love. My whole being started vibrating with His loving grace. I started massaging his feet.

Suddenly I felt, as if I was, now beholding a transparent but pink body of Ba'ba' before me. His blood was also pink colored and I was seeing the bundle of His nerves. Ba'ba' asked me to smell His feet, I felt a strong rush of smell of fresh Kevada' flower from His feet. It was an intoxicating but heavenly feeling. Then He extended the palm of His right hand and asked me to smell that as well. It smelled like fresh rose flowers. Then he asked me to smell his head. It smelled like the scent of Chandan. Finally He asked to smell His naval point which was emitting a strong smell of Lotus flower. This led me into the other worldly experience. This is the same naïve from where the universe is being created and maintained. I don't remember when I entered into sama'dhi. I realized that a lot of time has elapsed when I regained consciousness and opened my eyes and I found that Ba'ba' was softly massaging my body. Then I heard OS dada calling that it is time for my flight. I left Baba's room after sa's't'a'unga pran'a'ma. OS dada had already kept my luggage in the taxi. Soon both of us proceeded to Dumdum airport. At the airport I got my luggage checked in and after immigration sat in the plane which took me to Snow Field Airport of East Germany. From there I took the train to cross the Berlin wall and reached Berlin the capital of West Germany.

I don't know what all means He employs to manage His own affairs, but soon found that every event unfolds itself as He desires. I realized that He took care of me as foretold by Him. He also made sure and I could happily adjust with the new environment.

Europe Chapter

My first overseas journey

After OS Dada saw me off at the Dumdum Airport for my journey to Berlin Sector, I took to the Russian Aeroflot flight and traveled to our Berlin sectorial office in Berlin after crossing over the Great wall dividing East & West Germany. Dada Keshishvarananda came to receive me. As we were traveling, police seeing our strange uniform took us to the police station for enquiry. After about two hours, they contacted our sectorial office

secretary Dada Bhuvanasha'nanda and he had to come there to escort us to the sectorial office. This is how I was greeted in Berlin? I thought for while why this has happened even though Ba'ba' had assured me that I will be welcomed there.

I stayed there for two days. Then I received instructions to proceed to Oslo the capital of Norway via Copenhagen the capital of Denmark. When I reached Copenhagen on the 29th of December, it was extremely cold and temperature was – 10 degree. There was snow everywhere and it used to be dark throughout day and night. This was my first experience of facing such cold climate. I got worried thinking I may not be able to face this cold and my body will wither away in this climate. I used to cry and ask Him why He did post me in this inhospitable place. Here everything was so very different from India – the food, living style, clothing, mannerism and climate everything was just the opposite of what I was used to. I could not see day light and sunrise for many months, since it used to snow all day and night and it used to be dark throughout.

Copenhagen was the global headquarters' of PROUTIST Universal (PU). Dada Sa'dhana'nanda was the OS there. There were many margiis – LFT brothers and sisters who were handling many projects. There used to be Kiirtana everyday both in the morning and evening. Margiis would try to keep me in good humour and encourage me that it would be alright in a matter of few days when you will be able to adjust with the new environment. Dada Karuna'nanda introduced me to one margii sister Jyoti. She used to take care of me like my elder sister. She taught me about the psychology, mannerism and way of life there. She encouraged me to be positive about everything since it is going to be alright very soon. She would inspire me by saying that since Ba'ba' has sent you here He will ensure that you are successful in spreading His mission. Slowly I started to adjust and my own capacity to withstand cold increased and the environment there started to appear natural to me.

After staying in Copenhagen I proceeded to Oslo. I was asked by dada Karunananda to open my headquarters there. It was colder than Copenhagen. Here I met the Bhukti Pradha'na and told him the purpose of my coming there. He was annoyed with my proposal and said who will take care of you here. Please return back to Germany. I was surprised at his curt reply became dumb. I had never expected such kind of remorse. I had no money. I cried and blamed Him for everything that was happening. I would think was this the welcome He had planned for me here. I failed to understand His Liila'. It was quite unusual behaviour. I was not yet adjusted to the idea of taking my food from the fridge on my own and eat in the kitchen.

On one such days when I was lost in my own thoughts a ma'rgii brother Va'sudeva lovingly approached me and asked me to come along with him. He said he shall arrange everything of my need. You don't worry. With this Ba'ba' did what was required for me according to His assurance.

He took me to a ma'rgii family. They were Brother Ravi and sister Shashi. They welcomed me and took care of me. I stayed with them for three days. I apprised them of the plans and programmes of the organization. They were enthused and took me to many places for praca'ra. They had good contacts. I got to see and acquaint with the old and new margiis of the region. I addressed many meetings and initiated many people and started many units and DC. Thus I visited Kongsberg, Christianson, Fredrickstad, Bergin & Trongham and was able to do dharma pracara to my satisfaction. I feel obliged to the ma'rgii family which encouraged me in that place. My own pride of being an old and senior worker was humbled. Only when I surrendered to Him that I received His help. I returned back to Oslo after 20 days. By that time the BP Oslo had heard of the good work I had done. He too was inspired and started helping me in doing my organizational work.

Saint Tulasidas has said “ ja'para krpa' Ra'ma ki Hoi, ta'para krpa' kare saba koi (the eligible one who is able to invoke the grace of Parama Purus'a, receives unconditional help of the whole world).

First three months were the testing times for me. I would quite often lose patience and get nervous. At times I used to think of even returning back to India, since I had come with the return ticket. But once my pride got powdered down everything became normal. I also got acclimatized and started moving outside normally in the cold weather.

Ma'rgiis got me a first class Euro-rail ticket valid for three months. I was able to move in the train everywhere without any problem. I started getting invitation from all over Scandinavia for praca'ra. I became famous in that region. I would narrate my own experiences with Ba'ba' and they got inspired to work for His mission. Thus six months were spent happily.

After that there was time for sectorial RDS in Germany. There I met all the workers (Dada & Didi). This was a very happy occasion. I traveled everywhere in Europe attending regional retreats in Germany, Holland, France & Italy. Slowly I got nicely acquainted with the margiis. Organizational work progress also improved. I developed special affinity for Scandinavia. Missionary work also gained momentum and I started experiencing His grace at every step.

I had once gone for praca'ra to Bergin. There I happen to meet sister Niiti. She was from Lapland. The extreme north of Norway, Sweden and Finland together is called Lapland. This area belongs to North pole. It is covered with ice for most part of the year say about 9 months. There you get to see night for 6 months and day for six months. At midnight you can see bright Sun in the sky. When she told me this a desire to see the midnight Sun developed in my mind.

Courageous journey to Lapland

It is located 3000 kilometer away from Oslo. Sister Niiti invited me to visit Lapland. I accepted her invitation and the date and place of landing were decided in advance and that she would come and receive me on the Ship. I traveled by train to the border of Norway to a place called Norvik. Thereafter I traveled to Harstad by bus. It was the month of May and at 11pm, normally there used to be sunshine, but due to heavy snowing it was dark all over. Many travelers had come there for watching the midnight sun. All hotels were over booked. I could not get any accommodation. I was under the impression that it would not be that cold. But due to heavy snowing it was very cold. I did sa'dhana' in a park and called Him to help me since I was caught unaware and did not know where to go in the night. I thought if I don't get any help I will die in the cold. At 12 midnight a drunkard came near me and looking at my strange dress asked me to about my whereabouts. I told him that I am an Indian and I am here to watch the midnight sun, but I don't know any body here. He said it is a snowy night and you will die of cold if you stay outside. I remained silent. He said he will arrange some place for my stay tonight. I talked to him about A'nanda Marga. In a short while another drunkard came there. He was more intoxicated and had little sense. The second person told me to come along and he would try to get me some place to stay tonight. When I started to go with the other person the first one cautioned me that the man I am about to go is a murderer. But then I thought it is better to go with this man then to die in cold. He took me to many places viz hospitals, retiring homes and restrooms, but none opened the door. It was a very cold night and there was heavy snowing.

Finally he said that I am sorry I am unable to help you. There is but one alternative. My own place is 25 kilometers away from here, if, you have no objection then you came stay with me. I told him that my only condition is that you have to drop me to the Harstad port at 7am, since I am traveling to Hemerfest port by ship. He agreed and we started for his residence. This was an isolated location. As we entered his house, he closed the door and locked it from inside. We sat down on the dining table facing each other. As I sat there he brought a loaded revolver and pointed it towards me. I was absolutely taken aback and recalled what the other drunkard had told me. I started repeating Guru mantra and Is't'a mantra and called Him in distress. I thought for a while that the man appears to be in a depressed state of mind and should be handled sympathetically. I told him sweetly that I was his guest. It does not behove a good person to treat his guest like this. I got up and went near him and started massaging his back. Then I took hold of the revolver kept it away from him. He was now a changed person. He arranged everything for my comfortable stay. Next morning similarly he arranged for my bathing and I finished my sa'dhana'. Then I went to him and requested him to take me to the Harstad port. He woke up and then quickly got himself readied

and dropped me at the port in time. I thanked him for all the help and learned a lesson of keeping one word & dutifulness from him.

I left for Hemerfest and reached there in two and a half days by the ship. On the port sister Niiti waited for me to welcome. From there she took me straight away to her residence where she used to live with her parents. At her house seeing her parents were annoyed with her daughter for bringing a heathen. They were old, orthodox and conservative catholic Christians. They thought of me as a Satan. Sister Niiti was disturbed by this unwelcomed situation and felt pained. She was, however, a brave woman of progressive ideas. She had an alternative in her mind and immediately installed a waterproof tent near a lake about a kilometer from her residence. She used to get food for me everyday from her home. I used to go with her every day for dharma praca'ra. The persons I used to meet in the town were people having old mode of thinking and were little averse to learning anything new. I did not quite know what to do in such a situation. I remembered Him and prayed to Him to make use of me for His work. Same night after five days I initiated the first person. Slowly it started to pick up and young persons started coming to meet me in the tent. Most of them were young enthusiastic persons. In this way I initiated 9 persons. This was quite satisfying since in a remote location like this one I was able to plant a seed of yoga and sa'dhana'.

Once in the morning I was busy with my sa'dhana' near the lake on a hillock. Suddenly I heard an unusual sound. When I opened my eyes I noticed about a 100 or so reindeer looking straight at me. They were so cute. I had read about them in books. My first reaction was of fear but as soon as I raised my hands they ran away in all the directions. This was an amazing but endearing sight.

I wanted to visit an Eskimo village and to know about their life style. I was told that they were living about 100 kilometers away. One fine morning we left for that village by bus. On reaching there we sat down in the field outside the village and did sa'dhana'. However we were disturbed by the mosquitoes. These mosquitoes were much bigger in size than I had seen. In the village we met an old man who was tanning the reindeer skin. I enquired from him about the mosquitoes he said they only disturb the outsiders and not the locals. Saying this he laughed. It occurred to me that since these Eskimos keep their body covered with reindeer skin mosquitoes they don't get bitten by them. Secondly these people bath may be once in two months, hence their body emits a typical pungent smell which must be keeping the mosquitoes away.

After that we collected a group of young persons and started talking to them about Yoga and meditation. They were quite curious about our talk. While we were busy discussing with them, suddenly a fat lady appeared there stroking her javelin and started ridiculing us loudly in her local language. The young people we were talking told us that she was the village head woman and we should better leave the place. They told us that she

might call other villagers who come here & may harm us. These Eskimos consider people of Norway as exploiters. On further enquiry the youngsters told us that these people think that you may be trying to convert them. They are orthodox catholic Christians and don't like people of other religious faith to influence them. Since the village headwoman was influential we were advised to leave the place which we did and returned back. Most people here live in reindeer tents, but now air conditioned house have also come up with all modern facilities. Government is supporting them to develop economically.

Once I had gone to a town for *praca'ra*, there seeing me in saffron uniform I heard a person commenting about A'nanda Ma'rga. When I asked him how he knows about A'nanda Ma'rga, he said he attended a programme by Dada Karunananda in Oslo University. I wanted to learn meditation but he insisted that I should be vegetarian first. But I could not reconcile to his suggestion and did not learn meditation. But I was surprised to see that your mission is working even in such a remote location. I promptly replied A'nanda ma'rga is omnipresent. He was an educated person and he alongwith his girl friend learned sa'dhana'. He was a local person. I was happy that Ba'ba' has used me to propagate His mission in such remote places using such curious medium.

I also went to many islands with sister Niiti and met many different people and after initiating 10 persons I returned back to Oslo having spent 25 days in Lapland.

A'nanda ma'rga in Iceland

Iceland<http://en.wikipedia.org/wiki/Europe> is an island country in the North Atlantic Ocean on the Mid-Atlantic Ridge. It has a population of about 320,000 and a total area of 103,000 km². The capital and the largest city is Reykjavík, with the surrounding areas in the southwestern region of the country being home to two-thirds of the national population. Iceland is volcanically and geologically active. The interior mainly consists of a plateau characterised by sand fields, mountains and glaciers, while many glacial rivers flow to the sea through the lowlands. Iceland is warmed by the Gulf Stream and has a temperate climate despite a high latitude just outside the Arctic Circle.

According to *Landnámabók*, the settlement of Iceland began in AD 874 when the Norwegian chieftain Ingólfur Arnarson became the first permanent Norwegian settler on the island. Over the following centuries, people of Norse and Gaelic origin settled in Iceland. From 1262 to 1918 it was part of the Norwegian and later the Danish monarchies. Until the 20th century, the Icelandic population relied largely on fisheries and agriculture. In 1994, the nation became party to an agreement that established the European Economic Area, thus allowing it to diversify from fishing to economic and financial services.

Iceland has a free market economy with relatively low taxes, while maintaining a Nordic welfare system providing universal health care and tertiary education for its citizens.<http://en.wikipedia.org/wiki/Iceland> - [cite_note-13#cite_note-13](#) In recent years,

Iceland has been one of the wealthiest and most developed nations in the world. In 2010, it was ranked as the 17th most developed country in the world by the United Nations' Human Development Index, and the fourth most productive country per capital, 2008, political unrest occurred as the nation's banking system systematically failed.

Icelandic culture is founded upon the nation's Norse heritage. Most Icelanders are descendants of Norse (particularly from Western Norway) and Gaelic settlers. Icelandic, a North Germanic language, is closely related to Faroese and some West Norwegian dialects. The country's cultural heritage includes traditional cuisine, poetry, and the medieval Icelanders' sagas. Currently, Iceland has the smallest population among NATO members and is the only one with no standing army. According to *Freedom of the Press*, Iceland has one of the most free presses in the world.

A geologically young land, Iceland is located on both the Iceland hotspot and the Mid-Atlantic Ridge, which runs right through it. This location means that the island is highly geologically active with many volcanoes, notably Hekla, Eldgjá, Herðubreið and Eldfell. The volcanic eruption of Laki in 1783–1784 caused a famine that killed nearly a quarter of the island's population; the eruption caused dust clouds and haze to appear over most of Europe and parts of Asia and Africa for several months afterward.

Dettifoss, located in northeast Iceland. It is the largest waterfall in Europe in terms of volume discharge, with an average water flow of 200 m³/second.

There are also many geysers in Iceland, including Geysir, from which the English word is derived, as well as the famous Strokkur, which erupts every 5–10 minutes. After a phase of inactivity, Geysir started erupting again after a series of earthquakes in 2000. Geysir has since then grown more quiet and does not erupt often.

With the widespread availability of geothermal power, and the harnessing of many rivers and waterfalls for hydroelectricity, most residents have inexpensive hot water and home heat. The island itself is composed primarily of basalt, a low-silica lava associated with effusive volcanism as has occurred also in Hawaii.

The climate of Iceland's coast is subpolar oceanic. The warm North Atlantic Current ensures generally higher annual temperatures than in most places of similar latitude in the world. Regions in the world with similar climate include the Aleutian Islands, the Alaska Peninsula, and Tierra del Fuego, although these regions are closer to the equator. Despite its proximity to the Arctic, the island's coasts remain ice-free through the winter. Ice incursions are rare, the last having occurred on the north coast in 1969.

Just after I returned back from my brave journey of Lapland in July 1980, I received an invitation from the ma'rgiis of Iceland to come and visit their country for two months. July- August is perhaps the best season in whole of Europe and Scandinavia. Good season in Europe is more like spring season in India. SS dada also wanted me to visit Iceland, hence I decided to go there. Brother Rajesh received me at the Airport. From there we went to AM Jagrti in Reykjavik. Our Jagrti was very beautiful and well maintained. Four Margiil/ LFTs were already staying there. They were also running a Kindergarten and a Co-operative. Both the institutions were evry popular among the

general public. A'nanda ma'rga and Prout were also known among the people there because of its scientific and progressive ideas. Sister Aditi was the Bhukti Pradhana and brothers Rajesh, Jyoti, Mahaviira were dedicated LFTs. I moved in the Capital city of Reykjavik and many islands of Iceland and initiated some 50 persons. The common population here is a happy lot and easy to get along. They are open to new ideas and support the liberal and democratic ideas.

A'nanda Ma'rga in Greenland

The story of first praca'ra in Greenland is really quite strange. The then SS Dada Karuna'nanda went to attend WRDS (World Review Defect Solution meeting) in Kolkata. Ba'ba' enquired whether A'nanda Ma'rga units have been established in all the countries in Berlin sector? Dada replied in affirmative. Again He asked if there is a Margii Unit in Greenland. When he denied, Ba'ba' asked if Greenland was outside your sector. He nodded but Ba'ba' was visibly annoyed with him and he received punishment for not presenting the correct picture of his sector. Then He gave SS Dada a target of 20 days to establish a unit there. SS returned back to Berlin sector and instructed the RS Oslo region Dada Dharmaveda'nanda to proceed to Greenland for praca'ra. This was a very difficult task. Greenland is the greatest island of the world with an area three times that of India. At that time its population was hardly 40,000. This region is in North Pole. It remains covered with ice sheets almost the year round for 10 months. Its climate is inhospitable. Everywhere there are only hills and ice. A small population lives in the south western shore of Greenland where warm water from Arctic Ocean flows. This maintains the temperature of the south-western shores. During cold climate the temperature here stays at -40 degree. Other parts of Greenland the temperature is normally -80 degree. Survival is very difficult. The inhabitants are Eskimos. They use sledge carts driven by Wild Dogs or Reindeer on ice. Their life is adventurous but very hard.

These Eskimos are mostly found on the shore of south and west Arctic Ocean. The remaining Greenland has no population, since the climate in those parts is very harsh and unsuitable for human survival. These people do not live at one place. They are nomads and are migratory by nature. They keep moving from one place to other in search of more hospitable land. Reindeer is their main asset. Reindeer is like a deer living in the ice capped mountainous region. Reindeer is raised mainly for meat, hide and antlers and to a lesser extent for milk and transportation. To protect them from extreme cold nature has endowed them with two layers of fur, a dense woolly undercoat and a longer haired overcoat consisting of hollow air filled hair. Reindeer are ruminants. They mainly eat lichens in winter specially reindeer moss. Reindeer are not considered fully domesticated as they roam free on pastures. Reindeer are ruminants, having a four-chambered stomach. They mainly eat lichens in winter, especially reindeer moss.

However, they also eat the leaves of willows and birches, as well as sedges and grasses. There is some evidence to suggest that on occasion, they will also feed on lemmings, arctic char, and bird eggs. Reindeer herded by the Chukchis have been known to devour mushrooms enthusiastically in late summer.

Reindeer meat is popular in the Scandinavian countries. Reindeer meatballs are sold canned. Sautéed reindeer is the best-known dish in Lapland. In Alaska and Finland, reindeer sausage is sold in supermarkets and grocery stores. Reindeer meat is very tender and lean. It can be prepared fresh, but also dried, salted, hot- and cold-smoked. In addition to meat, almost all internal organs of reindeer can be eaten, some being traditional dishes. Furthermore, *Lapin Poron liha*, fresh Reindeer meat completely produced and packed in Finnish Lapland, is protected in Europe with PDO classification.

Reindeer antler is powdered and sold as an aphrodisiac, nutritional or medicinal supplement to Asian markets.

The meat of reindeer is the main food of Eskimos. They also make their shoes, shocks, coat, pants and cap out of the skin of reindeer. In the past Eskimos lived in the houses made of ice or tents made from reindeer skin, but now they are living in air conditioned houses. They generate electricity from hot water and maintain the temperature of the house at comfortable levels. Everything eaten by the population is being imported from Norway and Denmark. Earlier it was ruled by Norway, but now it is an independent nation. Many people from Scandinavia have settled here and live in towns. Because of cold climate the rise in population is very slow. Parents with three or more children are supported by the government and the children get all the facility until they get educated.

Since A'nanda Ma'rga units were already there in Iceland, RS dada informed Ma'rgiis about Ba'ba's desire to spread A'nanda Ma'rga in Greenland. A flight for Greenland used to leave once a week. A ticket was arranged by the ma'rgiis for RS dada to travel there. He arranged a meeting in a community hall where about 30 persons came to listen to him. One sister among them took initiation. It was she who helped him to further propagate A'nanda ma'rga. RS dada returned back to Iceland after a week. Later on LFT Shatrupa went for further praca'ra to Gotabe (now Nuuk) – the capital of Greenland.

Again in the year 1980 when SS dada went to attend WRDS in Kolkata, Ba'ba' expressed the desire to conduct DMC at the following four places in Berlin sector.

1. Lisbon – the capital of Portugal
2. Luxemburg a small country between Belgium and Holland
3. Helsinki – the capital of Finland
4. Nuuk – the capital of Greenland

There was no pracara of A'nanda ma'rga in all the above four places. There were only a few ma'rgiis and hence it was a big problem to organize DMC in these places.

I was responsible for Scandinavia. Hence SS dada asked me to organize DMC in Greenland. I was disturbed when I was given this responsibility. Greenland is a huge island and it is covered with ice for 10 months in a year. Travelling to Greenland is very expensive. There are virtually no ma'rgiis there. Only our LFT Shatrupa has some information about the place. I wrote a letter to Dada Dharmaveda'nanda and requested him to come for my help to organize DMC in Greenland. I also collected the address of sister Kadambari of Greenland. It was a month of October. I proceeded to Copenhagen to catch the flight to Nuuk. As soon as I left the counter after checking in my luggage, an air hostess approached me looking quite surprised. She asked me if I was travelling to Greenland. She went further and asked me if I was sure where I was going. I was damn sure. I said yes, I am on my way to Greenland. She said it is indeed a brave decision. In October very heavy ice storms start and continue for many months. People generally return back to Europe from there in this period. After she had given her view I went and sat inside the airplane.

This place took me to an American Airport named Armstrong. From here I was to take another flight which was to take me to the south towards Nuuk the capital of Greenland. When I landed in Armstrong there was heavy ice storm. It was very dark everywhere. In no time I found my body was frozen even in an Airport that was air conditioned. After sometime I reached Nuuk Airport after taking another flight. At the airport I was very happily welcomed by LFT Shatrupa' and Sister Kadambari. I got a gut feeling that Ba'ba' is surely going to get some work done through me.

By Ba'ba's grace and the co-operation of two dedicated sisters. I started my work and was able to conduct meetings in the University, colleges and the clubs. I was also able to get access to the local radio station and used to give a talk on A'nanda Ma'rga and also give interviews on the TV. Everybody had come to know by then that an Indian Yogi was there teaching Yoga & Meditation in the town. It was a small town of 10,000 people. Hence it was not that difficult to get across to most people. Sister Kadambari got the Union leader initiated. He happily accepted his new samskrta name of Janak.

He was the education minister and he helped in the propagation of our Neo-humanistic education system. In a months time I initiated some 40-50 people & created two LFTs. They promised me to start two NHE schools and also agreed to make all arrangements for Ba'ba's visit.

Before I left for Oslo I enquired from sister Kadambari what attracted her towards A'nanda ma'rga and why & how she came in A'nanda ma'rga. My question made her cry. Then she narrated the strange incidence relating to her coming to A'nanda ma'rga. She

completed her graduation from Nuuk and after that she returned back to her town in southern Greenland which was 4000 kilometers away from Nuuk. In Greenland a big town means a population of 500-600 people. The population in Greenland is scarce.

Six months period during cold season is very depressing. There is no sun rise. That why this unnatural situation draws people towards consumption of heavy drinking and narcotics. This causes weakening of their nerves and brain and they get mentally sick and suffer from melancholia. Suicidal tendency becomes predominant in their mind. They lose faith in the purpose of life.

Kadambari was also a victim of similar situation. Once she had bought cyanide and slept before taking cyanide. Then she had a dream and in the dream she was beholding a divine being in specks who was in a white attire like Ba'ba' (she had no clue about ba'ba'). He came close to her and gently massaged her head. He told me not to get depresso and don't even think of committing suicide. Suicide was a sin. This life is for living. You must not think of dying. I am sending an a'ca'rya for you to learn sa'dhana'. He will be here in next 20 days from now. You must learn sa'dhana. This will change your mental condition. Everything will be fine thereafter. You have a spiritual mission in your life. Through your medium spiritual sa'dhana' will be propagated for the all round benefit of many people. When I woke up after the sleep, the thought of helplessness and suicide disappeared. I was now a changed and a happy person. That divine being also showed me in my dream the face of the monk in orange attire who was supposed to initiate me. When she saw RS dada Dharmaveda'nanda delivering the speech in the community hall she immediately recognized him and took initiation. Initiation changed her life totally. She started thinking all the time of Ba'ba' and His mission. When she heard of my coming to Nuuk, she also came here to help me organize praca'ra work.

We are all his chosen children. It is he who arranges everything in our lives so that we remain in His shelter. We are all blessed.

After finishing my work in Greenland I returned back to my central office. There I received the message from SS dada to go to India to attend WRDS & New year DMC. When I reached A'nanda nagar to attend WRDS & DMC, Ba'ba's nephew Paltu approached me and said that Ba'ba' has asked to meet me and ask for my experiences in Lapland and Greenland. When I heard him say so I was awe-struck. How Ba'ba' alone manages all the show in absentia and uses us as His medium.

Next day when I got the opportunity to meet Him, He asked me why is Iceland not an Iceland and Greenland is not a green land. I had replied that the climate of Iceland's coast is subpolar oceanic. The warm North Atlantic Current ensures generally higher annual temperatures than in most places of similar latitude in the world. This is caused by the violent volcanic eruptions which keep the air temperature under control. Greenland

is in reality a whiteland. There is ice everywhere. Hearing my reply Ba'ba' lovingly looked at me, I felt a rush of blissful waves enveloping me and filling my mind with happiness.

When Greenland was first discovered, then Vikings (Decoits of Ocean) settled on the south western shore and to attract the Europeans here named this place as Greenland.

Dharmaguru Ba'ba': Leo town in south France, 1979

Ba'ba' returned back after His two month long European tour in July-August 1979. He conducted DMC at many places during His journey. I was posted in Berlin sector in December 1979. Once I happen to visit Paris regional office in Leo. There the Ma'rgiis told me how Ba'ba' had come over to that Jagrti. Then they told me the event that took place when Ba'ba' forced the WTs to shift to our own Jagrtii instead of the hotel where He was first taken for stay. They told me that Ba'ba' had blessed this office during His European tour. It was then a rented Ja'grti and since we had no other place during Ba'ba's visit arrangement for His stay was made in a good hotel. On His arrival when He was brought to the hotel (where beef and pork was regularly served) He refused to stay there and asked them to be taken to our Jagrti. He was immediately shifted from there to this Jagrti. Although the Jagrtii was not prepared and not equipped with proper facilities He preferred to be there. He was very happy in the Jagrtii and did not mind the small inconveniences. His coming there inspired Margiis and throughout His stay He enjoyed being in the company of margiis and He blessed all to their heart's content.

Chapter 7

Manila Sector : I will measure the depth of your devotion – Lake Garden, January 1981

After a year I visited India to attend DMC at A'nanda Nagar and get the darshan of Revered Ba'ba'. Ba'ba' called me during the World RDS and told me that He had heard about the good work done by me in Berlin sector. Now I want you to shoulder a big new responsibility. I remained silent and continued with Ba'ba's massage. I continued to speak about the good news from my sector. After that my new posting as Sectorial Secretary Manila was announced. I was disturbed internally and worried about the responsibility of new posting. I remembered how I had learnt to live in an entirely new environment with new people of Berlin sector and somehow managed to advance the missionary cause. Again He wants me to work in a new environment where food habits, way of life and environment and mentality is just the opposite of Berlin Sector.

Omniscient Ba'ba' knew my mental state and to encourage me He called me near Him and said that He had posted me there after considering all the requirements. He inspired me saying that you will succeed in your work there and will not have any difficulty. You will receive the support of margiis and wts. His consoling sweet words

helped to reduce my anxiety. I made up my mind and started to prepare to work in Manila sector. After DMC all the WTs came back to Kolkata. My air ticket for Bangkok and other places was also reserved. On the day of my departure I went in His room for sas'taunga prana'ma & to receive His blessings. As I sat there I found Him in a serious mood and in a rather stern manner He asked me that He was going to measure my devotion for Him in respect of my output in compliance of following three things.

1. Extent of funds you will be able to raise for Tiljala Jagrti Construction
2. The number of plants you will bring for my garden and
3. The number of items you will add to my Museum

These three points were put forth for judging my output. Hearing these, rather, harsh words I got stressed. A thought crossed my mind, can I ever pass His tests without His grace. He maintained His disciplined stance until finally He asked me to proceed to airport, since it was time for my departure. I kept crying like a child while leaving His room. However I continued with my self- analysis and tried to figure out if I failed anytime in my commitment. Soon I overcame with my remorse and was determined to be successful in His test. on the way to airport I kept crying and this followed throughout my trip when I was constantly calling Him until I reached Bangkok. On my arrival there I received a warm welcome by some margiis and wts. After collective meditation when they asked me to speak about ba'ba', I could not control myself and wept. This had a positive effect on all & they were inspired and got vibrated after hearing me talk about Ba'ba'. From here I proceeded to Kualalampur – the capital of Malaysia. Like in Bangkok the margiis greeted me there also. After Dharma Cakra I was asked to speak which I could not comply as I kept crying and this had a profound effect on the margiis.

My next margii destination was Singapore, like at two previous places margiis of Singapore greeted me. The day I reached there in the jagrti it was Sunday Dharma cakra. Hence ma'rgiis arrived there in large numbers. They were great devotees of Ba'ba'. After Dharma Cakra when they asked me to speak, like before I could not control myself and cried out loudly. This created an other worldly environment and many margiis were overwhelmed by the devotional waves and joined me. Margiis returned back home after the Dharma Cakra and returned to the Jagrti next day also and wanted to hear something from me. I remained abnormal and the spiritual waves vibrated their minds as well.

Thus travelling further I reached Manila the capital of Philippines and my sectorial headquarters. Margiis in large number came to the airport to receive me at the airport. My mental condition was the same here as well and this had a very positive effect on the margiis. They were greatly inspired during my stay of two and a half month in their sector. After that I returned back to Kolkata to attend World RDS. On this return journey I was loaded with the rare plants of the South East Asia and carried my sectors contribution for Tiljala.

Before my taxi arrived at Madhu Malainca residence of Ba'ba' in Lake garden, I found that the attending secretary of Ba'ba' was waiting for me at the gate. He virtually grabbed me and carried me to Ba'ba's room. I prostrated before Ba'ba'. He smiled in His exquisite style, the memory of which is still alive in my mind.

I remembered the difference in my mental state in which I had left Him when I was posted to Manila sector & now. After a while Ba'ba' enquired about my tour of the new sector. I did say that it was great by His grace. But soon broke down and wept. He caught me in His arms and gave me the much wanted bliss by His touch.

Ba'ba' continued and asked me what do I understand by devotion? He himself replied. To dance according to His tune is real devotion. Since then I always made sure to first accomplish the task given to me before asking for anything.

Berries Plant with thorns

As desired by Ba'ba' I used to carry many varieties of plants from many countries of my sector every time I came for the world RDS. Ba'ba' used to give them a Samskrta name and would get them planted in His gardens at appropriate places. Once I happen to bring a plant of Berries from Philippines. Ba'ba' named it as Maharlika' Maha'Badari. But due to some negligence the plant died. Ba'ba' became very annoyed with person responsible for His garden including Asiima'nandajii. He sent word to me to get a replacement of that plant. I tried my level best but could not secure that plant. I was also getting punished for my failure to get that plant. I became a laughing stock before my co-workers who used make fun of me. In this manner some eight months passed. I was getting punished in every world RDS. I was really disturbed at my failure. Once when I was being punished I asked ba'ba' the botanical name of the plant to search that in the botanical garden. Ba'ba' smiled and told me that you would not find that plant in big gardens or the Botanical gardens but this plant is a typical berries plant whose leaves have thorns on them. Now you go and search for it and you will get one.

On my returning back to Manila, I went to Davao where Cidanandajii was posted as the shraman in our Training Centre. I explained him everything and then we went in jeep in the forest in search of the plant. There we met a old experienced gardener. When we explained him the characteristics of the plant he said he has that plant in his garden. We ordered 50 of those plants and on my return to Manila I sent those plants through WT to Kolkata. On receiving the plant Ba'ba' was overjoyed and praised me. I wondered what in heavens has He got in that plant. That is something we humans cannot fathom about the mind of our Lord.

Ba'ba' wanted us to get Ornaldi Ruflesia the biggest flower of our planet

Once Ba'ba' asked me to get Orinaldi Ruffles plant. The flower of this rare plant is the biggest available on our planet. Its diameter is more than one meter. It is a creeper like plant and grows taking the support of a special tree. Bali, Sumatra & Java of Indonesia is the home of this plant. On being instructed to get that plant I was totally at a loss what to do and how to get it?

On my return back to the sector I initiated the process to procure one such plant. In the sectorial RDS I asked all the workers about Ba'ba's desire to get the plant. Dada Citkrnananda took it upon himself to get this plant. He succeeded in getting it though with great difficulty and the plant was sent over to Kolkata. However it did not survive due to poor care. The caretaker of the garden received severe punishment for losing the plant. I was then asked to get another plant of the same variety.

In every WRDS I had to receive His punishment for my failure to arrange the plant. Time passed by and even after 7 months we could not manage a replacement.

This plant was the National Flower of Indonesia. A few plants were available in Java Sumatra, but they were under strict surveillance of the national security. Being a rare species other countries were also on the look out and used to send request to Indonesian government to get this plant. Once the Japanese Prime Minister visited Indonesia, he offered \$100,000 for the plant but could not get one. This was next to impossible to procure this plant, but Ba'ba' was adamant.

Finally Citkrnanandajii once again got another plant by earning the friendship of an official in Bali. On being told by him over phone that he had collected the plant I was overjoyed. He went by air with the plant to Kolkata and gave it Ba'ba'. He was delighted and blessed Dada Citkrnananda.

Nothing is impossible by His grace. He tests us of our patience and sincerity. With strong determination everything is possible.

Golden chicken plant

This is a unique but rare species found only in Indonesia. Its fruits look very much like golden chicken. I was asked by Ba'ba' to get this rare species of plant. It was difficult but by His grace it took us a few months before we could procure one for His garden. Ba'ba' got many of the rare plants through us. We also made all the effort demanded and accomplished the task given to us. In this process we were tested of our grit and patience. When we used to fail and called out for His help, He would make the otherwise impossible task easy and give us success. That way we would constantly think of Him and experience His grace. Thus missionary work in Manila sector went on progressing.

Contribution for Tiljala Jagrti

The construction of Tiljala Jagrti was never ending & so were the demands by the central office. It appeared as if it was a endless journey and all margiis and WTs were tired of constant pressure put by General secretary and the Central Office Secretary to fulfill the allotted quota. I was also equally disturbed by their demands. Finding no alternative I started calling out to Him to relieve us. He was always taking care and I used to get my target met through one or the other unexpected medium. After two years the construction was over and we were relieved. I was fortunate that we were able to meet our targets and our potentialities were utilized by Him for His mission.

The incidences which occurred at Singapore, Jakarta and Manila

These incidences all remind me of His omniscience, omnipresence and His compassionate grace that is always protecting us in all circumstances. The incidences occurred during 1982. I was then the SS of manila sector and was staying in the Jagrti at Singapore with two WTs. It was noon time. About the same time a gentle lady came to the Jagrti and insisted to cook for us. We conceded to her strong desire. She prepared the food and fed us well. Soon after taking our lunch I found my whole body started burning. I felt like getting unconscious. I prayed for Ba'ba's help.

Thinking in retrospect I was a little apprehensive that the intentions of the lady may not be all that right. The food did prove to be poisonous to me. The WTs accompanying me were also disturbed and did not know what to do. They were, however, not affected.

Again the same lady came in the night to cook our dinner, I got scared of her. That evening somehow the WTs convinced her that we were not hungry at all. Finally she left for good.

In the same tour I also visited Jakarta and stayed with the Regional Secretary. He took me to a strong Muslim sympathizer of the Ma'rga. He always supported the margii activities. He welcomed us in his house and we were introduced to each other. He discussed about our social service projects and about many of the devotional aspects of Ba'ba'. He wanted us to dine with him and we could not decline his request. We were assured that the food will be strictly vegetarian and sentient. The thought did cross my mind to avoid dining at his place, but I could not refuse him. After we had finished, my body and mind were adversely affected.

Then I came back to Manila. I was thinking that something was wrong with me and that I was being cheated under the spell of avidya'. I did not pay heed to this and came to Kolkata for World RDS.

World RDS started the following day and next day when my turn came, Ba'ba' asked me about some white item that I have taken in Singapore Jagrti on that specific day. The WTs present all laughed and made fun of me on being ridiculed by Ba'ba'. Ba'ba' observed that the WTs were making a fun of me. then He told them that I did not take any thing static. When He asked me again, I replied that it was tofu. Everybody laughed.

Ba'ba' further said that everything was clear in my mind that the food prepared by the lady who cooked for us may prove be harmful, still i did not pay heed to the inner voice. Then he started punishing me, and continued to speak. Next time again in Jakarta despite his inner voice suggesting him to refuse the request for food, he overlooked that and took the food and suffered physically and mentally. Why didn't you refuse? Was it necessary to please that person? He then continued to take my samskara away using His Dukhaharan stick. I enjoyed His grace and cried in bliss for receiving his constant attention.

Have you been permitted to use the scented oil?

Venue: sectorial office: Pako, Manila, 1982

I would normally carry sufficient coconut oil for my daily use from India. Once it so happened that my oil got exhausted and in Manila I could not get the unscented coconut oil. I was then working as SS Manila. There I consulted my seniors viz. dada Cida'nanda who was the Shramana in Davao WT training Center & Dada Japa'nanda who was the Shramana in GBTC LFT training Center 60km. away from Manila. Dada Cidananda suggested that baby oil has very little scent and may be used, Dada Japa'nanda also agreed to his suggestion. Finding no other option I also started using the baby oil, though I was not personally convinced with their argument.

After few days I had to come back to India for attending World RDS in Lake Gardens, Kolkata. When I presented myself before Him he asked me what you were discussing on a particular day in Manila amongst yourself with other senior workers? I did not reply. Ba'ba' continued and said when you were not convinced of their argument about using the scented baby oil why did you use it. Since when did you get the permission to use scented oil from Ba'ba'? I accepted my mistake and told Him I shall never ever repeat it in future.

Incidence of taking peanuts

Once I was caught by Ba'ba' for consuming peanuts. Peanuts are not static (ta'masika) nor they are prohibited for WTs, but for me peanuts are not good. I used to stomach upset after taking peanuts. Ba'ba' said that knowing well this man has been taking peanuts. Then he punished me with His Dukhharana (that which take away your pain) stick. Other workers present were enjoying my predicament. In fact since we were not

getting any healthy thing to eat outside Tiljala those days, we would take peanuts which were easily available everywhere.

I was overwhelmed by His constant attention. His kindness and the care is our only refuge. He takes care of us all even in small matters related to our day to day life.

Regarding posting of GBTC Shramana in Bali Island

Ba'ba' posted a Regional WT as Shramana for starting a Training Center there in Bali. I was then staying in Singapore jagrti. The newly posted WT arrived there and informed me that Ba'ba' has sent him here for starting the GBTC Center in Bali. I thought for a while and told him that there is no ma'rgii in Bali. He was disappointed hearing my words. I advised him not to worry, we will soon send a few senior workers to Bali and once they are able to create sufficient ma'rgiis then you can go there and start the training center with their help. Until then you can continue to do pracara work in Malaysia and help in the construction of Jagrti there. He got busy with the assigned work, meanwhile I inspired a few senior workers to go to Bali and create margiis units there. They went there but could not create margiis in the island. In this process six months passed. By that time the Shramana was moved to Manila. He got himself involved in pracara work there.

Meanwhile according to the scheduled programme I had to rush to Kolkata for WRDS. When I stood before Ba'ba' for reporting, He enquired, how is your training center in Bali doing. I was speechless and felt lifeless as I had no plausible answer to His query. He continued probing. I could not say any thing. he then sternly told before all the SS that what would he say? The Shramana did not go to Bali and hence training center was not opened there. Then I was punished and he scolded me & said that this useless fellow has taken my mission back by six months. Then He asked me, in how many hours you can get the training center started. I said Ba'ba' it will take 200 hours. He continued with severe punishment and ridiculed me for taking so much for such a simple task. When, finally I mentioned to complete the job in 72 hours that he stopped beating.

Soon after that I called the Shraman posted by Ba'ba', who was in Manila then, and asked him to rush to Denpasar-the administrative headquarters of Bali. I told him what had transpired in Kolkata and that Ba'ba' was very unhappy with me having delayed the progress of his missionary work in Bali. He immediately complied and reached there without any delay by air & got cracking with the task assigned to him. In less than fifteen days he called up and informed me that he has been able to initiate 60 new persons. After two months he again called up and said that 150 margiis have been initiated and that Dharma Cakra has been started in five places. A house was rented out for starting

the LFT training center. The news delighted me. I was to leave for World RDS to Kolkata. It was a great news to be delivered to Ba'ba'.

After reaching Lake Gardens I straight way went to meet Ba'ba'. I was very anxious to see Him and sent word through His attending secretary. Soon after I entered His room, I sat facing Him after prostration. But Ba'ba' turned His face the other side to show His displeasure. I was very upset. A little while later He said that you want me to know the good news of startup of the Bali Training Center. This would have happened six months earlier, if you had not stopped my medium from going there. All the persons in Bali were destined to be initiated by that very A'ca'rya. I realized my mistake and also the fact that everything happens at all places by His sweet will alone. He alone has been creating the necessary spiritual vibrations for accomplishing the assigned task.

All dance at the tune of Rama Gosai

Humans are forced to dance like monkeys

We dance like puppets. This is what I have experienced. Whenever He comes to this world, all His devotees also accompany Him. They are naturally drawn towards Him. They are the one's whom He utilizes to accomplish His mission.

Ba'ba' Dream: Sectorial Office Manila, 1982

Being the SS of Manila Sector I had many responsibilities of the sector. There was financial pressure from both the Center and the Sector for discharging organizational duties. I would remain anxious on this count. I would often discuss about the means to organizing funds with my co-workers. They used to come up with many ideas for solving the financial problems. Once a group of workers suggested that if I could arrange 25,000 Malaysian Dollars, then they would venture into a business. They would also repay the loaned money within three months.

I used to maintain good relations with the margiis. Thinking in the interest of the missionary work I asked a Malaysian Ma'rgii Shrii Jina'neshvarajii for a loan. I assured him that the loaned money would be returned to him in three months. He trusted me and readily agreed to advance the loan as requested. I handed over that amount to Dada Citkrnananda who was then working as CES and Dada Arghya'nanda who was the PRS of Manila Sector. Somehow their venture did not succeed and they lost the amount. Hence the money could not be returned according to my commitment. I felt let down for not honouring my words. This caused tremendous disappointment and I was stressed out and lost the peace of my mind and suffered from insomnia. The workers concerned were supportive and assured me that they will do their best to return the loaned money. But I did not know what to do and hence I was overcome by strong negativity thought to commit suicide.

On one such sleepless nights I slept after crying out for His help. I had a Ba'ba' dream. He came close to me & lovingly massaged my head. He asked me to be brave and to relinquish the thought of committing suicide. It is a sin to even think of suicide. He also asked me to speak to the money lender and explain him your real situation. He would appreciate your problem and you will find that the problem will be resolved. Then He disappeared. All of a sudden I got up. I felt very light and I forgot the thought of committing suicide. I followed His instructed and my problem was resolved.

Even now when I try & recollect my mental state I get scared. Following this incidence I decided not to indulge in taking loan.

I fail to accept the proposal to earn money

In the last leg of my posting as SS Manila the missionary progress was tremendously accelerated. In all countries & islands of my sector margii projects were flourishing. Schools, Children's Homes, co-operatives & Master Units were being managed & new one's started and so was the demand for more money. Pressure started mounting to develop alternative sources of money. I lacked the necessary mental disposition to undertake such an activity and considered myself incapable of doing business of any kind. I would often call Him mentally to relieve me from this responsibility. Meanwhile Ba'ba' called a few workers and SS to bless them to start a business venture. He called some of them to A'nanda Nagar and blessed them for success. Seeing my mental condition He did not ask me but punished me for my lack of equanimity. I was eventually relieved from the post of SS and I handed over the charge to Dada Citkrnananda.

Spreading the mission in Vietnam & Cambodia

Ba'ba' wished that the ideals of A'nanda ma'rga be spread in all those countries which were currently under the Communist. It used to be quite difficult to work in those places since the secret police would keep a watch on our activities and considered our ideas to be a national threat. But Ba'ba' kept us under lots of pressure, hence I sent workers a couple of times to these countries without any success. Dharma Pracara & Yoga were banned there. When during one of my next WRDS I told Him about my failure to do Dharma Pracara there, He asked me to serve the the refugees of Vietnam & Cambodia who were staying at the border of Thailand. I followed up with His instructions and sent out workers there. This way we succeeded & created margii units. This happened at the fag end of my tenure as SS Manila.

Ba'ba' asked me to get a truck load of Plants

Venue: residential quarters of Ba'ba' in Patliputra Colony, Patna, Bihar

I was attending the World RDS in Patna. All SS & other workers were present there. The SS's of the nine sectors failed to fulfill the target set for us to deposit the required number of plants of the rare species which we were supposed to deliver for Ba'ba's gardens. We were asked by Him to collectively get one truck load of different plants from Hazipur near Patna as our punishment. We were tired & also that we had virtually exhausted the money. For this job we needed Rs.45,000/- and we were unable to collect that kind of funds. We could hardly appreciate His passion for plants. On a particular day all the SS's in a grim mood were sitting in front of Ba'ba's room. All of sudden Ba'ba' came out of His room and looked at our dull faces. He was all smile and addressed us by saying "No knot is a knot for my naughty boys". His sweet comment relieved all of us from the dullness which had seized us. All of us laughed with Him to our heart's content. Next day the truck load of plants arrived from Hazipur and we were allowed to proceed to our sectors.

Ba'ba' was vibrating the entire universe sitting in His small room

DMC in Philippines were memorable. The old Margii who had experienced the bliss of being in His presence wanted Him to come again. They used to express their desire while conveying their pran'a'ma whenever I would be going to Kolkata for WRDS.

On one such occasion in Kolkata I got an opportunity to massage Ba'ba'. That day He was in a pleasant mood. I conveyed pran'a'ma of Filipino margiis and also their request for holding DMC there. After accepting margii's pran'a'ma He quariied, why should He conduct DMC in Philippines? I replied that your devotees want to receive the touch of your lotus feet on Philippines. He responded by saying that He can infuse spiritual realization in the whole universe while being seated here in this room. I was dumbstruck hearing His awesome words. My mind was drowned in the flood of devotional flow that He let loose. Truly He was not bound by time & space. He loves the whole creation within His cosmic mind. He can vibrate the minds of His devotees, nay all His creation, by His sweet will.

Ba'ba' likes His devotees to develop militant mentality & not to be goody goody boys

The above comment was made by him some time in 1983. The incidence occurred when after the WRDS all the WTs (Didis & Dadas) were waiting in His Car parking space to receive His blessings before leaving for their respective sectors. The system required that before leaving each one of us has to offer a garland to Him and seek His blessings and permission. Ba'ba' had just left for field walk. We were waiting for His return with garlands.

On His alighting from the car, all SS welcomed Him. He smiled seeing all of assembled there and asked "what do my goody goody boys and girls have to say"? None of us

responded but looked to Him? He continued, goody goody means those who are gentle and good. They want peace and justice, but lack daring capacity to fight injustice. My children should be lion hearted. Do you understand? We all laughed and understood His spirit.

He came to create sadviras to establish sadvipra sama'ja. Sadvipras are ever ready to wage a pactless war against all forms of injustices, all kinds of exploitation, repression and suppression. They are ever vigilant to wage a war against their internal and external enemies. They believe in the dictum "Peace is the result of fight. Therefore the peace lovers of the world never shy away from fight".

Dharma Samiiks'a'

Following A'nanda Purniima' DMC in May 1981, Ba'ba' started a new and unique programme of Dharma Samiiks'a'. Through this programme he reviewed the physical, mental and spiritual progress of His devotees. He examined the past and present samskaras (unserved reactive momenta) of the sa'dhakas. Then He avised them the way out by giving instructions in the right food, a regimen of a'sanas, self restraint and natural remedies. He would also punish them for any of their unsavoury actions thus relieving them of their sam'ska'ra of many past lives.

He explained that the purpose of Dharma Samiiks'a' was to make a sa'dhaka Dagdha Bijja (spent samskara – a clean slate like mind). This can happen only by His causeless grace. This was an unprecedented event of human history of past fifteen thousand years. He ssaid why should you keep carrying the load of your samskaras for eternity.

I was then in Manila sector suffering from an acute form of incurable blood cancer. I was virtually emaciated and lacked any vitality to travel. But after learning His new programme of Dharma Samiiks'a' I decided to proceed to Kolkata despite doctor's advise being to the contrary. I had my ticket booked for Kolkata via Bangkok. Just before my flight was to leave I fell unconscious and the plane left. On assuming consciousness I got my booking done for the next day.

When I reached Kolkata and was driven in taxi to Madhu malainca – His residence. I found his PA was waiting at the gate for me. No sooner I had alighted from the taxi he caught hold of my hand and pulled me out and pushed me to His room. Once in His room I prostrated and sat before Him. With fatherly love He enquired about my health. Unconsciously I replied that I was good. He retorted what good? Ba'ba' examined me from my toe to top through His all knowing gaze and asked me to take rest and that He would call me tomorrow.

Dharma samiiks'a' had already begun. Ba'ba' was conducting his sessions in the central office at Jodhpur Park. Hundreds of Margiis from India and overseas wwere present

there. They would stand in queue every morning and evening in the hope of getting their turn.

All the SS were also present there and seeing all of us assembled in His room He remarked that these SSs have come from far off places and that they are our shahi (special) guests. He asked us to stand by His side and watch how He would conduct Dharma samiiks'a' of the ma'rgiis.

We stood there as directed enjoying the mystical event which was to unfold before us. A pleasant incidence occurred when He was conducting Dharma Samiiks'a' of a ma'rgii from Bengal. He asked that ma'rgii if he regularly fasted on eka'dashii. He affirmed that he did. He continued and reminded him it was summer time and you were fasting and feeling very thirsty. You went for bathing in the pond and while you were still under water you drank water and thought nobody has seen you here. But I was there in your mind as your witness. Was it Nirjala Eka'dashii (fasting without water)? No it wasn't. You must then accept punishment. He agreed and like this there were many pleasant unpleasant incidences which occurred when we stood in His presence watching ma'rgiis being reviewed one after the other.

Curing me of my Blood cancer

It was during His busy schedule in Kolkata that He cured me of blood cancer. It was 22nd July 1981, perhaps the golden day of my life. He permitted me for Dharma Samiiks'a'.

It all started when all the SS and the central workers were standing there before Him for reporting. Hongkong sector was the first as scheduled for reporting. He was unhappy with the slow pace of progress in that sector. This was followed by my turn.

When I stood there He started saying pointing to me that yesterday when I asked him about his health he had told me that he was good. But as a matter of fact he has just 24 hours of his life left. Blood cancer has totally consumed his body and he is, today, standing at the verge of death. My physician in Manila had told me about it six month before and I had conveyed about my condition to the then GS dada Sarveshvarananda.

I was suffering from this incurable disease, but I was not so much worried about my death. I had a busy schedule of work and so much to do as SS that I did not think much about my illness. The work in our sector was in full swing and expanding to cover all countries and islands of the sector. Whenever I would get tired of physical distress and pain, I would call Him. Many times in severe pain I would fall unconscious. It was in this background that I came to Kolkata. So when He spoke about me that I was about die in 24 hours, everyone present there became concerned. Ba'ba' said that blood cancer has caused total destruction of his blood cells. If somebody had told me earlier about his

serious condition, I would have advised him what to do. But now he is dying of his own accord. Let him die. What can I do in such a situation. He is suffering due to his own samskara.

As He spoke I got the internal feeling that he will not let me die before Him. I was not afraid of death instead I was enjoying His company. Then He caught hold of His dukkharan stick and said when he his blood cancer was detected, why nobody informed me. I replied like a naïve that I had informed GS Dada about my condition. He became angry on GS Dada and fired him for not letting Him know about such an important matter concerning an important worker.

However, Ba'ba' continued to touch my body with His stick and started narrating the suffering I had undergone from my childhood. He said he suffered from many diseases including typhoid, TB, acute stomach ach and many small and big diseases. There was no chance of his survival. But I wanted to utilize him for my mission. Being my devotee and a dedicated worker of my mission, I will not let him die. Medically it is not possible to save him, but I will do whatever is required to save him from the jaws of death.

He asked me to stand before Him and touched my An'a'hata cakra by His stick for long and with His eyes closed He healed my cancer. At that time I was having a pleasant sensation in my body and feeling as if a new life force was entering my body. I thought to myself that with such a force in me I can crush mountains. He continued to touch my An'a'hata Cakra for more than forty five minutes. His own body was profusely perspiring and He got tired. Finally Ba'ba' said that now he has been completely cured of the blood cancer. But he has to wait for 21 days for the new cells to be formed, then he can regain normal strength. He should be taken care off well. Then He retired me in the custody of dada Vijayananda. Dada Vijaya'nanda took care of me as I rested in his room like a feed boy. Occasionally Ba'ba' would call me near Him and would examine my progress. In His presence I would feel rejuvenated with strong waves of life force entering my body.

This way I stayed in Kolkata for 25 days and got completely recovered. I started feeling healthy and then one day expressed my desire to Ba'ba' through GS dada to return back to my sector, which was immediately endorsed by Him. He advised me to take care of my health, to eat nutritious food & strictly follow conduct rules.

This news of my having been cured of blood cancer by Ba'ba' spread like wild fire in the margii society across the nine sectors. Margiis of Manila sector were particularly waiting for my return to meet me after being cured of blood cancer. When I reached my sector I received warm welcome and they took good care of me. Ba'ba's grace is unconditional and non-causal.

He makes the dumb speak and the limp surmount the mountain

I surrender unto that ever graceful Ma'dhava, the personification of Bliss.

(Ma'dhava means the Lord of the causal matrix of the universe)

Tiljala Jagrti construction - an interesting incidence

In 1980 Ba'ba' wanted Jagrti and office building construction for both Dadas and Didis separately to be initiated at Tiljala. For the purpose two separate lands were bought in the vicinity. The construction was in full swing in the year 1981 and 1982. It was Ba'ba' who took upon himself the task of inspiring workers to contribute funds so that the work is accelerated and the task is finished as soon as possible.

The then GS Dada Sarveshvarananda and OS dada Pran'avananda were responsible for the construction. They would pressurize the SSs to contribute maximally. The target amount for each sector would increase substantially in every WRDS. All SSs were virtually disenchanted and felt undue pressure. Nobody was willing to do contribute any further. About the same time a court notice was sent to Ba'ba' by a building material supplier. This was regarding the payment of the balance dues to the tune of Rs. 2.5Lac. the notice said if the dues are not cleared in month's time then legal proceedings will be initiated as result ba'ba' may have to presnt himself in the court. All of us were in Tiljala for the WRDS. Ba'ba' became very angry on GS and OS after being told about the court notice. We were also summoned in His room and before us also he ridiculed GS & OS for their failure to create such a situation. We were also affected by their plight. Ba'ba' then said these two persons have troubled you a lot for contributing funds for construction. They have also put me in such a difficulty. It is because of them that the court has sent the notice to me. Eventually Ba'ba' said that this would be your last contribution towards Tiljala construction. He directed that the amount due to each SS should be sent within 20 days. All of us agreed to comply the schedule. Thus the problem was resolved.

How the future is destined to unfold?

Whole timers from across the nine sectors were present for World RDS in Madhu Malainca, Lake gardens, Kolkata. Ba'ba' had started with SS of Hongkong sector. He took the report of outturn and was seemingly unsatisfied and hence punishment followed. This was His routine, and no SS was an exception. But this time along with reporting He also made interesting comment about the socio-cultural, politico-economic scene of each sector. For instance He remarked, that all the countries of Honkong Sector viz. China, Japan, Taiwan, Korea and others had a rich cultural and spiritual

tradition. Thinkers like Confucius, Tao and many others enriched the minds of its people. Mahatma Buddha created a strong spiritual impact on their minds. Generally the people in this sector have spiritual urge. Japan, Taiwan and Korea continue to progress materially.

When my turn came, He talked of the rich socio-cultural heritage of Thailand, Indonesia, islands of Malaysia, Cambodia, and Vietnam. Singapore is economically developed and Malaysia is steadily advancing. The culture of Philippines has been badly hit by pseudo-American influence. Suva, Berlin & New York sectors are economically developed. Nairobi sector has been incessantly exploited socially, culturally, economically and its natural resources have been denuded by the so called developed countries. Most of the countries of this sector are socially backward and economically exploited.

The otherwise backward countries of today viz. India, China, Brazil, Mexico, Indonesia are rich in mineral resources. After 35 years from now these so called developing nations will become the developed nations of the world and those which are developed today will lag behind. Today the countries of America, Europe and Australia make fun of the economically backward countries. A time is going to come when these countries will lose their economic might and then they will also be the laughing stock of the then developed countries. Nothing is permanent in this world, everything is a passing show, a changing reality and a moving panorama.

How & why will this occur? Those so-called rich countries have utilized & exploited their own resources maximally. Their economy is moving towards saturation. On the other hand the developing countries have huge unexploited and untapped natural resources. With the acquisition of science and superior technology these countries will be able to make better use of their potentialities and will get richer.

He further added that the fortune of India is very bright. In coming 35 years it will be the spiritual leader of the world. Its cultural and spiritual wealth is unparalleled. You will dedicate your might to ensure that it gets the coveted status.

You will not speak a lie under any circumstances

Ba'ba' initiated a new school of music & set each song to tune at Deoghar, a small town in Bihar. It was that memorable day of 14th of September 1982, when he composed the first song and this process continued until 20th October 1990 - a day before His physical departure from our planet. He called the new school of music - Prabhat samgiita. Prabhat samgiita is a store house of a staggering 5018 songs. The compositions are in eight different languages. Every day was memorable in that devotees would wait to learn about the composition of new songs. Ba'ba' would quite often inspire ma'rgiis to

learn new songs and sing individually and collectively. Programmes were also launched to conduct Prabhat Samgiita concerts across nine sectors.

In Manila sector also a live Prabhat samgiita concert was organized. Leading musicians & singers participated in the programme. On the solemn occasion Gokul Piitha (a sweetmeat delicacy liked by Shrii Krsna) was also prepared. Didi A'nanda Vijaya worked hard to produce Gokul Piitha (the process was taught by Ba'ba' Himself). It was a likeable sweet and was prepared with fineness it deserved. Obviously everybody wanted to have a larger share.

I had a feeling of satisfaction that a Prabhat samgiita concert could be successfully organized in my sector. I had a strong desire to convey the good news to Ba'ba'. The opportunity came when I visited Kolkata to attend WRDS. Normally Ba'ba' would call me near Him at least once whenever I came for reporting. I waited for two days but contrary to my expectations there was no call from Him. My anxiety was mounting. I enquired from His PA and learnt that there was a new condition to be complied for seeing Him in person. According to that only that WT who has organized minimum five Prabhat samgiita Concerts will only be allowed to see Him in person. Naturally this was very disturbing information. Mentally then I planned to submit a wrong report of completing five concerts to see Him. I conveyed to dada Rama'nanda that five concerts were held in my sector. He informed Ba'ba' about this. Ba'ba' agreed to meet me next day in the morning at five am. I was ready the very next day before 5am and went to his room. As I got up after sa's'taunga Pran'a'ma, He enquired whether I have completed five concerts of Prabhat Samgiita in my sector. I could not speak a lie and remained silent. Ba'ba' who was reclining on His bed, suddenly jumped up in a show of anger, as if exhaling fire. He ridiculed me contemptuously. I was absolutely non-plussed & did not know what to do? As I returned back from the initial shock, I thought to run away from his room. It was like a thunder and He asked me why the hell I spoke a lie. I replied that I did that to meet Him in person. His mood softened and He asked me to bolt the door from inside. I followed suit. Again he queried regarding the real purpose of my lying. I repeated what I had already said. By this time His mood had changed and now he was talking to me sweetly. He advised me that I should never ever resort to lying in future, even if it is to meet me. He further advised that the life of a sanya'sii should be based on satya (satya'shrayii) in all conditions. I promised Him that I shall never take shelter of falsehood. Thereafter He regained His usual affectionate self of Kalyansundaram. I was, then, swept away in the flood of bliss that ensued from His Divine form.

Summing up the progress of A'nanda Ma'rga in South-East Asia during my tenure as Sectorial Secretary (SS)

It was the January of 1981 that Ba'ba' appointed me to be the SS of Manila sector. I was doubtful and a bit afraid to handle such a huge responsibility. Ba'ba' knew my predicament and inspired me to take up the new challenge. He also assured me you will be welcomed by the ma'rgii there and that I will be successful in accomplishing the missionary objectives. As days passed by I realized that everything happened as He had ordained, fortunately for me He chose me to be His medium.

My first tour of Manil sector began with Bangkok, kualalampur, Malakka, Singapore, finally Manila. As if it was preplanned, wherever I went in my sector, I received a very warm and affectionate welcome by both the WTs and margiis alike.

Tears rolled down whenever I thought of Him and experienced the flood of His grace. I do not remember for how many days of my posting in Manila sector I had cried out for Him. I also realized that He was the Lord of life and death, when He cured me of Blood cancer which was then, a incurable disease.

Again He had repeatedly asked me to get the plant of the berries with thorns (*Lancania Americana*), which could not be procured despite the efforts of so many workers of my sector who tried unsuccessfully in many botanical gardens, finally I pleaded like a child, then He smiled at my plight and told me to go back to sector and search for it and you will find it.

In the two and a half years of my tenure in Manila sector many unusual incidences occurred. Most countries of Manila Sector are very poor. Except Philippines everywhere else Margii establishments were non existent. Communication was difficult and expensive. During my tenure intensive and extensive missionary work progressed in all of the sector. New Jagrtis were constructed, Master units lands were bought, ne Kindergarten schools started, Yoga Centers opened. All this needed huge deployment of funds and effort. He made all this possible through our, otherwise, weak medium.

Manila sector includes – Philippines, Malaysia, Indonesia, Singapore, Brunie, Thailand, Myamnar, Laos, Cambodia and Vietnam. Most countries then were under ruled by dictators. Geographically south-east Asia is surrounded by Pacific sea and is the home of thousands of small and big islands. The climate in the whole sector remains warm and sultry like in any tropical country. There is hardly any need of warm clothings. There are only two seasons-summer and the rainy. It abounds in natural beauty everywhere.

You will find all varieties of plants and trees viz. coconut, banana, rubber, Palm and jackfruit. Huge areas are covered by thick forests. It has many species of land and aquarian animals and birds. The variety of sweet and juicy fruits available in part of the world is unthinkable anywhere else. The most of the population in south-east Asia is

Christian, Bouddha followed by Muslims, while only a small section of people follow Hinduism.

A'nanda ma'rga is a popular movement in Philippines. After India it is here that there are maximum devoted ma'rgiis. A'nanda ma'rga System of sa'dhana' and AMURT's service activities are popular and admired by the public. A'nanda ma'rga is registered under the security exchange of the government.

The population of Philippines is 45 million which inhabit its 700 islands. Philippines is divided in three parts – Luzone in North, Veshaya in center and Mindnao in south. Its people are mild , sweet, sentimental and lithargy by nature. They are friendly and straight forward with the foreigner. For long time it has been ruled by Spanish and Americans. Henceunder their influence it has lost its own cultural traditions. Most of the educated people aspire to live in the US. Unlike India and China their family bond is loose. The social order is matrilineal. Drugs and drinking is spoiling the younger generation like a epidemic.

Due to favourable climate and developed agricultural technology and practices, it has been exploited by multinational companies. It is a debtor of US. Since 2009 its economic condition has further deteriorated. It currency has been devalued and inflation is killing the common people.

We are running 22 schools, and many Yoga centers where we conduct Food For All program and regular medical camps. Dharma cakra is regularly conducted in several cities. There are four master Units, seven children homes, and ten Jagrtis. In metro Manila we running two schools, a children's home, a Printing Press, a vegetarian Restaurant and five big office buildings. Sectorial MG quarter is being constructed. Our sectorial office is in center of manila and is recognized spiritual center of Philippines. In Iloilo and Shibu our Jagrtis are famous beautispots and are famous for regular free food distribution and medical service.

In the southern region in Davao we have three Jagrtis and a Whole timer training center, three schools, one children's home, a disadvantaged children home and Marga Guru Residence. AMURT recognized institution for service like the Christian Missionaries and we also jointly work with Red Cross. In Mindnao Government had recognized our Neo-Humanist Education system meditation practices. AM a'ca'ryas are called upon to give instructions in our kind of Meditation and Yoga'sana in government schools.

After Philippines, Singapore region including east & west Malayesia, Singapore and northern Sumatra happens to be the most developed A'nanda ma'rga Yoga centers. Penang, Ipoh, Alorstar, Selan Gor, Melatown, Joharbaru, Quantan, Kotakina, Balu & Kiching are some of the Malayesian town where popular AM Schools and Yoga centers

are operating and serving Malaysian people. Like wise in Medan of north Sumatra and Singapore we are running Yoga centers and schools. Ma'rgiis are, generally, good devotees and ideological.

A'nanda Ma'rga's third developed region is Jakarta which includes beautiful islands of Indonesia, South Sumatra, Bali & Kalimantan. This region has 4000 islands and a huge concentration of population of 140 million, of which 70% are Muslims, 25% Baoddha and remaining Hindus and Christians. Its cultural tradition is old. Generally there is a fear of Avidya' Ta'ntrikas. Many peculiar stories from Ra'ma'yan and Maha'bha'rat are popular here. Bali is an Hindu island and are devotees of Shiva. They Shiva Liunga (Phallus Worship) is worshiped here. They are the believers of Tantra and have a conservative disposition. It is a developing country and people are, generally, vocal like Indians. Although its climate is tropical-hot, even then while travelling in Bus or train they will keep the windows shut for fear of wind (Ma'ruti – god of wind). A very large population is addicted to smoking.

A'nanda ma'rga is becoming increasingly popular among Chinese, Christians and Hindus. Muslims are attracted to our non-dogmatic practices. In Indonesia there are six centers and children's homes and schools, especially in Jakarta, Chirebon, Bandung and Sol. There are seven active centers in Bali.

The fourth region is Bangkok. This includes Thailand. It is a Theravadi Buddhist nation and they are proud of their heritage. Generally people here are gentle and peaceful. It is full of Buddhist Matha. Buddhist Sanyasis are respected here. Green revolution has made this country self reliant to a great extent. New ideas and strangers are unwelcome here. Despite tremendous effort, A'nanda ma'rga could not establish itself here. Two of our schools and homes are operating and our services are being recognized. AMURT/AMURTEL have earned a good name after last Sunami hit Thailand. AMURT has built many shelters and schools for the Sunami affected population.

Next region is Rangoon which includes Myamnar. It is poor country ruled by a dictator with virtually very little freedom of expression. The native people are receptive to new ideas and Meditation. Although with some difficulty A'nanda ma'rga is spreading. AMURT has been active here to serve the disaster affected people of the country.

Last two regions are Namphen and Saigon. The countries in these regions viz. Cambodia and Vietanam are under communist rule. People are interested in spirituality, despite iron curtain A'nanda Ma'rga is spreading, albeit, slowly. In both countries strong units have been established. Hundreds of Ma'rgiis are spreading spiritual vibrations through kiirtana and Prabhat Samgiita.

I am commanded to proceed for world tour

In the later half of 1983 I was posted in Manila as global GBTC Shraman (ASD). During WRDS in Kolkata me and my SG Dada Shubhabuddhananda were punished for not taking adequate action to improve organizational discipline and progress of work. Ba'ba' inquired what have been doing in Manila? Why have you not undertaken world tour. I replied that my job was of stationery nature as I am supposed to conduct LFT training there. He was not convinced and asked me to proceed for a tour of Europe and America. Immediately after His instructions I prepared a plan for my tour and took permission of my SG & Ba'ba' and proceeded for Europe. During the tour I got to know many new people and developed relations with many influential persons. I returned back to India after my tour duly satisfied and went back to my place of posting in Manila sector.

Purpose behind His asking me to take up this tour remained a mystery until the future events unfolded. Only His all knowing mind knows why He does something, how He plays with our little minds and always prepares us in advance before the real turn of events.

Wife of Pradyumnajii is cured of Cancer

Pradyumnajii is a old Ma'rgii of Purnia, in Bihar. His entire family is ardent follower of A'nanda Ma'rga. Ba'ba' has stayed in their parental home called Arvind Nivas and gave them the golden opportunity to serve Him.

This incidence took place in 1983-84. I Met Pradyumna jii in Kolkata during our WRDS. On my enquiry about the welfare of His family I learnt that his wife was suffering from Cancer and was admitted in Patna Medical College Hospital for treatment. I encouraged him and told him my story, how Ba'ba' cured me of blood cancer and saved me from my terminal condition. I also suggested that he should get her here as soon as possible for the Darshan of Ba'ba'.

I found that in three days he brought her wife to Lake Garden. I met her. She was really sick & appeared very weak. However, mentally she was full of devotion for Him. It was the morning hours that day and ba'ba' had come down for His field walk. Before boarding the car He enquired about the welfare of the devotees. When he came near Pradyumnajii he called him and enquired about his family members. Both the husband and wife were overwhelmed by His grace. I saw also watching them from a distance while Ba'ba' was affectionately conversing with them. Later I met them and learned of their satisfaction. They stayed there for three days and his wife started showing signs of improvement and eventually got completely cured.

Ba'ba' is the Lord of devotees

Once during demonstration year in 1969, He had revealed that He was the embodiment of devotion. This universe is His mental creation and all have equal right to to be seated on His lap. On another such occasion he He had asked a group of devotees about the purpose of His coming to this world. He opted Himself to reply. The true mission of His life is to suffuse all in the flood of devotion.

Once during His tour of Manila, He went to an American cemetery for a morning walk. He sat below a Chinese Banyan tree with His entourage. He was His charming self and devotees experienced flow of His bliss. Inspired by the enchanting environment the devotees surrounding Him started singing a devotional song in chorus. It was a pleasant moment, which moved the entire environment. While the trees around in the cemetery were still as no wind was blowing. But the Banyan tree with its leaves, below which sat the Lord with devotees, were swaying and dancing in rhythm with the chorus song. A devotee seated next to Him could not hold and asked for the reason. With His characteristic bewitching smile Ba'ba' demystified the incidence by saying that the tree with its leaves were also responding to the sweet melody of the song. They were enjoying like we do. Devotees elsewhere must have experienced similar incidences whenever kiirtan is done in open places. Even the birds & animals in the vicinity are also affected by the vibrations of bliss.

I used to be confused about the true nature of Bhakti and the way to attain it? Once I had an opportunity when He told me that to dance according to His will with the sole intention of pleasing Him is real devotion.

Take bath even when you have fever!

It was the occasion of WRDS in Kolkata. I was suffering from high fever and hence did not attend reporting that day. Ba'ba' expressed His displeasure on the then GS Dada. When I was informed about it I went for reporting next day, although my fever had not subsided. As we werestanding for reporting in His presence, He inquired who among the workers has come here without bathing. I raised my hand in acknowledgement. He asked me the reason. I told him I did not take bath since I was having high fever. He was not happy and I was punished my act of omission. Then He gave the instruction that bathing was not optional even when you had high fever. Following the punishment my fever and severe body pain vanished in thin air.

Ego and Pride are His food

We were attending WRDS in Kolkata. This time I had a puffed up ego, for three WTs were created in my sector and many new service projects were initiated. I had expected that Ba'ba' would praise me before all the SS and I will receive the extra share of love from Him.

As we stood there, Ba'ba' started the reporting session asking for the number of whole timers created in each sector. The SS present attending the reporting were all worried since for the period specified they had failed to create any whole timer. When my turn came, I proudly told Him about the creation of three WTs in my sector. I also did not fail to mention the many new service projects which have been started in my sector. To everyone's surprise, instead of praising my accomplishments, He not only ridiculed me but punished me more than those who had failed to create any. I was baffled. This, then, prompted me to analyze the incidence to understand why it all happened? It did not take much thinking to realize that it was my own arrogance which has caused it. It was my egocentric attitude which was camofledging my mind, blurring my analytical mind. As a result I could not appreciate the simple truth that I standing before Him-my all knowing Guru to report. The only thing important there was humility and surrender unto Him & not my ego-trip. I could not understand that in reality we are only mediums & it is He who alone happens to be the real doer. It is His love for His devotees that He devours our arrogance & pride for liberating us from the bondage of avidya'. No sooner this realization dawned on me, I repented for my own folly and prayed for forgiveness.

In the evening the same day, He called me and sweetly taught me the essence of humility and self-surrender. He told me that egoism and arrogance are the greatest enemies on spiritual path.

Where should my feet face?

I was not sure whether one can sleep turning feet towards the photo of Ba'ba' or not. Once it so happened that I was given to sleep in a room where Ba'ba's photo were hung on all the four sides. I could not go to sleep that night and kept praying Him for forgiveness.

Soon thereafter I was attending the WRDS and when my turn came Ba'ba' impromptu mentioned to me that one should avoid turning the feet towards the photo of the Guru. But if photos are hung on all sides of a room then you need not worry and sleep without any guilt in mind.

In German Jail

In compliance of His instructions I left for world tour. My first stay was in Athens the capital of Greece. I stayed there for few days and inspired the ASD worker for extending financial support to the organization. From there I left for West Germany. I stayed in west Berlin with my departmental workers and prepared a plan to expand our activities in Europe. From there I stayed in Norway, followed by Sweden and Denmark. In these places I was able to work with local margiis and inspired them to improve their organizational contribution. Then I went to Italy and East Germany. Then I proceeded to

Munich and stayed with sister Ranjita and similarly expanded organizational activities with local margiis and LFTs.

Then I went to Yugoslavia and Austria by train. Due to some technical problems I was arrested by German police and spent 55 days in German Jail. They kept me in a room with other prisoners. The very first day I was served beef according to their jail Manual. I told the person who had brought the food that I am an Indian Yogi and I take only vegetarian food. He did not pay any heed to what I said and left the plate on my bed. I kept the plate below my cot. This routine continued for three days and despite my explaining them that I will rather die than take any non-vegetarian food. They kept telling me here I have to take food as prescribed in Jail manual or die. It was unthinkable for them that somebody will remain hungry for three days. As three days passed without my taking any food, the jail administration was disturbed. The Jail superintendent called me in his office and enquired. I explained him that being a Yogi I do not take any kind of meat. I am a lacto-vegetarian. I would prefer to die than take meat of any kind. He was quite surprised but understood the seriousness of the situation. After a while he said that jail manual provides only serving Meat everyday except on Sundays when vegetarian food is served. Seeing my adamant position, he was impressed and brought fruits and milk from his own house and gave me.

Next day onwards fruits, milk, bread and butter was arranged for me. Then I requested him to shift me to some other place as I am a yogi and can not stand the smoke in the room as most prisoners were habitual chain smokers. He took a day and then shifted me to another room. This was a clean, airconditioned room on the second floor. It was perhaps October and it was quite cold there. From my window the ice-capped mountain tops of Alps were visible. It was a very beautiful sight to behold.

There was a shopping center inside the Jail. If your account has sufficient balance then you could purchase anything of your liking every Thursday and Sunday. The cost used to be cut from your account. Fortunately my account had sufficient balance. There was arrangement of bathing with hot water, two days a week. I used to take bath twice a week with soap and for the remaining days I used to take bath taking water from the wash basin with some difficulty. Prisoners were allowed to go for stroll everyday in the morning between 6 to 7 under supervision of a policeman.

The jail stay turned out to be a great opportunity for sa'dhana'. Everyday I used to get up at 3/4am and complete my kiirtan, sadhana and a'sana. There was ample scope to read good books. The enjoyment during kiirtana here in the jail was unparalleled. This kind of bliss I never ever experienced. It was here that I got the experience of Bha'va Sama'dhi during Kiirtana. I also got to write my experiences and got them published in our magazines.

After the technical problem responsible for my arrest was resolved I was deported to Delhi. I used to get unusually disturbing ideas in my mind during those days and would pray for His help. After I returned back, during a reporting session, He reminded me of those strange thoughts, when I did not reply, He also left at that.

My posting in Jamaica

It was sometime in 1983. I was then posted in Manila as the Shramana of GBTC. The Central office informed me that I am being transferred as Global Office Secretary, Proutist Universal to Copenhagen. I was advised to immediately pack up and report there. When I was preparing to proceed to Copenhagen, I was called up again and told not to leave for Copenhagen, instead reach Kolkata to see Ba'ba'. I was happy at the prospect of getting the opportunity to meet Ba'ba'. Accordingly I prepared and reached Kolkata and reported to OS & the GS. The same afternoon Ba'ba' called me. He asked me, how it would be if instead of Copenhagen, I am transferred to Jamaica. I replied "Ba'ba', as you may please". He further told me that you may have some difficulty in the beginning, but don't be alarmed. Everything will be fine after sometime. He assured me saying, "I am always with you". I felt comforted by His affectionate words of blessings. Then He instructed me to prepare myself for the new posting and leave for my destination in four days.

After leaving His room I met Dada Sarvananda who had worked in Jamaica and learnt about the situation there. He told me the field is difficult as of now. Margiis are not as supportive as they were ten years ago when Ba'ba' had visited Jamaica and conducted DMC. That was the best period of the Ma'rga. He said he has spent ten years in that island. In early days Ma'rgiis came forward and helped in all programmes. They hired a beautiful house and we started the LFT training center and a school there. Those days Shanti Devi was our Bhukti Pradha'na. She was a very spirited devotee and very wealthy too. She used to pay the rent and the personal expenses of WTs. But suddenly she suffered from breast cancer. She got scared by this. Her close family members also started taunting her. They would ask, why her Ba'ba' was not taking her care? This adversely affected her dedication to Ma'rga and she became inactive. With her other margiis also left. She stopped paying the rent. My survival also became difficult. Eventually I returned back to India. Then Ba'ba' posted another senior worker there. He was too scared to go there. He prayed for an alternative posting anywhere else. Ba'ba' has conceded his request.

I was posted in the backdrop of such a situation in Jamaica. The SS New York was arranging my ticket, but it was taking time, may be 20-25 days. Ba'ba' told me to leave in 3-4 days. Hence I did not want to wait for the ticket from New York sector. I had enough money to buy the ticket to Jamaica. Hence I decided to go ahead and bought my ticket to Kingston via London. Although it was a little expensive, still Guru's

command must be followed. Thus I left for my new field after receiving His permission and blessings. At the Kingston airport I was received by Janakjii-a local ma'rgii, who accompanied me to the Jagrti. It was a huge place with a large compound and a majestic building. There was a mango orchard inside the compound and a huge tamrind tree in the front of the building. But for want of upkeep since last ten months, it was looking like ghost affected Bungalow. Its rent was also not paid since that time. The property belonged to the Chief Justice of Jamaica. It was located in the most prestigious locality of the capital city. Prime Minister's bungalow was in the same locality as also the houses of other ministers and wealthy people of the capital. The poor upkeep of the property had attracted the ire of its owner, who had not been paid the rent for such a long time.

I sent word to call the bhukti pradha'na, he came next day morning. He had no enthusiasm and was totally indifferent. He told me that they have lost faith in Ba'ba' after the last Bhukti Pradha'na Shanti Devi suffered from breast cancer. Many Dadas have visited here but have failed to create any impact. School is not running as it should. We have not paid the rent since ten months. We have decided now to return the property to its owner. You may please return back to India. There is no need of your services here. I was also disturbed by his dejected expression and seeing the gloomy picture of the situation as described by him. I had only \$100. And it was an expensive place. Without the help of local people it was difficult to survive what to say of paying the rent. I became very scared and prayed for help. I recollected his parting words. He had told me not to be worried, even though it will be difficult in the beginning. I remembered His smiling face and I was immensely reassured.

After a while I humbly submitted to the bhukti pradhana, that I have been sent by Ba'ba' to take the mission forward in Jamaica and I do not intend to return back to India. I will serve the society here come what may. Your help will be amply appreciated. I will definitely demonstrate the strength of my mission through my good work. He was, however, not convinced. Before leaving in pinching way he told me to stay here, if you like, but don't expect any thing from us. I would still suggest you better return back. I firmly told him that I have not come here to return. It is my Guru who has sent me and I know He will help me when needed. He looked quite surprised and left after sometime. I was taken aback at the strange welcome in this unknown land.

This was the testing period of my life. I was in Jamaica – an island thousands of miles away from India. It used to be a British colony, now it is an independent nation. About 150 years ago British government brought African and Indian labour to work in the fields. Three fourth of the population was of African origin and 20% Indian, remainder were European and American. Most of the people here were Christian. American influence was visible in all walks of life in this, otherwise, it was a very poor country.

My daily routine was to clean the compound. Initially it was taking the whole day to clean the place. When I used to get tired of hard physical work I used to cry in His name. Most of the time I would keep thinking of how to propagate the mission. The situation here was really difficult. After I had spent five days in Jamaica, one evening I was sitting and thinking. All of a sudden a well kept Umpala car entered the compound, and from the car emerged a very tall, aristocratic, white man. Looking towards me he spoke loudly – I am so –and –so the owner of this house, I have not been paid my rent for ten months. You guys have spoiled my house. It is badly kept. No painting has been done since ten years. The garden is in such an appalling condition. You must pay my full rent today, else I will get you evicted out of my house.

I remembered Him and gently told him, that I have heard about you that you have very kindly rented your property to us. I have just arrived here four days ago. Since you have already waited for ten months without being paid, I request you to give me another two months during which I will pay all your dues. I will also make sure to improve the upkeep of the house and the garden. If I fail to do so I will myself leave the place and go. My firmness and assurance convinced him. He instructed me that he would now visit me after two months. If you keep your word, well & good otherwise I will drive you out of this place. I agreed and shortly after that he left. I continued to think how I am going to manage so much funds. If I fail then A'nanda marga will be finished from this island. I must accept this challenge in the interest of the mission and the name of my Guru.

It was my first experience with Africans. They used to forcibly enter into the jagrti compound and would take bath under the shower all naked. On refusing to allow they would turn violent. It took quite some time for me to adjust with the environment, way of life and mannerism. To organize help I wrote to all my sympathizers apprising them of the situation in Jamaica and earnestly seeking their support. All these margiis obliged me within the stipulated time and I was able to collect the exact amount of funds needed to pay the rent dues. Thus I cleared the dues of the landlord. On receiving the amount he expressed his happiness and assured me of his unstinted support being the Chief Justice of Jamaica. I told him that I will get the necessary repairs of the building done and also get it painted. He said that he was very pleased with me because I kept my word. From now on you are my friend. You can always bank on my help and support. Hearing these soothing words I was overwhelmed by Ba'ba' grace. Those who came forward and responded to my request for help were the devoted family of Ravi and Shashi of Oslo, Norway. They were the blessed children of Ba'ba' in whose house Ba'ba' stayed during His European tour. Then there were Bro. Shankar and Vasudeva of Oslo again. And also Bros. Prabhakar and Avaniisha from Sweden, sister Jyoti from Finland, brother Devanshu from Munich, Dr Chitra from Singapore, Rene Pushlan President AMPS, Kumar Guru from Malaysia, Mantreshvara from Los Angeles, Shrinivasan from Kuala Lumpur and now settled in England. The name of Dada Devashraddhananda must

be included here, but for his moral and financial support it would have been just impossible to survive in those hostile circumstances. Dada Shankarananda was the other sanyasin who looked after my needs without asking.

It was an opportunity to experience His direct grace. My testing time continued for three months, until I was able to completely surrender to Him. Then everything started happening according to His will. The school staff used to be very critical of me. They would not lose any opportunity to make fun of me. But once they saw that I was able to pay the ten months rent dues and got the building repainted, then, they regained faith in the mission. In the mean time I was able to establish good contacts in the Universities, Colleges and clubs. Many influential people of the capital came in my contact and started visiting our A'shram. The school also became healthy and the teachers started getting paid regularly. The school staff started respecting me. Ma'rgiis who saw for themselves the changed situation felt sorry for their non-cooperative behavior. I always treated them well and always inspired them towards Sa'dhana' and the missionary work. Slowly they started joining in the weekly Dharma Cakra. I inspired five LFTs and started training them. These LFTs proved to be a great asset of the mission.

In the meantime I was offered buildings for starting new schools free of cost. These LFT workers came handy. I posted these young men to run those schools. Slowly young educated persons were attracted to the Ma'rga and they came forward to help many of our social service projects in the poor residential areas. Thus I was able to generate interest among the doctors, engineers and artists and musicians as also public leaders, & journalists. These new contacts came forward to help me in many ways to further advance the mission. Thus A'nanda ma'rga regained its lost image and became a popular movement throughout Jamaica.

Days passed. One fine morning the old Bhukti Pradhana sister Shanti Devi came to the Jagrti to see me. She had heard about the good work taking place. She was duly impressed after seeing the improved condition of the A'shram, the school and the training center. She told me of her story when Ba'ba' had visited Jamaica. She was the Bhukti Pradhana. She took care of Ba'ba's kitchen. She received His love and affection. Then suddenly due to her breast cancer and the pressure of her family she lost faith in Him. But now seeing the wonderful work done by me she feels really very happy. She expressed her best wishes for success in my endeavour. I told her that once I was also suffering from blood cancer. My case was one of terminal illness. But I never lost faith in Him. He loves His devotees. To every one's surprise He cured me. You should restart sa'dhana' with full faith in Him. Everything will be fine. My discussion had a positive effect on her. She invited me to her family and introduced me to her family members. I narrated many personal experiences of Ba'ba'. They were impressed.

Once a wealthy margii came to me and wished he could be of some help. I asked him to help me in getting the present property of Ananda Marga Jagrti to be bought out. This way a permanent asset of the mission will be created in Jamaica. He agreed to extend his full support financially.

Meanwhile the Indian embassy conspired against A'nanda Ma'rga and influenced the Jamaican government against me. They gave the stories that A'nanda ma'rga was a terrorist outfit and described our good work as something anti government. The Indian embassy falsely implicated me. Under their influence the Jamaican Immigration department advised me that since my work permit is getting expired, I should go out of Jamaica and reapply for visa. I was told that my application for work permit will be immediately approved. I was carried away by their advice and returned back to India and from there applied for work permit. But the Indian government played its part and my visa was refused.

Back in Kolkata Ba'ba' called me to His room. I told Him the good news of Jamaica. He appreciated my effort and praised me saying you did the right thing by organizing the Jamaican youth. I felt blessed by His sweet words. I realized how He made use of me as His medium for advancing His mission in Jamaica.

Chapter -8

I experience His grace during my tenure in A'nanda shila' Master Unit (ASMU)

I was posted in A'nanda Shila' Master Unit in July 1986. Before that Ba'ba' gave me the opportunity to tour the whole world and visit the A'nanda Ma'rga units. After returning back to India under pressure of the immigration department of government of Jamaica, I was posted as the Rector of A'nanda Shila' MU. It was here that I went through many significant experiences in my organizational life. It was here that Ba'ba' got many new projects implemented for the development of ASMU. I also got lots of opportunity to come in His physical contact.

When I was posted to ASMU Dada Nigmananda accompanied me there. Compared to the hustle bustle of my overseas assignments, posting in ASMU was like being in the abode of peace. ASMU was located in tribal belt of Jharkhand and the land area stretched to 104 acres. It was covered with a forest of Sal trees, a small rivulet flowing through the site with a Tantra Piitha called Brgu Piitha at its bank. Apart from a Training Center there was an agricultural farm. There was a school for the tribal children, a childrens home, Abha' Seva sadana and a dairy farm with five desi cows.

The master unit land was under dispute. The locals and the forest department kept a watch on our activities and looked for an opportunity to capture our land. Because of whole timer training center the MU had gained importance. The police department was

also active in the area because of the training center. It was a challenging situation for us. After coming here I immersed myself in the work to develop the farm. The principal trainer dada Shambhutananda had left on a long tour leaving me alone in ASMU. This increased pressure on my limited available time.

Erecting fence of Barbed wire

After being posted in ASMU, I had a chance to go to Kolkata for reporting and His darshan. There He told me to erect barbed wire fence around the ASMU land. Fencing the 104 acres land required expenditure of Rs.1 lac. It was a huge sum of money those days. It was not so easy to raise such a fund. I accepted His command whole heartedly and plunged into organizing the fund and the activity. I knew in my heart of heart that when He has allotted this task to me He alone will create the necessary resources. I returned from Kolkata and reached Ranchi on my way to A'nanda Shila'. At Ranchi I called a meeting of ma'rgiis and told them about Ba'ba's instructions to erect barbed wire fence around the MU. The Ma'rgiis agreed to help me for implementing the job. The master unit was infested with thick bushes everywhere. For erecting the fence first these bushes had to be removed. I employed 30 labours for simultaneously attending fencing and bush cutting job. It took me six months to complete the fencing. I used to supervise work from morning eight till four in the evening.

After the fencing was completed, I again went to Kolkata and informed Him about the completion of barbed wire fence. He said, barbed wire alone will not do, you have to immediately take up building a pucca brick boundary. I looked at His face and did not know what to say. It was a huge task and would call for an expenditure of not less than 15 Lac. I looked towards the face of GS Dada who was standing by my side. I assumed he must be thinking the same way as I did. Ba'ba', however, insisted that the task must be completed in a month's time.

Building Brick boundary

After some inter squables I accepted the task with all my heart. As I stepped out of Ba'ba's room bro. Prabhakar from Germany was waiting outside His room. He immediately offered me a help of Rs.1Lac. Another ma'rgii sister Dr. Chitra followed him and gave me Rs 40k. I sought the support of a few workers for the task. After collecting a part of the funds needed I left for ASMU that very evening. I engaged a brick Kiln and ordered 100000 bricks, 400 bags of cement and the required amount of sand and hired a gang of 40 construction labour and a group of masons to begin the work on war footing. With the boundary construction started the opposition from local village land mafia. Since we were prepared to handle the situation well in time, the construction did not get disrupted. Ba'ba' had asked me to construct the boundary from the western side of the site. In 15 days we covered a mile long boundary. The locals did not expect the

speed of construction to be so fast. They had planned that after cutting open the barbed wire fence they will enter & occupy the west side land. But their scheme did not materialize since by the time they could prepare to execute their plan the tall brick boundary wall already stood there. I, then, understood why He wanted me to start the construction immediately first covering the western side of the site.

Everytime I went for reporting He would assign a new apparently difficult task for me to execute. This became a norm. with this ASMU started humming with activity.

Dairy Farm

On another occasion He enquired about the number of cows and the milk produced in A'nanda Shila'. I replied that we had six cows but the milk produced was only three litres. He wasn't satisfied. I said we had only desi cows. He asked me to arrange to establish a healthy dairy farm with Jersey Cows. By His grace I was able to materialize His desire. We bought a number of healthy cows and a proper dairy farm was started.

Ba'ba' demands a gift

Once I visited Kolkata without any programme. Ba'ba' called me in the afternoon that day and asked me that, though, He saved my life twice, I did not give Him any gift. He spoke all this very naturally. But He was damn serious. I did not know what to say. I thought for the moment, can I fulfill His demand. He took a promise from me. Then He asked me to build two bio-gas plants and one Oil extraction Mill in ASMU. I was aghast. I had no clue to arrange that kind of investment. I came out of His room in that perplexed state of mind. This time as if it was preordained, I met with an old Margii bro Mantreshvara from Norway and Manohar from Germany. When I told them about the project given to me, both happily, offered to help me. With this I started to receive help from many other margiis viz. Avanish from Sweden, Vasudev and sisters Sulocana and Jyoti from Finland. Later more funds came from Dr Chitra of Singapore, bro. Kartika & Devanshu from Germany. Bro Kumarguru from Malaysia and Rene Punshelan President AMPS, Malaysia

My stay in ASMU brought so many such memories of accomplishing the tasks assigned to me, once I accepted them whole heartedly. Help overflowed to accomplish the task from around the world. To name a few those who helped me were bro. Prabhakar from Sweden & Shankar from Oslo, family of Shashi/Ravi from Oslo, sister Ranjiita from Munich and bro. Kamaleshvara from Italy, Vishvabandhu from Guatemala.

After returning back I plunged into materializing the project within a time schedule given to me. I went to see the SDO incharge, in Chanho block. He was happy to know about the Bio-gas project and informed me that government was giving 60% cost of the bio-gas project as a grant. But to avail the grant takes time. I told him that I wanted the task

to be over in one month. Understanding the urgency he agreed to depute a engineer and a technician for installing the equipment. I agreed to reimburse the deputation charges. Thus two Bio-gas plants were installed there as per schedule. For the Oil mill I sent Jiteshjii to place order for the oil extraction mill from Gaziabad. The entire project was commissioned within one month. Ba'ba' blessed me after I informed Him of the completion of His desire.

There is nothing superior in spiritual life to live upto Guru's command. To materialize Guru's will is called Guru puja' and to translate His desire into physical reality after taking Guru's permission is called Guru-gata.

Jeep and constructing new buildings

We bought a new Jeep for the Master Unit. Simultaneously we felt the need for new buildings for projects underway. Their construction also started simultaneously. A new building was needed for the training center. This was followed by buiding security posts for guards at the four corners. Agricultural farm was developed along the river. Vegetable production started. Abha seva sadana, Veternary hospital and Seri-culture center were also started.

Desire to serve the vegetable needs of Ba'ba's kitchen from Ananda Shila' MU

Ba'ba' fulfills desires of His devotees who work to please Him. I used to send vegetables and fruits grown in ASMU to Ba'ba's kichten. He used to relish those items. Once I thought that I should organize vegetable production in ASMU such that the vegetable requirements of Ba'ba's kitchen are exclusively met from here.

Once Ba'ba' commented that like Parmeshvarananda those who are Rectors of other Master Units should also think the same way. When personal secretary of Ba'ba' told me this I was immensely overwhelmed and my mind transported to the other world.

Overcoming Water scarcity in A'nanda Shila'

Every year with the onset of summer starting with March through July there used to be acute water scarcity in ASMU. This used to severely restrict drinking water availability and water needed for irrigation & other miscellaneous requirements. Once I inquired from Ba'ba' where can I find water in ASMU. He retorted that why I am asking Him. He was not an engineer to predict where to find water? After a while He told His PA to convey to Parmeshvarananda to look for water in the north. River was in the north. He wanted to build a dam on the river to solve the water scarcity to some extent. But I could not quite understand the hint. I vainfully spent lot of money on bordrilling bore-well near the river without any success. This amply frustrated me.

Later as I understood, & prepared a plan to build a dam on the river and digging a well in the river course. I worked with the then CTS Dada Sadhaneshvarananda and GS Dada and materialized the project successfully.

Seri-culture and Gardening

Once Ba'ba' inquired about the land and water situation in ASMU. He wanted to know what could be done to make the Master Unit self-reliant. I told Him that the land of ASMU is not fertile. It is infested with termite and does not retain water. Ba'ba' told me that you should instead grow more fruits and develop a fruit orchard. For self reliance you should immediately start seri-culture.

Following His direction I planted Shahatu'ta trees and also built a house for seri-culture. But for want of adequate knowledge of seri-culture the plan did not succeed. But I did plant lots of fruit bearing trees viz. Mango, Jackfruit, Banana, Guava, Papaya, and Lemon. Thus to please Him, I tried my best to develop ASMU as an ideal MU.

Preparing ASMU for His visit

Once Ba'ba' was visiting Ranchi. We in AS were very much encouraged by this news and prepared to bring Him to the MU. All the trainees worked hard to improve the house-keeping of the MU. All items of His personal use were bought and arrangement for His comfortable stay. Being busy with these arrangements, I could not present myself at the appropriate time at Ranchi to invite Him. Later as I reached there, Ba'ba' told me that He knew about all the preparations made for His visit in ASMU. But due to my busy schedule, I will not be able to visit now. However, I am pleased with your effort.

Building a home for WWD Didis in Ranchi

Once WWD workers were meeting outside the room of Ba'ba' in Ranchi Jagrti. Ashram of DSL Ranchi was in the outskirts and was unsuitable for living then. When I reached there, Ba'ba' said that Parmeshvarananda will be able to help WWD in this task. I took it as His blessings and immediately arranged funds for the purpose with the help of ma'rgiis and a land for Didi'was bought in Kadru locality. Construction for the Jagrti on the plot also started immediately in right earnest.

Adding two rooms to Ma'rga Guru Residence

Once Da'da' Shraddhananda and A'c. Kinshuk and his family visited ASMU. At that time we faced shortage of living space for Kinshukjii. After their visit construction of two rooms on the first floor was taken up. A meeting hall had already been built there.

Untimely demise of Dada Sa'dhaneshvarananda

It is well known that birth and death is predestined and out of human control. However death of Dada Sadhaneshvarananda at a young age was a great loss to me personally. He was the CTS and stood in support of me for the development of ASMU. He was a simple, mild mannered worker with a pure heart. Dada Prasha'nta'nanda was posted in his place. In his memory we erected a memorial as our offering of love.

My last construction work – A student hostel

After lots of thought and to make the MU self-reliant, it was decided to build a hostel for students. Once it was ready it attracted students from whole of Bihar and Jharkhand. Admissions also went up as more joined the school. This work was continued after my transfer by dada Yuktesha'nanda. Even now this school and the hostel is the soul of our MU. Ba'ba' took a promise from me to maintain the sanctity of MG Quarter. Looking at the gross neglect of the MG quarter now I am greatly pained. I accept responsibility for the dilapidated condition of MG quarter & not able to do anything.

Controlling the severity of my disease from an alien planet

In the A'nanda katha of Dada Naginajii, I once read the chapter on sa'dhana' & Samska'ra. There he wrote "when a bad samska'ra is redeemed then it disturbs the sa'dhaka. But if the sa'dhaka tightly holds on to the lotus feet of Sadguru, then the sa'dhaka attracts His non-causal grace. As a result the sa'dhaka is able to subserve its samska'ra, rather, naturally".

In my life also a similarly strange but awesome incidence took place in 1988 in A'nanda nagar. The A'nanda Purnima' DMC had just finished. It was the 4th of June. In retrospect the incidence had its initiation two days before. It was the usual practice that the members of Madhura Gos'thi would get to meet Ba'ba' once after DMC. The responsibility rested on me and Keshava'nandajii. We had fixed the date and time of meeting with Ba'ba'. The meeting was scheduled at 5 pm. The venue was Madhu Koraka - the residence of Ba'ba' in A'nanda nagar. Ba'ba' was informed that 55 members will attend the meeting of Madhur Gos'thi. We waited for Him. His visit was, however, a bit delayed. In the meantime one member expressed to go to rest room. About the same time all of a sudden Ba'ba' came in. He took His seat and the door of the room was closed. Hence that member was deprived of his participation.

The meeting of Madhur Gos'thi went on as expected. Ba'ba' let the flow of devotion drown all the devotees in the room unabated. Later He gave some instructions regarding sa'dhana' and the missionary work. The meeting ended after an hour. Finally He blessed each one of us individually. After the meeting Ba'ba' called me again and asked me the reason of giving wrong number of the attending members. He said you asked me that 55 members will be attending but there were only 54 members. Being a

sanyasi why did you lie? I explained Him the reason, but I was punished for this so called act of falsehood. Same evening again while walking on the roof top he called me and harshly treated me before everybody. I was upset following the incidence.

In the night before He retired dada keshvananda told Him that Parmeshvara'nandajii was upset. Ba'ba' said that He knew about it and would do the needful. Then He asked Keshava'nandajii to call me in the morning at 6am before His departure for Kolkata. Accordingly I was informed. I became very happy and in the morning presented myself in His room. Ba'ba' asked me to call in the brahmachari waiting outside His room. The brahmachari was then posted as DS in A'ssam. Ba'ba' enquired from the Brahmachari regarding his lapses in following conduct rules. Then He turned to me and asked me why you did not supervise this boy properly. I replied Ba'ba' he is posted in A'ssam and I am the rector of ASMU. He is not my departmental worker. To this Ba'ba' said that you are a senior member of Madhur Gos'thi and he is its junior member. Hence you are responsible for his supervision. I accepted my omission.

After that Ba'ba' beat us by His walking stick made from the stems of Candan tree. In the process the stick was broken. I was enjoying but was concerned about the young worker. Then He called Keshava'nandajii and told him that these boys have broken my walking stick. I was enjoying His play and immediately said "Ba'ba' I will get you two of these walking sticks made from Candan. He asked Keshava'nandajii to take note of my promise. He then told Keshava'nandajii to ask for commitment from me as to the number of days I will take to replace them? I agreed to replace them within ten days. Thereafter He started getting ready for His departure to Kolkata. I felt totally relaxed and returned back to AS. I continued to enjoy His grace and His peculiar manner of giving me bliss.

Back in Kolkata Keshava'nandajii informed me over phone that one of my shiksha'bhra'ta' (initiate) has delivered the two sticks much before ten days. Ba'ba' was very happy on receiving the sticks as if He received some heavenly gift. He praised me and told Keshavanandajii that although I punished him, still he has kept his word. It was a delight to hear these words.

After two months I suffered from an horrible disease. It caused me excruciating pain all over the body. This made me cry out loudly. While crying I would appeal to Him not to take away my samskara on His body. Knowing my pain I thought this would cause unbearable suffering to His body. During those days I was going through a book entitled 'Living with Himalayan Masters' written by Swami Ram. It had a reference of a similar incidence where the Guru had asked for a stick from his disciple and then punished him to redeem his samskara. I cried after reading this passage. After a few days Ba'ba' called me and told me in front many other workers, that Parmeshvarananda has been appealing to Me not to take his samskar on my on body. He thinks it will be very painful

for me. Can he on his own suffer the excruciating pain caused by this appalling disease? I am duty bound to take care of him and steal his samska'ra without asking.

I recalled, once He had commented that the created beings undergo the suffering/enjoyment of their own doings. I have none of mine, hence I serve the samska'ra of the created beings of my own sweet will, to relieve them from the bondage of cycle of life and death.

Initiation into Microvita sa'dhana (MVS) and curing my fatal illness

It was the morning of 15th July of 1988. Ba'ba' called his PA & GS and told them that He was initiating a new program called Microvita Sa'dhana'. He gave out the names of a few ma'rgiis and WTs. They were to be enlisted and in a systematic manner called on a specific date and time. He would initiate them in Microvita sa'dhana'.

I was then posted in ASMU. GS dada asked me to inform five margiis from Ranchi viz. A'c. Harishankar, A'c. Amulyaratan Sa'rangi, Dr. Ramesh, Sudhanshujii & Rangla'l datta asking them to proceed to Kolkata to get initiated into Microvita Sa'dhana'. The news about Microvita sa'dhana' spread among ma'rgii community throughout the world like wild fire. Pressure was mounting on GS & PA dadas to get their names included. Ba'ba' on His part has chosen the names of some 155 margiis and WTs to the purpose. They alone were supposed to be called. It was a very blissful moment in the lives of WTs and Margiis who were selected by Ba'ba' for MVS.

Ba'ba' propounded the theory of Microvitum for the welfare of humanity. Microvitum according to Him are the causal matrix of creation. Microvitum is the origin and carrier of life throughout this universe. His new ideas challenged all the existing scientific theories about the creation of universe. Ba'ba' has very specifically claimed that it is Microvitum and not the carbon molecules, which is the cause of life.

Of the three types of microvitum, Prakrti (creative force) utilizes negative microvita on the created beings. Positive microvita, on the other hand, are utilized by Parama Purus'a (Supreme Consciousness). Positive microvita can at the best influence upto Ajina' Cakra. To rise beyond to Guru Cakra His grace is necessary.

Initiation into MVS was an unparalleled event. Through this process He infused positive microvita into the mind of the sa'dhaka. I was initiated into MVS on the 26th of September 1988.

It was a very trying time in my personal life. I was suffering from an incurable and acute illness supposedly having its origin on some alien planet. I was under severe influence of -ve microvita. The pain caused by the disease was unbearable. Ba'ba' told me in the presence of central workers that it will not be before 1000 years hence, that the

planet earth will be affected by this disease. Describing the symptoms of the disease he had said that anyone affected by this disease will go mad instantly and lose once memory. He will die in a matter of 15 days suffering from excruciating pain throughout this period.

I was then posted in ASMU when suddenly I suffered from this unknown disease and lost my memory in an instant. I felt unbearable pain both in my body and mind. I was helpless, not knowing what to do. I felt total hopelessness in my life. I thought why of all I am suffering even when I became a sanyasi. I did not do anything wrong knowingly. What sins I must have done in my previous lives? All through day and night I would pray Ba'ba' to grant me death as I was unable to bear the suffering. I was unable to sleep and lost my appetite. I must have passed 15 days suffering the pain, when a worker was directed by Ba'ba' to come to meet me and to ask me to immediately come to Kolkata as I was suffering.

I left for Kolkata the same day. Next day I reached Lake Garden at 6am of 26th September. There Keshava'nandajii was waiting for me and instructed me to meet Him after taking bath. I finishing my morning duty and entered His room did sa's'aunga prana'ma and sat down facing Him. In that strange state of suffering He called me to come closer to Him. Slowerly to my dismay my memory returned. This was the first most pelasing time for me after 15 days of suffering. Then He asked me to be seated in padma'sana and taught me Micro Vitum Sa'dhana'. It was a lengthy but blissful process and took more than 2hours. During the process I visualized the Jyotirupa of the Parama Purus'a. it was an unique and inexplicable experience of my life. Later He asked me to leave. Many others were waiting for Sa'dhana'. When he asked me to leave Him, I could not hold and cried out, thinking when I leave Him I will be again suffering the same way. Knowing my mental state, He told me that He knew that I was suffering from a agonizing pain. He further said that it was the result of my samska'ra of many lives. It is better to undergo suffering before me. If you insist I can relieve you from this unbearable suffering. But he said He wanted me to serve this samska'ra now. You know well that I love you. A mad person can not cry taking my name holding on to my feet? Is it not my grace? I know you must be feeling that you are dying every moment. But be rest assured that I will not let you die. He infused me with so much strength by His love that I cried loudly. He then told me that I will be alright soon. Now you go and don't tell any one. When I was leaving His room, He looked towards me directing His infinite love to permeate my being. Then He told me to win an iota of His grace. After that He asked me, do you know how to get an iota of His grace? Cry for Him, holding His lotus feet and be ready to suffer for Him and beg for His grace. He will be forced to bestow His grace on you. This is the secret. His grace is snatched and not given.

MVS was a unique experience full of bliss. Another strange thing that happened before He actually initiated in MVS was that in ASMU, whenever I used to cry, then He would appear in my dream and teach me MVS. My dream would soon bring in a new ray of hope amidst untold physical and mental suffering.

This reminded me of the experiences of the great devotees like Mira' and Kabir.

Mira sang like this:

'O Hari! I am madly in love with you,

The people of the world fail to appreciate my pain of separation'

Kabir would sing the same idea a bit differently:

'Friends stop laughing and start to love crying for Him

That lover and true friend is unattainable without crying'

As I came out of His room I found Chandranarayanjii, Dada Paritoshananda & Dada Divyalokeshananda waiting for initiation in MVS. As instructed by Him I straightway proceeded to ASMU without seeing anyone else. Ba'ba' had told me that I will be cured soon, but as days passed it got aggravated. Although the pain was somewhat lessened, still it remained unbearable. Almost everyday I would retire in the forest near the river flowing within ASMU campus and would cry for long hours. I used to have spiritual experiences and would feel His closeness, but the pain would stay. I kept losing weight and got reduced to a mere skeleton. Despite His solace, due to excruciating pain and state of melancholy, I was living a miserable life. Finally I decided to seek medical help. The doctors, however, were not sure of the symptoms and did not help. Thus three months passed without any respite.

Then I spoke to then GS Dada Sarvatmananda about my strange condition caused by my peculiar disease. I also told him that I was not sure how long I will survive. I suggested to him to depute some worker to the ASMU who can take care of this project well. Then GS dada informed Ba'ba' about my serious illness. Ba'ba' said He knew about my condition. A change occurred from that day. Ba'ba' started taking regular report about my condition on daily basis to begin with and later a few times a day. Then realizing the urgency GS dada asked me to reach Kolkata. Accordingly I reached there and Ba'ba' called me near Him and inquired about my condition. He repeatedly asked about my condition the same day in the evening & after General darshan. Thus I spent a few days under His direct surveillance. GS dada often spoke to Him about me. After five days He called me to His room accompanied by dada Vijayananda. When I reached His room His PA, GS Dada, dada Tapeshtarvananda DPS central were already there.

In their presence Ba'ba' described about the symptoms of my disease. They were exactly like I had been suffering. He asked Dada Vijaya'nanda to take notes of what He was talking about. He further said that none on this planet has ever survived the virus of this peculiar disease. Whoever suffers from this virus, that person loses memory and immediately turns mad. That person dies a very painful death in about 15 days. Parmeshvara'nanda has also lost his memory and gone mad. Since he is a dedicated worker I must do something for him. Saying thus He touched my whole body by His Dukhaharan stick.

Meanwhile Dada Vijaya'nanda kept noting down the details as told by Ba'ba' during the intervening period of His application of the spiritual power curing me. Ba'ba' said that it might take a 1000 years hence for this disease to visit our planet. Even then you keep a record of this disease. One who suffers from this disease wants to stay alone. He is scared of the other persons. The diseased person should be allowed to remain alone in open natural surroundings. The person affected by the virus becomes very weak. Even then he/she must perform the prescribed asanas four times a day. He then dictated the asanas to be performed in the morning, at noon, in the evening and at night. He also spoke about the natural herbal remedies and the food to be taken by the diseased person. He said that the person should take boiled rice instead of raw rice. If one likes then one can take the supernatant water of the the boiled pulses. One will strictly eat only freshly cooked food. I have cured him of his illness, but he will take time to get recouped, since he has been badly affected by the virus which has affected his vital parts.

Then He turned to me and spoke to me directly. He assured me not to be worried at all. I am always with you. You will not go anywhere without asking me. Eventually He blessed me and asked me to remember Him crying out wholeheartedly holding His lotus feet. How-so-ever painful it may be, He instructed me that you will not leave ASMU. Keep discharging your responsibilities. You will receive all help from Me. ASMU development will take place unabated. Having received his blessings, I continued to stay in ASMU. Ma'rgiis and others helped me a lot as required for the development of MU. He continued to utilize my frail body for His mission. During the three years hence ASMU developed beyond everybody's expectations. The then CTS Dada Sa'dhaneshvara' nand was very co-operative and continuously supported me. He took special care of my physical needs. It took three years for me to recoupe completely, but I always felt His grace. During my confinement in ASMU, I used tto cry for Him, remaining lost in His thought. I had a strong feeling that the kind of spiritual experiences I was having as my disease ripened, were perhaps not possible even in many lives of intense sa'dhana without His grace. He remained the constant companion of my thought process during these painful years of suffering, He once commented to

His PA that Parmeshvarananda is the purest person in the whole universe today. In the final analysis, my disease proved to be a blessing in disguise.

I am appointed to the center as ERAWS secretary

It is my personal realization that Ba'ba' used the mechanism of transfer & posting of WTs and who knows margiis as well (please refer 'A'nanda Katha' by A'c. Nagiina') to help them redeem their samska'ras. In this process he would powder down their arrogance. I had been working for three years in ASMU. Then one fine morning I suddenly started thinking that I should, now, be working in the center in the closer proximity of Ba'ba'. No sooner I started having these thoughts, all of a sudden I was posted as global HPMG secretary at the Kolkata world headquarters and then in another 25 days as Central ERAWS Secretary.

Those days He was busy with the construction of central office at A'nanda Nagar. All the departmental secretaries were responsible for construction of their respective buildings according to His plan at the pre-determined places. He used to take daily morning and evening report from the central secretaries. Those days ERAWS was supposed to raise 104 buildings for many diverse projects and to initiate some of the commercial ventures. For completing these projects He used to put extreme pressure. Everyday He would ask for the progress report of each item, which was very hard. Funds were equally difficult to manage, almost impossible with no known means or resources. Ba'ba' was not accepting any excuses. Punishment was almost a daily affair. Under these conditions of working under severe pressure I began praying for my transfer. I & the EI-1 both of us were anxious to complete the targets and show satisfactory daily progress. Often He would comment that the ERAWS secretary is a simpleton but is getting spoiled in the company of EI-1, and would punish both of us. This was a daily routine. One day He became very angry and punished us severely and withdrew our avadhutaship. We had to put up with white dress. I was transferred to ASMU, which was a welcome change for me and I dedicated myself with renewed vigour to further build-up ASMU.

During my tenure as Eraws Secretary an interesting incidence took place. Dada Pranava'nanda was posted as DS Akola. He went to Mumbai in connection with some work. When my EI-1 came to know of his movement, he put pressure on me to punish him for this unauthorized act. I told him that I have spoken to Dadajii and you should not be unnecessarily concerned about this matter. But he was not ready to be reconciled. When he insisted I told him that Dada Pranava'nandajii has a direct reporting relationship with him, hence he can as well speak to Pranavanandajii himself. After that he called dada Pranavananda and dealt with him unjustly. Pranava'nandajii heard him patiently and did not retort.

Just after an hour of this incidence, I was relieved from the post of ERAWS Secretary by dada Pranava'nanda. This incidence affected the EI-1 and he came almost running to me anxiously and asked me help him get out of this awkward situation. I smiled and reflected about His liila'. Ba'ba' is the master redeemer. It was a great lesson for all of us in behavioral psychology. He always taught us that you should earn respect through your actions & not by your post. Human beings become great by their sa'dhana', service and self- sacrifice.

Bhagalpur DMC

Bhagalpur Bhukti occupies a significant place in the early A'nanda Ma'rga history. It is located just 60Km. away from Jamalpur. It is one of those places which was frequented by Ba'ba' during His stay in Jamalpur. It carries the hallowed memory of being one of His many Liila' Bhu'mis. Even now those surviving devotees have fond memories of the sweet and blissful moments spent in the company of Ba'ba'. The number of ma'rgiis who witnessed those blessed days is fast depleting. Those surviving remember the role Ba'ba' played as the guardian their families. The first A'nanda ma'rga Jagrti was built here in 1957 and it was in Trimuha'n a place 20km. away from Bhagalpur where RU (Renaissance Universal) and RAWA (Renaissance Artist's & Writer's association) institution were founded by Him. He delivered His first RU speech entitled 'Problems of the day'. It was the same day that He guided the performance of a cultural evening under the patronage of RAWA. Curious are His ways. He has been satisfying the desires of his disciples in myriad ways at times in their knowledge and most often without their being aware of that. I was then posted as DS Bhagalpur about 35 years ago. The ma'rgiis there had a strong desire for organizing a DMC. They worked hard for its materialization. But instead only DMS could take place. They could not avail the enjoyment of His physical presence. Then I was also transferred from there, but the seeds of an unfulfilled desire for a DMC in Bhagalpur remained lodged in mind. Later Ma'rgiis wrote letters to the center requesting for conducting DMC there. But it did not materialize because the certain organizational targets could not be met. Later to meet those targets the margiis collectively bought a large piece of land in Bhagalpur and planned to construct A'nanda Colony on that land. About sixty margiis bought plots in that land and collectively built a Jagrti and MG quarter on the same place. In 1989 Ba'ba toured Tatanagar, Ranchi, A'nanda nagar, Deoghar, Bhagalpur and Burdman. Margiis from all these places worked hard to make His programme a grand success. Ba'ba's visit inspired margiis and organization activities also got a boost.

I attended DMCs in Tatanagar and Ranchi and I was allowed to attend DMC in A'nanda nagar, since all three places were near A'nanda Shila' my place of posting. I had a strong desire to attend Bhagalpur DMC, but I could not gather enough courage to seek His permission. All of a sudden in the morning of A'nanda nagar DMC, I was instructed

by GS Dada & PA Dada to proceed to Bahgalpur as central representative to organize the DMC properly before Ba'ba's arrival. This was something I had been internally waiting for and Ba'ba' rewarded me by quenching my long standing desire.

I reached Bhagalpur next day morning. I found that the preparations were far from complete. The place supposed to be fixed for His stay was unsuitable. Many unfinished works were yet to be completed. Flooring of Ba'ba's room was unfinished. The toilet was not ready. Airconditioner was not arranged. Although the margiis were inspired and working with dedication, but the time at their disposal was short. Efforts to get the air conditioner from Patna on rent did not materialize. I called a meeting of the margiis and a plan for completion of all pending tasks on emergency basis was prepared and responsibilities distributed. Air conditioner was becoming the bottleneck. All attempts were futile. Finally one margii could get it, albeit with difficulty, from one of his friend's house. By the dedication of some professionals & margiis and masons & technicians this almost difficult task was completed by midnight of the day before Ba'ba' was to arrive. His room was decorated thereafter and articles of His personal use were arranged. Four grand gates were constructed & decorated on the way that Ba'ba' was to take to enter Bhagalpur town. The first gate was built about 40km. away from Bahgalpur town. A caravan of cars, jeeps and motorcycles was ready to lead Him to Ba'ba's quarter. The DMC pandal was being prepared on war footing. Margiis in huge number were waiting outside His residence and collectively singing Kiirtan anxiously waiting for His arrival. Sevadal volunteers and their supervisors were also busy giving final touches to the arrangement. With their single minded devotion, enthusiasm and personal sacrifice margiis of Bhagalpur created the mystic environment to welcome their Lord.

The Bhagalpur DMC was unique in many respect. Margiis had built MG quarter in a picturesque surrounding enveloped amidst the cool shadow of a huge Mango orchard. More than 10,000 margiis from Aunga, Mithila, Magadha and Bhojpur samajas attended the DMC. DMC pandal was beautiful and the security arrangement were impeccable. Still a few anti-social elements did try to disturb the programme unsuccessfully. A large contingents of journalists representing all the news media and TV channels came to attend the press conference. In short the whole area was humming with margii activities. Many WTs and LFTs were created. Hundreds of initiations were given. Ba'ba was also immensely satisfied with the outturn and progress of the margii activities. Quite often Ba'ba' would speak to the local margiis in their sweet mother tongue – Aungika'. He blessed the margiis with His divine vibrations. The vibration during DMC was superbly charged with devotion. So was the environment when He was leaving. It was divinely exhilarating. The pangs of separation of devotees from their beloved Lord and viceversa were something to be seen to be believed. The whole environment was reminiscent of the distraught mental state of the Gopis when Lord Shrii Krsna was leaving Vrinda'vana to go to Mathura'. After the departing darshan as Ba'ba' started to

leave the dais; the devotees could not bear the twinge of separation and burst into loud cry all at once. Some were lost in ecstasy and the others ran after His car.

Ba'ba' inspired me to write about developing a Master Unit

Venue: Madhu Korak, Tiljala, Kolkata, 1990

We were attending RDS in Tiljala. RDS was encouraging. I was the Rector of ASMU and with me was another worker who was the Rector of Thano. After reporting Ba'ba' called both of us to His room. Both of us sat near His lotus feet after prostrating (sa'ta'unga pran'a'ma). He asked us to write an article describing the outline of Master Unit. He gave the guiding principles and based on those ideas we prepared the article. That became the authoritative white paper on master units.

Prognosis of the future organizational problems

This incidence occurred two months prior to his physical departure. It was my last personal meeting with Him. As I entered His room He spoke-you are going to face serious problems in your prgonisational life, but you should not be unnecessarily worried. I felt very awkward at this disclosure of future things to come. He repeated the same thing. I could not quite understand its significance and I felt like crying. He further said that the organization may face critical problems. Donot get alarmed. Relentlessly fight against injustice. Everything will be fine. In that situation you will play aleading role. The future of the organization is resplendent like the Sun. when you grow old and weak devote yourself wholeheartedly only for sa'dhana'. Take refuge unto my lotus feet and remember me constantly and you will attain the goal of your life.

I became a sanyasi when I was quite young. I had a strong desire to realize Him and to experience Divine bliss. I was a naivete and did not appreciate the enormity of His mission and that I will be required to swim through troubled waters. It was only later that the understanding dawned on me of what He had said in my last meeting with Him. Later I also learnt from Dada Pranava'tmaka'nanda that Ba'ba' had told Dada Mantreshvara'nanda that He has come with the mission of creating a maha'vishva (great Universe), like Krsna who created the maha'bha'rata. Like in Maha'bha'rata all the events & characters in maha'vishva are already chosen. The script of the Maha'vishva has been written down. It has already begun and He added even if I were to change it it may not be possible.

Another senior worker Dada Samanvaya'nanda was equally seized with idea of the differences among workers even during Ba'ba's life time. He wondered why it was happening like this. Then ba'ba' had told him that in the beginning A'nanda Ma'rga was like pure water of Ganges. But with the passage of time it will be polluted. That also will happen according to His planning. It is then that you will be required to learn how to

swim in troubled waters. The righteous people will learn to deal with the changed situation.

The present crisis in the organization is not outside His planning. We have learnt through Prapatti that nothing happens without His sweet wil. He is constantly testing us. We have to be Is't'anis'tha and Adarshanis'tha. We have to be ever-vigilant about our conduct, recognizing the universal character of our mission. We have fight for justice at all costs. We must establish the rule of Dharma (rationality and righteousness) in all our dealings. Organization must restore its order and appeal. It is only then that we can establish our glorious mission. Precepts of Carya'carya must be restored in both our personal and organizational life.

A couple of years ago I had read an article. It talked about a collective decision arrived at by the heads of a few States about the best practices followed in the countries of our world. Singapore topped the list of the surveyed nations.

There were three reasons for determining the best practices among the nations. They were:

1. Every citizen of Singapore is literate and conscious of their responsibility
2. All children in Singapore receive compulsory education of their National Law & Order. Even a son/daughter will object if, he/she finds his/her parents not following the Law of the land.
3. The administration is very strict and its citizens are generally law abiding.

Ma'rgiis (WTs & family persons) have to accept this challenge by demonstrating their sincerity through their good conduct in their personal lives and to adhere to a spirit of co-ordinated co-operation in collective life in all matter of Dharma sa'dhana and service of the created beings. The organization must evolve in the image of caryacarya. Eventually A'nanda Ma'rga mission will become the life of the universal society.

A million dollar question is raised by Ba'ba'. Whether the stck in His hand is matter or spirit?

World RDS in Tiljala Jagrti, Kolkata, 1988

RDS used to be the occasion of not merely organizational review but it was more for inspiring spiritual awakening in the WTs. Ba'ba' would normally do this through His

demonstrations. The intent in cases was one. It was to awaken the latent spirituality and to goad all human longings towards a singular goal of life.

By the reckoning of the RDS system, the SS took turn in a given sequence and presented their sector-wise progress report. There would invariably be one or the other failure in meeting the sectorial targets. This will naturally invite punishment. Usually punishment was given to the individuals most often for their personal shortcomings in regard to their conduct and sometimes to protect them from a trouble as a prognosis of events to come. It used to be a mystic reporting session. When the turn of the Berlin sector came and the SS started reading out his reporting, Ba'ba' asked him pointing to the stick in His hand, whether it was matter or consciousness. The SS thought for a while & then replied that the stick was matter. On hearing his reply Ba'ba' indicated the SS Berlin to come closer. Then touching the SS with His stick and awakening his third eye, he asked the SS to look again at the stick. Whether it was matter or spirit? Now the SS started seeing the movement of electrons within the millions of atoms of which the stick was made of. He saw that those electrons were not only moving in certain path around the nucleus but they were also producing a peculiar sound. Obviously the stick was not inanimate matter but it was vibrant with life. It was a conscious entity.

In Upanishad the Rsi proclaims: The Supreme Consciousness is greater than the greatest and subtler than the subtlest. It can not be conceived by our sensory organs.

He can be realized only by converting our crude mind stuff (Citta) into Aham and then aham tattva into Mahat and finally merging the Mahat into Consciousness. It is through this process of subjectivisation that all the objectivities merge into their witnessing entity-the A'tman (Consciousness). This is the only way to realize the subtlest of the entity. This is possible by adhering to a proper system of sa'dhana'.

Ba'ba' takes the pleasure of showing the gifts brought by the sectorial workers

I was then posted in ASMU and was visiting Kolkata for reporting. This incidence took place about a month before He left this world. One fine morning Ba'ba' instructed His PA & GS that all such WT's who did not come in His contact in the last four years or so should be asked to come here to meet Him within eight days. He expressed His keen desire to meet all of them. GS Dada prepared the list of such workers. They were forty in number. He sent out communication to each one of them asking them to immediately report to Kolkata to meet Ba'ba'. This message brought

cheers to all such workers and they were just delighted and greatly inspired. They started to prepare considering this as an emergency to reach Kolkata in time.

That fateful day five of those workers from the list of GS dada were also present. Each one of them had brought a few gifts for Ba'ba'. They prepared a list of their gift items brought from their respective countries and gave them to PA dada.

It must have been 10pm a worker went round Tiljala informing WTs in all rooms to assemble in the meeting hall of Ba'ba's quater. Accordingly I also reached there in the hall. As I entered Ba'ba' was already seated there. He was taking out each item gifted to Him and showing them to the WTs present in the hall. He showed his wrist watch made of gold saying it has been brought by such and such worker of such and such sector. He was very pleased and asked the workers present was it not beautiful? It was a proud father showing off the His happiness before His grown up children. It was an enjoyable moment all of present there.

Soon after He took out one wall cloack and said it was brought by my son from Africa. Then He asked His PA to ensure the wall cloack hangs in His room. From now He would watch the time from this watch. The WTs who had brought these items were also standing there and were feeling blessed with Ba'ba's acknowledgement of affection. Finally in His chaarcteritic smile He said that to Him the cost of the thing does not matter, what matters is the feelings behind them. When they went to purchase the items at two different places they thought of me in their mind. They thought if Ba'ba' accepts our gifts then that would be the fulfillment of their dream.

Premonition of Ba'ba's physical departure

This incidence relates to the period of post A'nanda Purnima' DMC. I was anaemic and experienced extreme difficulty in walking, talking and even thinking. I was also finding it difficult to manage A'nanda Shila'. There was a terrible pressure of work. Several ongoing projects viz. WT training center, school, Children home, Abha' Seva' sadan, Agriculture farm & so on demanded constant attention for their maintenance & development. Financial pressure was always there. Because of the whole timer trainees police would keep coming for enquiry.

As a routine I visited Kolkata for having the pleasure of Ba'ba's Darshan and to collect some funds for ASMU. Since I was unusually sick, GS dada and other central WTs wanted me to stay in Kolkata for treatment. However, Nigmananda dada proposed that instead of Kolkata I should go to Varanasi and stay there in the training center for treatment. The potable water in Kolkata was hard to digest. Therefore I took permission of Ba'ba' and GS Dada and proceeded to Varanasi. In

the meantime an alternative supervisor was appointed in ASMU, thus I got relieved of the burden of managing ASMU and instead concentrated on my treatment. Nigmananda dada took good care of me. I was given a separate room with two attendants. He made suitable arrangement for my treatment by Dr. KP singh of Banaras Hindu University Aurvedic Hospital. My condition improved as I started taking prescribed medicines, under the care of Nigmananda dada and the affection of Vandanananda dada who was posted there as CTS. As I regained my lost health, I started enjoying sa'dhana' more and more. But don't know why whenever I used to do Dhyana lesson, I used to feel the pain of Ba'ba's physical departure. I would often dream Him leaving His body. It was a very painful feeling. It would disturb my mind and often times made me feel deranged. On many a nights I could not sleep. I used to cry in pain of His separation. It was both painful and confusing.

Such disturbing dreams were unthinkable and painful. These despicable thoughts that He is leaving His body were making me mad. I did not have any clue of what to do. This mental condition continued for many days and weeks. Finally I left Varanasi to go to ASMU. There was marked improvement in my health. After being there for a while, I proceeded for Kolakta for His darshan.

As soon as I reached Kolkata, Ba'ba' called me in His room. What transpired there was unbearably disturbing. I will describe the details latter. This was my last personal meeting with Him. Ba'ba' was not keeping well. Four margii doctors viz. Dr Ramesh, Dr. PD Singh, Dr. Goswami and Dr. Karuna were attending Him. Dr Sen of Kolkata was regularly visiting for His examination. After staying there for few days I returned back to ASMU. In those days Ba'ba' was not allowing WTs to leave Kolkata. He was happily giving maximum contact to them. But none knew what was going to happen.

In the meantime Ba'ba' was admitted to Woodland Nursing Home for treatment. In August again I went to Kolkata for RDS and returned back after two weeks. During these months I went to Kolkata on three more occasions. Suddenly the unthinkable happened. The news that He has left His body on the 21st of October was given to us. The news of His physical departure spread throughout the nine sectors like wild fire. Though unbelievable, it was a reality. Margiis were dumb and so were all the WTs. The new LFTs and WT trainees were all unconsolable. I stayed in ASMU and sent them to Kolkata for His Darshan. Later on 25th I also reached Kolkata. The scene there was indescribable. All were equally affected. None was there to console anyone. Margiis from the whole world had arrived. Tiljala Ashram in Kolkata had turned into a virtual aseembly of shocked and disturbed margiis. The scene there was heart rending. The agony of margiis filled the environment with despair. None could imagine that Ba'ba' would depart so suddenly. They were unable to contain their feelings. Many of them kept crying inconsolably. Most of the margiis expressed

their pain through the stream of unstoppable tears. None knew how to overcome their shock and pain.

My own mental condition was somewhat different. He had prepared me to face the unthinkable event to some extent. My mind was already prepared. I controlled myself and consoled others who needed it most.

“All are forced to dance to tune of the Lord” – this saying of Sant Tulsidas was the most appropriate for that moment. Ba’ba’s visit to this planet and stay here for a short time was preordained in His cosmic drama. His leaving us so suddenly, though unexpected, was unbearable. He left us and proceeded to His next destination somewhere in the universe most mysteriously indeed. This time, ofcourse, He did not disclose His tour programme.

Ba’ba’ inspired me to create whole timers

It was in the beginning of 1990. We were attending RDS in Tiljala. There was extreme pressure to create WTs. After the repoting I got to see Him in person. He asked me, whether it was an impossible task that He was forcing us to accomplish. I have not asked you to pluck the stars from the heaven. I did not ask you to reverse the flow of Ganges. I am only asking you to inspire margiis to work dedicatedly for the mission. I was touched by His expression. I could visualize His pain. I made a firm resolve to get cracking with all my might to fulfil His desire. I did get some success. He created a strong mission, but left so suddenly. However, He continues to inspire us. He has made our task easier. Dedicated effort bears instant fruit. Only through complete surrender unto Him we can surmount the Himalyan difficulties facing us and those which may arise on our path of spiritual realization.

Chapter – 9

Epilogue

After the physical departure of Ba’ba’, Sadhakas everywhere wanted that a part of the physical remains of Ba’ba’ be allowed to be taken in As’thi kalasha for storing that in each of the Marga Guru Quarters & Jagrtis. Accordingly adecision was taken by the center that Marga Guru’s remains in Ashthi Kalash would be kept in all MG Quarters. PA Dada of Purodha Pramukha and GS dada were responsible for dispatching the As’thi Kalasha to the designated places i.e. the Marga Guru quarters for maintaining its sanctity.

When margiis of Ranchi learnt about this programme, they also lodged an appeal to procure the As’thi Kalasha for MG Quarter in Ranchi. The MG Quarter of Ranchi is associated with many nostalgic memories of Ba’ba’s stay there. This house was built in

a record time of one month at the instance of Ba'ba'. to keep His promise, Ba'ba' visited Ranchi and stayed in that house, despite a few difficulties. It was here that Ba'ba' got himself operated for cataract. There are many interesting incidences related to this. Margiis of Ranchi have been blessed to have received Him in Ranchi and to serve Him. Margiis here have had many opportunities of intimate contact with Him, since it was one of Ba'ba' favourite places. Ba'ba' lived in Ranchi for a long time since March 1967 till June 1970 and many more times thereafter. Devotees here always attracted Him, and He was impelled to respond to their devotional urges.

In a meeting held in MG Quarter the following was decided:

1. Five margiis from Ranchi viz. Ramlakhanji, Sudhanshujii and others will go to Kolkata and carry the As'thi kalasha by train. It would be received at Ranchi Railway Station by all margiis and brought to MG Quarter.
2. After receiving the as'thi kalasha three hour Akhanda Kiirtan will follow.
3. Thereafter it will be installed in Ba'ba's room.

On the scheduled day margiis reached the Ranchi Station and brought the As'thi Kalasha in a procession to MG quarter. But instead of Akhand Kiirtana for one prahar (3 hours) margiis started to depart after 1hour kiirtana. That day I reached MG quarter a little late because of some urgent work in ASMU. I reached there about the same time when margiis were just planning to depart after one hour kiirtana. A'c. Amulya Ratan Sarangi also reached there about the same time. Both of us understood that some thing was not right. We spoke to the margiis and inspired them that it was improper on our part to dishonor our collective decision and would tantamount to demeaning the As'thi Kalasha. Margiis conceded to our suggestion and reassembled in the hall.

After that the whole environment got electrified and high poignant vibrations charged devotional surge which pervaded all over as 400 margiis sang Prabahta samgiita in chorus and started Kiirtana. Margiis experienced Ba'ba's physical presence. There was a very strong spiritual vibration that day. Most margiis almost lost consciousness and were enjoying bliss. After the kiirtan margiis sat down for sa'dhana'. The emotional surge was unstoppable. All margiis were crying. I was also crying with my eyes open. I was watching the As'thi Kalash and Lo! I was suddenly beholding Ba'ba' in His most compassionately form. He was looking at me. I was wondering how did He come here today. He was in His usual attire, looking bewitchingly attractive. I was crying non-stop and while my eyes were beholding His form.

He kept looking at me and tauntingly said could you behave like this in my physical presence? Am I not present here in the form of my As'thi kalasha? I was overwhelmed by His gesture. I noticed most of the margiis then were lost in bliss.

After Guru Pu'ja' I spoke about my experience and told the margiis assembly what had transpired there. I also told them about the taunting I heard because of dishonouring our own pledge to perform 3 hour Akhanda Kiirtana. Ma'rgiis there were speechless. The then Bhukti Pradha'na asked for pardon. It was a rare scene. We were all blessed and charged as if He was physically present.

Once Ba'ba' asked Keshava'nandajii, how would you feel when I am gone? Keshava'nandajii had replied that we will experience your presence more intensely.

Saint Tulsidas, perhaps had something similar in his mind when he composed the following couplet.

“Only that persons realizes Him to whom He bestows His grace. And the knower can not remain separate from Him after knowing Him. Instantly one identifies with Him”

Badrinath and Valley of flowers

Hima'laya has attracted me from my early childhood. Although I was equally afraid of the cold there. Once Ba'ba' asked me to proceed for inspection of our school in Joshimath. After that visit I was freed of the fear of Hamalayan cold. After Joshimath, I had intended to visit Badrinath. But the gates of Badrinath would usually remain closed until then, due to cold wheather. But my desire remained. After the physical departure of Ba'ba', I planned to revisit Himalayas with Cidghana'nandajii and Kalya'neshvara'nandajii. Accordingly we took the permission of the then GS Sarva'tma'nandajii and went ahead as planned.

From A'nanda Nagar we first arrived at Haridvar and then proceeded to Thanu Master unit by bus. In that serene and the most enticing natural environment we stayed back and enjoyed doing sa'dhana'. It was a very enjoyable time as I remained blissfully unaware and lost in His thought. From there we went on to Rishikesh to Joshimath and finally after a night's rest we reached Badrinath. It was the month of August. The journey to badrinath was tedious. We passed through deep valleys. It was frightening to cross those valleys. But once there, it was a heavenly site. Badrinath is located on a plain mountain top. Badrinath is twelve thousand feet high above the sea level. The natural beauty is superb. Badrinath is surrounded by ice capped mountains. These mountain tops shone in white effulgence at Sun rise. In that attractive natural environment the mind was soaring high. The grand Badrinath temple was built on the bank of Alaknanda river. There was ahot spring below the mountain. Our next destination was Man'a' Gaon. Maharsi Vyas had composed Brahmasu'tra in this picturesque mountain. Walking along the Alaknanda we found a very appealing place for sa'dhana'. We had the most blissful sa'dhna' there. There is no doubt Himalayas is Tapobhu'mi. Bhu'tasuddhi and

a'sanasuddhi happened effortlessly. The mind would automatically lose its bondages and flow in bliss. Ma'n'a' gaon is located on the border of India and China hence there was restriction to visit the cave of Maharsi Vyas. However we thoroughly enjoyed the scenery and natural beauty of the most alluring of places.

On our way back from Badrinath, we took to Pandukeshar-the sa'dhana' piitha of Pandu and from there via Govindagha'ta we went to Hemkund –the place where Guru Govinda Singh had performed sa'dhana'. To watch the most beatific of the site of valley of flowers we took the ride of the Tattu-the mountain horse. It was a 16kilometer long straight rise up in the mountain with very deep valleys on the side. Tattu is well trained for the task. But for us it was the most difficult, at times frightening part of journey. Riding on the tatttu we had our hips bruished. It was a very brave journey. But once there the sight of the valley was excquisite. It was filled with heavenly flowers of umpteen varieties. The whole scene was other wordly. After five six hours of travel we reached village Ghagharia. It has a beautiful Gurudvara'. We freshened up there and took rest after taking our lunch. Then we went with our guide to watch the valley of flowers. This was a tough ride of five kilometer further up in the mountain. Once over there we lost sense of difficulties faced. Lo! We were beholding the most adorable sight of heavenly beauty, of flowers so exquisite and enticing in all imaginable colours spread over miles and miles of natural mountaneous terrain. It was the most beautiful thing we had ever looked at. It was bewitching and superbly exquisite. It transcended all human limitations. I was something most perfect, out of my mind's imagination. In this serene and divine environment all shuddhis happen almost spontaneously. And mind quickle soars high experiencing bliss.

After this our journey back to Rishikesh started. From Ghagharria we returned back riding on the Tattu to Gurudva'ra' before the sunset. From there next day morning again on Tattu we reached Govindghata and then by bus to Rshikesh. There we stayed in Dharmashala and enjoyed sa'dhana on the bank of Ganges and Lakshaman Jhu'la'. All of us enjoyed the satsaunga. I realized that Dada Cidghana'nanda was a simple soul, almost child-like, with no nonsense attitude, pure in mind devoid of any air of arrogance and a great sa'dhaka.

On our way back in Haridvar we desired to stay with some a'shram owned by the Mathadhiisha of a sect. Somehow those persons declined and did not allow us to stay in their ashram. Perhaps they were aware of the non-dogmatic stance taken by A'nanda ma'rgii sanya'sins.

Thus our journey came to end. Then we returned back to A'nanda nagar.

My visit to Poland – need of Prout

Ba'ba' has stated very clearly that both the economic systems viz. capitalism and Communism were defective ideologies. Whereas capitalism makes person a beggar, communism makes a beggar a brute. During my tour of the then east Europe I had some realization of the veracity of His remark.

In the year 1999, as a central worker I visited Europe to inspect the organizational activities and the service projects there in Berlin Sector. In the course of my inspection, I wanted to visit our Master Unit in Poland. We started from Berlin to go to Poland in our car. The then SS dada Artprema'nanda and Dada Arghya'nanda also accompanied me. We stopped at a petrol station for filling gas and use the Rest Room. The two Dadas accompanying me went to rest room, I waited in the car taking care of our baggage. It was noon time. After a while three persons who were selling wollen clothings came near the car and forcibly wanted me to buy something. On my refusal they started snatching the baggage from the car. I came out and shouted at them. But they were used to stealing and did not relent. I sought help from the passers by and others watching the misdemeanor of these persons. Instead of helping me they started mocking me and did not pay heed to the trouble I was facing. I was confused and shouted for help. All of a sudden the two workers came in and pushed these thieves aside. Seeing our strength those guys went away. This is a living example of the destruction that negative and materialistic communist ideology does to the human sensibilities. Communism has been responsible for thriving on materialistic selfish values. It deprives the human mind to develop refined behaviour, human values and morality.

Later that day we reached our master Unit. The people in the master unit were shocked to hear our story. In fact our master unit in Poland is popular because of its service activities and eco-friendly project. It is supported by the governments of Poland and other European nations. A'c. Vandita'nanda Avadhu'ta is its recor master. He is very popular among the local population.

Incidence of Rumania (year 1999)

My next inspection trip was to inspect our service projects in Romania. I wanted to visit our street children homes for boys and for girls. Both these children homes were popular among the people. Our service projects have received acclaim from among locals. In this country again the exploitation has reached its nadir point. At one time this country was the archetype of communist governance. The infamous dictator Chechesco was ruling the roast here. He was a cruel exploiter. He must have got millions of his voiceless citizens brutally killed. Not to mention he had to face the same cruel exit from this world. He and his wife were killed in daylight on the main square of Bucharest, north of Danube River.

This is another poor country which was once under communist dictatorship for long time. The common people were subjected to extreme exploitation. The cruel dictator had built a huge majestic palatial house for himself. The common people lived a depraved life of poverty. In the country side there are countless barren farms. No body wants to work there. They have been desolate since ages now. None has the inspiration to work. Commune system has failed them. It has proved to be impractical and unpsychological.

Just to mention a small incidence..... I went with the RS Bucharst for shopping in the capital town. In one place I found there was a huge heap of water melon. RS informed me that the Romanian water melons are famous for their taste and sweetness all over Europe. He expressed his desire to serve me water melon. I readily agreed.

He went to one of the shops and stood there in queue to purchase water melon. I also went with him and stood by his side. It was one of the famous shops. The shop owner had a pile of water melon and he was busy selling it out. As I was watching to my dismay a small and old lady shopkeeper next to this shop was stealing water melon from the heap of water melon belonging to the big shop in broad day light in full view of public. She was filling her bags without any remorse. Surprisingly she was all smile while continuing to steal and so were those watching her. When I drew the attention the RS, he told me this was very normal here. Communism has debased human mind. People have lost sense of morality.

Attached to our children home was a plot of five acres of land. It was a lush green plot full of green vegetables, fruits & flowers. In the evening I saw the garden and enjoyed the sight of it. Next day morning there was nothing left. To my surprise I was told that the thieves have stolen everything. Nothing is safe here. This is the result of communist rule.

My own experience at the Moscova Airport

After my inspection tour I was returning back home. My plane was waiting for six hours in transit at the Moscova airport. After a while a Sikh gentleman came near me and sat down by my side after exchanging namaskar. We started talking. He had come to Russia to meet his younger brother who was working as an engineer there. He himself was a leading advocate from Patiala. As he was talking, he was overcome by emotions. He said the people here have lost all sense of decency and good values. They are no better than animals. There is no rule of law. On my query he ridiculed the people of the place and narrated an incidence which had occurred a few days ago.

He was staying here since last two weeks. He went around to many places. On one such tour his bag and baggage was stolen. He became furious overcome by emotions &

started speaking at the top of his voice ridiculing the Russians. I tried in vain to calm down but he was inconsolable. He kept repeating that all thieves here. Only thugs rule here. There is no law and order in this country. Nobody will come for help here. I will never come back here. Communism has turned them into demons.

Chapter 10

Devotional experiences

Why I don't hear your devotional call?

This incidence occurred during one of the RDS in Kolkata. A senior worker was reporting his outturn. Ba'ba' was dissatisfied with the progress of his work. Then he said that this boy is very regular in sa'dhana'. He spends lots of time in sa'dhana'. But why his devotional call does not reach me. The WTs present there were quite surprised.

After him the next worker came forward for his reporting. Ba'ba' was unhappy with his work also. But Ba'ba' said, he is able to get his devotional call across to me. The WT was relatively young and new. Ba'ba' further added. In sa'dhana' he cries out with all his mind and heart. He yearns to be one with me. His intense desire to unite with me gives me pleasure.

Three a'caryas propagate AM ideals and way of life in Gaya

Before A'nanda ma'rga was institutionalized Ba'ba' used to initiate sa'dhakas. Later as Ba'ba' started a system of training A'ca'ryas. These a'ca'ryas started initiating interested persons on the path of sa'dhana'. These a'ca'ryas (men & women) were drawn from among the family persons. In just 5 years from 1955 to 1960 He created 125 a'ca'ryas. These a'caryas went around Bihar, UP and Bengal for praca'ra.

One fine morning he called a group of three a'ca'yas to go to Gaya for praca'ra. Since at that time there was no published literature of the ma'rga, Ba'ba' used to give them notes on different subjects of common interest. He would also tell them the kind of questions people in general are likely to ask them. These a'caryas would note down the main points in a diary. The idea was to ensure the information was handy. The select group of three a'caryas were supposed to address a meeting to the theosophical society of Gaya. These a'ca'ryas were afraid of public censure. The audience consisted of intellectuals of the town. They were not so confident. To help build up their self confidence Ba'ba' specified the subjects of their speech and gave them enough hints to ensure they are able to present the ideals of the marga convincingly.

One of them was a little more anxious. He inquired if he would be able to address the audience. Ba'ba' replied that they will be able to do it successfully. They were advised to do so after Guru Dhya'na.

As foretold their speech was applauded by public and many interested persons learned sa'dhana'. Thus these a'ca'ryas went around in many towns of Gaya Bhukti and delivered public address successfully. Many people were initiated. After 15 days of praca'ra these a'ca'ryas returned back to Jamalpur to report their accomplishment. In Jamalpur the then GS Pranaya dada told them that Ba'ba' was having high fever and that they should go and report to Him in His house. Ba'ba' received them in His house and expressed his pleasure after getting their report. They also got inspired.

After that Ba'ba' went to the toilet and took bath and again took rest on the bed. The a'ca'ryas found ba'ba's taking bath rather unusual considering He had high fever. He may catch cold and may suffer from pneumonia.

Ba'ba' dispelling their doubts told them that nothing would happen to Him, now that they have come back after successful praca'ra in Gaya. It so happened that all three of them started having fever while they were in Gaya. If they had suffered from high fever then their praca'ra programme would have been disturbed. Hence Ba'ba' took their samskar on himself and suffered for three days in their place.

Only clever devotees understand the secret of their success. He alone has been doing everything throughout this planet and giving the credit to His devotees.

Upanishada has something like this to offer.

Sah eko jalavana iisat iishanibhih

Sarvan lokan iishat iishanibhih

Sah eva eko udabhava sambhave ca

Etad vidurah amrta'ste bhavanti

Unique DMC in Sukeshvara Prasad's house in Patna

This incidence occurred in the early days of A'nanda ma'rga. Ba'ba' had created a few grahii a'ca'ryas. They initiated prakar in many places to which they belonged. Many people were attracted to A'nanda ma'rga's non-dogmatic ideals. In that process an Inspector of Police Shrii Sureshvara Prasad got initiated. He was attracted to His magnetic personality and became a regular visitor to Jamalpur. As time passed he developed a devotional relation with Him. On one such visit to Jamalpur, he cajoled Ba'ba' to visit Patna and conduct DMC there. Ba'ba' smiled at his devotional gesture.

During his next visit he got to go with Ba'ba' on field walk. As they were walking close to the Jamalpur field, moved by divine attraction and he stood in front of Him and requested for holding DMC in Patna. Ba'ba' replied that the programme of DMC is decided by GS dada. After dropping Ba'ba' to His residence he came to the Ja'gri and met the then GS da'da'. He requested to him to fix a date for Patna DMC as he would take full responsibility of the function. He will organize stay of Ba'ba' and arrange lodging & boarding for all. GS dada told him that he will come to Patna and will fix a date and place for the DMC function. He should organize a margii meeting on that day when he comes there.

GS dada on his arrival to Patna met with the margiis and finalized the date and venue of DMC. Sureshvara Prasad proposed that his house would be available for stay of Ba'ba' and also for DMC. However margiis did not agree to his idea. They said since he has built his property with black money earned through bribery, Ba'ba' can not stay in such place. At this Sureshvarjii was disturbed. He, however, was happy that in any case now Ba'ba' will be coming to Patna for DMC. It was true that he had earned money through immoral means. But after his initiation he had stopped taking any bribe.

The programme was finalized and as scheduled Ba'ba' came to Patna. He came to the venue where DMC was to take place. Margiis were seated in the pandal. Sureshvarjii was also sitting there in the crowd. He was overwhelmed with emotions watching Ba'ba' in a sweet mood. He was also making mental request to him to visit his residence. He had made all the arrangement for Him and the margiis.

As devotional bhajan was being sung, suddenly margiis found that Ba'ba' was visibly annoyed. He pointed to the GS & said that it was a unsuitable place for DMC. Then turning towards Sureshvar, He asked Sureshvar to make arrangement for His stay and DMC at Sureshvar's residence. Sureshvar jumped out of sheer joy and instantly agreed and said that His will be done. Immediately Ba'ba' proceeded to his house.

Since he had made all the preparations beforehand, there was no difficulty. DMC took place in a very devotionally charged environment. All those who attended enjoyed the programme and felt the surging waves of devotion. Ba'ba' is the lord of devotees.

Do you need to lift the curtain to see Him?

Saint Miira Bai has said:

O Krshna! I have built a house in my eyes,
I have spread a bed of my eye ball,
a curtain of my eye lids,
and I have attracted my lover to visit me.

The Lord of our lives is seated in the lotus of our heart. When the mind is cleared of dirt and turns soft by His love then He appears.

Following touching incidence was once told by Dada Ramananda. It was a holiday & Ma'rgiis had assembled in Madhu ma'lainca, Kolkata. The hall where they had assembled was reverberating with the sweet melody of Prabha samgiita and Kiirtan. Ma'rgiis were lost in the bha'va. Dada Ramananda informed Ba'ba' that ma'rgiis were waiting for Him in the hall downstairs. Ba'ba' was annoyed for some reason with the ma'rgiis of Kolkata due to the negligence of their organizational responsibility. He responded that he would not give then His darshana. Despite his gentle persistence Ba'ba' did not concede to go for darshana. He asked Ramananda dada to close the door while He rested on the bed.

All ma'rgiis were disappointed and returned back home. But a devoted margii sister was adamant to have His darshana. She was surging with strong waves of devotion for her Lord. She persisted with her request to dada Ramananda to oblige her somehow. She stationed herself in the drawing space on 1st floor of His house. She refused to move out unless she gets His darshana.

Dada realizing the intensity of her urge, told her that although He was annoyed, I will get into His room on some pretext and then lift the curtain for a while for you to have His darshana.

She felt blessed with the prospect of having to watch Him from outside. Dada entered His room and did as planned the ma'rgii sister had His darshan. She was immensely overwhelmed & felt contented.

On Da'da's entry in His room Ba'ba' inquired. Dada responded saying that he was Ramananda. I have some work in the toilet. Ba'ba turned to the otherside and faked as if sleeping.

Next day before field walk, He asked his PA that He would visit Riina' Didi's (same ma'rgii sister) home today, but donot let her know of my plan. Thus after His field walk he proceeded to her house. She was living in a flat on the third floor. There was no lift. Ba'ba' did not care and quickly reached to her door stepping up the three floors. He asked His PA dada to knock the door as He himself stood behind. Riina didi could not believe her eyes. She was unprepared for such an unannounced visit of the lord. With affectionate smile Ba'ba' entered her drawing room which was a bit messy as she did not expect any visitor to her house. Ba'ba' sat on the couch in the drawing hall. He did not even allow her to spread a new bed sheet saying that He was visiting His daughter's place hence there was no need of any formality. The family was dumb but silently cried out at this most unusual visit of their Lord. Ba'ba' asked Riina' didi, do you really need to lift the curtain to watch me?

Saint Kabir has said

A devotee keeps repeating His name and loses consciousness unto Him,

His name indeed is so powerful and sweet that one keeps seeing Him in everything

The all knowing too inquires into the welfare of the Ma'rgiis?

A'c. Akhaorii Himanchal Prasad happened to visit Ranchi MG quarter. After the collective DC we requested him to tell us some incidence with Ba'ba'. He told us many illuminating incidences. One that touched me most is being reproduced here in my own words.

Akhaorijii was then a very senior police officer in Bihar. He came in Ba'ba's contact and a great devotee in him was born. He would quite often visit Jamalpur as and when he would find time from his busy official work. Seeing him in Jamalpur Jagrti, Ba'ba' would

inquire into his welfare. He once thought that why should Ba'ba' ask about our welfare even though He knows everything about us. What is behind this drama?

He had already become a family A'ca'rya by then. After a few days he happened to visit Jamalpur with his family and other sa'dhakas. While in Jamalpur he enjoyed the darshana & pravacana of Ba'ba'. After the darshana Ba'ba' started to leave, Akhaorijii went with his family and did namaskar to Him. Ba'ba' not only did not respond but He turned His face to the other side. He, however, duly acknowledged the namaskar of Akhaorijii's family members and other sa'dhakas & inquired about their welfare. Akhaorijii did make repeated attempts to attract Ba'ba's attention but failed to do so. To him Ba'ba's conduct appeared somewhat unusual. He felt hurt at Ba'ba's intentional neglect. He was losing self control but restrained himself and cried out only mentally. After Ba'ba' left the A'shram without even looking at Akhaorijii, he cried out loudly in pain. By then Ba'ba' had moved away from the A'shram gate. But all of a sudden he turned back & came close to Akhaorijii. Then very affectionately Ba'ba' slapped Akhaorijii's cheeks and inquired about him.

Later Ba'ba' addressed him & said that there is no doubt that your Ba'ba' is all-knowing, but so long as he is in physical form, it is quite natural for people coming in His contact to expect his verbal expression of concern for their welfare. That is their greatest asset which they cherish all their life. This duty He must perform for the sake of His devotees. Akhaorijii had an instant realization of his grace and the swelling emotions brought tears of bliss.

Serving all with the ideation of Na'ra'yana

This incidence occurred in 1967. Whole of Bihar, eastern UP and south-western MP (chattisgarh) was in state of severe draught. A'nanda Ma'rga WTs and family ma'rgiis were busy in relief activities. A'nanda Ma'rga was operating free food camps, free cloth distribution and medical camps. A sanyasin who was sincerely involved in relief activities, thought that when he goes back to Ranchi Ba'ba' will call him near and appreciate the good work done by him.

After a few months he returned to Ranchi for the darshana of Ba'ba'. when he reached the a'shram, Ba'ba' was just leaving for the field walk. He went near Him and did pranama. But instead of acknowledging him Ba'ba' turned His face. After the field walk Ba'ba' returned to the Jagrti, but did not call this sanyasin. When he was not called he started thinking, if he has committed a mistake. As he was trying to recollect, he found himself overcome with emotions to meet Him. In a state of deep anguish he began

crying loudly. After a while Ba'ba' called him in his room. Looking in eyes He said that you did lot of service of the draught stricken people but failed to remember that Ba'ba' was always watching you. That is why I am unhappy with you. Service without the ideation of Na'ra'yana is a waste of time.

Appendix - 1

01. Late Dada Para'shivananda Avadhu'ta

Beginning with my first meeting with Dada Para'shiva'nandajii, he left a indelible mark of His simple but grave personality. Apart from being a great sa'dhaka, he was a silent worker, soft spoken and humble. He was bereft of any arrogance. His child-like simplicity was just adorable. I had heard about his past life as demonstrated by Ba'ba' in Ranchi using the medium of A'c. Dashratha. Ba'ba' touched the Trikuti (between the eyebrows lies the seat of A'jina' cakra & Pituitary Gland) of Dasharath dada and asked him to look into Para'shiva'nanda's past life. Dasharath started narrating what he had started seeing internally. He saw a coconut tree in place of Dadajii. Then Ba'ba' took upon Himself to describe Dada's past life. There was a A'shrama of a Guru in Sirohi a town in Ra'jastha'n. This person in his past life this person was a disciple of that Guru. Once, before proceeding on a pilgrimage, his Gurudeva instructed him not accept any form of gift from those visiting the A'shrama during the Guru's absence. After the Guru had left, the King of Sirohi with his retinue came for hunting in the forest adjoining the A'shrama. As was king's regular wont, he also carried sufficient eatables – grains & fruits and other items with lots of money intended for donation to the A'shrama. This boy did not accept any gift from the king as instructed by the Guru. But the king pleaded with all humility and the boy conceded to accept a coconut. Later as scheduled the Guru returned after his long journey. The Guru was displeased when he learned about the gift his disciple had accepted. When his body in that life died this man was reborn as a coconut plant.

I had heard this incidence and could not quite make out why should it happen that way. Anyway this is destiny and we have no control over the laws that govern us in the universe. I developed closeness with him during my posting as the DS, Bangalore. He was then posted in Kolar, a district in the state of Karnataka. Immediately after my posting he happened to visit my school. He started narrating the strange experience he

was having in Kolar. He said that Ba'ba' had posted him to open a kindergarten school in Kolar. I tried and finally succeeded, but I don't know why, a thief steals my belongings quite regularly. This has happened on a number of occasions. I have been badly disappointed and wanted to kill myself and once I threw myself into the sea. But Lo! He appeared from nowhere and saved me there. He will neither let me die nor He would allow me to successfully accomplish the assigned task. I wondered at Ba'ba's curious ways of handling His own disciples. But in the process we came closer and slowly our acquaintance turned into friendship though he was elder to me. I noticed that he was indeed a great sa'dhaka. I loved to discuss with him matters related to our spiritual lives. We continued to meet each other quite regularly.

Once he visited my school in Bangalore and asked me to give him company to dine Dosa in a nearby hotel. He liked dosa and enjoyed the delicacy. After he was done with it, he told me that he came to me out of my greed for Dosa. It is not proper for sa'dhaka to be the slave of once desires. Then and there he took the oath not to partake salt in any form from that onwards. I tried to persuade him to give up, but he was unrelenting. He honoured his pledge and never ever eat salt thereafter.

Another interesting incidence took place, when I had fallen ill. He came to Bangalore and took me with him to Kolar for treatment. He served me and when I recovered, he prepared Kshiira. Both of us took kshiira to our heart's content. Once again he took the pledge that from now on he would not take any sweet. This was his firm resolve. He devoted himself totally for sa'dhana'. He would go to cremation grounds almost daily for ka'pa'lika sa'dhana'.

After the emergency he was posted in Gorakhpur. I was then serving as RS Allahabad. He opened the school there as commanded by Ba'ba'. He also started the children home there. He was very methodical and maintained his institutions very well.

This great sadhu among the mortals was born to a aristocratic family of Va'ra'nasi in the year 1939. After his MA in sociology, he joined Usha Martin company and there he rose to become its personal manager. In 1964, he was initiated by A'c. Kedarjii and within a month's time pleaded for his blessings to become a sanyasii. A'c. Kedar wondered, how could a person like him posted on an executive position resolve to be a monk after having been initiated just a month ago.

Parashiva'nandajii was a perfect a'ca'rya. He would comment only when required. He led a

simple and pure life without any ostentation. Among sanyasii's he was known as an ardent ka'pa'lika sa'dhaka. He left his body on 29th June 1984.

On his death Ba'ba' said that, He had honoured His word that he gave to Parashiva'nandajii. He attained the Supreme Goal of his life. His life will remain a beacon of light to all devotees.

Appendix – 2

02. A'carya Narendra Deva

My earnest desire for spiritual sa'dhana' got consummated on meeting my A'carya. It was in the high school that I met him and in the year 1961 took initiation from him. He was an inspiring person with a towering personality devoted to a life of sa'dhana'. He always remained my inspiration on the path of sa'dhana'. Whatever I could attain in my spiritual life was the result of his inspiration that he gave me in those early years of my spiritual life. I offer my heartfelt homage & the petals of my love at the feet of my revered a'ca'ryajii.

A'caryajii was born in Jabalpur on Ganesh Caturthi on the 14th September 1923. Born to a well-to-do devout family, a'ca'ryajii's acquired sterling qualities of service and sacrifice. He was an accomplished sportsman, freedom fighter, writer, journalist, teacher, social activist and a devotee par excellence. He was an embodiment of sa'dhana', seva and sacrifice. Even before he got initiated he was a revolutionary and a devotee of Durga.

It was in 1959, he was initiated by A'carya Haridutta Pant. Soon he came in the contact of Ba'ba' and his life received the desired impetus for a revolutionary change for better. He became a'ca'rya in 1960. Since then he must have initiated over 10,000 persons on the path of sa'dhana' in just 20years. Out of which more than 50 of his initiates devoted themselves to the service of suffering humanity and became sanyasii of A'nanda Ma'rga. Thus he was became one of the most respected of the a'ca'ryas. He passed the test of the Guru. In 1967 inspired by Ba'ba' he left his only source of meager earning for supporting his family and devoted himself for the establishment of Chattisgarhi Sama'ja. In 1968, he lead the satya'grah in A'nanda Nagar until it was freed from the unholy occupation by the communists. With virtually no physical resources, but the strength of indomitable courage inspiration and a war like strategy and unflinching devotion at the lotus feet of his Guru, he lead the victorious march of A'nanda ma'rga defeating the then communist government. In the great famine of Chattisgarh in 1967 he lead the margiis to open free kitchens and maintained them for months together in four blocks of Sarguja District. Simultaneously he organized distribution of wheat and other essential items in that area. I witnessed him successfully complete the Himalayan task as the then relief organiser of the mission.

He was the inspiration and the leader who led the Chattisgarhi sama'ja movement and had remained devoted to its mission since then. He edited the Chattisgarhi sevaka published in Chattisgarhi language from 1964 until 1984. This mouth piece of Chattisgarhi Sama'ja has spearheaded a movement for creating a exploitation free society. Incidentally it must be remembered that chattisgarhi sama'ja is one among the most downtrodden societies of the world. He led the movement starting from 16th May 1965. He sent out a clarion call to one & all from the playground of RD Tiwari School. The revolutionary fervour has since then continued to awaken the spirit of Chattisgarhi society. His long struggle of 36 years culminated his long march to the Indian Parliament on 24th July 2000. Chattisgarh - a new state in the federal structure of Indian constitution was created. Needless to mention it was his hard work which has finally born fruit. In all the district headquarters of Chattisgarh in their 90 blocks, he led hundreds of agitations, mass fasts and protests successfully, highlighting local problems.

On 19th December 2009, this giant among men left this world to unite with His Supreme goal. Such rare persons are difficult to be replaced. He was a pillar of A'nanda Ma'rga. He was at once a great sa'dhaka, an astute ideologue, an unparalleled devotee and a great man all at the same time. Ba'ba' also used to love him. In 1977 after emergency was lifted, Ba'ba' chose him to be Ma'rga Guru Representative. He addressed the A'nanda Pu'rnima' DMS in Varanasi the same year as MGR.

03. Late Dada Shraddha'nanda – Purodha' Pramukha

Dada Shraddha'nanda was one among the many senior disciples. He was initiated by Him in the year 1954. Before dedicating his life in the year 1964, Dadajii lead a family life and worked for Customs department of Government of India. He took diiksha' of sanya'sa in 1966 and became avadhu'ta.

Dadajii was a devoted worker and served His mission wholeheartedly. He was connected to many of marga's activities. Until October 1990 he served as the editor of A'nanda Yuga.

During Ba'ba's time he was appointed the secretary of Purodha Board. After the physical departure of Ba'ba' he was chosen to lead the organisation as its Purodha Pramukha. He was a simple and a gentle person. He had a subtle sense of humour. He always conducted himself with a smiling face and was liked by the margiis the world over.

He was a great devotee of Ba'ba' and did not accede to the pressure of CBI during emergency to desert A'nanda Ma'rga.

He had a passion for literature. He was both a poet and a writer. There are a number of books to his credit Viz. Maha'vishva, Solah Vidhi, Shraddha Suman, Man'ima'la', Bhojapuri Vya'karana.

He left his mortal frame on 15th October 2008 in Ranchi.

04. A'ca'rya Chandranath – Gaddopur Vaisha'lī

As a young man interested in spiritual enlightenment, he was once told by an elevated saint of his village that he would be initiated at the right time. When the opportune moment in his life arrived he was chosen by A'nandamu'rtijī and was initiated in the year 1953. A'ca'rya Chandrana'tha was a strict disciplinarian. He led a life of dedication to his mission as a stalwart. His strong sense of determination was discernible in all small or big incidences of his personal and organizational life.

He always attracted the margiis from the world over for inspiration and guidance. He followed the instructions of the Guru like His command and discharged his responsibilities with best of his ability and capacity. He was an ideal disciple, ideal a'ca'rya and an ideal family man.

Once Ba'ba' took a pledge from him to perform sa'dhana' for one and a half hour daily both in the morning and evening. He literally followed it throughout his life. He continued as the member of a'nanda ma'rga central committee all his life and gave valuable suggestions and guidance. I first came to know him in the year 1966 and more intimately in the year 1989 when I was posted in ASMU.

He left his mortal frame in the morning hours of 24th March 2007 in Patna.

05. A'ca'rya Nagina'jī – Muzaffarpur

A'c. Chandrana'th Dada once opined that A'c. Nagina was perhaps the greatest among the devotees of modern times. A'c. Naginajī from the very beginning was a man of firm resolve and a strict adherent of morality. After initiation he remained steadfast as a sa'dhaka and devoted to Guru's commands. He took the liberty to unhesitatingly pose questions

to Ba'ba'. Ba'ba' on his part always responded to his questions lovingly.

A'nanda Katha' written by him is an immortal creation of his devotion. This book will inspire devotees on the path of sa'dhana' for all time to come.

A'c. Nagiinajii was born on 15th Feb. 1918 on the day of Vasant Paincamii. He received his initiation on 3rd November 1953 at the residence of Ba'ba'. He left his mortal frame on A'nanda Purnima' on the 11th May 1998.

A'c. Naginajii had all the desirable qualities of a brave sa'dhaka. These qualities showed up on the demand of the moment. He was an ideal person. He was obedient and disciplined. He always remained devoted to the Guru.

A central government officer, he retired as the additional collector customs. He is remembered in his department for his good conduct and helping nature. He was a likeable person. Ba'ba' once called him a large hearted man and a true lover of justice.

I came in his contact in 1966, when I was working as a praca'raka in Bihar.

06. A'carya' Rampari Devi – Gaddopur

A'carya' Rampari Devi was born in village Bela Mohanpur of the then Gaya district in September 1918. She got married to A'carya Chandranath and left for his permanent home on 6th January 2002.

She was initiated by Ba'ba' in 1954 in Jamalpur. She was perhaps the first lady disciple of Ba'ba' and also the first a'ca'rya' of A'nanda ma'rga. When she became a'ca'rya', she asked Ba'ba' that how will she initiate, since she was not literate. Ba'ba' replied that it was no disqualification and that many a larned women will come for initiation to her.

When she first met Ba'ba' with Chandranathajii, she also did sa's'taunga pran'a'ma to Ba'ba' like her husband. It was then that Ba'ba' taught her the the process of Guru Pran'a'ma. She was the first woman to have learned the process.

She led a life of sa'dhana' & seva'. Ba'ba' started to pay His visit to their Nathnagar residence from Feb. 1955 onwards. In those days she used to serve breakfast and meals to Ba'ba'.

She was a lady of simple and straight forward nature. She started having her spiritual realisation right from the time of her initiation. She left an imitable stamp of her simplicity, devotion to Guru and the mission on the ma'rgiis and others who came in her contact. Her children have grown into good margiis. I came in her contact from 1989 onwards.

07. A'ca'rya Dashrath – Jamalpur

A'ca'rya Dashrath was a man of few words. He is one such person who is revered throughout A'nanda Ma'rga society. He can be rightly compared to Sainjaya of Mahabharata. Ba'ba' made him His medium for demonstrating the occult phenomenon.

Dashrath Da'da' was initiated by A'carya Shishir Datta in 1955. He was initiated into Vishesha Yoga by Ba'ba' Himself. Dashrath Da'da' was my Ta'ttvika examiner in 1965. I maintained contact with him since then. He continued to be the examiner of Ta'ttvikas and A'ca'ryas until he lived. He actively participated as a member of Central Committee. He left this world in Ba'ba' quarter at Va'ra'nasi on 9th January 2002.

Divyacakshu is the collection of his spiritual experiences. It is an immortal creation.

In the book he describes his mystic experiences with Ba'ba'. It gives glimpses of the Liila played by Ba'ba'.

08. A'ca'rya Shacinandan Mandal – Birbhum

A'ca'ryajii was a person of a happy temperament. He maintained a pleasing disposition at all times. He was an embodiment of service and sacrifice. That may perhaps be the reason why he became Ba'ba's childhood friend. He lived close to Ba'ba's house in Jamalpur railway colony. He studied in the same school and in the same class. He was initiated in 1952 and later learned Ka'pa'lika sa'dhana'. Ba'ba' blessed his village home by visiting there on two occasions. He traveled there by a bullock cart. A DMC was also held in his village. Once Ba'ba' sent him to address the DMS in Kolkata's Tegraj Hall as MGR. He served the Abha' Seva' Sadan in A'nanda Nagar from 1966 to 1980.

His devotion to Ba'ba' was unparalleled. His dedication for the service of the needy has made him immortal. He left for his divine abode in the year 2000.

09. A'carya Vishvanath – Muzaffarpur

A'caryajii was an ardent devotee, an active person who spent his ma'rgii life with utmost sincerity. He was initiated by Ba'ba' in 1954. Ma'rgiis recall his inspiring work of Dharma Praca'ra in Narkatiya'ganj.

As the Bhukti Pradha'na of Muzaffarpur the construction of Jagrti and specifically its boundary is credited to him. Even in his old age he led an ideological life despite constant family opposition. He retired as Deputy Director of Veterinary Department.

10. A'ca'rya Kishunjii-Bhojpur

A'ca'ryajii is one of the brightest stars of the spiritual universe. He will remain resplendent for all time to come. A direct disciple of Ba'ba', he continued to have spiritual experiences almost spontaneously immediately after his initiation. He was a very elevated sa'dhaka.

In 1955 when Naginajii asked Ba'ba' to bless this planet for 50 more years by His physical presence, A'ca'rya Kishunjii was one of the five witnesses present there along with Nagingajii. Before Ba'ba' agreed to accept their request, He had told that Kishunjii's life's mission was over. Kishunjii was a liberated sa'dhaka and this was his last sojourn in this mortal world.

Ba'ba' had a special liking for him. Once the a'ca'rya board had on some unconfirmed reports decided to relinquish Kishunjii's a'ca'ryaship. When the matter was brought before Ba'ba', He was visibly annoyed at this proposal. He had declared then that Kishunjii would remain a'ca'rya for life. He is an adorable person of our cosmic family and the one who is Pratah Smarniyya (should be remembered every morning).

11. A'ca'rya Sakaldeva -Muzaffarpur

Sakaldevajii was initiated in the year 1957 and became a'ca'rya the same year.

He constantly struggled for upholding the ideals of ma'rga. He actively pursued margii ideology and sincerely worked for its propagation, establishing a strong unit in his own village. He was an ideal family man and a Sthitaprajina sa'dhaka. He led a very simple life. His dedication for the Guru, his readiness to sacrifice everything for the sake of ideology continues to inspire all who came in his contact.

He was adored by the ka'pa'lika's. I also happened to get a chance to go for ka'pa'lika sa'dhana' with him in Muzaffarpur in 1966. He served the legal cell of the Ma'rga and attended many important cases. He was one of Ba'ba's affectionate sons. He left his mortal frame on the 14th April 2004.

12. A'ca'rya Devichand – Bhagalpur

Devichanjii was born in Badgaon on the bank of river Sukkardharh in the District Hamirpur, in Himachal Pradesh. Before being initiated in the marga, he was a sa'dhaka of avidya' Tantra. He had defeated many Guru's using the power earned through Avidya' Tantra. When he met Ba'ba', he was asked by Ba'ba' to apply all his power on Him. When he failed to win over, Devichandjii eventually took shelter unto Ba'ba' as his Guru. His mind having opened up, in the state of complete self surrender Devichandjii witnessed His blissful Divine Form.

A'c. Chandranatha became His medium to inspire Devichandjii to take to Margii way of life. In 1957 he became A'ca'rya. Devicandajii evolved into an excellent Dharma Praca'raka as he became a devout disciple. During his posting in Ranchi, Ba'ba' very kindly agreed to bless him by accepting to stay in his house on four different occasions. Similarly in Sabaur also Ba'ba' visited him on three occasions.

Devicandajii wrote down his spiritual experiences with Ba'ba'. Then he brought up this matter to Ba'ba'. Ba'ba' told him – do you want a tender sapling of our sweet and affectionate relationship to be exposed to the crude glare of the world?

In his last days, Devicandajii once made a trip to Kolkata. Ba'ba' blessed him by touching his stomach with His Dukh Haran (stealer of once troubles without one's knowledge) stick and then asked him to keep visiting Him regularly like this once every month. Due to some preoccupation he had to miss a trip, it was that month that he left his mortal frame.

In his last visit, he had accompanied A'c. Kuldiipjii. In his meeting with Ba'ba' he submitted that his children were still young and unsettled, and requested Ba'ba' to accept them in His lap. Ba'ba' quipped and sweetly touched his cheeks and assured him that they were His responsibility and that He would take care of them. He left this world on the 3rd December 1986. He still lives in the hearts and minds of devotees.

13. A'carya Dhruvanarayan – Patna

Dhruvanarayanjii was initiated in 1957. His deep longing for spiritual life and social service made him an ardent sa'dhaka. He soon learned Kapalika sa'dhana' and became a'ca'rya. He was a scholar and an active social activist. He taught in the Balurghat

college as a professor. While leading responsible family life he promoted margii ideals where ever he stayed.

He left this ephemeral world on 8th September 2008.

14. A'ca'rya Raghunath – Gorakhpur

A'ca'rya Raghunath was initiated into A'nanda Ma'rga Sa'dhana' in 1959 by A'ca'rya Dva'rka' Prasa'd. Before being attracted to A'nanda ma'rga Raghunathjii was an active volunteer of Rashtriya Svayam Sevak Samgh. He fought an election for the post of president of the student union and won it hands down. After obtaining post graduate degree in two subjects he started his career as a teacher in a college in Gorakhpur.

His spiritual bent of mind drew him near A'nanda Ma'rga. Within six months of his initiation, he became a family a'ca'rya. He was a humble and cool person. He would usually approach a problem systematically. He was an impressive orator and a giant intellectual.

Attracted by the magnetic personality of Ba'ba' and His rational world view, he left his job in 1962 and worked as a whole timer of the Ma'rga since then. The persecution in Jail during emergency did not dissuade him from the great ideology. He remained committed to Ba'ba' and His ideals and the organisation. He served as the general secretary of Sarva Sama'ja Samiiti until he became the President of A'nanda ma'rga Pracaraka Samgha. Ragunathjii spoke both Hindi and English with equal ease. When the Futures Organization invited Shrii PR Sarkar to address the conference in Peking, Ba'ba' deputed A'c. Ragunath as His representative.

During the North Indian tour of Ba'ba' in 1984, A'c. Raghunath collected His deliberations related to the historical and cultural aspects of different historical places that Ba'ba' visited during His tour. He presented Ba'ba's views on history in a new light.

15. Pranaya Kumar Chattopa'dhyaya – the first General Secretary of AMPS

Pranaya da' was the first general secretary. He was working in the accounts department of same workshop where Ba'ba' spent His 25 years in employment of Indian Railways.

Pranayada' was initiated by Ba'ba' in 1948. He is the first known A'nanda ma'rgii sa'dhaka. In 1955 when Ba'ba' founded the A'nanda Ma'rga Praca'raka Samgha, Pranayada' became its first General Secretary. He was blessed to have been His medium to receive instructions in many systems of Yoga Sa'dhana'. This also included all lessons of ka'pa'lika sa'dhana'. On the insistence of Ba'ba', Pranayada' got married to Pramilajii. Since she was not a sa'dhika', two days after their marriage she was also taught all lessons of sahaja yoga by Ba'ba' Himself, including all lessons of Ka'pa'lika sa'dhana'.

After the registry of the land in A'nanda Nagar, when it was made the global headquarter of A'nanda Ma'rga, Pranayada resigned from his job and moved to A'nanda Nagar.

Ba'ba' had a very special relationship with Pranayada. He once sent flowers and fruits to Pranayada who was then staying in Kolkata. This incidence took place just a few weeks before the abrupt end of His sojourn on our planet. When he realised its significant later he felt very sorry for not having met Him physically.

14. A'ca'rya Anant Thakur - Bhagalpur

A'ca'rya Ananta Thakur was initiated by A'ca'rya Chandranath in 1958. He became the District Secretary (Now Bhukti Pradha'na) of Bha'galpur the same year. He was employed in the central excise department.

He was responsible for the establishment of the first Prabhat Grantha'ga'ra in Bha'galpur and maintained it all his life. He also established the medical unit in didi's Ja'grti and served the needy people throughout his life. He was a good Praca'raka. He was a scholar of A'nanda Ma'rga philosophy. In those early days Da'da' Shradhanandajii used to organise tattva sabha' and public meetings for him.

He left his body on 4th September 2005.

15. A'ca'rya Samanvaya'nanda Avadhu'ta

Da'da' Samanvaya'nandajii was initiated in 1957 by A'c. Amulya Ratan Sarangi. Dadajii was then a family man serving in a government job in the office of A'c. AR Sarangi. Dadajii was deeply influenced by the strict moral conduct of his a'ca'rya.

He became a whole timer in the year 1960 and then became avadhu'ta in 1962. He was the 2nd most senior avadhu'ta of the mission.

During emergency for a while he dissociated from the ma'rga and soon realized the folly of his decision and returned back to the fold of ma'rga. Da'da'jii was a thinker in his own right. He wrote A'nanda Shatakam in Samskrta. He wrote the following anecdote in the preface of the book. In 1972 he went to Bankipur Jail for the darshan of Ba'ba'. On entering His cell he prostrated and then stood by His side. Ba'ba' pointing to dadajii said that I know that you have composed a Rhythm in Samskrta language. No one knows it except me & you. His other compositions were Tantra Rahasyam (two parts), Guru-tattvam and Co-operative movement.

He worked hard all his life for the growth of the mission.

He was sent as MGR on two occasions to address the DMS. Dadajii was a good pracaraka, a sweet person and a great devotee. He had a large margii fan following. He had an aura of spirituality and he used that for the propagation of margii ideals.

We travelled throughout India for Dharma praca'ra and organizational work from 1993 until his death. He left us in Bokaro hospital on 3rd November 2006.

16. A'c. Sambuddha'nanda Avadhu'ta

Dada sambuddha'nanda was the third avadhu'ta in the A'nanda ma'rga avadhu'ta tradition. He had the honour of driving Ba'ba' out of A'nanda nagar to Ranchi on the momentous day of 5th march 1967. His dedication to Ba'ba' was absolute. He was in search of a Guru. By His grace, dada was initiated by a'c. Kedarjii in 1961.

In 1965, he was appointed superintendent of the first children home in Patna. In 1966, he became the central ERAWS secretary. He spent his last days in Brazil. In Petropolis near Rio-de-Janeiro he bought a sprawling Jagrti and did intensive propagation of the missionary ideals. He had a knack for collecting funds for the treasury of the Samgha. Before he became a sanyasi he was punished by Ba'ba' in jamalpur for having taken Jalebi and curd

without doing his morning sa'dhana'.

He left us on July 2002 in Petropolis, Brazil.

17. A'c. Pran'ava'nanda Avadhu'ta

Dadajii was the fourth among the sanyasin of a'nanda marga order of monks. He always played a leading role whether it was organizational activity or devotion to the Guru. He had to struggle a lot to fight against the immoral forces to protect the sanctity

of Is't'a and A'darsha. He was jailed during emergency and also suffered at the hands of CBI and police.

He was initiated by A'c. Chandra Dev Verma in Allahabad in 1961. He took to sanya'sa in 1962. Since 1967 he retained the post of Central Office Secretary for 18 years. He worked hard to please Ba'ba' through his efficiency and obedience. Ba'ba' once remarked "Pranava'nanda has tremendous capacity and capability".

He was responsible for the construction of Tiljala central office, Didi's building and Jagrti and also Madhu Ma'lainca. Rotunda, Power House, and central office in A'nanda nagar also bear the stamp of his hard work. He was behind the electrification of A'nanda Nagar. He had thorough knowledge of the land matters of A'nanda nagar.

In his last days he was busy building up the Kullu unit.

I have known him from close quarters since 1967. He left us on 7th February 2010 in PGI, Chandigarh.

18. A'c. Vijayananda Avadhu'ta

Dadajii was a very learned person. The publication department of the ma'rga will always bear his stamp for the dedicated work that he carried out in a very tight schedule during Ba'ba's time and thereafter. He was a great devotee and a great teacher.

He was initiated by A'c. Shacinandan mandal in 1961 and became a avadhu'ta in 1962.

He remained in the centre throughout his margii life. By dint of his sharp intellect and exceptional memory he was chosen by Ba'ba' for taking notes and reproducing them flawlessly. Ba'ba' also taught him the science of judging a persons character and his total personality by seeing his face and body. During Dharma Samiiksa' Ba'ba' taught him to judge the personality of a person by noting one's physical features. He was asked by Ba'ba' to note down the details of each margii and also the A'sanas prescribed to them by Ba'ba'. Ba'ba' had chosen dadajii to represent Him once to address the 1st January DMS as MGR at A'nanda nagar.

He left us in July 2002.

He will always be remembered for his outstanding qualities, dedicated life, his erudition and his invaluable contribution to the publication department.

19. A'c. Cida'nanda Avadhu'ta

Dadajii was initiated by A'c. Vishvamohanjii in 1958. He was then working as Mines manager. Later he dedicated his life for the mission & became avadhu'ta in 1965. Since then he had worked hard for 45 long years spreading Ba'ba's love in India & overseas countries. He travelled all over the world for consolidating His mission.

He was given the responsibility of Shramana (trainer of monks) of Davao city on Mindano island of southern Philippines. This Prashiksana Math was specially established to train overseas whole timers of the ma'rga. He trained over 600 whole timers during his posting in Davao. He established 'Ba'ba' foundation' a NGO for helping the undeveloped islands of Philippines. This foundation is managing many service projects for the poor and deprived people of Philippines. This foundation is serving over 6000 families in many islands. He wrote his memoirs entitled "Unforgettable Memories".

Da'da' Cidanandajii' made many contributions. He had a tall spiritual stature, deep human sensitivity, neo-humanistic love and unparalleled sacrifice.

In his last days he suffered with cancer for four years. He received treatment from India's leading cancer specialist Dr Nair of Appolo Delhi. He was recuperating in malur Polytechnic and was improving. All of a sudden he developed acute pain. He was admitted to the Manipal Hospital, Bangalore and left us on the 19th April 2008.

20. A'c. Cidghana'nanda Avadhu'ta

Cidghana'nandajii was initiated by A'c. Lalanjii. He dedicated his life for the Samgha in 1961. He spent most of his life in the service of the people of Rarh and taught English language in the High School and College at A'nanda Nagar.

Dadajii suffered a lot and was victimized by communists. He was jailed many a times. During emergency he was arrested by Interpol with A'c. Samanvaya'nanda avadhu'ta.

He was a great devotee and a scholar of A'nanda Ma'rga philosophy.

21. A'c. Amita'nanda Avadhuta

He was initiated while he was still studying in BIT, Mesra. He passed out as an electrical engineer and served Hindustan Motors-a motor car company of India based in Kolkata. He was initiated in 1960 by A'c. Amulya Ratan Sarangi in 1960. He became a wholetimer in 1963. He hailed from a Jamidar family of Aurangabad. His father was the

Sales Tax commissioner posted in Bihar. When Amitanandajii became a whole timer, his father made all out efforts to get his son back. But it did not succeed.

His first posting was in AMIT, A'nanda Nagar. He started the publication of Bodhikalp and remained its editor all his life. Once during annual DMC at Patna he was declared the best ta'ttvika' in the organisation.

He was a tireless but systematic and intelligent worker. Being a strict disciplinarian, he was adored in and around A'nanda nagar as the Tiger of A'nanda nagar. Later he became Rector Master of A'nanda nagar. Much of the development of A'nanda nagar took place under his leadership despite complete destruction during emergency.

He was a loving son of Ba'ba'. He left us in 1982 after a protracted illness. Immediately after his demise when Ba'ba' visited A'nanda Nagar, He remarked that missing Amitananda.

He once represented Ba'ba' on the occasion of A'nanda Pu'rnima' DMS in Kanpur in the year 1975. He had a very powerful personality. He was very sharp and had a special relationship with Ba'ba'.

22. A'c. Asiima'nanda Avadhu'ta

Asiimanandajii was initiated in 1963, while he was a studying in Agriculture University, Kanpur. He became a whoeltimer the same year. His first posting was in Hyderabad. He inspired Shrii Ram Chandra Reddy and Bhavesha'nandajii and initiated them.

He served many portfolios in AMPS center viz. Education, Agriculture and Finance. He was the man behind Ba'ba's gardens. When he left us on 2nd april 1990, Ba'ba' remarked that 'Asiima'nanda was a great Agriculture scientist. It is a great loss to the world. He is irreplaceable'.

Asiimananda was a gem of a sanya'sin. He was both soft and sweet and a silent worker. The world needs many such persons if it has to rebuild the society in the image of Ba'ba's ideology.

23. A'c. Tadbhava'nanda Avadhu'ta

Tadbhavanandajii started his margii life after being initiated by A'c. Parasnath in 1965. He had a highly sensitive mind for the suffering humanity. This prick of the pain of the humanity inspired him to dedicate his life for Ba'ba's mission. I met him in 1967 and developed an intimacy with him.

Da'da' Tadbhava'nanda left an ineffaceable imprint on the margii society. He was very hard working yet simple at heart. He travelled to many countries during his assignments and made significant contribution for the development of the marga. He established the Global Headquarters of Proutist Universal in Copenhagen. He built a huge Ja'grti and a master unit there. The Prout Bahvan at Malviya Nagar New Delhi, Patliputra Patna and A'nanda Nagar were built by him.

The CBI arrested him on false charges and sent him to Jail in Kolkata. The unsalutary conditions in the jail had its toll on his otherwise sound health. He suffered from cancer. By the untiring efforts of Human rights activists he was brought to Malviya Nagar for treatment. In Delhi he was served well by Dada Cittashiva'nandajii and Dada Visvotgata'nandajii and Vipin Kumar. Shrii Prem Ra'n'a' devotedly took care of his needs.

Every one has to leave this world, but there are only a few like Tadbhava'nanda who leave a permanent imprint on the social edifice.

24.

A'c. Kiirtya'nanda Avadhu'ta

Dada Kiirtya'nandajii was initiated in 1964 by Dada Shiveshvaranandajii. He dedicated his life in 1966.

He worked for the people of Rarh all his life and dedicated his efforts for the discovery of old relics and historical evidences of ancient Rarh. Ba'ba' encouraged him to work for discovering the ancient relics related to Rarh. He had a natural inclination for archaeology and ancient history of Rarh. That is why ba'ba' gave him the responsibility of establishing Rarhalogy. He discovered many lost relics of Jain religion. Ba'ba' took him along whenever He toured the areas around A'nanda Nagar for discovering ancient archaeological and historical findings. Ba'ba' taught him the methods to be adopted in discovering historical facts. He remarked that historical facts can not be discovered by sitting on armchair in an air conditioned bungalow of Baliganj. One will have to toil hard to find facts. Kiirtyananda adopted the spirit of a research worker of archaeology and history. He tried with all his available resources and was successful in finding many relics of ancient Rarh. Ba'ba' used to be very pleased with him whenever he collected some new finds and showed them to Him.

Inspired by Ba'ba' he organized the Kapil Mela in Jhalida the birth place of Maharshi Kapil. Since then it has been celebrated regularly in the Kapil cave near Jhalida.

Dadajii was the editor of A'nanda Rekha' and served its cause all his life. He left his body in 2006 after a protracted debilitating illness.

He has left behind a wealth of information for research on Rarh. All his research work has been published in his books entitled “Raktmr̥tika’ra Rarh”. This is a series which has been published in many volumes. He has also published his memoirs with Ba’ba’. His work carry the stamp of his hard work and his sensitive mind.

25. A’c. Artesha’nanda Avadhu’ta

Dadajii became a wholotimer in 1963. His first posting was in Rewa, where he did commendable job. His was struggle torn life. He was arrested on false chages by CBI and was subjected to extreme torture. He was released after CBI failed to prove any thing substantial against him. On release he dedicated himself to develop service projects in New Delhi. He was responsible for the construction of Vinod Nagar Ja’grti & the Gadaipur MG quarter.

He left us in 2004. He is remembered for his dedicated life and service of the mission.

26. A’c. Devashrddha’nanda Avadhu’ta

Dadajii became a wholotimer in 1966. He was a person of great inner strength. He had a pure and a quite mind and was an inspiring person. He worked in NY sector as SES and SS. He made significant contributions for the mission & took special care of WTs in the difficult times of the marga.

He left us on 24th November 2008. In his last days he was looked after well by Dr. AK Mohanti and Dr. Sa’garika Mishra. Sister Sa’garika who runs the most amazing Adruta children home in Bhubanesvar took special care of dada and made him feel comfortable in his last days. Those were difficult and painful times for the Dada.

27. A’c. Abhiprema’nanda Avadhu’ta

I happened to meet him in Purulia Jail in 1967, where he was lodged for participating in the satya’grah for liberating A’nanda Nagar from the communist land mafia. He was then only 16 years old. He became a wholotimer in 1971. His first posting was as DS Akola. He served the Samgha as Central worker for many years and also did commendable work during his overseas postings.

He left us on 18th September 2003. He was a great devotee. He maintained a smiling disposition at all times.

28. A'c. Rudreshvara'nanda Avadhu'ta

Rudreshvarananda was initiated by dada Savita'nandajii in 1975. He was attracted by the practices of the ma'rga and soon became LFT and in 1976. Later he dedicated his life for the service of humanity as a wholetimer.

He spent all his life in the service of the African Nations. He toured 40 African nations and propagated the ideals of the ma'rga. He inspired many persons and trained LFTs. Many of his initiates dedicated their lives for the mission.

He worked hard to uplift the standard of many village communities, built roads, potable water supply systems, co-operatives, health centers, Jagrtis, safe maternity homes, trained nurses from among the village women. He was a tireless worker and rest was unknown to him. He worked not caring for day or night until the task is at hand was finished. His selfless contributions still inspire the margii society.

29. A'c. Rameshananda Avadhu'ta, Manila

Dadajii was a great devotee, a great neo-humanist, nature lover and a painter. A visitor to A'nanda Ma'rga centres in Manila sector can not miss no matter where one goes. His sweet nature and selflessness left everybody impressed.

He initiated PCAP activities and held many educative exhibition. His imagination caught the Neo-Humanistic thoughts waves. As a keen observer he would paint the images that touched his mind and heart. His classes mostly focused on Neo-humanist ideas.

He started many schools for the poor. He was suffering from diabetes and left us on 20th April 2010 in Manila.

His dedicated work keeps us inspired.

30. A'c. Vratadhiira'nanda Avadhu'ta, Philippines

Vratdhiira'nandajii was a great human being, a poet, an artist and a selfless worker. He was a loving person and a great devotee. He was trained as a wholetimer in Davao center in 1970. His first posting was in Brazil town of Brazil of South America in GT Sector. He remained there until 1998.

His next posting was in Kangemi of Nairobi sector. He established AMPS and A'nanda Ma'rga High School there. He got both the institutions registered by the education minister. He represented Proutist ideas very effectively in the international conference organized in Kenya Kericho town during 21st to 24th April 2005.

He left us on 2nd July 2008. The news of his sudden death was received with great shock and surprise by the margii society. His contributions are too many to be described. His was a great life of dedication and missionary zeal.

31.

Ac. Avadhu'tika' Ananda Bharati A'ca'rya'

The life and persona of Didi A'nanda Bharati deserves timeless praise. Her real life was far superior to her apparent person. Born and brought up in an aristocratic but highly cultured family of Allahabad Didi's early years at home were spent in the midst of an environment of music and art.

He had a natural inclination for spirituality from her childhood. She had a regular contact of many elevated spiritual sa'dhakas and luminaries. Most notable among them were Maharshi Raman (Tamilnadu) & Swami Ramdas (Kerala).

She lived in the A'shrama of Swami Ramdas as his disciple. However, her search for her spiritual guide continued. In that process she came across A'nanda ma'rga. She was inspired to learn the sa'dhana of A'nanda Ma'rga. But she was confused. In that state of mind he had a dream in which a young sanyasin in Dhoti Kurta appeared in his dream. Swami Ramdas was standing by his side. Swami Ramdas indicated to her to touch the feet of the sanyasin. As she touched his feet there was the pronouncement of a divine message which proclaimed that you have received the grace of the Cosmic Consciousness.

Next day she was called to attend a spiritual meeting of A'nanda ma'rga in Jaipur. She went to attend that programme. As she entered the meeting hall, Lo! She was beholding the same sanyasin who had appeared in her dream. He was in the very same attire. She took initiation from that Ananda ma'rga sanyasin.

Since then the only desired that remained in her mind was get every known person initiated into A'nanda ma'rga. Because of her efforts many from the upper strata of society in Mumbai were attracted to A'nanda ma'rga and got initiated.

She expressed her desire to become a sanyasin to Ba'ba'. Ba'ba' accepted her to be a nun. It was in 1966 that she was initiated into the sanyas order of the ma'rga. Thus she became the first lady avadhu'tika' of the ma'rga.

Her intense spiritual craving always looked for any opportunity that may come her way. Needless to say she had constant realization of Ba'ba's grace. That is why she was always successful in accomplishing any task given by Ba'ba'. Every position that she held in the WWD carried a stamp of her meticulous nature. When she became the head of WWD she always kept Ba'ba' pleased with her good work.

For giving any instructions she was called by Ba'ba' in person and she was always offered a chair. This was an expression of Ba'ba's affection for her.

When she became almost invalid to walk, Ba'ba' went to her and said the only thing you should do now is to wipe the tears from the face of the suffering and distressed humanity which comes in your contact. Any one who went to meet her, returned back inspired with hope. She had tremendous grit.

Ba'ba' had once remarked that she had enjoyed all the worldly pleasures and remained absorbed into the luxuries of life, yet she renounced everything happily to become a sanyasin. Her sacrifice is commendable.

35. A'c. Hari Shankar, Ranchi

A'carya Harishankarjii was a devotee par excellence. He always made himself available for ma'rgii activity like a whole timer. He took pains to propagate the ma'rgiya ideals throughout the villages surrounding Ranchi. His margii life started after his initiation by A'c. Kapileshvarajii. He inspired all his children to get follow the ma'rgii way of life and later all of them got married according to its revolutionary marriage system which rejects caste biases and giving or taking dowry. He worked as the secretary Marriage Bureau of A'nanda Ma'rga all his life. Following the incidence of 5th march 1967, when Ba'ba' arrived in Ranchi, He stayed in A'c. Hari Shankarjii's house in NCDC colony in Ranchi before moving to a hired place there.

A'caryajii met with accidents on three occasions since he used to close his eyes in a state of cosmic ideation while driving his bike. Needless to say Ba'ba' always took care of him. Ba'ba' even visited him in the hospital and enquired about his welfare on all the three occasions.

A'ca'ryajii left his mortal frame in August 1999. I came in his close contact since 1969. He would be remembered for his simplicity and dedication.

36. A'c. Devakinandan, Basti

My own contact with A'ca'ryajii took place in 1978 in A'zamgarh. Since then we have developed close association and affectionate feelings for each other.

Just before His great departure Ba'ba' had called the margiis the world over, A'ca'ryajii also responded & reached Kolkata and had His dharshan. Ba'ba' had once mentioned mentioned that Devaki was a great devotee.

Devakinandanjii was initiated by A'ca'rya Raghunath in 1960. He became a family a'ca'rya in 1962. The same year he was selected by UP state Public Service Commission. He initiated hundreds of people in Gorakhpur, Devaria and Azamgarh. He was also functioned as the Bhukti Pradha'na of Gorakhpur and Azamgarh.

He left for his cosmic abode on the 2nd July 2009.

37. A'c. Devakinandan, Muzaffarpur

A'ca'ryajii was one of the leading a'caryas of the Ma'rga. In a very strange circumstance, he wrote a letter in the form of a poetry to Ba'ba' in Jamalpur. He followed Ba'ba's reply as a command and took initiation with all his family members. He was then serving Bihar Police Department.

From 1961 for 15 years, until he left his mortal frame in 1976 to return to his original abode, a'ca'ryajii conducted himself as an ideal devotee in terms of sacrifice, complete self- surrender, and strict adherence to the A'nanda Ma'rga ideology. He had a soft mental disposition and composed Sha'yari taking a nick name of Mushtar. His devotion for ba'ba' was sakha'vata (like a close friend). Once on a field walk in A'nanda Nagar Ba'ba' said that "Devaki has become Devata". A'ca'ryajii devoted his everything at the lotus feet of Ba'ba'.

His special contribution was in regard to the construction of the first Children's home in Patna, building Ja'grti in Arah and the degree college in A'nanda Nagar.

He lived his life in the image of Margii ideals. His wife A'ca'rya' Janak Kishori continues to lead an ideal life even now at the age 94 years.

A'caryajii left a large family of active ma'rgiis including his sons and daughters & grandchildren numbering over 80 persons apart from his thousands of initiates. Sixteen revolutionary marriages have been conducted in his direct family. His family of five generations is a unique example of is't'anis'tha' and a'dharshanis'tha'.

38. A'ca'rya Keshava Prasad, Gazipur

A'ca'ryajii was initiated by Raghunathjii in 1961. He was a great devotee. Ba'ba' blessed his family by staying with them five times. Once he conducted the DMC inside his courtyard of a'ca'ryajii's house.

He left this mortal body on 7th February 1992. He is remembered for his devotion and service of the mission.

39. A'carya Trptinarayan, Deogarh

A'ca'ryajii was a great sadhaka. He was an active social worker and a Neo-humanist. He is remembered even today with reverence in Deogarh, where he was responsible for the construction of Jagrti and later its maintainance & MG Quarter. Ba'ba' would often address him lovingly as Trpti (satisfied).

He left his body on 11th April 2005 in village Rampur (near Lakhisaray, Bihar).

40. A'c. Manohar Lal, Delhil

A'ca'ryajii started his margii journey after being initiated by A'c. Lalan in Jaipur.

Before being initiated he was devoted to Kali puja. When A'c. Lalan inspired him to learn Brahma sa'dhana', Manoharlalji responded saying he must take mother kali's permission. On his inquiry Kali according to manoharlalji replied that if you have the desire of your supreme welfare, you should better get initiated by the A'ca'rya.

He became A'ca'rya by dint of his devotion to the Guru and His grace in 1963. Once while passing through a local area in Jaipur, looking at the college which came on the way, Ba'ba' remarked pointing towards the college that it was Manohar's college. A few days later Manohar Lalji became the Principal of that college.

He left his body on 23rd January 1996 after Guru Puja'. He would be always remembered for his good deeds.

41. A'carya Bhis'madeva , Balaghata

Bhisma Devajii was a poet and a inspiring person. He wrote many poems which have been published as collections in many titles viz. Parivartan, Tarannum, Bal-Batika, Jagav Chattisgarhia, Kusum Kalyan.

He was born in Village Dhansa' of Balaghata. After initiation, he taught in Jagadapur A'nanda Ma'rga Primary school. He managed the school as a LFT and devoted himself for the praca'ra of the mission. Many people who came in his contact became sa'dhaka.

During his last days he suffered from cancer and died on 30th June 2005 in Raipur.

42. A'c. Sakaldiip, Varanasi

Born in a village environment of Varanasi in 1935, he was devoted to Shiva. In 1958 he was posted as assistant engineer in Chaibasa (Bihar). It was here that he got initiated. Sakaldiipji was adgnified person. His child-like simplicity attracted those who came in his contact. He maintained a perfect balance in his personal family life and that of the organization. Always conscious of his responsibility he devoted himself to the praca'ra of

the ma'rga and must have initiated a few thousand persons. In 1996 he was adjudged as the best Bhukti Pradha'na.

He was initiated by a'ca'rya Chandra Dev and became family aca'rya in 1964.

He left his mortal frame on 13th July 2008. His selfless dedication is the asset of the collective humanity.

43. Shrii Aniruddha Singh, Trimuhan, Bhagalpur

Aniruddhajii is welknown in the ma'rgii community. His devotion to Ba'ba' was incomparable. He remained active throughout his life. He was initiated by A'c. Chandra Nath on A'nanda Purnima' of 1956. I came in his contact in 1972.

He continued as the chairperson of Jamalpur DMS committee until his demise. He was very enthusiastic in collecting funds for the DMS. The historic speech of Ba'ba' at the time of inauguration of Renaissance Universal was given in Trimuhan, Anirudhajii's home town. He wrote a book of his own experiences entitled "Ba'ba' Na'ma Kevalam". All his family members are active ma'rgiis. His brother Harendrajii is one of the old Ka'pa'likas.

He left this world on 10th September 2009. His love for Ba'ba' keeps us inspired.

44. Dr. Ramesh, Ranchi

Dr Ramesh was initiated by A'c. Akhaorii Hima'cala Prasad in the year 1957, when Rameshjii was posted in the Government Hospital, Deogarh. In A'nanda Ma'rga Dr' Ramesh has been a known person. In 1963 when Ba'ba' established ERAWS, Dr. Ramesh was given the responsibility of Relief Committee. Later he became the Secretary of Bihar Relief Committee. After successful handling of Bihar relief Ba'ba' founded A'nanda ma'rga Relief Committee (AMRC). In 1966-67, AMRC rendered yeoman service to thousands of the draught affected people of Bihar. AMRC was the precursor of AMURT & AMURTEL.

Ba'ba' chose Dr. Ramesh to head the AMURT as its Chairperson. He held the post all his life. Once Ba'ba' had remarked that Ramesh is sadhu who thinks, speaks what he does.

Dr. Ramesh was actively associated with development of A'nanda Nagar. He was an active member of the ACB of Medical Board of A'nanda Ma'rga.

Dr. Ramesh inspired his family and all of them are sa'dhakas of the Ma'rga.

Dr. Ramesh was not only a good pediatrician but also a family guardian of margiis.

Dr. Rameshwar Prasad who was better known to all as Dr. Ramesh left us on 29th January 2010. In him we have lost a sincere friend of the Ma'rgii society.

45. Shrii Arvind Nath Shahdeo, Gumala'

Arvindjii was initiated by A'c. Harishankarjii. He was then a leading Zamindar of Chota'na'gpur. He made significant contributions for the development of our master Unit in Baghima' of Gumala'.

Arvindjii was an affectionate devotee of Ba'ba'. He was jailed many a times for the cause of Ma'rga and was also arrested once in Misa (Maintenance of Internal Security Act).

He always took up one or the other responsibility for the service of the Ma'rga. He was the Sama'ja Secretary of Chotanagpur Sama'ja all his life. For some time he was also the Bhukti Pradha'na of Ranchi Bhukti. Then he also took up the responsibility of Ba'ba's security guard. In a near fatal accident in Netrahat, he was miraculously saved by Ba'ba', and he regained his health in a short time.

His wife Dr. Karun'a is a family a'ca'rya. Like him she is always ready to lend a helping hand whenever there is any need in the ma'rga. His children are also active ma'rgiis. I came close to him when I was posted in ASMU.

He left us on 25th September 2009.

46. Shrii Baldeo Rathi, Jaipur

Rathijii came in the ma'rga in 1965. He was a great devotee and a responsible ma'rgii always ready for His service. Rathijii travelled with Ba'ba' accompanied by his wife during His tour of Europe and South America and Jamaica. During the tour both of them got lots of opportunity to serve Him. Ba'ba' was always pleased with his service. His demeanour would make Ba'ba' very happy. Ba'ba' would be all smile whenever Rathijii performed Ta'n'd'ava Dance before Him.

Ba'ba' once remarked about him" he is a fat man and very dependable".

He remained an active member of AMURT. His wife Radha didi is also a strong devotee of Ba'ba'. At his last moment he told his wife that Ba'ba' has made enough arrangement for her. Radha Didi asked him to remember Him only. He responded by saying "who else is there for me except Him". He left us on the 16th January 2010.

47. Shrii Shashi Rainjan, Muzaffarpur

Born on 30th June 1918 at Muzaffarpur, Shashi Rainjanjii was attracted towards Ma'rga by the inspiration of his younger brother Sudha' Rainjan in the year 1957. He was initiated by A'c. Nagendra. He joined active politics in 1966 and was elected Member of Parliament for two terms on Congress ticket. When Ba'ba' wanted him to organize PBI (Proutist Bloc, India), he resigned from the membership pf Parliament (MP). He fought election from the platform of PBI in 1970. He was the chairperson of PBI. Prime Minister Indira Gandhi approached her to dissuade him from resigning the parliamentary seat but he decided to sacrifice at the command of his Guru. On His way back from the Sitamarhi DMC Ba'ba' stayed in his Muzaffarpur residence. Ba'ba' also stayed at his MP residence in South Avenue, New Delhi. His wife Smt. Pratibha Devi was also a great devotee and she used to sing Bhajan for Him. She got many opportunities to serve Him.

Shashi babu was a devotee par excellence. He was an active margii and an ideal person. He was ever ready to do whatever was required to please Ba'ba'. He gave two rooms of his Patna residence on exhibition road for ma'rgii activities. One was used for PBI movement and the other for Bihar Relief. Once Ba'ba' gave him a target to open schools in all the blocks of Patna within a specified period, which he did accomplish. Ba'ba' mentioned this incidence during the course of His discourse on Guru vandana' in Sabda Cayanika' and described it as the highest stage of devotion.

He left us on 12th April 1992.

48. Shrii Raghuvir Prasad, Bareilly.

Shrii Pandeya Raghuvir Prasad – was better known in the Margii community as R Prasad. He was one of the greatest devotees of Ba'ba'. My first opportunity to know him came when I was RS Allahabad. It was then that A'nanda Ma'rga school was started in Bareilly that I got to know this great person.

Shrii R Prasad came from an aristocratic family of Bareilly but was simple man. He was a strict moralist and an active social worker. He was initiated by Ba'ba'.

In 1969, the then, Central Government banned participation of government employees to in A'nanda Ma'rga. He challenged the order in Supreme Court of India and got a stay. He was then posted as the Custom collector in New Delhi. But he dared the government by raising an issue of constitutional rights of the citizens and demonstrated a revolutionary and adamant ideological commitment. Outraged by his action the government used its roller coaster to suppress him and his promotion was withheld.

In 1975 after the promulgation of emergency in India, A'nanda Ma'rga was banned. By then Shrii R Prasad had retired. He immediately rushed to meet the Prime Minister to request her to allow practice of A'nanda Ma'rga system of worship (sa'dhana') even when A'nanda Ma'rga activities are banned. The then Prime minister did not meet him, instead ordered him to be arrested and he was sent to Tiha'r Jail in New Delhi. The family approached the government and it was conceded that if Shrii R Prasad gives in writing that he is not a A'nanda Ma'rgii, then he would be released from jail. When he was asked to give in writing, he replied that he was a ma'rgii and how could he write that he was not one.

Thus he had to spent the jail term until emergency was lifted in March 1977.

The speciality of Shrii R Prasad was that he would not miss any opportunity to spread the ideals of the Ma'rga. He would always present convincing arguments about A'nanda Ma'rga philosophy and way of life.

His devotion to guru was deep rooted. In 1968, during Coochbehar DMC Ba'ba' was arrested at the instance of the then Communist Chief Minister of West Bengal. As the news of His arrest reached New Delhi, Shrii R Prasad immediately rushed to Coochbehar carrying sufficient cash with him, to meet any legal requirements to get Him freed from Jail.

Ba'ba' also had a special liking for him. After his demise when Ba'ba' came to visit New Delhi He fondly remembered R Prasad's absence there.

49. Shrii Rajendra Kumar (IAS), Lucknow

Rajendrajii was born and brought up in Rajasthan. He was a brilliant person and passed the Indian Administrative Service of Government of India. He was later appointed in the Administrative Service in UP cadre. He was posted as District magistrate in Farukhabad, Faizabad, Gonda, Rampur and Saharanpur. Later on promotion he became Commissioner of Gorakhpur. Finally he retired as the Secretary Public Works department, Government of UP.

He was the younger brother of a'c. Virendra Kumar As'tha'na', who initiated him into A'nanda Ma'rga. Ba'ba' once stayed in his house, in Lucknow before he got initiated. He never missed the opportunity to meet his loving Guru whenever he was able to relieve himself from his administrative duty. He would always bring in his family in DMCs.

He used to write in Prout journal as Kan'a'da, a name given to him by Ba'ba'. He was trained for 15 days as a ta'ttvika in Jamalpur.

Ba'ba' blessed his Fatehpur residence by staying there for a week. He organized the Fatehpur DMC in 1962. Wherever he was posted he made sure margiia establishments viz. Chidren Home, Kinder Garten school, Master Units develop properly.

He left this body and proceeded on his great journey to unite with his Supreme goal.

50. Shrii Anant Ram, Ranchi

Born in 1922 on Anant Chaturdashi, Anantjii served the Punjab National Bank as an accountant. After his initiation by A'c. Satyananda Avadhu'ta in 1958, he became a great devotee, an active Dharma Praca'raka and a dedicated social worker.

During his personal contact Ba'ba' blessed him by saying "you are a good & brave boy and you will bring good name to the ma'rga.

I got lots of opportunity to work with him for praca'ra in Patna in the year 1965.

He donated land for the High school in A'nanda Shila' Master Unit.

All his children developed as good margiis and got married according to the revolutionary marriage system of the Ma'rga. One of his daughter is a sanyasin of the Ma'rga. his wife Smt. Chandramani Devi was also a dedicated sadhika' and always took good care of the whole timers.

Anantjii left his mortal farme on 18th January 1989. His younger brother Shrii Ramlakhanjii is also a gem of ma'rgii. His entire family consisting of his four sons and their wives are all dedicated for the mission.

51. Shrii Omkar Nath Kaul, Kashmir

Omkarjii was a great devotee of the Guru and lived up to His expectations. He was a one man army who held the flag of Dharma flying high in Kashmir.

I salute him for his brave stance.

His entire family including his wife and his sons and daughters are all dedicated for the mission. All his children were married according to A'nanda marga revolutionary marriage system.

52. Shrii Faguaram Sahu, Raipur

Born in 20th August 1944 Shrii Faguaram had spiritual inclination. He was initiated in 1967 by A'c. Kailshaji. He lived according to the A'nanda margii way of life. In Jabalpur he worked for many years as the Bhukti Pradha'na and helped in expanding the mission.

He received Ba'ba's blessings through Dharma Samiiksha', Gardening programme and on many occasions accompanying Him on field walk. All his three children are highly educated and married according to A'nanda ma'rga system (no caste bias and no dowry and tilak).

He retired as Deputy GM Telephone and departed from this world on 27th September 2007.

53. Shrii Vrijalal, Durg

Born in Jamshedpur, he moved to Chattisgarh and got initiated by A'c. Ramlal Dani. He remained a sincere devotee all his life.

For him Kiirtan was his life. He would never leave any opportunity to attend a Kiirtan programme and always participated with his family.

On the Golden jubilee celebration, when 50 days Akhand Kiirtan was organized in Jamalpur, he stayed there for 40 days. Before that he participated in 9 days Kiirtan in Jamshedpur. He must have organized umpteen number of Kiirtan programme in Bhilai.

He was blessed by a supporting wife who co-operated with him in all spiritual endeavours and always inspired him.

54. Shrii Kunjabihari, Raipur

Kunju Ustad as he was affectionately called by his near and dear ones was initiated by A'c. Narendra Deo in 1963. A wrestler in his younger days, he lived upto the ideals of the Ma'rga. He was a dedicated worker of Chattisgarhi samaja and vahinii. He attended Ba'ba' as his security guard during many DMCs. On one such occasion during Bhopal DMC pleased by his dedication Ba'ba' gave him his garland.

He was particular in performing sa'dhana' together with his family members. He had an adept hand in treating people suffering with dislocation of shoulder and sprain in hands and legs.

He is affectionately recalled in the margii society for his simplicity and love for Ba'ba'.

55. Shrii Sunil Bhagi

Born in village Jarao of Ludhiana on 24th August 1957, Shrii Bhagi was initiated by Dada Shankara'nanda Avadhu'ta. His early education took place in A'nanda Nagar High School. Later he completed his post graduation in Commerce. He was a dedicated margii. Most of his time was spent in creative pursuits. He devoted himself for propagating Dharma to please his Guru.

Bhagi's left us for his permanent home on 25th December 2008. He was suffering from Kidney problem. At the time of his death he was lost in His thought.

56. Shrii Sharat Chandra Pradha'na – Talcher (Orissa)

Sharat Babu was a accomplished poet, literatuere and a thinker. He was devoted to the ideals of marga.he was initiated by A'c. Nirmohananda Avadhu'ta. He wrote over 600 devotional songs. He presented the A'nanda marga philosophy in Oriya for pracara in the name of Adarsh Saral Bhagavata. He also wrote Guru Giita depicting the sweet relation between the Guru and the disciple.

He wrote many songs for propagating margii ideals and produced a cassette in the voice of famous singers Kumar Sajan and Saroj Nanda. His devotional songs were compiled in the name of Bhakti Sarita in the voice of Laksmi Kant Palit.

He left us on 15th February 2010. He is missed by the margii society.

57. Shrii Ramchandra Reddy, Hyderabad

Shrii Ram Chandra Reddy was a Stalwart of Hyderabad and a devotee par excellence. He was a leading a'nanda margii and a selfless social worker. Initiated by A'c. Asiima'nanda Avadhu'ta in 1965, he was a disciplined person. He retired as a Chief Engineer Government of Andhra Pradesh. He himself worked hard to spread the ideals of the Ma'rga and also inspired those who came in his contact.

He established the A'nanda Ma'rga School, Ja'grti, Yoga Center, Children Home and other institutions of the marga. Ba'ba' stayed with him on two occasions and blessed him. Ba'ba' once remarked about him "Ram Chandra is a brave person. He is the tiger of Telangana.

He had a heavy body, despite that he used to perform tan'd'ava. Once he demonstrated ta'nd'ava before Ba'ba' smiled and appreciated his effort.

During emergency he was kept under house arrest. He left us in 1981.

His memory is still fresh in the minds of margiis and WTs.

58. Shrii NRK Raju, Vizag

Rajujii was a great devotee of Ba'ba' ever ready to do anything for the marga. He was initiated in 1964, since then he sincerely devoted himself for advancing the cause of the ma'rga.

He was very particular about taking care of the WT's posted in Vizag. That is why every time a new worker was posted there, Ba'ba' used to advise the WT to meet him. Rajujii would take care of the new workers as his own children. During the two visits of Ba'ba' in Vizag, Rajujii and his wife took care of His requirements. Raju Didi cooked Andhra delicacies and served Ba'ba' much to His delight during DMCs in Vizag. All his children got married according to A'nanda Ma'rga System.

Once a WT misbehaved with him, Ba'ba' immediately sent a message and advised him to forget the hurt caused by the worker.

He left us on 18th April 2009, but his legacy of dedicated service would be remembered.

59. Shrii Amir Chand Nirankar

Nirankarjii was attracted to the lofty ideals of the ma'rga when he was still a student. He was born in a village Manihari of Katihar. He graduated in law from Bihar University. He was practicing in Patna High Court.

His was a revolutionary marriage to the Smt. Vidya, daughter of Shrii Rajmangaljii of Chakia. Both of his two daughters and a son are advocates. I came in his close contact in 1965 and was impressed with his dedication for the ma'rga.

This sincere devotee of Patna left us on the 7th march 2010. He was a famous advocate. When he breathed last he was with his clients. The last word he uttered was Ba'ba'. He was only 67 years old.

60. Smt Sumitra Devi, Deoghar

Sumitra didi was initiated by A'ca'. Cinta Devi in 1961. She is one of the senior lady ta'ttvikas of the ma'rga. She was married to Himanshu Prasad. Sudhanshujii of Ranchi is her eldest son.

She was blessed to have got the opportunity to garland Ba'ba' and to cook for Him whenever He visited Deoghar. She was also the witness when ba'ba' gave the first Prabhat samgiita in Deoghar. She learned by heart over 1200 songs of Prabhat Samgiita.

On many occasions, else where, Ba'ba' would inquire if sumitra likes this song. Ba'ba' once remarked about her, "she is very active and hardworking. She loves all. She also loves me. She is very particular in attending to the needs of the WTs.

She did commendable work as the secretary of lady's wing of Samaja. She was blessed person. She donated the land for MG quarter in Deoghar.

She left us on 6th January 2005. She will be remembered for her service of humanity.

61. Smt. Shashiprabha, Gazipur

From the beginning after her initiation Shashiprabha didi devoted herself to lead her life as an ideal disciple. She transformed her life in accordance with the triple ideals of sa'dhana', seva and sacrifice. She was a liberated woman and a scholar. She retired as the vice principal of Government Girls School, Gazipur.

She donated the land and supported the construction of the A'nanda Ma'rga Girls school in Gazipur. Her husband Shrii Ranjiit Prasad was also a sincere devotee of the ma'rga.

She has remained devoted to the ma'rga all her life. Before she departed she spent all her time day and night in singing kiirtan. On her physical death she had a special glow on her face. She left us on the 30th June, 2007.

62. Smt. Kranti Devi, Jamalpur

Kranti didi is one of foremost among lady devotees of Ba'ba'. She was a fine woman, full of love and always in devotional mood. She would instantly lose consciousness no

sooner she would behold Him and danced in a state of bha'va. She could be seen dancing in that elevated state of devotion during DMCs.

She was initiated by A'c. Shishir jii in 1964 in Jamalpur. She always played an active role in the margii activities. She would take a leading role in the organization of Jamalpur DMC. She had special affection for the WTs and considered them as His representatives.

She retired as the Principal of Mahila college, Jamalpur and had a benign presence in the society.

She suffered a lot in her last days due cancer of her intestine. She left us on 17th October 2000 in Gangaram Hospital. Her memory inspires devotion.

63. Smt. Vidya Nirankar, Patna

Vidya didi was a great sa'dhika' and a sincere disciple. She got married according to the revolutionary ideal of marriage with Shrii Amiir Chand. Her love for ba'ba's ideals was contagious. She remained steadfast all her life. She was the mother of three able children.

She had a very fine family tradition. Her elder brother was the legendary Abhedananda Avadhu'ta. She had a natural inclination and deep association with service activities. She was the general secretary of 'Peoples Council Of India and the chairperson of Jharkhand Vikas foundation. She was also the member Bihar State Welfare Advisory Board. She was well known for her honesty and integrity. She was a liberated woman and a journalist. She was the editor of the 'Consumer Times' published from Patna.

When the last moment of her life came, she was in a blissful mood and face had the glow of divine love.

64. Smt. Snehlata Goenka, Mumbai

She got initiated in 1965 by dada Sha'nta'nanda in Mumbai. She was the wife Shrii Shyam Sundar Goenka. She was also a good sa'dhika' and an affectionate mother.

Ba'ba' visited her house in Mumbai five times and gave left many the blissful moments to cherish.

She left her physical body in 2002.

Her devotion, her sweet behavior and seva bha'va will live forever.

65. Smt. Shanti Devi and Shrii Abhilash Singh, Chaprai (Etah)

Shanti didi was a devoted margii and very service minded. She was initiated by a'c. Satisha in 1963. In the year 1979, Ba'ba' visited Etah for DMC, that was the fulfillment of her desire to serve Him. She was blessed to have cooked His food and also served Him. Her husband Shrii Abhilash Singh donated 125 acres of land for master unit project in Etah.

Like her, he was also a devoted margii. He left us on 2nd August 1994 & Shanti Didi on 11th Feb. 1996.

She would always be remembered for her sweet nature and sacrifice.

66. Shrii Brajbihari, Bhagalpur

Brajbiharijii was one among the greatest of His devotees. He was fortunate to have been blessed to serve Him variously. He was a very senior officer of the government of Bihar. He had a very close personal relation with Ba'ba'. In Patna Brajbiharijii used to be His guardian.

Brajbiharijii was initiated in 1960, by a'c. Prem Baha'dur Mathur. He left no stone unturned in helping A'c. Ramtanukjii to ensure Ba'ba's release from jail.

His contribution for the propagation of the ma'rga is very significant. His elder brother Kunjbiharijii was also an active margii.

He hailed from Bhagalpur. He left us to be with his beloved on 21st March 2002.

He will always be remembered for the yeoman service of the mission.

67. Laksmi Chand A'nand- Mumbai

LC Anand, as he was fondly called, was initiated in 1964 by A'c. Chandra Dev Verma. He was a staunch follower of the ma'rga, a great devotee and a very active & spiritually conscious person. Ba'ba' blessed him by staying with him on four occasions.

For him Ba'ba' was everything. No decision was taken in his family without consulting Ba'ba'. Once one of his son wanted division of his property. He told him to go and ask Ba'ba'.

Ba'ba' had a special affection for him. Ba'ba' invited him to attend a'c. Kinshuk Rainjan Sarkar's marriage. He started an institution dedicated to the memory of his Guru for the education & welfare of children of special need. The institution runs in apart of his house in Bandra, Mumbai even now. It his managed by the family trust.

He left his physical body on 24th August 1995. He has left an indelible mark of his dedication to the Guru and his highly sensitive approach for the welfare of the children with special needs.

68. Shrii Chamanlal Munshi, Mumbai

Munshijii had such a unique emotional bent of mind that he always remained overwhelmed in the thoughts of Ba'ba' and His mission. He almost always enjoyed being close to WT dasas. Initiated by a'c. Chandra Nath in 1965 he instantly became a devotee. He saw Ba'ba' as Lord Krsna' intuitively and fell in His love with Him.

After the demise of Shashi Ranjanjii, he took over as the Chairperson of PBI. He was jailed during emergency and had to suffer for holding on to Dharma.

He contributed for the purchase of MG Residence in Andheri, Mumbai. Ba'ba' blessed him by staying in his house at Ultamount Road.

He left his mortal frame on 9th September, 1978 and attained the goal of his life. He will be always remembered for his simplicity, devotion to the ma'rga and Gurunis'tha'.

69. Shrii Chandraprakash Atreya, Meerut

Prof. CP Atreya was a teacher of physics in DN College, Meerut. He was initiated in 1964 by a'c. Shuddha'nanda Avadhu'ta. He dedicatedly spread the ideals of the Ma'rga among the students and teachers.

He edited a weekly journal 'Mahasambhuti'. He went to Australia and Philippines for propagating the ideals of ma'rga. Prout Prabha'ti entitled essays written by him was widely accepted. Later he got the audio of the same done and popularized Prout among the common people. The songs composed by him are still popular among the margiis of North India.

He left us on 31st August 2002. His devotional songs still reverberate the minds of northern India for their social content and inspirational value.

70. Shrii Gopal Krishnan, kocchi

Gopal Krishnanjii was initiated by Dada Pranava'nandajii in 1964. He was then District Sessions Judge. He was a dedicated sa'dhaka and a great devotee of Ba'ba'. He was a silent worker and used his resources for propagating margii ideals. Ba'ba' stayed in his house in Kocchi during DMCs. He and his equally devoted wife were blessed to get an opportunity to serve him.

Ba'ba' used to call him "a silent worker and a devoted sa'dhaka.

Although he is no more his sincerity and devotion still inspires the margiis.

71. Shrii Rajgopalan, Coimbatore

Rajgopalanjii's margii life started in 1966. He was the man behind A'nanda Ma'rga activities in Coimbatore. He ensured that the WTs posted in his area are well taken care off. Through his dedication and devotion to the Ma'rga Guru, A'nanda ma'rga attracted many sincere young men and women to the ma'rga.

He looked at Ba'ba' as the guardian of his family. He had unconditional love for Him. He suffered a lot for following the path of Dharma. He was arrested during emergency and had incarcerated in jail.

He is remembered for his good conduct and sacrifice for Dharma.

72. Shrii Gopalma'na Shres'tha, Janakpur, Nepal

Gopaljii was a strict moralist and service minded devotee. He was initiated in 1966 by a'c. Giridhar Narayan. He is credited for having established a'nanda Ma'rga in whole of Nepal. He translated many books in Nepali. He himself wrote two books viz. Yoga Tantra & Kalki Avatar, describing A'nanda Ma'rga way of life.

His three sons and four daughters are all good ma'rgiis. He left us on 27th September 2007 in Kathmandu. He is remembered for his service of the ma'rga.

73. Shrii Kanaiyalal, Thakurganj

Kanaiyajii was initiated by dada Shraddha'nandajii in 1962. He bought the land and constructed the school in Thakurganj started A'nada ma'rga Primary School there. This institution developed as an ideal School. He remained its secretary all his life. He was also responsible for starting a Master Unit after managing 5 acres of land.

He brought his entire family in the fold of a'nanda ma'rga. His sons and daughters are all sincere ma'rgiis. He helped in the editing of Bhojapuri Grammer written by Da'da' Shraddha'nandajii.

He left us on 19th January 2001.

74. Shrii Umakant, Purnia

Umakantjii was initiated in 1966 by A'c. Amulya Ratan Sarangi. Later inspired by the ideals of A'nanda Ma'rga he would regularly accompany A'c. Sarangi for intensive pracar in the whole of Purnia Bhukti. He was an active volunteer of Aungika' Sama'ja and PFI. Later he became the secretary of Aungika' sama'ja and continued as its secretary for ten years.

He was arrested during emergency and had to suffer a lot. One of his son is also a Sanyasin of the ma'rga.

He had his Dharma Samiiksha' in 1981.

He left us on 16th July 2005. He was devoted to the ma'rga all his life. He was a great devotee, a good praca'raka and an ideologically committed person.

75. A'c. Indradeo of Katihar

Indradeojii was initiated in the year 1956. Soon he became an a'ca'rya. He was then teaching in the Hindi department of DS College, Katihar. He later became the head of department. He had earned the reputation of a scholar in the town. He had a fertile mind. He was sincere Sa'dhaka'. The grace of Guru added charm in his personality. He was held in high esteem in the circle of the learned people. He used all his reputation as a learned person for propagating A'nanda marga in the public and among the students community. Many of his initiates later became a'caryas of A'nanda marga. They were A'ca'rya Vishveshvar from Araria, A'ca'rya Suryanarayanan from semapur & A'ca'rya Jagadish..

He was a pioneer among the a'nanda ma'rgiis of his time. Ma'rgiis approached him and sought his advice in matters of philosophy and practice of Sa'dhana. He did intensive pracar covering six districts Bihar in the vicinity of Katihar. He personally initiated more than a thousand margiis from all walks of life. He tirelessly worked for the mission until 1962 like a whole timer.

He used to be one among those who would take notes of Ba'ba's speech during DMCs and in Jamalpur in those days when there were no tape recorders. He associated himself the publication department of A'nanda ma'rga and helped in editing many books. Inspired by Ba'ba' he wrote a commentary on A'nanda su'tram in Samskrta. He was selected by Ba'ba' to address the challenge from Swami Bhayankara'carya during Ara'ha (Saharsa') DMC, During the Sha'stra'rtha (intellectual debate) about A'nanda ma'rga Philosophy he defeated Bhayankara'ca'rya. Bhayankaraca'rya later admitted the superiority of A'nanda Ma'rga philosophy and admitted that he was asked by a conservative Hindu outfit to malign A'nanda ma'rga. Many of his shiks'a'bhra'ta's became whole timers of the marga.

He was initiated in Vishes'a yoga by Ba'ba' and he remained a steadfast devotee of ba'ba' all his life. He encouraged ma'rgiis willing to get married to follow AM revolutionary marriage system.

Due to some misunderstanding he dissociated himself with the organization after 1962, His contributions to A'nanda Ma'rga are incomparable. He is remembered by the society.

76. A'c Surya Narayan from Semapur, Katihar

A'c Surya Narayan was initiated by A'c Indardeo when he was his student. Later after completing his academic studies he took up the job of a teacher in Govt. High School. He became an a'ca'rya in 1962. A'c.Suryanarayan was a devoted person and always worked as a dedicated worker initiating hundreds of people. He was an active social worker and always ready to help during natural calamities. He inspired his family to follow the ideals of the ma'rga and all his children (sons and daughters) got married according to A'nanda Ma'rga system. He left us to be united with his eternal love in 2004 leaving behind an inspiring legacy.

77. Shrii Kumar Guru from Ipoly, Malaysia

Bro. Kumar had his roots in South India but his forefathers had settled in Malaysia. He was a high school teacher when he was initiated by dada Pranakrsna'nanda in the year 1980. Both he & his Chinese wife Amrta' became ardent devotees of A'nanda Ma'rga since then. His house used to be a veritable living place for WTs. His hard work and the material and the emotional support helped in building the Ma'rga Guru residence in Ipoly. The same place has been further developed by dada Citkrsna'nanda into a model children's home project.

He was a very dependable and a affectionate person. His demise is great loss for His mission in Ipoly.

78. Sister Sa'vitrii, Metro Manila

Sister Sa'vitrii was inspired by Dada Advasha'nanda and got initiated in the year 1980. She became a LFT while she was still young and was a source of inspiration to all those who worked with her. Later she got married to another LFT brother Surendra and led an ideal family life.

For a long time they were responsible for running the sectorial commerce project called the Morning Dew, in Manila sector. This way they supported the sectorial office and took care of the Dadas and Didis as their family.

She left us in 2010 to unite with her beloved for eternity.

78. Bro. Chandrabu's'an, Manila city

Bro. Chandra Bhu's'an is one of the oldest sa'dhakas of Manila. He was initiated by Dada Sumita'nanda in early 1970. He later became the President of AMPS, Philippines. He worked like a whole timer and sincerely propagated His mission and established many a social service projects for the benefit of the poor in Manila sector. He managed his small family by running a printing press. He was ever ready to help the sectorial

office and its workers. He is remembered for his sincere & hard work and for his affectionate & caring nature.

He left us in 1990.

79. Bro. Parmeshvara from Germany

Initiated in 1979 by Dada Yuktेशvarananda bro. Parmeshvara worked tirelessly as a LFT. He was qualified medical professional and was married to an Indian siter Hema from Gujarat.

His was an ideal family man, a source of love and inspiration for the sectorial workers. He left us after a brief illness in 2010.

80. Sister Mahesvaris life - The Lily and the Moon!! (written by her daughter sis. Carol)

When I think of my mother Mahesvari, the first thing that comes to my mind is her love for BABA and dedication to HIS mission. Early morning she sat in front of her meditation table for about 45 minutes. Every day she sang Baba nam Kevalam kiirtan even while taking a shower. Every day she would ask me if I have done Kaoshikii? I remember it so well even after so many years. The warm energy radiating from her face got absorbed into HIM. I am thankful to her for all this. It is thanks to her constant love, example and guidance that I feel peace and harmony. I am thankful to BABA for letting me grow up with her love and guidance. But most of all for using her love to guide me to HIM.

My mother and I were best friends and we shared many experiences and moments, both happy and sad. Among the happy moments we shared, the happiest of all was travelling together to India to meet BABA! I will never forget our first visit to India together. It was amazingly full of both excitement and struggle as we went through all kind of challenges adjusting to the hard environment of India sleeping on the floor sharing a room with mouse, cocalaques, without any basic facilities, yet we were so happy always laughing. We had a fantastic time. BABA was really loving and generous towards us. HE blessed us with HIS presence, smiling to us. He asked us different questions. It was such a magical and a powerful experience. Mahesvari and I were crying of joy, trying to keep our balance.

While walking to the market to get some flower garlands to give to BABA Mahesvari decided to buy coconuts to serve Him coconut water. It was the craziest things she had done. She bought 5 coconuts, they were so heavy!!! but she carried them a long way. I

was frustrated as I did not want to carry the heavy load of coconuts but at the end I had to help her and while she was happily carrying her coconuts I thought this was madness.

So we came to BABAs house and she gave the coconuts to PA dada and asked him to please serve Him the coconut water. What was surprising that just one hour later while all of waited outside for Him to come out for HIS walk, a dada started screaming for Prasad, called out all of us to come and then my mother and I ran to get Prasad. And then she came back full of joy because BABA had send was coconut water. Then I understood how much BABA was aware of what HIS devotees feel and do for HIM. This is only one example among several others where Mahesvari taught me how BABA is always with us, how HE is always present in our mind and that he knows everything we think or do. HE is always aware of everything happening in our lives.

Something my mother used to say very often stayed in my mind. Carol, remember we are not normal beings, we are tantrics, therefore we never give up! She keet joking about it and I thank her so much for this as now that she has left her physical body, her words stayed with me and continue inspiring me every day. Everytime things become difficult in my life I remember her joks and this helps me to continue walking forward, overcoming anykind of obstacles and keeping a positive mind full of optimism. She was very positive, humble and patient. Her favorite flower was “sunflower” because she said this flower was always smiling to the sun.

She had a very challenging life (she was like a Lily flower floating in the muddy waters). She endured and survived many turmoils during her family life married to a very unaware husband who made her life very difficult through physical and mental abuse. Despite the hardship she had to put up for many years, she never stopped her dedication and commitment to serve humanity and please BABA.

Mahesvari lived a very meaningfull but sacrificing life travelling and living in different places. She played the role of a family acarya as she was always taking care of both her little family and her universal family.

She started a children home in Guatemala together with her best friend within AM didi Tapatii who she dearly loved her. She loved children and took care of many Indian children in Guatemala for several years.

She was also actively involved with AMURT/AMURTEL work in the time of the earthquake in 1976. We all were, but she did most of the running around taking care of so many. Her energy was amazing. Wherever there was crisis, she will be there trying to help and eventhough there was not much she could do, still her positive and loving presence there radiating love, warmed and supported many to feel comfort.

Then she moved to Venezuela where she started the first AM jagrtii and worked as the manager of the Jagrtii for some years. She and her son David were with BABA while HE was touring in South America. BABA touched the head of her son David while she was there and this fulfilled her heart. She was so thankful and happy for this.

Later on she moved to Los Altos Hills, in USA to take care of her oldest son who became mentally sick. She struggled and worked very hard facing a lots of difficulties trying to help him. This was a very painful and hard situation to face and while struggling to find some alternative treatment, she continued to remain active teaching yoga classes and supporting acaryas at all levels as she always felt love and responsibility for their well being as they were serving BABA. She had a dream to start an alternative mental hospital where her son and other mentally sick people could get some help. She dreamed with a hospital where people could be treated and healed while living in a sentient, spiritual and loving environment, but unfortunately she never found the right help, had the money or time to realize it. She died in India trying to do this. I always admired her faith, and spirit of enthusiasm and hope. She continue working towards this dream until the last moment of her life trying to find a solution to her sons disease.

Then she moved to Norway to continue doing His mission.

During her last years living in Norway before she died she continued to serve BABA always praising and sharing HIS love with others. Whether through her Yoga classes for the parents and different woman organisations she always shared HIS teachings with all. She helped to establish Neo-humanistisk kindergarten in Oslo. She wrote, filmed and produced a video for AM "Stress Reduction with Meditation and Yoga."

Mahesvari was really a busy hard working tantric bee,flying around from one thing to the other, never giving up before she finished it. From working in the kindergarten all day long, to the school to learn Norwegian, to her yoga courses, to her meetings to help refugees foreign women, to her video editing, to her role as mother, grandmother and univesal mother taking care of everyone around her who needed love and care. Such a dynamic soul. She is missed by all of us her daugheters and sons. She is also missed by the children and parents in the kindergarten, acaryas, friends,family, she is missed and loved by everyone.

What is most inspiring to my heart is that everyone who remembers her or talks about her has always something positive to say. She is loved and remembered by many hearts inspired through her existence to come to the path of bliss. She is Mahesvari the daughter of Shrii Shrii Ananda Murt. Till the end of her physical existence, I was present with her to witness and feel HIS bliss around us!

Thank you BABA!

For me to write the detail of every margii who left us to unite with there is''ta may not be always easy & feasible. However I wish to mention a few names of the Late a'ca'rya/(a') and senior ma'rgiis who were known to me and whose contributions were worth recording.

1. Avadhu'tika' A'nanda Dipanvita' A'ca'. – US
2. Avadhu'tika' A'nanda Sukrti A'ca'. – Philippines
3. A'c. Krtavidya'nanda Avadhu'ta
4. A'c. Sujayananda Avadhu'ta
5. A'c. Viirabhdra'nanda Avadhu'ta
6. A'c. Advesha'nanda Avadhu'ta
7. A'c. Bhu'deva'nanda Avadhu'ta
8. A'c. Hitavrta'nanda Avadhu'ta
9. A'c. Shubhabodha'nanda Avadhu'ta
10. A'c. Satyatmakananda Avadhu'ta
11. A'c. Dhyotna'nanda Avadhu'ta
12. A'c. A'dideva'nanda Avadhu'ta
13. A'c. Sa'dhaneshvara'nanda Avadhu'ta
